

Refocus in Business Strategy for Sustainable Growth

2023 Annual Report

Disclaimer

Welcome to the 2023 Annual Report of PT Bank Mega Tbk with the theme of "Refocus in Business Strategy for Sustainable Growth". This Annual Report is issued in accordance with OJK Regulation Number 29/POJK.04/2016 concerning Annual Report of Issuers or Public Companies and Circular Letter of The Financial Services Authority Number 16/SEOJK.04/2021 concerning the Form and Content of Annual Report of Issuers or Public Companies.

This Annual Report may contain several statements that consist of future projections and views describing the Company's perspective on future financial events and performance, as well as financial conditions, operating and business results, economic conditions, sector conditions and related plans and objectives.

These perspectives are based on various current estimations and assumptions that may change in line with uncertainties, contingencies, and various business risks and economic conditions that may change at any time. These variables could cause actual results, performance and events to differ

materially from those predicted or projected; and are beyond the control of the Company and the Company's Board of Directors. Such statements are not directly or exclusively related to historical facts and do not reflect the Company's intentions, plans, expectations, assumptions and beliefs regarding future events. There is no guarantee that future events will occur, projections will be achieved, or that the Company's assumptions are correct. These statements are not and should not be considered as a representation of the Company's future performance.

This annual report contains the words "Bank" and "Bank Mega" defined as PT Bank Mega Tbk, which carries out business activities in the banking sector. Sometimes, the words "Company" and "Company." It was also used for convenience to refer to PT Bank MegaTbk in general. Terms for the currency unit "Rupiah", "Rp" or "IDR" refers to the official currency of the Republic of Indonesia, whereas "US Dollar", 'US\$" or "USD" refers to the official currency of the United States of America. The entire financial information is presented in Rupiah.

Theme Description

The year 2023, full of challenges and dynamic economic conditions, encourages Bank Mega to closely monitor its performance. The Bank has also decided to prepare for a refocusing of its business strategy. By aligning its business strategy focus with all its strengths and resources, the bank will be able to grow more sustainably in the future.

The bank is committed to continuously developing digital services to become a one-stop financial service provider by utilizing the CT Corp ecosystem.

Refocus in Business Strategy for Sustainable Growth

2023 Annual Report

Theme Continuity

Optimizing Digital Ecosystem for Excellence Performance

Through the digital ecosystem of CT Corp, Bank Mega offers various benefits and seamless experience to its customers when they do transaction with any product or service of CT Corp units, be it financial services, retail products, entertainment and many others. Bank Mega is committed to further develop its digital capabilities to offer fi ne services to its customer and achieve optimum business results for all stakeholders of Bank Mega.

Enhancing Digital Excellence

Bank Mega is committed to continuously improving the excellence of its digital services to provide convenient and secure transactions for customers. Bank Mega also continues to add digital features and strengthen transaction security infrastructure. This digital development can also increase customer loyalty. For this reason, the Bank is committed to continuing to develop digital services on an ongoing basis, to become a one stop financial service under the support of CT Corp.

Digitalization for Higher Profitability

Strategic focus on digital transformation and automation reflected Bank Mega's excellence as an innovator and forward-looking company. Today, backed by an integrated one stop financial services under the auspice of CT Corp, Bank Mega brings connectivity to everyone.

Our Competitive Advantage

Business synergy with business groups with PT CT Corpora as the ultimate parent company

The advantage of Bank Mega being within the ecosystem of PT CT Corpora ("CT Corp") is to be able to provide more benefits to the customers. Customers will enjoy various discounts and attractive offers when doing transactions using a Bank Mega card in all CT Corp business units, including financial products, retail outlets, entertainment products, and others.

02

Diversified banking products and services

Bank Mega offers diversified banking products and services to both institutional and individual customers.

03

Digital services

Continuous innovation in Bank Mega's digital transformation has increased the number of M-Smile users. The number of M-smile users in 2023 will reach more than 54% of total retail customers, an increase of 18% from 2022.

Strong capital

Bank Mega has a strong working capital base with a CAR ratio of 26.17% as of 2023. This strong capitalization provides more room to expand lending going forward.

05

Strong network throughout Indonesia

Bank Mega has an office network spread across Indonesia consisting of 312 sub-branches, 55 branches, 8 regional offices and 3 functional offices as of December 31, 2023.

06

Rated idAA/stable by Pefindo

Bank Mega has a very strong capacity to meet its long-term financial commitments relative to that of other Indonesian obligors.

Management
Report

Board of Commissioners Report

In 2023, Bank Mega was able to maintain its capital resilience and adequate liquidity levels to support the sound and sustainable growth of its business. This is reflected in achieving a Capital Adequacy Ratio (CAR) of 26.17% (up 0.76% from 2022), as well as Loan to Deposit Ratio (LDR) maintained at 74.03% level.

Our Esteemed Shareholders and Stakeholders,

In 2023, the Board of Commissioners performed supervisory functions and duties over the Board of Directors, including the supervision of the implementation of the Bank's Business Plan (RBB) and Sustainable Finance Action Plan (RAKB). In addition, we also monitor the implementation of the Bank's strategy, especially in the areas of risk management, credit, profit generation, use of information technology, human resources development, implementation of good corporate governance and implementation of sustainable finance.

We will always ensure that the Bank is managed in a good and professional manner in the face of challenging economic conditions. Therefore, throughout 2023, we conducted intensive communication with the Board of Directors to discuss

various business strategies and key issues, including consistency in the implementation of the 2023 Business Plan. Guidance to the Board of Directors is provided through mechanisms set forth in the Articles of prevailing laws and regulations.

Hereby, we present a report on on Board of Commissioners supervision and advice to the management for the fiscal year 2023, which consists of an assessment performance Board of Directors during 2023, views on the business prospects prepared by the Board of Directors, the implementation of good corporate governance, an assessment of the Committee in under the Board of Commissioners and changes in the composition of the Board of Commissioners.

26.17

Capital Adequacy Ratio (CAR)

Capital Adequacy Ratio (CAR) of 26.17% (up 0.76% from 2022)

Global and Indonesian Economy in 2023

Global economic conditions remain mired in uncertainty through 2023. This global risk and uncertainty is triggered by the dynamics of developed countries that affect global conditions. The United States continues to face abovetarget inflation, high interest rates, rising fiscal pressures, and eroding excess savings that mask economic weakness. Meanwhile, China is still grappling with post-Covid-19 economic weakness, and Europe is experiencing weakening economic conditions with a rising budget deficit and still high inflation.

In addition to the weak economic conditions, the geopolitical conditions are also showing increasing risks. The war in Ukraine and in the Middle East, especially in Palestine, shows no signs of ending. This poses a risk to the prospects for economic growth. Global sentiment is causing volatility in the financial sector, which will lead to a weakening of global trade. In addition, the ongoing trade tensions between the United States and China also have an impact on the volume of exports and imports between the two countries and on the volume of world trade.

The global economic recovery process is also affected by the issue of climate change. Extreme cold weather in Europe at the beginning of the year increased energy and food supply constraints, and the impact of the war between Russia and Ukraine slowed economic recovery in the region. Meanwhile, the Asian region is experiencing drought due to El Niño, which is forcing authorities/governments to ensure food supply and security in order to reduce the inflation rate.

Indonesia is still one of the countries with the highest economic growth performance of 5.05% in the ASEAN and G20 environment. Indonesia is included in the economic category and its manufacturing activities are resilient or can continue to be positive and expansive. Indonesia's economic growth is mainly driven by stable domestic consumption and positive international trade performance throughout 2023. Indonesia's inflation can be maintained at low levels, supported by stabilization policies and the functioning of APBN's role as a shock absorber. The success in maintaining the supply and distribution of the nation's food and energy needs, including energy subsidies and compensation, will play a role in maintaining the inflation rate.

The Indonesian banking industry is expected to remain resilient and competitive, supported by relatively high levels of profitability (ROA) and capital adequacy (CAR) of 2.72% (November 2023) and 27.86% (November 2023), respectively. Digital economic and financial transactions are growing rapidly, driven by the public's increasing preference for online shopping, expanding and convenient digital payment systems, and accelerating digital banking.

Mega Bank's Performance in 2023

Amidst the dynamics of the global and Indonesian economy, Bank Mega managed to show a positive performance. Achievements in 2023 did not fully meet the set targets, but within the banking industry, Bank Mega still perform well.

In 2023, Bank Mega's total assets reached Rp132.05 trillion compared to Rp141.75 trillion in 2022.

Bank Mega managed to book a total credit of Rp66.30 trillion in 2023, with segment concentration on the corporate and indirect finance. The non-performing loan ratio (gross NPL) in 2023 remains at 1.57% with a net NPL of 1.18%. Bank Mega's NPL has increased compared to 2022, but is still below the banking industry gross NPL (2.36% as of November 2023).

Bank Mega's Third Party Fund (DPK) stood at Rp89.43 trillion, still dominated by deposits, 71.17% of the total DPK. CASA composition improved to 28.83% in 2023 compared to 26.76% in 2022.

The bank posted a net profit (PAT) of Rp3.51 trillion in 2023 and was able to maintain the NIM ratio at 5.21% in 2023 compared to 5.42% in the 2022 period.

In the 2023, Bank Mega was able to maintain its capital resilience and adequate liquidity levels to support the healthy and sustainable growth of its business. This is reflected in achieving a Capital Adequacy Ratio (CAR) of 26.17% (up 0.76% from 2022), as well as Loan to Deposit Ratio (LDR) maintained at 74.03% level.

In 2023, BOPO (Operational Cost to Income Ratio) ratio increased to 65.36% from 2022's 56.76%, however, BOPO ratio was still below below the banking industry at 76.80% on November 2023.

Return on Assets (ROA) was recorded at 3.47% in 2023 from 4% in 2022, but still above the banking industry ratio (2.72% position as of November 2023). Return on equity (ROE) was recorded at 17.62% in 2023 compared to 23.15% in 2022.

Assessment of the Board of Directors' Performance

Global and domestic macroeconomic developments require strategies and policies as well as initiatives and programs that can be implemented in a timely manner. The Board of Commissioners believes that the Board of Directors is well positioned to respond to these challenges by monitoring developments in the banking industry and seizing opportunities to continue to deliver positive performance.

Bank Mega's efforts to optimize its technology and accelerate its digital transformation played a major role in Bank Mega's performance throughout 2023. The presence of the M-Smile application provides customer experience that offers complete branch services just through a grip of their hand. The performance of this application shows encouraging results in 2023, and its features will be enhanced continuously. In addition, the Board of Directors also gave a positive assessment of the continuation of the digital transformation, which helped to enhance the synergy within the ecosystem of the PT CT Corpora ("CT Corp") business group.

Monitoring the Implementation of Strategic Plans

The Supervisory Board always supervises the Company's strategy formulation and implementation. The supervision of the formulation of the Company's strategy is carried out by supervising the preparation of the Bank's Strategic Plan and the Bank's Business Plan. Meanwhile, the supervision of the implementation of the strategy is carried out by monitoring and advising the Board of Directors in the conduct of the Company's business activities.

The Board of Commissioners also evaluates the Bank's financial and operational business performance, capacity and capability development, including through digital business development and cyber security, human resource development, application of digital banking technology,

credit strategies that prioritize the principle of prudence, and supervision of the implementation of risk management and internal control system.

Supervision is exercised through regular meetings of the Board of Commissioners with the Board of Directors, or through specific reports submitted by the Internal Audit Department (IADT), the Audit Committee, the Risk Monitoring Committee, the Nomination and Remuneration Committee, the Compliance Director, or through other means of written communication. The Board of Commissioners also oversees internal and external audit reports, provides guidance and ensures that the Board of Directors has followed up on audit findings and recommendations made by IADT, external auditors, results of supervision by the Financial Services Authority and Bank Indonesia, and other authorities.

Supervision and provision are carried out in accordance with the provisions of the Articles of Association and GMS resolutions.

Views on the Bank's Business Prospects Compiled by the **Board of Directors**

The global economy is expected to remain very dynamic in 2024 due to the pressures of war, inflation, and interest rates that remain high. Inflationary risks are expected to remain high as the Israeli-Palestinian conflict and the Russian-Ukrainian war continue to affect commodity prices, including oil and wheat. The Fed's higher interest rates have made borrowing costs expensive for consumers and businesses. Based on these conditions, OECD reported a slight revision to global economic growth to a range of 2.7% to 2.9%. But in January 2024, the IMF revised its global economic growth projection to 3.1% in 2024.

Amidst the rapidly changing global dynamics, Indonesia's macroeconomic and financial system stability is expected to be maintained with the continued economic recovery. The Ministry of Finance predicts that in 2024 the consumption potential will still be visible from the movement of community economy and movement of household economy, especially with the upcoming series of election campaigns. It is hoped that holding favorable elections can give confidence to investors and thus boost investment figures. Given these developments, economic growth in 2024 is estimated to reach 5.2% (APBN version), while BI predicts ranging from 4.7% to 5.5%.

In view of the dynamics of global and national indicators and the review of the work and strategic business plans prepared by the Board of Directors, the Board of Commissioners remains optimistic about the performance achievements of Bank Mega in 2024. The Committee continues to support the Board of Directors in optimizing all resources and efforts to take advantage of business opportunities under the current economic conditions which are still quite challenging, to continue to implement long-term strategies, as well as to enhance Bank Mega's capabilities in order to maintain profitability and healthy and sustainable growth.

Views on the Implementation of Bank Governance

The implementation of the principles of good corporate governance (GCG) is one of the main areas of focus of the supervisory activities conducted by the Board of Commissioners. We always encourage the Board of Directors to continuously improve and enhance GCG in line with business needs.

Bank Mega consistently and continuously implements GCG practices taking into account shareholders' and stakeholders' interests to maintain the bank's transparency and public accountability.

Bank Mega is also committed to the implementation of GCG principles and refers to various applicable regulations as well as GCG implementation guidelines that are in line with best practice/international standards. The implementation of GCG practices refers to OJK regulations and international standards to ensure that each bank's business activities are not in conflict with regulations that result in legal violations.

The Board of Commissioners is of the opinion that the Board of Directors has performed its duties well in formulating and implementing Bank Mega's strategies and policies related to GCG, with the aim of maintaining business continuity, improving the Bank's performance and increasing the Bank's competitiveness, always adhering to the principle of prudence and supported by a framework. risk management.

In 2023, the Bank conducted an evaluation of the implementation of Good Corporate Governance (GCG) using a self-assessment methodology involving the Board, Directors and Executive Officers. The self-assessment implementation in the first and second semesters of 2023 received a score of 2 (two) or "Good". This shows that the management of Bank Mega has generally implemented good governance. Meanwhile, according to OJK letter No.SR-22/PB.31/2024, dated February 15, 2024, the implementation of governance of the Bank for June 2023 position is Good, and the December 2023 position is Fair.

Overview of the Whistleblowing System

Bank Mega has established and operates a Whistleblowing System as a means for external and internal parties to submit reports regarding alleged violations of corporate governance principles, ethical values and applicable policies or procedures based on evidence/data/information that can be accounted for and with good intentions for the interest of the Bank.

Bank Mega has consistently implemented the Whistleblowing System (WBS) Policy as set forth in the Board of Directors' Decision No. SK. 084/DIRBM/22 dated September 29, 2022 on the implementation of the anti-fraud strategy; as regulated in the Regulation of the Financial Services Authority (POJK) No. 39/POJK.03/2019 dated December 19, 2019 on the implementation of anti-fraud strategies for commercial banks.

The Crime and Fraud Investigation Division, which has been appointed as the coordinator for the handling of whistleblower complaints, routinely and periodically submits the Investigation Results Report to the Board of Directors and the Board of Commissioners as a manifestation of the supervision exercised by the Board of Directors and the Board of Commissioners. The report shall explain the chronology of violations, recommendations for sanctions to be imposed on employees found to have committed violations, and the follow-up actions taken by the Bank with respect to reported cases.

Throughout 2023, the Board of Commissioners considers that the implementation of Bank Mega's Whistleblowing System (WBS) has gone guite well and ensures that each report has been followed up according to the applicable regulations.

Frequency and Procedures for Providing Advice to the **Board of Directors**

The frequency and procedures for the provision of advice, suggestions and recommendations from the Board of Commissioners to the Board of Directors are carried out both formally in meetings and informally and through committees under the Board of Commissioners. The formal meetings consist of the meetings of the Board of Commissioners, the meetings of the committees under the Board of Commissioners and the meetings of the Board of Commissioners to which the Directors are invited.

During 2023, the Board of Commissioners held 9 (nine) meetings and 34 (thirty-four) joint meetings between the Board of Commissioners and the Board of Directors. At these meetings, the Board of Commissioners discusses various matters, including providing guidance on the Bank's strategy and business plans, financial performance, and reports from the Board of Commissioners' committees. Input from the Committees of the Board of Directors is always taken into account when providing advice and suggestions to the Board of Directors. The Committees under the Board of Directors actively monitored the areas of their respective responsibilities throughout the year.

Performance Evaluation of the Committees Under the **Board of Commissioners**

In order to enhance the role of the Board of Commissioners in performing its oversight function, the Board of Commissioners has formed 4 (four) committees, namely the Audit Committee, the Risk Monitoring Committee, the Remuneration and Nomination Committee and the Integrated Governance Committee.

In 2023, these committees have performed their duties and responsibilities well in supporting the supervisory function of the Board of Commissioners. All recommendations from each committee were also accepted by the Board of Commissioners and are considered in the decision-making process on proposals submitted by the Board of Directors.

The Audit Committee has performed its duties and responsibilities well in overseeing various matters related to the planning and conduct of the audit as well as monitoring the follow-up of the audit results to assess the adequacy of internal control, including the adequacy of the financial reporting process, the implementation of the duties of the Internal Audit, the compliance of the audit conducted by the Auditing Firm with the applicable auditing standards, and the implementation of follow-up actions by the Board of Directors on the findings of the Internal Audit, the Auditing Firm, as well as the results of supervision by Bank Indonesia and the Financial Services Authority, in order to make recommendations to the Board of Commissioners; To recommend the appointment of a public accountant and a public accounting firm to audit the financial statements; to evaluate the implementation of the audit of the financial statements by the public accounting firm; and to recommend the appointment of an independent quality controller from an external party to conduct a review of the internal audit performance.

The Oversight Risk Committee has performed well in its duties and responsibilities to evaluate the compliance of risk management policies with the implementation of these policies, to evaluate the performance of the duties of the Oversight Risk Committee and the Risk Management Work Unit in order to make recommendations to the Board of Commissioners, and to provide advice to the Board of Directors so that the implementation of the Bank's risk management continues to meet the elements of adequate risk management procedures and methodologies so that the Bank's business activities can continue to run well with a controlled level of risk.

The Remuneration and Nomination Committee has assisted the Board of Commissioners in carrying out its supervisory and coaching functions towards the Board of Directors and its staff with regard to the implementation of the remuneration and nomination policies, including those related to the overall remuneration policy for employees, the Board of Commissioners and the Directors; as well as in making proposals to the Board of Commissioners, to be appointed by the General Meeting of Shareholders, of candidates who meet the requirements to become members of the Board of Directors and/or members of the Board of Commissioners.

In addition, within the framework of the Mega Corpora Financial Conglomerate, of which Bank Mega is the main entity, the Board of Commissioners, in order to carry out its duties and responsibilities, has formed an Integrated Governance Committee. This Committee has performed its duties and responsibilities well in carrying out its supervisory duties and functions over the implementation of governance at each financial services institution (LJK) in the Mega Corpora Financial Conglomeration so that it is in accordance with the Integrated Governance Guidelines.

Changes in the Composition of the Board of Commissioners

In 2023, the composition of the members of the Board of Commissioners of the Company was changed as the result of the Annual General Meeting (AGM) held on February 24, 2023. At the AGM on that date, it was decided to appoint Mr. Hizbullah as an Independent Commissioner. The appointment of Mr. Hizbullah was approved by the Financial Services Authority based on the decision of the members of the OJK Board of Commissioners number KEPR-81/D.03/2023 dated July 25, 2023, and is effective from July 31, 2023, based on Bank Mega's letter number 112/COAF/23 dated July 31, 2023, regarding the submission of the report on the appointment of Bank Mega's Independent Commissioner to the Private Bank Supervision Department 1, Financial Services Authority.

Thus, after the AGMS, which was held on February 24, 2023, the Board of Commissioners consisted of 5 (five) people, with the composition of the members of the Board of Commissioners until this Annual Report was prepared as follows:

President Commissioner Vice President Commissioner Independent Commissioner Independent Commissioner Independent Commissioner

: Chairul Tanjung : Yungky Setiawan : Achjadi Ranuwisastra : Lambock V. Nahattands

: Hizbullah

Appreciation

We would like to thank the entire Board of Directors and all employees for their hard work and dedication in helping Bank Mega respond to the business challenges that arose during 2023. The Board of Commissioners believes that 2023 has provided many very valuable lessons. For this reason, the Board of Commissioners hopes that the Board of Directors and all Bank Mega employees will continue to accelerate digital transformation, increase efficiency, and implement adaptive strategies while prioritizing prudence to achieve better and more sustainable performance in the years to come.

We also thank shareholders, customers, partners and all stakeholders for their trust and support, which enables Bank Mega to deliver value to stakeholders while contributing to sustainable development in Indonesia. Finally, the Board of Directors would like to thank the Government of the Republic of Indonesia and the Financial Services Authority (OJK) for their continued support to the banking industry, including Bank Mega.

On behalf of the Board of Commissioners

Board of Commissioners

Hizbullah Independent Commissioner

Yungky Setiawan Vice President Commissioner

Chairul Tanjung

Achjadi Ranuwisastra Independent Commissioner

Lambock V. Nahattands Independent Commissioner

Board of Directors Report

Bank Mega's Loan to Deposit Ratio (LDR) is 74.03%, which is in line with the Bank's policy of maintaining the LDR ratio at around 70% so that the Bank's liquidity is well maintained. The minimum capital adequacy ratio or CAR, after taking into account credit, market, and operational risks, is 26.17%, which reflects Bank Mega's strong capital structure.

Our Esteemed Shareholders and Stakeholders,

We have both navigated the year 2023 with various political and economic dynamics, with various challenges from both domestic and external sides. In the midst of the global and Indonesian economic dynamics, Bank Mega is still able to maintain its position as one of the leading banks in Indonesia. We are building a solid foundation and focusing on collaboration and innovation to address challenges and seize opportunities.

We will use the achievements in 2023 as a springboard to jump higher in the following years, making Bank Mega a bank that grows sustainably.

Global and National Economic Conditions

Early 2023 will be the beginning of the end of the pandemic, so the world is very optimistic that there will be a global economic recovery. However, the dynamics of the global economy are in a state of rapid change, and there is a great deal of uncertainty as a result of the dynamics of the developed countries, which have a global impact. The United States continues to face above-target inflation, high interest rates and mounting fiscal pressures that are overshadowing a weakening economy. Trade tensions between the United States (US) and China continue, affecting the decline in exports and imports between the two countries and the volume of global trade.

In addition, geopolitical and economic fragmentation is increasing with the ongoing Russian war in Ukraine. This **74.03**[%]

Loan to Deposit Ratio (LDR)

Bank Mega's Loan to Deposit Ratio (LDR) is 74.03%

is resulting in limited supplies and continued high global energy and food prices. Geopolitical tensions in the Middle East region and around the world have been heightened by recent tensions between Israel and Palestine. As a result, inflationary pressures from global energy and food prices, as well as tight labor markets in a number of developed countries, have contributed to a slowdown in the global economic recovery.

Extreme cold weather in Europe in early 2023 is one of the factors slowing the economic recovery process. Energy and food supplies became very limited as a result of the Russia-Ukraine war, slowing the region's economic recovery. Meanwhile, the Asian region was hit by drought due to El Niño. This forced authorities/governments to ensure food supply and security as a step to reduce the inflation rate.

Based on these conditions, the IMF revised growth of the world economy in 2023 will be only 3% and by OECD 2.9%. Inflation is also predicted to reach 5.8%, higher than the previous pandemic period. Amid world economic uncertainty, The Indonesian economy is expected to grow well. Inflation has more quickly returned to its target range and is kept under control. Indonesian economy in 2023 will increase by 5.05%. Controlled inflation throughout 2023 will be 2.61%, which is relatively low compared to other countries.

In Indonesia, Bank Indonesia's decision to raise interest rates was taken as a pre-emptive and forward-looking step to reduce inflation expectations, which are currently still high, as well as to strengthen the policy to stabilize the Rupiah exchange rate. This step has been taken to be in line with its fundamental value due to the strong US dollar currency and high uncertainty in global financial markets, where domestic economic demand remains strong. Bank Indonesia also continues to strengthen its policy mix response to maintain stability and the momentum of economic recovery through monetary operations and strengthening the stabilization of the rupiah exchange rate through remaining in the market as part of efforts to control inflation.

The impact of Bank Indonesia's policy directly increases liquidity in the banking system. However, this increase in liquidity does not have a direct impact on bank lending, but actually increases bank investment, especially in securities.

Amidst these economic conditions, Indonesia's banking industry remains resilient and competitive as of November 2023. The Financial Services Authority stated that this condition is supported by the relatively high level of return on assets (ROA) and capital adequacy ratio (CAR) at 2.72% and 27.86%, respectively.

In terms of intermediation performance, credit grew by 9.67% yoy in November 2023, with the highest growth in working capital credit at 10.14% yoy. Meanwhile, the credit quality is maintained with the net NPL ratio of banks at 0.75% and the gross NPL ratio at 2.36%.

Meanwhile, the growth of third party funds (DPK) in November 2023 was recorded at 3.04% yoy, with deposits being the largest contributor to the growth at 3.50% yoy.

Bank Performance Analysis 2023

Mega Bank Strategy and Policies

Bank Mega constantly monitors economic conditions and developments in the banking sector to anticipate existing challenges. Bank Mega's strategic policy for 2023 is to continue what has been determined before, namely to transform into a bank based on ecosystem reliability and unify financial services and retail transactions.

Digital capability is one of the key elements, which is being further enhanced with the mobile banking solution, namely M-Smile, to become one of the best mobile banking solutions in the sector. New features included in the M-Smile application continue to be refined to make banking easier for customers.

Digital services are also being developed in the CT Corp ecosystem. These services are designed to integrate financial and non-financial services. Bank Mega is also transforming its business model into a digital ecosystem to become a one-stop banking solution for customers.

In terms of loan disbursement, Bank Mega is selective and prudent in disbursing loans to borrowers with a good and proven track record, focusing on the corporate segment in response to economic conditions that are still fraught with uncertainty, including national strategic projects and loan disbursement to borrowers with strong finances, especially companies with solid ratings and financial conditions.

In addition, joint financing segment credit distribution is carried out to multi-finance companies owned by banks or conglomerates.

In order to maintain loan performance, Bank Mega takes preventive measures, including early warning signals and regular on-site monitoring of activities in accordance with applicable regulations. This allows the Bank to monitor how the borrower's business is developing and to be disciplined in trying to meet the covenants.

In the credit card business, the strategy implemented is to increase acquisition by focusing on customers with a lower risk profile. Meanwhile, the increase in sales volume will be achieved by selecting the right merchants to focus on e-commerce programs as a source of transaction growth, and by leveraging the ecosystem of PT CT Corpora, both in the offline and online channels, as a key strategic partner.

Bank Mega is also developing a payment gateway as an online transaction processing gateway to support the bank's merchant acquiring business, both for e-commerce transactions originating from the ecosystem of PT CT Corpora Group ("CT Corp"), which can increase feebased income from credit cards. In addition, the M-Smile application has developed features to perform transactions such as application for new credit cards and additional cards, transactions using QR, registration of recurring payments, cash loans from cards, and others.

Bank Mega has also applied technology in credit card application process with biometrics, alternative scoring, electronic signature and other technologies for fast and quality credit approval.

The strategy for third-party funds is to focus on the retail segment by increasing the number of Priority Banking customers. Strategic steps to achieve this are made by further developing digital banking services and improving overall customer experience.

The Bank continues to make efforts to perfect the product variants and to provide faster, better, and more accurate services to the customers. The development of M-Smile for the needs of savings customers continues to be improved in terms of the reliability and completeness of products such as term savings products, foreign exchange products, foreign exchange transactions and others.

From a treasury perspective, Bank Mega is actively and conservatively managing its business prudently to maintain its asset and liability portfolio so as to continue to generate profits while paying attention to liquidity. In the midst of challenging economic conditions that are still uncertain, in 2023 Treasury will still be able to take advantage of market volatility by continuing to invest from the Bank's excess liquidity, managing the funding gap between assets and liabilities, and ensuring the stability of the Bank's liquidity by looking at the number of High Quality Liquid Assets (HQLA), Liquidity Coverage Ratio (LCR), and Net Stable Funding Ratio (NSFR).

The Board's Role in Strategy and Policy Formulation

The Board of Directors, in accordance with the mandate set forth in the Board Manual, formulates strategies and strategic policies to be implemented in 2023. The Board of Directors plays an active role in the formulation of strategies and strategic policies as part of its duties and responsibilities. The strategies and policies established by the Board of Directors are always in line with the Bank's vision and mission as set forth in the Bank's Business Plan, which is approved by the Board of Commissioners.

Processes Conducted by the Board to Ensure the Implementation of Strategies and Policies

In order to ensure that the Bank's strategies and policies are well implemented, the Board of Directors periodically evaluates the Bank's strategies and policies as part of the Board's active role in ensuring that strategy implementation is in line with the Bank's goals, vision and mission. The Board of Directors also plays an active role in ensuring that the Bank's strategy is understood by all parts of the organization and that it is consistently implemented in each of the business units.

The Board is directly involved in monitoring the implementation of the strategy and ensuring that all parts of the organization have equal opportunities to communicate ideas and innovations that can support the achievement of the Bank's goals. In this process, the Board is supported by committees reporting to the Board.

2023 Performance and Comparison with Target

Throughout 2023, Bank Mega has implemented the business strategy set forth in the Bank's Business Plan; however, the economic conditions, which are still challenging and filled with uncertainty, are affecting the Bank's business strategic plans. These conditions require the Bank to make several adjustments in order to maintain the continuity of its business. The achievement of business performance and financial conditions in the Bank's 2023 Business Plan (RBB) reported to the OJK has generally not

shown optimal results, especially in the areas of third-party funds and loans. However, savings as a component of cheap funds increased by 6.32% to Rp15.66 trillion from Rp14.73 trillion in the same period of 2022. Asset quality (gross NPL) remained well maintained at 1.57%. This is better than the industry's gross NPL position of 2.36% as of November. Furthermore, Bank Mega's strong capital structure as reflected in the CAR position of 26.17% and strong liquidity as reflected in the LDR of 74.03%, gives the bank ample room to grow going forward.

In 2023, the bank has assets of Rp132.05 trillion, with loan disbursement of Rp66.29 trillion, where corporate loan is the loan segment with the largest share of 68.21%, namely Rp45.22 trillion.

Meanwhile, the outstanding amount of credit cards of Bank Mega reached Rp6.33 trillion with a sales volume achievement of Rp19 trillion in 2023. The increase in sales volume was supported by the growth of domestic and international transactions, both online and offline. Third Party Funds (TPF) collected by the Bank reached Rp89.44 trillion, with deposits accounting for the largest portion,

namely 71.17% of the total TPF or Rp63.65 trillion. For this business achievement, Bank Mega recorded a profit before tax of 4.34 trillion Rupiah or a profit after tax of IDR 3.51 trillion.

In terms of ratios, Return on Assets (ROA) reached 3.47%, Return on Equity (ROE) reached 17.62% and Net Interest Margin (NIM) reached 5.21%. The ratio of operating expenses to operating income (BOPO) is maintained at the level of 65.36%. The BOPO position is still better than the industry, which is 76.80% as of November 2023.

Meanwhile, Bank Mega's LDR is at the level of 74.03%, which is in line with the Bank's policy to maintain the LDR ratio at around 70% so that the Bank's liquidity is well maintained. The minimum capital adequacy ratio or CAR after consideration of credit risk, market risk and operational risk is 26.17%, which is a reflection of Bank Mega's strong capital structure.

The following table shows the performance achieved against the targets set in the Bank's Business Plan for the financial year 2023:

5	RBB	Actual	Pencapaian	Actual
Description	Dec-23	Dec-23	Target	Dec-22
Aset	144,883,578	132,049,591	91.14%	141,750,449
Kredit	75,702,760	66,292,896	87.57%	70,289,357
DPK	108,951,393	89,435,750	82.09%	102,949,667
- Giro	13,767,115	10,125,725	73.55%	12,818,842
- Tabungan	16,051,941	15,662,241	97.57%	14,731,561
- Deposito	79,132,337	63,647,784	80.43%	75,399,264
PBT	5,539,483	4,342,729	78.40%	5,028,070
PAT	4,463,389	3,510,670	78.65%	4,052,678
Rasio:				
KPMM (CAR)	26.81%	26.17%	97.61%	25.41%
ROA	4.09%	3.47%	84.84%	4.00%

NPL net	1.34%	1.18%	88.06%	0.91%
LDR	69.26%	74.03%	106.89%	68.04%

Challenges Faced and Anticipation Action

There are a number of things that the Bank considers to be the main challenges in 2023. Rising geopolitical tensions will cause energy prices to remain high and food prices to rise, resulting in slow global inflation declining (gradual disinflation). To control persistently high inflation, monetary policy rates in developed countries, including the Federal Funds Rate (FFR), remain high for an extended period (higher for longer). The policy of the Fed is being considered by Bank Indonesia (BI) to increase its key interest rate. This has an impact on increasing bank interest rates and increasing the cost of funds. Due to these conditions, Bank Mega's cost of funds in 2023 increased to 4.43% ytd from 3.05% ytd in 2022.

Uncertain economic conditions, rising loan interest rates also cause business actors to adopt a "wait and see" attitude, thus affecting Bank Mega's loan growth. Some debtors have even accelerated repayment. However, the decrease in third-party funds and loans did not affect Bank Mega's liquidity and credit quality, which is reflected in the LDR position of 74.03% and gross NPL of 1.57%.

Other Services

Information Technology

Information technology is seen as one of the keys to sustainable growth in the banking industry. At present, the majority of customers are accustomed to the use of various digitally based platforms, and it is predicted that they will continue to be dependent on these services in the future.

Bank Mega has presented a reliable digital banking solution for retail customers by launching M-Smile, an application-based banking service that integrates all customers' financial transaction needs, starting from the need to open a new account online, making payments, connecting with the marketplace ecosystem, and investing. Through M-Smile, retail customers get a branch-like customer experience at their fingertips.

M-Smile has provided real-time interbank transfer services with no fees through the BI-Fast feature. Apart from these features, the flexibility of credit card services at M-Smile is further enhanced by the digital credit card application feature. As a result, customers no longer need to wait for a physical card to make transactions. In addition, there is also a function to cash out the credit card limit into cash. By 2023, the M-Smile function had 103 functions to perform 733 types of transactions. With the addition of these features, the banking transactions conducted by customers through the M-Smile application have reached 81% in terms of transaction frequency.

The number of M-Smile users in 2023 reached more than 54% of the total retail customers or an increase of 18% from 2022. In 2023, the volume of customer transactions via M-Smile shows a good increase to IDR 36.34 trillion from IDR 20.97 trillion in 2022, while the total transaction frequency in 2023 increased to 9.0 million from 5.7 million transactions in 2022.

Bank Mega is also participating in the digital payment transformation in line with Bank Indonesia's steps. In fact, Bank Mega was one of the first banks to implement payments via QRIS MPM and CPM, QRIS transfer, withdrawal, deposit, QRIS cross-border and BI-Fast. Bank Mega believes that speed and excellence in digitizing banking services and products will be an added value for the bank in the fierce competition in the banking industry in the future.

As an important issue in the banking industry, the bank continues to strengthen its cybersecurity capabilities and capacity to be more proactive in improving IT security in anticipating virus and malware threats and mitigating digital risks by updating the incident management platform and automating security testing of applications.

Digital Marketing

Since 2022, Bank Mega has formed a working unit specifically dedicated to digital marketing. Through the digital marketing channel, Bank Mega succeeded in acquiring 25,266 new credit card customers in 2023, or a growth of 245% compared to 2022, when 7,322 new credit card customers were acquired, or about 30% of the bank's total growth in new credit card customers.

With various digital marketing campaigns throughout 2023, Bank Mega managed to increase the satisfaction and loyalty score of credit card customers from a score of -27.1 to 9.8, as well as the users of the M-Smile application from a score of 4.9 to 27.3 at the end of 2023.

Principal Activities and Types of Products and Services Offered

Bank Mega is engaged in the business of providing banking services by collecting and providing third party funds and offering competitive interest rates to customers. The products and services offered, including credit distribution, can be seen and described in the Company Profile chapter in the discussion of Bank Mega's products and services.

Interest Rates for Saving and Lending

The Bank refers to both global and domestic economic conditions that influence Bank Indonesia's reference

interest rate by considering the prevailing market conditions when determining the interest rate for raising and providing funds. As a form of compliance with OJK Circular Letter No. 9/SEOJK.03/2020 on Transparency and Publication of Reports of Conventional Commercial Banks, Bank Mega discloses information on the basic lending rate (SBDK). The disclosure of information on the Base Lending Rate is in fulfilment of the Bank's obligation as a commercial bank engaged in conventional business activities to report and publish the Base Lending Rate in Rupiah.

Rupiah Credit Base Interest Rate Based on Business Segment in 2023 (Effective % per year)

Periode	Corporation	Retail Credit	Data il Caralita Milana Caralita	Konsumtion Credit	
Periode	Ċredit	Retail Credit Wilcro Cred	Micro Credit	KPR	Non KPR
March 2023	10.37%	10.64%	-	10.65%	9.52%
June 2023	10.31%	10.58%	-	10.63%	9.50%
Sept 2023	10.29%	10.56%	-	10.60%	9.50%
Dec 2023	10.29%	10.56%	-	10.62%	9.53%

Organizational Structure and Human Resources

Organizational Structure

The dynamic development of the organization and changes in the business make the organizational structure of the Bank play an important role in the achievement of the Bank's goals. When determining the organizational structure, Bank Mega always carries out studies that take into account various factors that can increase the effectiveness and efficiency, as well as ensure the continued continuity of the Bank's organization.

The organizational structure of Bank Mega in 2023 is presented in the Company Profile in this Annual Report.

Human Resources

Human Resources (HR) is the most important element and greatest asset, as well as a strategic partner in the achievement of the company's vision. Therefore, the management of human resources is a major concern for the Bank in order to achieve sustainable positive performance. By the end of 2023, the number of employees will be 6,244, and Bank Mega has continuously implemented various types of development and training programs to be able to respond to challenges and adapt quickly to market changes, especially in the banking industry.

Throughout 2023, the bank has implemented 1,367 training program classes, attended by more than 100 thousand participants, which include skills certification, hard and soft skills training and leadership. Organizing training according to the needs and objectives of learning, namely face-to-face and digital learning using virtual learning, hybrid and e-learning methods. Digital learning is the Bank's effort to harness technological and digital developments so that employee capacity building can take place anywhere, anytime.

In addition, the Bank continuously organizes leadership and entrepreneurship development programs to prepare future leaders through the Mega Management Development Program (MMDP). The MMDP provides participants with a comprehensive understanding of banking business processes from both an academic and practical perspective. Graduates of the MMDP program have been placed in various work functions, and currently several of the best graduates have occupied key positions, both structural and functional.

Ultimately, it is expected that the human resources will be able to adapt quickly to the existing transformations and changes so that they will be able to provide the best and most optimal contribution to the Bank.

Number, Type and Location of Offices

The Bank's network of offices, in the form of branches, is an essential part of the Bank's operational and intermediation functions, as well as the main channel for the sale of banking products. In the development of the branch network, the Bank also synergizes with the corporate branch network of the PT CT Corpora Group.

In 2023, Bank Mega will offer various banking products and services through a network of 367 branches and 582 ATMs located throughout Indonesia under the coordination of 8 regional offices.

Working Network and Business Partners

Bank Mega also continues to collaborate with various business partners, both retail business units under CT Corp and non-group, to enhance the bank's resilience, competitiveness and efficiency. During 2023, Bank Mega has collaborated with various business partners to provide financial product services and various best transaction access options to customers, including collaborating on bancassurance products, joint financing, e-commerce and others by utilizing the Bank's network and customers. as a targeted market.

Ownership of the Board of Directors, Board of Commissioners and Shareholders in the Banking Group

The share ownership (direct and indirect) of the serving members of the Board of Directors and the Board of Commissioners is in accordance with what is stated in the chapters "Company Profile" and "Governance Report" of this Annual Report.

Significant Changes in the Bank and the Banking Group

There will be no significant changes in the Bank or the Bank Business Group until 2023.

2024 Business Outlook

Geopolitics is expected to continue in 2024, which could impact global economic growth. Bank Indonesia reported that with global economic uncertainty still very high in 2024, global economic growth has the potential to grow only 2.8%. This is caused by the emergence of the phenomenon of gradual disinflation or inflation which is slowly falling, the benchmark interest rates of developed countries, especially the US, which are still high or higher for longer, the US dollar will continue to strengthen, and finally, the flow of foreign capital will still leave emerging markets to developing countries. continue. In January, however, the IMF revised its forecast for global economic growth to 3.1% in 2024. The global economy is entering the final phase of a soft landing as inflation continues to fall and economic growth remains solid. However, the growth rate is still slow and turbulence may still occur.

Meanwhile, 2024 is a political year in Indonesia where elections will be held. Investment activities during elections usually experience a slowdown as investors adopt a "wait and see" attitude. However, it is hoped that the election will be peaceful so that it will not affect investors' plans to invest in Indonesia. Indonesia's economic growth is estimated to be in the range of 4.9% - 5.2% as reported by the Ministry of Finance / APBN (5.2%), Bank Indonesia (4.87% - 5.5%), IMF (5%) and World Bank (4.9%).

These macroeconomic conditions require the right strategy for further growth and achieving the goals set in Bank Mega 2024 RBB, including:

- 1. Increase in third-party funds with an increased focus on retail customers.
- 2. Increasing loan distribution, while remaining based on prudential banking and paying close attention to the industry to be financed.
- 3. Focus on increasing credit card business.
- 4. Focus on increasing Fee Base income from Treasury and other businesses.
- 5. The LDR ratio target by Bank policy ranges at the 70% level.
- 6. Increase efficiency in other costs with a BOPO ratio target of around 63%.
- 7. Transformation of information technology to support the development of digital retail and banking business, mitigation of operational risks and efficiency of operational costs through automation of operational processes.

Implementation of Bank Governance

Bank Mega is committed to the consistent and quality implementation of Good Corporate Governance (GCG) in all aspects of the Bank's operational business activities. The good implementation of GCG has become a requirement to ensure transparency and accountability of the Bank's management to the public in order to provide consistent and quality value added to shareholders and other stakeholders.

During the year 2023, Bank Mega also maintained its commitment to the implementation of good governance to ensure that the business and operational practices are in a corridor that is in accordance with legal regulations and best practices in governance. The Board of Directors, the Board of Commissioners, and all Bank Mega employees are committed to implementing the best governance practices so that every program.

In the implementation of the GCG, Bank Mega ensures that the principles of corporate governance, namely transparency, accountability, responsibility, independence

and fairness, can be applied at all levels of the organization in the bank's activities. The Bank's business activities must always be conducted according to the Bank's Vision, Mission, Corporate Values and Strategy, which are based on the prudential principles and regulations issued by the Financial Services Authority (FSA), Bank Indonesia, and applicable laws and regulations.

To improve the quality of implementation of Good Corporate Governance, Bank Mega consistently carries out quality measurements of GCG implementation carried out independently (self-assessment) by Financial Services Authority Circular No. 13/ SEOJK.03/2017 concerning Implementation of Corporate Governance Commercial banks. As a result, the Bank consistently gets value 2 (two) with the predicate "Good" according to a self-assessment carried out every semester. Meanwhile, according to the letter OJK No.SR-22/PB.31/2024, dated 15 February 2024, implementing Bank Governance for June 2023 is Good, and the position in December 2023 is Fair.

On the other hand, as part of implementing GCG, the Bank is also consistent in implementing risk management aspects.

Bank Mega routinely monitors and evaluates the implementation of risk management, which is carried out in Board of Directors' forums and joint meetings of the Board of Directors and the Commissioners. Any inappropriate records regarding the implementation of risk management are brought to the attention of the Board of Directors and the Board of Commissioners for correction and to ensure that they are carried out in accordance with the rules. Within the Group, Bank Mega is the main entity in the implementation of integrated governance and integrated risk management in the Mega Corpora financial conglomerate. In order to ensure its duties and responsibilities as the Main Entity, Bank Mega has formed several working units to support the implementation of the Mega Corpora Financial Conglomeration.

Assessment of the Performance of Committees Under the Board of Directors

Based on applicable laws and regulations, the Board of Directors can form a support unit to assist in the smooth implementation of the Board of Directors' daily duties and responsibilities. Until the end of 2023, the Board of Directors of Bank Mega has formed 8 (eight) Committees tasked with assisting the Board of Directors in managing the Bank, namely the Risk Management Committee, Assets and Liabilities Committee (ALCO), Credit Policy Committee, Information Technology Committee, Human Resources Committee, and Product Committee, Crisis Management Committee, and Credit Committee.

In line with the Mega Corpora Financial Conglomeration, the Bank as the Main Entity has performed its duties and responsibilities by forming 2 (two) committees, namely the Integrated Risk Management Committee and the Integrated Governance Committee.

The Board of Directors assesses that in 2023, the implementation of the duties and responsibilities and the meetings of these committees are in accordance with the rules and regulations and take place effectively. In 2023, the Board's participation in the committee meetings, including the decisions made during the meeting discussions, will also be used as a reference in assessing the performance of the committees under the Board.

Commitment and Implementation of Environmental, Social and Governance Policies

Bank Mega is committed to the protection of the environment, always paying attention to social aspects, as well as the implementation of good governance. In this case, the Bank has implemented several policies and practices to comply with environmental, social and governance (ESG) standards.

In addition, in order to implement the Financial Services Authority Regulation No. 51/POJK.03/2017 on the implementation of sustainable finance, Bank Mega is fully committed to the implementation of a sustainable TJSL program.

In 2023, the implementation of sustainable finance will be implemented in accordance with the Bank's Sustainable Finance Action Plan (RAKB). The implementation of Bank Mega's sustainability principles will be thoroughly discussed and presented in the Sustainability Report, which is an integral part of the 2023 Annual Report.

The Bank's Sustainable Finance Action Plan (RAKB) will implement sustainable finance in 2023. Implementing Bank Mega's sustainability principles is discussed thoroughly and presented in the Sustainability Report, an inseparable part of the 2023 Annual Report.

Changes in the Composition of the Board of Directors

The Annual General Meeting of Shareholders (AGMS), which was held on February 24, 2023, approved to add a Director specifically in the field of Information Technology, related to technological developments and the need to digitize business model in the Company. The AGMS approved that YB Hariantono be appointed as Director of Information Technology.

The appointment of YB Hariantono has been approved by the Financial Services Authority based on the decision

of the members of the OJK Board of Commissioners number KEPR-4/D.03/2023 dated March 20, 2023 and is effective from March 27, 2023 based on Bank Mega's letter number 058/COAF/23 dated March 27, 2023 regarding the submission of the report on the appointment of Bank Mega's Director of Information Technology to the Private Bank Supervision Department 1, Financial Services Authority.

Apart from that, the AGMS also approved the creation of the position of Vice President Director in the composition of the Bank's Board of Directors on the agenda for Amendments to the Articles of Association. In this case, the AGMS approved that Indivara Erni and Lay Diza Larentie be appointed as Vice President Directors, respectively. The appointment of Indivara Erni and Lay Diza Larentie has been approved by the Financial Services Authority based on the decision of the members of the OJK Board of Commissioners No. KEPR-41/D.03/2023 dated June 6. 2023 approving the appointment of Ms. Lay Diza Larentie as Vice President Director of PT Bank Mega Tbk and No. KEPR-42/D.03/2023 dated June 6, 2023 approving the appointment of Ms. Indivara Erni as Vice President Director of PT Bank Mega Tbk.

The appointment is effective from June 12, 2023 based on Bank Mega's letter number 100/COAF/23 dated June 12, 2023 regarding the submission of reports on the appointment of Vice President Director of Bank Mega to the Private Bank Supervision Department 1, Financial Services Authority.

Accordingly, after the AGMS held on February 24, 2023, the number of Directors is 8 (eight) persons, with the composition of the members of the Board of Directors until this Annual Report has been prepared as follows:

President Director : Kostaman Thayib Vice President Director : Indivara Erni Vice President Director : Lay Diza Larentie : Yuni Lastianto Compliance and Human Capital Director

Credit Director : Madi Darmadi Lazuardi Treasury and International : Martin Mulwanto

Banking Director

Operations Director : C. Guntur Triyudianto Information Technology : YB Hariantono

Director

Appreciation and Conclusion

In a year full of challenges and dynamism, Bank Mega has achieved a positive performance, even if it has not fully lived up to expectations. The current achievements will be used as a springboard to jump even higher in the future. On behalf of the Board of Directors, we would like to express our gratitude and appreciation to the Board of Commissioners for their trust, guidance and input throughout the year. We also thank and acknowledge our customers, shareholders, regulators, the community and all other stakeholders for their support and cooperation.

This good relationship has become an encouragement for Bank Mega to continue to make a positive contribution through various innovations that meet customer needs while ensuring that the Bank achieves quality and sustainable growth.

Finally, we would like to express our gratitude to all Bank Mega employees for their enthusiasm and dedication in realizing the Bank's vision "To be the Nation's Pride".

Company at a Glance

With the acquisition of PT Mega Bank in 1996, CT Corpora (formerly known as PT Para Global Investindo and PT Para Rekan Investama, or PARA GROUP) began its presence in the national banking industry. After undergoing a transformation by changing its logo to enhance its image as a public trusted financial institution, PT Mega Bank changed its name to PT Bank Mega in 2000. Subsequently, PT Bank Mega conducted an initial public offering (IPO) and was listed on the BEJ and the BES, thus changing its name to PT Bank Mega Tbk and using the ticker MEGA. This corporate action was carried out in order to strengthen the capital structure of the Bank.

After becoming a public company, Bank Mega received permission from the Capital Market Supervisory Agency - Financial Institutions ("BAPEPAM-LK") on August 2, 2000 to conduct business activities as a trustee. A few months later, the Bank obtained permission to operate as a foreign exchange bank based on the Decree issued by the Senior Deputy Governor of Bank Indonesia No. 3/1/KEP/ DGS/2001 dated January 31, 2001.

Bank Mega's active participation in the national banking industry is growing, supported by the existence of 8 regional offices, 55 branches, 312 sub-branches and 3 functional offices, which will be reinforced by the existence of 595 ATMs as of December 31, 2023. In addition, in line with the faster adoption of digitalization

of banking services due to the pandemic, Bank Mega launched a mobile banking application called M-Smile on April 15, 2020. This application makes it easier for customers to access banking information and services in one hand.

Previously, Bank Mega had also launched a chatbot called Mila (Mega Intelligent Assistant) to make it easier for customers and the public to get informed about Bank Mega's products and services. The Al engine in Mila can recognize natural questions. This enables it to answer questions appropriately.

Chronology of Changes to the Company Name

Historically, PT Bank Mega Tbk was established in the Republic of Indonesia under the name of PT Bank Karman which is located in Surabaya on the basis of Deed of Establishment No. 32 dated April 15, 1969. Subsequently, the name was changed again in 1992 to PT Mega Bank and relocated its head office to Jakarta. In line with the transformation process

Offering to strengthen the bank's capital structure and become a public company.

Milestone

Starting as a family owned business called

1992 The Company further changed its name in 1992 to PT Mega Bank and relocated its Head Office to Jakarta.

PT Mega Bank was taken over by the PARA GROUP (PT Para Global Investindo and PT Para Rekan Investama), a holding company owned by Chairul Tanjung, an Indonesian entrepreneur. Afterwards, the PARA GROUP changed its name to CT Corpora.

PT Mega Bank changed its logo

The change of name from PT Mega Bank to PT Bank Mega was followed by an initial public offering (IPO) and the listing of its shares on the BEJ and BES, as well as a change of name to PT Bank Mega Tbk.

Bank Mega issued subordinated bonds.

The transformation of Bank Mega's logo in 2013 is a profound reflection on the expectations of Bank Mega to start building Indonesia into an unyielding nation with excellence, always able to realize prosperity and a better life.

- QRIS TUNTAS (Transfer, Cash Withdrawal and Cash Deposit)
 QRIS Cross Border Launching

implementation of BI FAST.

The Bank launched M-Smile (Mega Smart Mobile) and participated in implementing QRIS.

The Mega Intelligent Assistant (MILA) chatbot was launched.

Launch of the Mega Cash Line.

Launch of the Mega Travel Card credit card, which offers customers guaranteed competitive exchange rates, higher mileage, flexibility in mileage point exchange and lifetime benefits.

Bank Mega participated in the launching of the National Non-Cash/GNNT Movement to support the Less Cash Society program.

The Company Logo

The logo of Bank Mega, which was launched in 2013, is a deep reflection of Bank Mega's hope to take part in establishing Indonesia into an excellent nation which never gives up so that it will always be able to realize prosperity and a better life.

The "M" symbol, which has been widely known, is a representation of the aspirations, optimism, and opportunities of the Indonesian citizens as well as the desire to build a better and more prosperous future for the family and nation.

The series of warm colors symbolizes the energy and spirit of Bank Mega, new ideas and comprehensive financial solutions for customers and Bank Mega personnel. To emphasize, we have pinned the yellow color which represents intelligence and hope, combined with the gray color which symbolizes sophisticated processes and systems. The orange color depicts optimism and energy which shows that Bank Mega always sees and carries out things positively and thus always strives for positive results.

New Products and Services in 2023

Bank Mega is committed to develop new banking products and services in 2023 to meet the needs of customers. The new products and services to be developed are addition of new QRIS Cross Border countries (Malaysia & Singapore), Loan On Card on M-Smile, development of Digital Credit Cards and Face Check Registration.

QRIS Cross Border is an inter-country payment feature via national payment QR Code interconnection. In previous year, Bank Mega customers were able to do cross-border transactions in Thailand, in 2023 Bank Mega customers can also do cross-border transactions in Malaysia and Singapore.

Loan On Card on M-Smile is the disbursement of cash funds on M-Smile from Customer's Credit Card to Customer's Bank Mega savings account using the installment method.

Digital Credit Card is a credit card in virtual form that can be applied via M-Smile and can be used immediately by customers after the application is approved for online transactions without having to wait for a physical card.

The development of Face Check Registration on M-Smile is an easier, faster and shorter registration method with higher security through biometric technology features.

Digital Banking Services

Bank Mega has launched a mobile banking application called M-Smile on April 15, 2020. This application makes it easy for the customers to access the information and services of the bank in one hand. M-Smile offers various features including digital account onboarding, mutation information, billing, cardless cash withdrawals, transfers, payments, purchases, prepaid recharge, investment (bonds & mutual funds), using QRIS with MPM, CPM TTM and Cross Border methods (Thailand, Malaysia & Singapore).

In addition, customers have the freedom to choose the source of funds for transactions. They can use savings, credit cards or electronic money. Customers can also manage their accounts independently, both savings and credit cards. They can update the latest promotions with benefits that customers can enjoy at any time.

In summary, the development of the innovation of digital services in the past five years can be described as follows:

Mega Mobile

Bank Mega launched the Mega Mobile mobile banking application for Savings users. At that time, the application could be used for functions such as checking balances, transfers, and pay/purchase.

Bank Mega upgraded M-Smile mobile banking application

The latest M-Smile (Mega Smart Mobile) application is now available for credit card customers. It's more complete, offers more convenience, and has a more modern look.

Addition of billers to the Buy (Data & Game Packs) & Pay Utility Bills (PDAM) feature

Bank Mega has also added new billers such as data packages, games and utilities.

Addition of accounts (Deposits, M-Money and Savings)

To make it easier for customers to open accounts without visiting a branch, Bank Mega offers account opening with different product options such as deposits, M-Money & various savings through M-Smile.

Cardless cash withdrawal via M-Smile added

In order to make it easier for customers to make cardless cash withdrawals at ATMs, Bank Mega offers a cash withdrawal feature via M-Smile. Customers only need to enter the cash withdrawal code into the Bank Mega ATM.

Addition of QR function to M-Smile

Bank Mega is involved in supporting the cashless payment movement, facilitating customers to make payments to retailers via QRIS (QR Code Indonesian Standard) with various sources of funds such as savings current accounts/credit cards/Money. The QR menu on M-Smile is equipped with the functions of Scan QR, Generate QR & History QR.

Added a new customer registration feature using the M-Smile mobile banking application, verified by Customer Service Video Banking (CSVB)

In order to increase customer acquisition, Bank Mega offers registration services for prospective Mega Bank customers via M-Smile mobile banking with verification via Customer Service Video Banking (CSVB) for prospective customers who are interested in Mega Bank products, so there is no need for registration in the branch.

Addition of features for savings and credit card services

In order to provide convenience to customers using Savings & Credit Cards, Bank Mega has developed service features including card blocking, scheduled transactions, setting credit card limits, applying to increase credit card limits, and others.

Addition of purchase, payment & top up billers

To increase the number of buy/pay/recharge transactions, Bank Mega added new billers to M-Smile, including payment billers (SBN/MPN, loans and cable TV) and electronic money recharge.

Development of the "Mutual Funds" investment feature

Untuk mempemudah Nasabah dalam melakukan investasi reksa dana, Bank Mega mengembangkan fitur Investasi Reksa Dana seperti pembuatan SID Online, pembelian reksa dana dan transaksi seperti top up, redeem & switching.

Addition of BI FAST transfer method

To make it easier for customers to perform remittance transactions, Bank Mega added BI Fast remittance method with IDR 0 remittance fee to increase acquisition of new M-Smile customers and mobile banking users.

Development of online account opening features

To increase the acquisition of new customers, Bank Mega is developing an account opening feature on Mobile Banking with customer validation using liveness checking and biometrics.

2021

M-Smile appearance update in 2021

To increase user satisfaction and provide the best experience in accessing mobile banking, Bank Mega has updated the appearance of M-Smile. 2022

Development of cross-border QRIS features

To provide convenience for customers to carry out payment transactions non-cash overseas, Bank Mega is carrying out QR Cross development Border by collaborating with ASPI & Bank Indonesia. Users can make QR Cross Border transactions in countries we already work with, switching to Indonesia (Thailand).

Addition of Obligation marketing channels

To provide convenience for customers investing in bonds, Bank Mega adds investment services for bonds via M-Smile. Customers can place orders and transactions such as buying and selling and view Bond portfolios via Mobile M-Smile Banking.

Addition of billers for purchases, payments & top ups

In order to increase the number of payment and recharge transactions, Bank Mega added new billers to M-Smile, including payment billers for SAMSAT DIGITAL NATIONAL (SIGNAL), PBB, PDAM, Donate and Game Buy.

Addition of cross-border QRIS countries (Malaysia & Singapore)

To make it easier for customers to make cashless payments abroad, Bank Mega is developing QR Cross Border in collaboration with ASPI & Bank Indonesia. Previously, Bank Mega customers could make cross-border transactions in Thailand. This year, customers can make cross-border transactions in Malaysia and Singapore.

Development of QRIS TUNTAS (Transfer, Withdraw Cash & Deposit

Bank Mega also allows customers to use the QRIS TUNTAS feature (cash withdrawal, transfer and deposit).

Development of QRIS TUNTAS (transfer, cash withdrawal and cash deposit), Development of digital credit cards

In order to make it easier for customers to make credit card transactions, Bank Mega has developed the ability to display digital credit cards so that customers can make e-commerce transactions without using a physical card.

Development of M-Smile registration using Face Check

In order to make the registration process easier and safer for customers, Bank Mega has improved the M-Smile registration process with facial verification.

Development of Loan On Card services at M-Smile

Bank Mega adds loan services to existing credit card customers by utilizing available credit card limits.

Added Biller Pay, Buy & Top Up

In order to make it easier for customers to pay their bills, Bank Mega has added new billers such as Airline Tickets, Insurance & Multifinance.

In line with the innovations developed above, Bank Mega was able to record an increase in the number of downloads of the M-Smile application by 36.1% yoy to reach 870,300 in 2023. This increase also promoted an increase in the number of users of the M-Smile application, which will reach 784,118 as of December 31, 2023, with a growth of 34.9% yoy. Correspondingly, Bank Mega's transaction value via M-Smile application increased by 73.32% yoy to Rp36,339 This growth in transaction value is supported by increasing the number of transactions to reach 8,842,330 or growing by 56% yoy in 2023.

Year	M-Smile application download position	Position of M-Smile application user	Transactions Total	Transaction Value
2023	870,300	784,118	8,842,330	36,339
2022	639,465	581,311	5,669,771	20,967
2021	430,385	394,564	3,679,204	10,737
2020	217,190	286,977 *	2,064,677	4,893
2019	54,711	119,292 *	1,114,089	2,720

^{*}The beginning of the launch of M-Smile, user data combines M-Smile and Mega Mobile users.

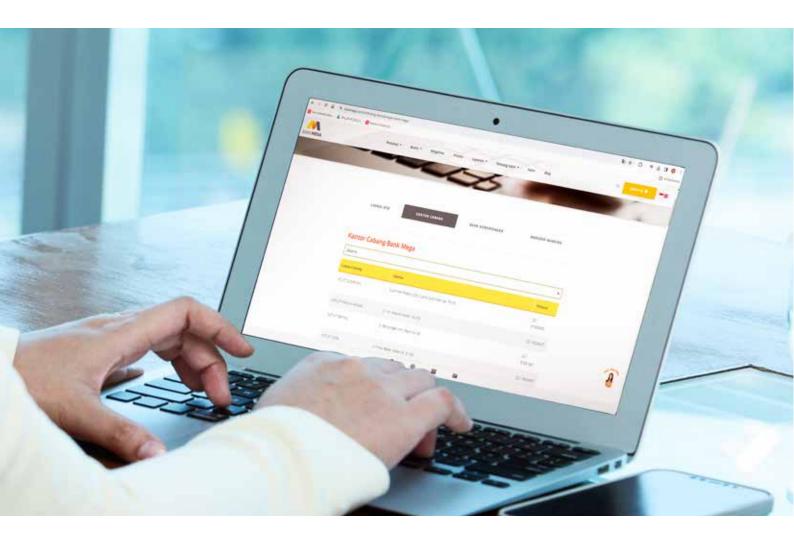

Operational Areas

Bank Mega has a network of offices providing banking services throughout Indonesia. The network consists of 8 regional offices, 55 branches, 312 sub-branches and 3 functional offices which are strengthened by the presence of 582 ATMs as of December 31, 2023. In addition, Bank Mega cooperates with 14 correspondent banks. These banks are located in several countries.

Chronology of Other Securities Issuance and/or Listing

Bank Mega has issued subordinated bonds, the chronology of issuance and/or listing of which is as follows:

- On January 15, 2008, the Bank issued Bank Mega Subordinated Bonds 2007 (Bonds) totaling Rp. 1,000,000,000 (in millions). The public offering of the Bonds has received an effective declaration from the Chairman of BAPEPAM - LK in letter no. S-6569/ BL/2007 dated December 28, 2007. These Bonds mature in full on January 15, 2018 or on an earlier date, namely January 16, 2013, if the Bank exercises the call option after the 5th (fifth) anniversary of the date of issuance at market prices, taking into account the provisions in the Trustee Agreement and the provisions of applicable laws in Indonesia, upon prior approval of Bank Indonesia. All of these bonds have been listed on the Indonesia Stock Exchange on the basis of letter no. S-00240/BELCAT-S/01-2008 of January 15, 2008. The structure of this subordinated bond can be found in the section "Key Highlights and Other Important Information".
- On the basis of Bank Indonesia's letter No. 10/23/ DPBI/rahasia dated 31 January 2008, Bank Indonesia approved the Bank's request to include the proceeds of the Bond Issue in the amount of Rp. 1,000,000,000 (in millions) as a component of the Bank's Tier 1 capital with a maximum amount of 50% of the Bank's Tier 1 capital as of January 2008. 2008.

- On May 27, 2020 PT Bank Mega, Tbk together with PT Mega Corpora signed an agreement for the issuance of PT Bank Mega Tbk Subordinated Bond in 2020, called Obligasi Subordinasi I PT Bank Mega, Tbk Tahun 2020. The Subordinated Bond transaction value reaches Rp50.00 billion with a maturity of 5 years from issuance date, and the Subordinated Bond interest rate is fixed. More detailed information on this bond structure can be found in the section entitled "Key Highlights and Other Important Information".
- The issuance of the Subordinated Bonds is in compliance with the provisions of POJK No. 14/POJK.03/2017 dated April 4, 2017, regarding action plans (recovery plans) for systemic banks. The funds raised from the issuance of these subordinated bonds, after deduction of issuance costs, will be used for working capital in the context of business development, in particular for the provision of credit and strengthening of the capital structure by being calculated as supplementary capital (Tier 2), as well as for increasing the composition of the long-term collection structure.

Management Analysis and Discussion

Economic Review

Global optimism about the recovery of the world economy after the pandemic in early 2023 is very high. However, the situation is changing when the world economy is experiencing rapid changes with high uncertainty due to the dynamics occurring in the economies of developed countries that have an impact on the world economy. The United States, as the world's economic powerhouse, is experiencing high inflationary pressures that are feared to have an impact on the country's economy. Another factor is the ongoing trade tensions between the United States (US) and China and the decline in exports and imports between the two countries, which has an impact on the volume of global trade.

Rising geopolitical and economic tensions following the war between Russia and Ukraine have led to supply constraints and rising global energy and food prices. This situation is exacerbated by the tensions between Israel and Palestine, increasing global geopolitical tensions. This has led to a slowdown in the global economic recovery, exacerbated by rising inflationary pressures due to global energy and food prices, as well as tight labor markets in a number of developed countries.

Another external factor influencing the slowing of the global economic recovery is the extreme cold weather in the European region in early 2023. Energy and food supplies are very limited as a result of the Russian and Ukrainian wars, slowing economic recovery in the region. Parts of the world, especially the Asian continent, are facing drought due to El Nino, which requires authorities/ governments to ensure food supply and security as a step to reduce the inflation rate.

In response to these conditions, the IMF has revised its forecast for economic growth in 2023 to only 3%, while the OECD expects the global economy to grow by 2.9%. Inflation is also expected to reach 5.8%, higher than in the pre-pandemic period.

The Indonesian economy is expected to continue to grow well amid slowing global economic growth. Inflation has returned to the target range at a faster pace and remains under control. Indonesia's economic growth is projected to be in the range of 4.9% to 5% by various financial institutions such as the IMF, OECD and Bank Indonesia.

Bank Indonesia has also adopted a policy of raising interest rates as a preemptive and forward-looking step to reduce inflation expectations, which are currently still high, and to strengthen the rupiah exchange rate stabilization policy. This step was taken to be in line with the fundamental value of the rupiah resulting from the strong US dollar currency and high uncertainty in global financial markets, while domestic economic demand remains strong. Bank Indonesia also continues to strengthen its policy mix response to maintain stability and momentum for economic recovery through monetary operations and strengthening the stabilization of the rupiah exchange rate by remaining in the market as part of efforts to control inflation.

Banking Industry Overview

In line with Indonesia's economic growth, which grew by 5.05% yoy in 2023, compared to 5.31% yoy in the previous year, the banking industry also recorded lower loan growth to third parties, amounting to 9.74% yoy as of November 2023. The growth of loans provided by this commercial bank is lower in comparison to the same period in 2022, amounting to 11.26% yoy.

Development of credit, assets and DPK of Commercial Banks

The credit growth in 2023 was supported by a favorable capital adequacy position with a Capital Adequacy Ratio (CAR) of 27.86% as of November. This is higher than last year's CAR ratio of 25.50%. The higher CAR ratio was supported by an increase in Tier 1 capital, which up by 9.11% yoy to reach Rp1,659.70 trillion as of November 2023. The stronger Tier 1 capital had a positive impact on the ratio of Tier 1 capital to RWA, which surged to 26.30% from 23.90% in the previous year.

In addition, credit growth was also supported by adequate bank liquidity: the Loan to Deposit Ratio (LDR) was 84.87% as of November 2023, up from 79.73%. The availability of adequate liquidity is backed by the BI's policy through the issuance of Bank Indonesia Rupiah Securities (SRBI). According to BI, the issuance of SRBI also raises the flexibility of banks in the management of liquidity so that it helps to maintain the lending capacity of banks.

Another support from the BI is the implementation of the KLM Liquidity Incentive Policy to encourage the allocation of bank credit and financing to priority sectors in support of sustainable economic growth. This macroprudential liquidity incentive policy is aimed at banks that channel financing to sectors that have a high leverage effect on economic recovery, namely the mineral and non-mineral downstream sectors, housing, tourism, social inclusion, and the green financial economy. Moreover, BI implements foreign currency liquidity innovation through the development of foreign currency placement instruments in the Indonesian financial

system in order to raise the availability of sustainable foreign currency liquidity for national economic development and maintain macroeconomic and financial system stability.

As a result of a lower growth of loans to third parties of 9.74% yoy as of November 2023, the total assets of the banking sector were able to grow by 5.09% yoy. This performance was lower than the 9.70% yoy in the same period of the previous year with a higher loan growth of 11.26% yoy. This asset growth was offset by better productive asset quality with the gross NPLs ratio improving to 2.36 % as of November 2023 from 2.65 % a year ago.

Working Capital, Investment, and Consumption Credit

Source: OJK, processed

Cumulative, credit provided to third parties used for productive purposes contributed 72.54% with a growth of 9.93% yoy to Rp4,959.77 trillion as of November 2023. Of the total credit provided, the working capital credit has a larger share of 45.49%, while the investment loan contributed with 27.05%. Meanwhile, consumer loan with a contribution of 27.46% was able to grow by 9.26% yoy to reach Rp1,912.57 trillion amid inflationary challenges in 2023.

The growth in credit in 2023 was followed by an higher commercial bank profitability. The net interest income increased by 9.54% yoy to Rp499.81 trillion as of November 2023. This increase was supported by 6.28% yoy average total productive assets growth to Rp10,131.86 trillion. Thus, the national banking industry managed to record a NIM ratio of 4.93% as of November 2023, up from 4.79% a year earlier.

The achievement of this NIM ratio has been further strengthened by the operational efficiency that has been successfully achieved by the national banking industry. The ratio of operating expenses to operating income improved to 76.79% as of November 2023. This compares to 77.54% in the previous year. Digital banking services also contributed to the efficiency of the bank's operating costs. The number of branches decreased to 3,426 units as of September from 3,450 units a year earlier.

Ultimately, the bottom line of the banking industry is positively impacted by the performance improvements described above. Pre-tax profit for the year grew by 18.47% yoy to Rp290.48 trillion as of November 2023. In line with this performance, the ROA of the national banking industry rose to 2.72% as of November 2023, higher than the 2.49% of the previous year.

The Bank's Position in the Industry

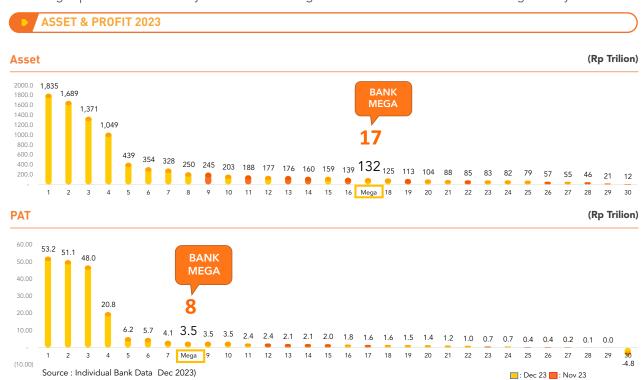

Based on POJK No. 12/POJK.03/2021 dated July 30, 2021 regarding commercial banks, OJK determines the classification of banks into banking groups according to core capital (KBMI). Bank Mega with a core capital of IDR 17.26 trillion is classified in KBMI 3 category as it meets the requirements of having a core capital of more than IDR 14.00 trillion to IDR 70.00 trillion.

The Bank's position in the national banking industry in terms of loan disbursement, total assets and third party funds (DPK) is as follows:

	Description	2023	2022	2021
Asset	Industry	11,427.96	11,113.32	10,112.30
	MEGA	132.05	141.75	132.88
	MEGA's market share	1.15%	1.28%	1.31%
Credit	Industry	6,837.30	6,423.56	768.59
	MEGA	66.29	70.29	60.68
	MEGA's market share	0.96%	1.09%	7.89%
DPK	Industry	8,216.21	8,153.59	7,479.46
	MEGA	89.44	102.95	98.91
	MEGA's market share	1.09%	1.26%	1.32%

Note: Industry data is as of November 2023, while Bank Mega data is as of December 2023.

Bank Mega's position in the industry in terms of achieving Profit and Assets in 2023 in the banking industry is as follows:

Business Segment and Geographic Review

Operational Review by Business Segment

Electronic Chanel

Bank Mega has carried out a number of innovations in order to improve the banking transactions through the electronic channels. This innovation takes the form of the following new features:

- Cross-border QRIS transactions in Malaysia and Singapore Loan On Card application service (cash disbursement with available credit card limit)
- M-Smile facial recognition registration
- Digital credit card display

 Addition of Biller Data Packages, Multi Finance Payments, Insurance and Tickets.

In addition, the bank has also made innovations in the form of the addition of billers for multi-finance payments, insurance and tickets.

The following table explains the achievements of the electronic channel in 2023:

	Mobile Banking	Internet Banking
Number of Users	784,118	23,101
Number of Frequencies (million)	55.2	2.5
Total Transaction Value (Rp Trillion)	36.3	47.9

	Uang Elektronik	Debit Card	ATM
Number of Users/cards	4.8 juta	228,918	238 ribu
Number of Frequencies	4,351	928,797	7.2 juta
Total Transaction Value	Rp683 juta	Rp411.03 milyar	Rp2.4 triliun

Asset Management

Bank Mega offers government bonds through primary and secondary market mechanisms. Throughout the year 2023, there were 14 additional series of government bonds offered on the primary market, namely SBR012T2, SBR012T4, SR018T3, SR018T5, ST010T2, ST010T4, ORI023T3, ORI023T6, SR019T3, SR019T5, ORI024T3, ORI024T6, SR011T2 and ST011T4. Meanwhile, for the secondary market, 50 government bond series are offered daily: FR, SR, ORI, Indon and Indois.

Bank Mega is also collaborating with several investment managers in the development and marketing of mutual

funds in 2023. These investment managers are Schroder Investment Management Indonesia, Ashmore Asset Management Indonesia, Manulife Asset Management Indonesia and Mega Asset Management.

In addition, Bank Mega launched the Mega Proteksi Optima Link product in April 2023 to meet customer needs. This product provides optimal life insurance protection and investment opportunities. Customers have the flexibility to allocate investment funds according to risk in order to achieve maximum results.

Wealth Management's performance achievements in terms of assets under management in 2023 are as follows:

	Asset Under Manage	Chamana		
	2022	2023	Changes	
Bond	7,437,866,590,250	9,512,521,391,800	27.89%	
Mutual Fund	2,054,165,564,165	1,695,314,110,102	(17.47%)	

Funding

In 2023, Indonesia's economy will remain strong in an uncertain global economic environment. Bank Mega focuses on growing low-cost funds through various strategies to meet this challenge. The key measures are to develop digital-based banking services, increase the number of new customers, especially in the retail and corporate sectors, and consistently improve the customer experience through comprehensive integration.

One of the main initiatives is the development of digital services, especially mobile banking (M-Smile), which aims to make it easier for customers to conduct financial transactions. This improvement includes adaptation to the latest payment systems such as QRIS (Standard Indonesian QR) and SNAP (National Open API Payment Standard), which are in line with government programs.

To increase third party funds (DPK), Bank Mega implemented a strategy focused on increasing low-cost funds. This is being done through customer acquisition in the retail (Mass Market) and priority (MegaFirst) segments. In addition, Bank Mega continues to develop customer loyalty programs to support the growth of funds under management.

By 2023, the DPK of Bank Mega reached 89.44 billion. This is related to more efficient management of DPK, especially in terms of balancing credit growth, strategies to maintain the cost of funds amidst competition in deposit interest rates, as well as in the face of a decline in funds from several large customers. Bank Mega is committed to maintaining a balance between the growth of loans and the TPF, as well as to ensuring the efficiency of the cost of funds.

There was a decrease in deposits of -13% compared to 2022. This was due to withdrawals by several large customers. Therefore, Bank Mega is now focusing on increasing the DPK coming from its retail segment.

Retail Funding

The main objective of Bank Mega's Retail Funding Sector is to provide financial services to all of Bank Mega's customers by offering various transactional products and services that meet the different needs of individual Mass Market and MegaFirst customers. MegaFirst customers are intended for the priority segment of individual customers with balances above IDR 500 million, where customers receive first class personalized service, first class financial solution, first class lifestyle privileges to meet the customer's financial needs.

Bank Mega offers various savings products for Bank Mega customers to select, namely Mega Dana, Mega Maxi, Mega Sharing, Mega Plan, Mega Perdana, Mega Ultima, Mega Valas, and TabunganKu. Specifically for the Mega Dana and Mega Maxi products, customers will receive benefits in the form of MPC loyalty points that are integrated with the CT Corpora Ecosystem.

The Mega Sharing product is a savings product. In this product, Bank Mega works in synergy with its customers to distribute funds for social activities. The form of the social activity is in the form of social donations that are intended for educational activities, public health, community empowerment, and natural disasters in Indonesia. Customers are invited to set aside a minimum of 1% of the interest earned and an additional 1% from Bank Mega.

Retail Funding Strategy

The 2023 third-party fund collection strategy will focus on growing individual and corporate sector funds, as well as increasing fee-based income by continuing to develop digital-based banking services, attracting new customers, especially in the retail and corporate segments, by improving the overall integrated customer experience. To achieve this, here are several work plans for 2023, namely:

- Develop a virtual debit card for faster on-boarding and improved transaction services by completing the M-Smile feature in terms of products (Forex products, Term Savings, Deposits, etc.), payments, recharges, transfers, etc.
- 2. Acquisition via digital channels through a faster onboarding process with attractive promotions supported by virtual cards.
- 3. Target the millennial and young family segments by introducing products and services that meet their needs.
- 4. Enhance debit card benefits at strategic CT Corpora and non-CT Corpora merchants.
- $5. \quad \hbox{Offer attractive savings programs for the affluent consumer.}$
- 6. Continue to improve the quality and productivity of marketing personnel, especially in the Mega First and Corporate segments, and develop Internet banking for corporate cash management.

Electronic Channel (e-Channel)

The development of the global world economy and the competition for digital services in the financial business industry requires the banking industry to continue to innovate and follow the development of digital financial services in line with the growing needs of customers for banking transactions. Bank Mega plays an active role and contributes to the development of payment system services and electronic banking services, especially in Indonesia.

Bank Mega plays an active role in the development of payment systems and electronic banking services, namely by following the development of government programs in payment systems such as QRIS (Standard Indonesian QR) and SNAP (National Open API Payment Standard), where the feature development is mainly focused on the development of mobile banking services. M-Smile.

With the development of NFC (Near Field Communication) technology, Bank Mega has also developed a payment system for M-Smile using a contactless credit card. Based on the digital display of credit cards, which enables customers to conduct e-commerce transactions without waiting for the physical card to be received by the customer, it is hoped that this feature will enable Bank Mega to expand customer acquisition and also make it easier for customers to access banking services simply by using a smartphone.

Mobile Banking

In line with the evolving needs of customers to conduct banking transactions that are effective, fast, secure and easy to access anywhere and anytime, Bank Mega will continue to develop M-Smile services throughout 2023 in the form of additional services such as overseas transactions or QRIS Cross-Border in Malaysia and Singapore, developing the Loan On Card feature, namely applying for cash funds using the available credit card limit, displaying a digital credit card so that customers can conduct e-commerce transactions without waiting for a physical card, adding purchasing and payment features such as data package credit, multifinance payments, insurance and airline tickets.

Bank Mega's M-Smile electronic banking service is also equipped with a face verification process (Face Check Detection) to ensure customer security in accessing accounts and/or credit cards and making transactions safely and conveniently.

The growth in the value of M-Smile mobile banking transactions in 2023 compared to 2022 will increase by 73%, showing further potential for better customer growth and also an increase in the level of customer confidence in conducting transactions with M-Smile. M-Smile transactions in 2023 have reached 55.2 million transactions with a nominal transaction value of IDR. 36.3 trillion. Currently, M-Smile has recorded 784,118 users, this number has increased compared to 2022 of 581,311 users.

Internet Banking

In the rapidly developing era of digitalization of Internet services, Bank Mega continues to improve Mega Internet Banking services by adding various purchase and payment functions to meet the needs of its clients.

Bank Mega's Internet banking services consist of Individual Mega Internet, which is designed for individual clients, and Business Mega Internet, which is designed for corporate clients. The Individual Mega Internet service enables individual customers to conduct banking transactions anytime and anywhere through a website, while the Business Mega Internet service enables corporate customers to conduct banking transactions and manage their business activities.

The number of transactions recorded via Bank Mega's Internet Banking in 2023 reached 2.5 million transactions with a transaction value of Rp47.9 trillion. Meanwhile, the number of Bank Mega Internet Banking users stood at 23.101 users in 2023.

Developments made in ATM services in 2023 include adding multi-finance payment functions, insurance payments and also air ticket payments.

In 2023, the number of transactions made using ATMs reached 7.2 million transactions valued at IDR 2.4 trillion.

Management Discussion and Analysis

Bank Mega ATM is continuously developing and adding features such as additional payment functions for utilities, recharging, loans, e-commerce, cable TV & internet and various other types of payments to meet the banking needs of Bank Mega customers. Bank Mega ATMs are also in the process of developing an acquiring service network to be able to accept transactions from other bank cards from outside of Indonesia.

Debit Cards

ATM/Debit Card is a facility provided by Bank Mega to its savings product customers. The Bank Mega Debit Card can be used at physical merchants as well as online merchants. Customers who use the Bank Mega Debit Card get lifetime discount benefits on the CT Corp network and get discounts at other merchants such as e-commerce that cooperate with Bank Mega. The total transaction volume on debit cards reached Rp 411.03 billion with the number of transactions reaching 928.8 thousand transactions in 2023.

Electronic Money

Non-cash payment facilities have evolved into various payment instruments, one of which is electronic money. Electronic money is a form of money without physical money (cashless money), which is stored in the form of digital or electronic data. Types of electronic money based on storage media include server-based electronic money and card/chip-based electronic money. The advantages of electronic money compared to other non-cash payment instruments are easy registration and practical and safe use.

As a part of the instruments of the payment system, the use of electronic money in economic activities continues to grow. In 2023, the number of users of Bank Mega electronic money, both chip-based and server-based, reached 4.8 million users. Meanwhile, electronic money transactions have reached 683 million rupiah, dominated by QRIS transactions. Through the QRIS function of server-based e-money, cashless payments can be easily and efficiently made by e-money users via mobile phones.

Wealth Management

Bank Mega's wealth management services are not only limited to investment for the development of wealth, but also provide services in the form of protection for the protection of customer's wealth. With the support of branch offices and certified marketers, Bank Mega will assist customers in financial planning and management. Currently, customers can easily enjoy wealth management services through M-Smile, Bank Mega's mobile banking application. M-Smile allows customers to manage their portfolios anytime, anywhere.

Bank Mega actively provides information on wealth management services to customers through events in cooperation with the Ministry of Finance and investment manager partners.

In 2023, Bank Mega was appointed by the Ministry of Finance as a distribution partner for the offering of seven series of government bonds in the primary market, namely series SBR012, SR018, ST010, ORI023, SR019, ORI024 and ST011. There are other new investors who have started investing together with Bank Mega. In addition, Bank Mega actively markets government bond series in the secondary market on a daily basis.

In order to complete the product as part of the satisfaction of customer needs, Bank Mega collaborates with investment managers as professional management institutions to provide asset diversification options for customers through mutual fund products.

In addition to the development of investments, protection is also a step towards the protection of customers from various financial risks. Bank Mega is aware of this need and offers a wide range of insurance products that customers can choose in accordance with their needs, in collaboration with insurance partners, through both life and accident insurance products.

Wealth Management Assets Under Management (AUM) is Rp13.8 trillion by end 2023.

2024 Retail Fund Collection Strategy

All of the programs and initiatives that have been successful in promoting the growth of the DPK will continue to be implemented in 2024. The programs and initiatives that will be implemented are

- Acquiring the affluent segment by creating community events and the mass segment, especially the millennial segment, by introducing products that meet their needs.
- 2. Developing contactless and tap-to-pay debit cards to speed up transactions and increase transaction volume.
- Gradually developing M-Smile services with new features, including QRIS Crossborder, QRIS TTS/Tuntas, QRIS (Contactless), overseas remittances, financial management wallets, lifestyle services, payment acceptance services using M-Smile at merchants, and other service features.
- 4. Acquiring corporate customers in winning sectors, such as mining, digital companies, finance (insurance, etc.), and acquiring subsidiaries of big group customers who have joined.

- 5. Continuing the promotion of free transfer fee services is one of the bank's propositions, so with this promotion it is hoped that there will be an increase in transactions and funds.
- 6. Increasing the benefits of debit cards at strategic CT Corpora merchants and at non-CT Corpora merchants.
- 7. Attracting affluent customers with attractive savings programs.
- 8. Continually improve the quality and productivity of the sales force, particularly the megafirst and corporate sales forces.
- 9. Developing corporate Internet banking for corporate cash management.

Corporate Funding

Corporate funding is aimed at non-individual clients (companies). Bank Mega offers various products in terms of current accounts and term deposits in both rupiah and foreign currency. To support CASA growth, Corporate Funding cross-sells customers cash management services such as Virtual Accounts (VA), Payroll and Corporate Cards. In addition, Bank Mega also offers Corporate Funding customers attractive interest rates on corporate current accounts and fixed deposits.

Corporate Funding Strategy

During 2023, Corporate Funding re-profiled customers focusing on BUMN and Big Company customers. Corporate Funding strategy in 2023, namely:

1. Maximize customers from conglomerates, public service agencies (BLU), ministries and state-owned enterprises.

- 2. Maximize cash management sales to contribute to the growth of cheap funds (current accounts) at Bank Mega.
- 3. Offer selective interest rates to customers in order to reduce COF in accordance with Bank Mega's management strategy.

The Strategy prepared in 2023 is not yet optimal due to the very volatile and uncontrolled increasing market interest rates, which are expected to continue rising. The strategy to optimize the collection of corporate funds in ministries, BUMN and conglomerate companies has had a negative impact. BUMN banks also offer very competitive interest rates compared to the ability of the Bank to fund interest rates with KBMI 3.

Corporate Funding Performance

In 2023, the corporate funding collected deposits amounting to Rp34.33 trillion. The CASA ratio was 6% higher in comparison to 2022 with an increase in savings funds of Rp643 billion. However, there was a 33% yoy decline in total deposits.

2024 Strategy and Plan for Corporate Funding

The year 2023 will be a very challenging experience for Corporate Funding, especially in terms of deposit rate competition in a very uncontrolled market. Based on this experience, Corporate Funding has developed a strategy that will be implemented in 2024 in order to maintain the stability of third party funds in Corporate Funding.

The main strategy that will be implemented is to target NTB corporate customers with a size of Rp100 billion - Rp200 billion. This strategy will focus on new customers (NTB) who are subsidiaries of existing conglomerate customers and approach existing customers who have corporate suppliers or buyers from existing customers.

Existing customers who are active in deposit placement will also be approached to offer fund placement in current accounts. Increase the adoption and implementation of cash management so that it has a positive impact on increasing third party funds, especially in current accounts. The implementation of cash management can also generate fee-based income from transaction fees paid by customers through the bank's mega cash management channel.

Collaboration between Funding, Treasury and Lending will be further improved to maximize sales of Bank Mega products and Bank Mega Fee Based Income.

Credit

Bank Mega's business segments in credit disbursement activities are divided into corporate credit, commercial and retail credit (UKM and consumer), and indirect channel credit. In 2023, the outstanding credit disbursed by Bank Mega reached Rp66.4 trillion. The credit disbursement performance of each segment is shown below.

Corporate Credit

Throughout 2023, the total outstanding credit disbursed by the Corporate segment reached Rp45.22 trillion. This condition is Rp3.8 trillion smaller than the position in December 2022. This credit growth was not achieved mainly due to the repayment of one of the corporate debtors, which is quite significant. This segment's distribution is the largest, reaching 68.3% of the Bank's total credits.

In 2023, the corporate segment managed to record a profit of approximately Rp2 trillion and will continue to be the largest profit contributor, namely 87.7% in the Credit Directorate. The total net interest income of the corporate segment stood at Rp1.8 trillion in 2023. Another source of profit comes from fee income, amounting to Rp245 billion.

Retail Credit (SME & Consumer) and Commercial

In 2023, credit disbursement to the Retail (SME & Consumer) and Commercial segments reached approximately Rp3 trillion. The share of credit disbursement to the Retail and Commercial segments is 5% of the Bank's total outstanding credit.

The Retail and Commercial segments still need to focus on efforts to closely monitor the debtors who have benefited from the Covid-19 stimulus in the form of restructuring, as the global and national economic conditions have not

yet recovered. This requires the Retail and Commercial segments to ensure that the business conditions and payment of debtors' obligations to the Bank run well and in accordance with the plans agreed upon when the stimulus was provided, especially after the stimulus period ends. Even if this segment is not able to record a better profit than in 2022, it can still record net interest income of Rp79 billion.

Indirect Channels

The Indirect Channel segment managed to grow by Rp231 billion to approximately Rp11.7 trillion in 2023, or a growth of 2.02% compared to 2022. The distribution share in this segment is the second largest, reaching around 18% of the bank's total outstanding loans.

This segment was able to record a profit of Rp338 billion and contributed 15 percent of the total profit of the Credit Directorate. This figure is the second largest profit contributor in the Credit Directorate. The Indirect Channel segment recorded a net interest income of IDR 426 billion.

Strategy and Work Plan 2024

General credit strategies in 2024 include:

- Focusing loan growth on the corporate segment. Focus on lending to economic sectors that are still capable of positive growth under uncertain economic conditions, including national strategic projects and lending to conglomerate groups with strong finances, especially companies with solid ratings and financial conditions.
- Optimizing branches and regions to grow retail and commercial lending.
- Optimizing credit margins and fee income through appropriate pricing discipline.
- Deepening relationships and discipline in monitoring debtor companies.

Each segment has made plans for the strategy and focus to be developed to meet the challenges of 2024, namely:

Corporate Credit:

- Focus on corporate borrowers that belong to large conglomerates (have diversified businesses and excellent financial strength) and are backed by the owners of the conglomerate.
- Corporates will participate more actively in syndicated deals.

Indirect Channel Credit

- Focus on existing financial institutions/multifinances, including group partners.
- Focus on partners belonging to conglomerates/banks.
- Also focus on credit quality monitoring and end-to-end process monitoring.

Commercial and Retail Lending

- Optimize branches to initiate credit.
- Focus on cities that are business hubs, have potential for economic growth and are supported by adequate and ready infrastructure.
- Maintain existing loan portfolio and credit quality.

As part of the Bank's efforts to increase fee-based income, the Bank will be disciplined in the application of loan fees and will optimize the imposition of special fee income for high-risk loans. These efforts will also be accompanied by the optimization of trade finance services, namely the issuance of LC, SKBDN, Bank Guarantee and Standby LC on an ongoing basis. This is expected to increase marketing and cross-selling synergies in the context of increasing fee-based income.

Credit Card

2023 is a year of economic revival characterized by mobility and activities such as trade transactions and high traffic on tourist routes, both domestic and international. There is also a phenomenon of change in the way of transactions, where customers tend to avoid physical contact activities, which has led to an increase in contactless and cashless transactions.

However, throughout 2023, the credit card business will still face challenges in increasing revenue. This is because the easing policy is still being extended, namely Bank Indonesia Regulation No. 24/136/DKom dated May 24, 2022 regarding the reduction of credit card interest rates and the reduction of late fees. This policy has been extended until December 31, 2023. However, Bank Mega remains committed to continue to offer and develop/ innovate product features, technology, promotions and other services that meet customer needs.

Bank Mega's credit card business in 2023 has shown quite significant growth, which is reflected in the achievement of sales volume of IDR 19 trillion in 2023. The increase in sales volume was supported by the growth in domestic and international transactions, both online and offline. This growth was also followed by positive growth in the number of debit balances. Positive contributions were made by the online transaction segment and overseas

transactions, which contributed a positive growth of 34%. This achievement brings the credit card outstanding to 2023, which grew 2.34% to Rp6.33 trillion compared to the same period in 2022, amounting to Rp6.18 trillion.

In terms of the customer acquisition process, Bank Mega has relied on digitalization, where the process is paperless and uses all digital verification tools. This digitalization step, in addition to creating an efficient process, also strengthens the precautionary principle implemented as part of the strategy to keep the credit card portfolio in a healthy and high quality condition. As a result of this digitization, the credit quality of the portfolio has improved, as reflected in the reduction of the NPL ratio from 2.8% to 2.3%.

In 2023, Bank Mega introduced "Make It First" as an appreciation for the loyalty of Mega First Infinite credit card holders and other Mega credit cards by offering customers the opportunity to be the first to enjoy events held by Bank Mega, such as group viewing events and the opportunity to taste Baskin Robbins ice cream and feel the freshness of Re. Juve cold pressed juice by simply exchanging 1 MPC or the equivalent of Rp. 1,-.

The Mega Travel Fair has been held regularly every year (except during the pandemic) with a collaboration between PT Bank Mega Tbk and PT Antavaya Tour & Travel, a subsidiary of CT Corp and the favorite airline for Bank Mega credit card holders so that they have the opportunity to get their dream holiday to various places. Favorite destinations through attractive offers such as discounts of up to Rp3,000,000 + 5% for different travel products. The Mega Travel Fair also provides opportunities for people who want to have a Bank Mega credit card and immediately enjoy the ongoing promos because there is an instant credit card issuance program.

Mega Travel Fair 2023 will be running in 2 periods: the first period will be held from 9 February 2023 to 12 March 2023, and the second period will be from 10 August 2023 to 10 September 2023 in various cities such as Jakarta, Bandung, Surabaya, Bali, Makassar, and Samarinda as well as throughout Antavaya branch in Indonesia. The 2023 Mega Travel Fair event went very well and captured the enthusiasm of the Indonesian people.

The Ever-Increasing Trend of Digitalization in the Banking Industry

Digital transformation has brought various impacts, especially in people's lives, one of which is the use of various technologies in the financial services sector, which has brought significant changes to the banking industry. The change in people's transaction patterns towards digital has encouraged banks to accelerate the transformation process towards digital banking. Bank Mega's commitment is to continue to provide good digital banking services and also maintain the precautionary principle to provide comfort and security to customers so that they can manage banking activities independently.

Bank Mega also continues to improve the digitization process to increase customer satisfaction by providing comfort and convenience. Customers are provided with convenient access to banking through the M-Smile application, which is continuously enhanced by adding credit card functions such as applying for a credit card, activating a credit card, converting transactions to installments, setting limits, updating customer data, and setting a card block in case of loss, without having to visit the Bank Mega branch or contact the call center.

As a processing bank (acquiring bank), Bank Mega also participates in supporting regulatory policies so that they can continue to increase digital transactions, one of which is through QRIS. Bank Mega is part of the QRIS Cross Border project which is applied in 3 countries such as Malaysia, Thailand and Singapore. Bank Mega is also developing its current payment gateway capabilities to conduct online transactions to meet the transaction needs of merchants.

The Importance of CT Corp's Synergy Role with Bank Mega Credit Cards

Bank Mega is a bank that has an ecosystem advantage under CT Corp's business network, and Bank Mega will consistently continue to have synergy in the development of the banking business in order to provide benefits to credit card customers in meeting their needs. Bank Mega customers can also enjoy various additional benefits such as discounts and attractive offers in many merchant categories such as retail, lifestyle, entertainment, hotels, travel and others.

The synergy with other subsidiaries of CT Corp. is one of the strengths of Bank Mega in optimizing and making Bank Mega credit products have many benefits and advantages over other credit cards.

As a form of appreciation for customer loyalty, both credit cards and savings, Bank Mega offers MPC Points that are integrated and accessible on all CT Corpora ecosystem platforms. Customers benefit from every credit card purchase or accumulated savings balance by receiving rewards in the form of MPC Points. The collected points can be 100% redeemed for purchases at merchants that are members of the CT Corp ecosystem with a nominal value of 1 point, which is equivalent to 1 rupiah. Merchants can offer rewards such as free flights by redeeming MPC Points at Antavaya, discounts on daily necessities at Transmart, or redeem them to buy the latest fashion at Metro Department Store.

Food & Dining

Bank Mega Credit Card customers with culinary hobbies can also enjoy special offers as Bank Mega has a Bank Mega Dining Together Program with discounts of up to 50% in partnership with hundreds of restaurants and cafes across Indonesia. In addition to the Bank Mega Credit Card, it also offers exclusive offers throughout the year specifically at Trans F&B merchants in the form of discounts of up to 50% at Coffee Bean and Tea Leaf, Baskin Robbins, Wendy's, Warung Wardani, Gyukatsu and Tasty Kitchen.

Fashion & Lifestyle

Especially for fashion lovers and cardholders who like to collect their favorite brand items at Trans Fashion, the Bank Mega Credit Card offers a special discount offer of up to 20% for the MegaFirst Infinite Credit Card and 10% discount for other Bank Mega Credit Cards at more than 50 Trans Fashion outlets with the brands Aigner, Canali, Furla, Geox and Hugo Boss. Travel & Leisure Despite the fact that the tourism and industrial sectors are the most affected by the COVID-19 pandemic, Bank Mega continues to collaborate with Antavaya Tour & Travel and go.com (the online platform of the Antavaya Group), offering tickets, accommodation, tourist packages and various other privileges. The benefits obtained by using a Bank Mega credit card include: special prices for the purchase of tour packages, competitive international ticket prices and a low-interest installment facility program. As well as special offers of discounts of up to 10% for MegaFirst Infinite Credit Cards at all AntaVaya outlets throughout Indonesia. Metro Department Store is one of the companies under CT Corp that bridges lifestyle needs by offering quality clothing and accessories products. The company's philosophy is to provide a comfortable and enjoyable shopping environment and experience. Bank Mega and Metro Department Store have collaborated to create an exclusive program for all Bank Mega credit card

holders, namely a 10% discount and redeeming reward points that can be enjoyed throughout the year.

Travel & Leisure

Despite the fact that the tourism and industrial sectors have been severely affected by the COVID-19 pandemic, Bank Mega continues to collaborate with Antavaya Tour & Travel and go.com (the online platform of the Antavaya Group), providing tickets, accommodation, tour packages and various other privileges. Among the benefits obtained by using a Bank Mega credit card are: special prices for the purchase of tour packages, competitive international ticket prices and a low-interest installment program. As well as special offers of up to 10% discount for MegaFirst Infinite Credit Cards at all AntaVaya outlets throughout Indonesia.

Metro Department Store is one of the companies under CT Corp that bridges lifestyle needs by offering quality clothing and accessories products. The company's philosophy is to provide a comfortable and enjoyable shopping environment and experience. Bank Mega and Metro Department Store have collaborated to create an exclusive program for all Bank Mega credit card holders, namely a 10% discount and redemption of reward points that can be enjoyed throughout the year. Alternative family vacations at Trans Studio Cibubur, Bali, Makassar and Bandung, which offer exciting and interesting rides, as well as Indonesia's first snow playground at Trans Snow World Juanda Bekasi, will remain open throughout 2022, albeit with limited operations. The Bank Mega credit card offers an economical vacation with discounts of up to 25% on Trans Studio tickets. Apart from enjoying the rides, Trans Studio Bandung Integrated Area also offers opportunities to indulge by shopping at Trans Studio Mall or staying at Trans Luxury Hotel Bandung, Trans Resort Bali, Love Fashion Legian and IBIS Hotel Bandung. Bank Mega Card holders can enjoy stay offers at special prices and discounts of 50% for weekdays and 25% for weekends.

Grocery Stores

Transmart Carrefour Indonesia, a shopping center with hypermarket concept under PT Trans Retail Indonesia, which has a one-stop shopping concept, was introduced to offer a variety of products at low prices and the best service. Bank Mega has cooperated with all Transmart stores to provide the best benefits for all Bank Mega credit card holders by offering a 10% discount and redeeming reward points that can be enjoyed every day throughout the year.

Media & Entertainment

TRANS TV, TRANS7, CNN Indonesia and Detikcom are also companies under the flagship of TRANSMEDIA. Together with Bank Mega, TRANSMEDIA is working together to increase brand awareness and provide various promotional program options, especially for Bank Mega cardholders and the general public. Of course, with TRANSMEDIA, it will be easier for Bank Mega to promote the innovations that are and will be carried out by Bank Mega.

Financial Institutions

CT Corp also has several financial institutions, such as Mega Insurance, which provides general insurance services, and PFI Mega Life, which provides life insurance services. The purpose of Bank Mega and the two insurance companies mentioned above is to assist credit card holders in financial planning, personal protection, and ownership of valuables.

Shopping Mall

The synergy with CT Corp Group in the area of retail shopping malls makes it easier for Bank Mega to carry out credit card customer acquisition activities and increase awareness through mall branding. Trans Icon Mall Surabaya, which will be inaugurated in August 2022, completes the mall network that was previously spread across various major cities in Indonesia.

2024 Strategy

Bank Mega is committed to and will consistently maintain synergy with the CT Corp ecosystem, as well as leverage the bank's strengths to achieve credit card growth by offering additional products or services to customers, both funding customers, corporate funding customers and lending customers. Bank Mega will also participate in supporting the digital transformation process through the development of the M-Smile service, which aims to meet needs and provide digital convenience through digital-based credit card product features. It is hoped that Bank Mega's initiatives in 2024 will receive a positive response, such as the virtual credit card feature, this card will make it easier for customers to make faster and safer transactions, and this card can be used anytime and anywhere for online and offline transactions.

Digital Marketing

The digital marketing channel managed to acquire 25,266 new credit card customers in 2023, or 245% growth compared to 2022, when 7,322 new credit card customers were acquired. The share of the additions in this channel is the second largest, reaching approximately 30% of the total growth of the new credit card customers of the Bank.

With various digital marketing campaigns throughout 2023, we managed to increase the satisfaction and loyalty scores of credit card customers from -27.1 to 9.8, as well as those using the M-Smile application from 4.9 to 27.3 at the end of 2023.

Net Promoter Score

Treasury & Financial Institutions

A. Treasury

In 2023, Indonesia's economic growth is likely to be was considered sustained still sustainable amidst an increase in global economic turmoil. The world economy iwas confronted with a rise in global inflation, which in turn triggers an aggressive global monetary tightening response through a policy of high interest rates for an extended period of time (higher for longer). This is exacerbated by growing risks, such as China's real estate problems and several US banks with high exposed exposure to in the technology sector failing. In the midst of these global economic and financial system challenges, the role of the financial sector in the domestic economy remains intact. Indonesia's economic growth has resumed its upward trend. This growth, which remains strong amid declining export performance due to the slowing economy and global commodity prices, is mainly driven by strong domestic demand in line with higher growth in household and government consumption and increased investment.

In 2024, the global economy is expected to continue to slow down, especially as a result of the aggressive monetary policy in 2023, amid inflationary pressures that are starting to ease in the second half of 2023.

Investors' views on the Indonesian economy remain positive on the back of the country's strong economic growth outlook and improvement in domestic demand. The Federal Reserve's policy remains an important factor influencing the global economy. An increase in the Fed

Funds rate will lead to a widening of the interest rate differential. However, the Fed's policy calibration is expected to moderate the strengthening of the dollar index. The FED has the potential to slow down the aggressiveness of the Fed Funds rate hike in the United States. In 20232024, the FED is also expected to stop the cycle of rising interest rates amid improvements in the global economy.

In Indonesia, Bank Indonesia's decision to raise interest rates has been taken as a preemptive and forward-looking step to reduce inflation expectations that are currently still high and to ensure that future core inflation returns to the target of 3.0 \pm 1% sooner, i.e. by the first half of 20243, as well as to strengthen the policy to stabilize the rupiah exchange rate so that it is in line with its fundamental value due to the strong US dollar currency and high uncertainty in global financial markets, while domestic economyic demand remains strong. Bank Indonesia also continues to strengthen its policy mix response to maintain the stability and momentum of the economic recovery through monetary operations and strengthening the stabilization of the rupiah exchange rate by remaining in the market as part of the efforts to control inflation.

The impact of Bank Indonesia's policy directly increases liquidity in the banking system. However, this increased liquidity does not directly affect bank lending. Instead, it increases bank investment, especially in securities.

Market developments in line with the normalization of global economic policies, where almost all central banks are raising interest rates to fight inflation, will was also provide an interesting dynamic for Treasury to capitalize on. Treasury will taketook advantage of the momentum of economic recovery, which is expected to increased the income of the Treasury business segment.

Under these conditions, Bank Mega Treasury is actively and conservatively managing its business. It is prudently maintaining its asset and liability portfolio so that it can continue to generate profits while paying attention to liquidity. Amidst challenging and uncertain economic conditions that will remain uncertain in 2023, Treasury iwas still positioned to capitalize benefiting on the market volatility that exists in the market. The following are the substantive steps that will be has been taken by the Treasury over the course of 2023.

- Continue to invest the Bank's excess liquidity in assets with relatively lower risk, namely government bonds and also placements with Bank Indonesia, while seeking the best return commensurate with the risks faced in order to optimize the Bank's income.
- 2. Manage the funding gap between assets and liabilities in such a way that the Bank is secure enough to maintain its liquidity on a daily basis.
- Maintain High Quality Liquid Assets (HQLA), Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) to ensure the stability of the bank's liquidity at all times.

The aforementioned strategies are able to maintain the income of the Company in the midst of the challenges of the uncertain economic conditions in 2023, while maintaining the liquidity. Revenues are primarily generated from net interest income on securities assets.

B. Global Markets

2024 will be another interesting year for Indonesia's financial industry. The outlook for the domestic economy remains good amidst the potential for a global economic slowdown; Indonesia's GDP growth is expected to remain stable in 2024, supported by the potential for increased campaign spending ahead of the presidential election (Pilpres) in February and the simultaneous regional elections in November. It is hoped that the election will help restore the purchasing power of society at large.

Fundamentally, investors' view of the Indonesian economy remains positive. This is in line with Indonesia's economic growth outlook, which remains strong and domestic demand is improving. It is also estimated that global inflationary pressure is expected to ease in 2024, which is expected to cause global financial markets to start

recovering. In the midst of these various conditions, the company's focus is to remain active in financial market activities so that it can be a significant contributor to the company's overall performance, while always being mindful of compliance and risk corridors.

Global Market Sales (GM Sales)

Running In doing businessa, Global Market Sales business requires a strong knowledge skill of the global marketplace, which has become highly more competitive. This expertise is combined with a deep understanding of the local market and innovation to increase competitiveness and offer competitive prices. The company also remains committed to providing the best service to customers. These various efforts are necessary to improve GM Sales' competence and capability in the marketing of providing Global Markets products to its Customers.

The Company has been encouraged to increase the synergy with internal parties related to the marketing of to provide Global Markets products due to the increasing level of competition among banks to increase customer market share. The marketing, character, risks, and product transparency of Global Markets products will be maintained so that they are in compliance with applicable regulations.

In 2023, Global Markets Sales is more sophisticated in seeing customer needs for Global Markets products such as bonds, foreign exchange products and derivative financial products.

Global Markets Trading (GM Trading)

In 2023, Global Markets Trading wais positioned to capitalize took benefit on the opportunities that exist in the marketplace. Economic indicators, especially in the advanced economies, show uncertainty in global economic movements amidst an improvement in inflation levels towards pre-pandemic levels, especially in the advanced economy countriesies. Sentiment in the financial markets tends to be positive. This is , supported by growing expectations for the end of the global interest rate hike cycle, following the release of the U.S. employment data and the continued decline in the inflation rate. Optimism wais also being influenced by the introduction of fiscal, monetary and financial sector stimulus measures in China to stem the decline in economic output, including the resolution of problems resolve problems in the real estate sector.

Meanwhile, global geopolitical tensions are on the rise as a result of the ongoing conflict in the Middle East and the victory of the right wing in several countries. However, the impact on oil and energy prices is still limited in light of the ongoing trend of weakening demand. In addition, the pressure from rising food commodity

prices is expected to was easinge as the El Ninño phenomenon weakenssubsided.

These developments have contributed to the strengthening of global financial markets. They have also boosted demand for equity, debt, and foreign exchange. Non-resident investors are also beginning to enter emerging market financial markets. All of theseis provides an opportunity for the Global Markets Trading team to engage in day-to-day activities to generate fee-based income. Synergies with the Global Markets Sales team will continue to be realized by offering competitive pricing to achieve market share targets while maintaining strict compliance with internal, external and regulatory requirements.

By In 2024, GM Trading anticipates that the foreign exchange and fixed income markets will remain active with all existing factors on both the domestic and international markets. GM Trading will continue to take an active part in the exploration of the market penetration, while still paying attention to the existing situation and conditions.

Meanwhile, for the bond market, overall interest rates seem towill start to decline in 2024. GM Trading will need to actively participate in the market penetration deepening in both in Rupiah bonds and other currencies such as US dollar bonds in order to maintain fee-based income. In 2024, it is estimated that global interest rates will decline as inflation is brought under control due to economic recovery, so it is necessary to be more active in order to maintain fee income.

C. International Banking & Financial Institution (IBFI)

After the pandemic conditions, which have started to improve, IBFI continues to carry out activities in order to achieve the objectives, making several adjustments, especially in terms of meetings with bank and non-bank clients, face-to-face or via zoom meetings.

Statistically, during 2023, the IBFI team held meetings with existing and potential clients an average of 12 times in a period of 1 month, resulting in an increase in the number of current accounts of more than 90% over the previous year.

The activities of IBFI through the financingfunding products and the products related to the treasury transactions and the trade finance transactions, showed an increase in the achievement of revenues every year. This is reinforced by regular monthly KPI monitoring, and also better with the changes in customer service and better client management implemented in 2022, where face-to-face meetings with bank and non-bank customers were conducted, resulting in the addition sharp increase of new customers has increased quite strongly this year.

During For In 2024, IBFI will continue to seek new clients and also deepen its bank and non-bank clients by marketing IBFI's core business, namely bank and non-bank funding and trade finance transactions from foreign banks and local banks. In addition, IBFI will continue to support Global Markets sales team in line with the increasing number of treasury transactions.

Treasury & Financial Institutions Strategy for 2024 For In the year 2024, the Treasury & Financial Institutions (TSFI) business will continue to focus on a client-centric business model. This will be achieved through the implementation of a strategy that will provide a complete financial market services with complete solutions that cover all market segments (foreign exchange, interest rates and derivatives).

In line with TSFI's commitment to be the customer's first choice, the company will be strongly focused on customer service. At the same time, it will continue to monitor market developments. This will enable it to create a sustainable and profitable business model for both clients and the bank.

In 2024, there will still be a number of some challenges that will have an impact on the bank's performance, especially in the TSFI business segment. The economyic recovery is expected to increase the opportunities for Treasury to conduct day-to-day activities to generate fee income and capital gains.

The Company will continue to pursue TSFI's key priorities in 2024 in order to achieve sustainable growth, namely

- a. Optimize transactions with retail customers, especially the MegaFirst segment.
- b. Promote cross-selling to corporate clients, both lending and funding, with products that meet their needs.
- Continue to market current Treasury products such as FX, FX Swap, DNDF, FX Option, CCS, IRS, Call Spread Option, Bond Option, Bond Linked Investment to meet client needs by organizing client events, client calls and regular market updates to existing and potential clients.
- d. Support the development of electronic channel platforms and encourage clients to trade through existing electronic channels.
- e. Develop synergies with the current banking ecosystem, namely with the companies of the CT Corpora Group, both in terms of products, customers and risk monitoring, in order to be able to develop together, in line with the strategy and risk appetite of the CT Corpora Group.

f. Anticipate and provide input to regulators in the issuance of new regulations that will develop financial markets.

For a more detailed explanation of profitability based on geographical segments, please refer to Note No. 38 of the Audited Financial Report attached to this Annual Report.

Marketing Aspect

The expectation of market growth is also a function of the determination of the right marketing strategy. This is important to increase the penetration of products and services offered to customers. Therefore, the bank conducts market mapping in order to be able to use the right medium to convey messages.

Marketing Strategy

The focus of Bank Mega's marketing strategy is digital marketing. Changes in people's behavior, which demand ease and speed of digital transactions without having to go to a branch, and which can be done anytime and anywhere, have become a guideline in determining marketing strategies. As a result, the bank is constantly updating the features of the M-Smile application to provide customers with an interesting experience in addition to the ease of transactions.

In addition, the bank's marketing strategy also optimizes the competitive advantage of Bank Mega, which is part of the CT Corp Group. The bank synergizes with various CT Corp Group companies so that customers can enjoy various discounts and attractive offers when making transactions using Bank Mega debit or credit cards in all CT Corp businesses, including financial products, retail, entertainment and others.

Another marketing strategy is that Bank Mega actively carries out various marketing programs that are attractive to customers. Bank Mega introduced Bikin Jadi Pertama as an appreciation for the loyalty of Mega First Infinite credit card holders and other Mega credit cards by providing a customer experience to become the first to enjoy events that will be held by Bank Mega, such as the Inviting Customers to Watch Together program; Invite to Eat Ice Cream for Only IDR 1 MPC Point; and Invite Customers to Drink Healthy Juice Rp. 1.

Marketing strategies include carrying out digital campaigns by utilizing social media such as Instagram, Facebook, X (Twitter), and TikTok.

Market Share

Bank Mega's market share has been explained in this chapter, which explains the bank's position in the Indonesian banking industry.

Financial Review

Standards for Presenting Information and Compliance with Financial Accounting Standards

In accordance with the Financial Services Authority Regulation (POJK) No. 14/POJK.04/2022 on the filing of periodic reports for issuers or public corporations, PT Bank Mega Tbk has filed periodic financial reports with the Financial Services Authority and the Indonesian Stock Exchange and announced periodic financial reports to the public. Specifically, the audited financial reports were submitted to the Indonesian Stock Exchange on January 30, 2024.

Public Accounting Firm (KAP) Amir Abadi Jusuf, Aryanto, Mawar & Rekan completed the audit of financial statements as of December 31, 2023 and signed by the Company's directors on January 26, 2024. The audit was conducted by Bimo Iman Santoso, Certified Public Accountant, with Public Accountant Practice License No. AP.1298.

KAP stated that the financial statements present fairly, in all material respects, the financial position of PT Bank Mega Tbk as of December 31, 2023, and its financial performance and cash flows for the year then ended in accordance with Indonesian Accounting Standards.

This financial review has been prepared on the basis of the statement of financial position of PT Bank Mega Tbk as of December 31, 2023, and the statements of profit or loss and other comprehensive income and statement of cash flows for the year then ended in accordance with Indonesian Accounting Standards.

Consolidated Statement of Financial Position

Bank Mega recorded total assets of Rp132.05 trillion in 2023 with a decrease of 6.84% yoy. Compared to the previous year's value of Rp141.75 trillion, this decrease was mainly influenced by a 7.18% decrease in financial assets from Rp133.02 trillion in 2022 to Rp123.46 trillion in 2023. Moreover, non-financial assets dropped by 1.64% yoy from Rp8.74 trillion last year to Rp8.60 trillion in 2023.

In line with the reduction in total assets, Bank Mega also recorded a lower level of liabilities in 2023, amounting to Rp110.29 trillion. The decrease of 8.94% yoy compared to the previous year was mainly due to the reduction of financial liabilities by 9.11% yoy from Rp120.33 trillion in 2022 to Rp109.37 trillion in the following year. Meanwhile, non-financial liabilities increased by 18.08% yoy from Rp782.55 billion in 2022 to Rp924.06 billion in 2023.

(Expressed in millions of Rupiah)

Description	2023	2022	Changes	
Description	2023	2022	Nominal	(%)
Financial Assets	123,454,294	133,011,537	(9,557,243)	(7.19%)
Non Financial Assets	8,595,297	8,738,912	(143,615)	(1.64%)
Total Assets	132,049,591	141,750,449	(9,700,858)	(6.84%)
Financial Liabilities	109,370,093	120,334,219	(10,964,126)	(9.11%)
Non Financial Liabilities	924,055	782,550	141,505	18.08%
Total Liabilities	110,294,148	121,116,769	(10,822,621)	(8.94%)
Total Equities	21,755,443	20,633,680	1,121,763	5.44%
Total Liabilities, Temporary Syirkah Funds, and Equities	132,049,591	141,750,449	(9,700,858)	(6.84%)

Despite the decline in assets and liabilities, Bank Mega managed to increase its equity 5.44% yoy from Rp20.63 trillion in the previous year to Rp21.76 trillion in 2023. This increase is in line with the higher retained earnings in 2023.

Financial Assets

Bank Mega reported that its financial assets stood at Rp123.45 trillion with a decline of 7.19% yoy. Compared

to the previous year's Rp133.01 trillion, this decrease was mainly due to a 5.78% yoy reduction in loans – net to Rp65.69 trillion from Rp69.72 trillion the previous year. Apart from this, placement with Bank Indonesia and other banks also fell by 63.42% yoy from Rp9.16 trillion to Rp3.35 trillion.

Cash

Bank Mega's cash dropped by 5.15% yoy to Rp855.22 billion in 2023 from Rp901.62 billion the previous year. This decrease was mainly cash denominated in the US Dollar from Rp119.50 billion in 2022 to Rp65.00 billion the following year.

Current accounts with Bank Indonesia

Bank Mega's current accounts with Bank Indonesia decreased 21.51% yoy to Rp6.82 trillion in 2023 from Rp8.69 trillion last year. The Bank is required to maintain minimum statutory reserves (GWM) in Rupiah for conventional banking activities and statutory reserves in foreign currencies for foreign exchange transactions. The Bank's Minimum Statutory Reserve are calculated based on Board of Governors Member Regulations (PADG). Please refer to the financial ratios section for a more detailed explanation of the GWM ratio.

Current accounts with other banks - net

Current accounts with other banks - net held by Bank Mega declined from Rp757.62 billion in 2022 to Rp644,67 billion in the following year. This decrease is mainly due to the decrease in these accounts denominated in foreign currencies.

Based on Bank's management's review and evaluation, all current account with other banks is classified as current. Moreover, the Bank's management believed that allowance for impairment losses in period 2023 and 2022 is adequate.

Placement with Bank Indonesia and other banks Bank Mega recorded a significant reduction in placements with Bank Indonesia and other banks from Rp9.16 trillion in 2022 to only Rp3.35 billion in 2023. This decrease is due to the fact that deposit facilities of Bank Indonesia are no longer recorded in the Rupiah currency in 2023 compared to Rp2.30 trillion last year.

Based on the Bank's management review and evaluation, all placement with other banks were classified as current. The Bank's management believed that allowance for impairment losses in 2023 is adequate.

Securities - net

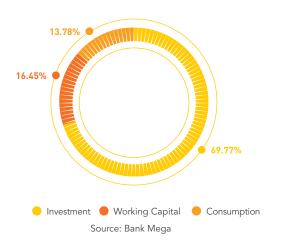

Bank Mega's securities - net decreased to Rp37.62 trillion from Rp39.18 trillion in 2022. This decrease of 3.96% yoy was mainly due to the reduced impact in the form of Indonesian government bonds denominated in rupiah on the basis of fair value through other comprehensive income to Rp29.89 trillion in 2023, lower than Rp36.82 trillion in 2022. Bank Mega also recorded Bank Indonesia Rupiah Securities (SRBI) worth Rp4.94 trillion. These securities were issued by Bank Indonesia in 2023.

Based on the Bank's management review and evaluation, all securities as at December 31, 2023 and December 31, 2022 were classified as current. The Bank's management also believed that allowance for impairment losses in period 2023 and 2022 is adequate.

Securities purchased under agreement to resell

Bank Mega recorded securities purchased with promise to resell in 2023 worth Rp7.21 trillion. This is higher than Rp3.25 trillion in the previous year. This transaction was carried out by Bank Mega with Bank Pan Indonesia, Bank Victoria International, and Bank Indonesia as the counterparties to the transaction.

Loans - gross composition in 2023

Derivative receivables

In 2023, Bank Mega reported Rp20.94 billion of derivative receivables. Compared to the previous year of Rp10.12 billion, this result is 107.27% yoy higher. There are four types of transactions carried out by Bank Mega in relation to foreign exchange rates, namely spot purchase, spot sale, swap, forward sale and option sale transactions.

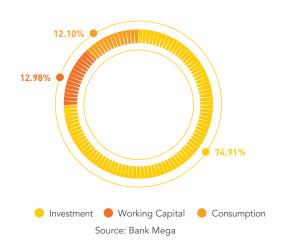

Based on the Bank's management review and evaluation, all derivatives receivables as at December 31, 2023 and December 31, 2022 are classified as current.

Loans - net

The distribution of credit - net by Bank Mega fell by 5.78X% yoy to Rp65.69 trillion in 2023. This lower performance from the previous year's Rp69.72 trillion was mainly influenced by lower credit to third parties throughout 2023. Credit to third parties - gross dropped by 6.40% yoy from Rp69.43 trillion in 2022 to only Rp64.99 trillion in the following year.

Meanwhile, based on the type of credit, the decline in credit disbursement - gross is mainly due to the lowering investment credit to third parties. This credit disbursement stood at Rp46.26 trillion in 2023, lower than Rp52.67 trillion in the previous year. On a cumulative basis, the contribution of investment credit is still the largest at 69.77% and 74.91% in 2023 and 2022, respectively. The following table shows the composition of loans by type:

Loans - gross composition in 2022

Bank Mega also distributes its loans by means of cooperation with other banks or by means of syndication. Cumulatively, the bank's syndicated loans reached Rp4.02X trillion in 2023, compared to Rp4.54 trillion last year. The participation of the Bank, as a member of the syndicate, amounts to 0.14-13.6% % in 2023 and 1-25 % in 2022.

Meanwhile, in terms of micro, small and medium enterprises (MSME) loans, Bank Mega reported that the ratio of MSME loans to total loans as of December 31, 2023 and December 31, 2022 is 18.07% and 13.85%, respectively.

Bank Mega also distributes joint financing loans with related parties, namely PT Mega Central Finance, PT Mega Auto Finance and PT Mega Finance, which cumulatively stood at Rp10.42 trillion or more in 2023, compared to Rp9.24 trillion in the previous year. Joint financing facilities with the related parties are made on a without recourse basis.

Nevertheless, as at December 31, 2023 and December 31, 2022, there were no any breach nor violation of Legal

Lending Limit (LLL) to related parties and third parties as required by The Financial Service Authority regulations.

Acceptance receivable - net

Bank Mega did not recorded net acceptance receivables in 2023, down from Rp52.97 billion a year earlier.

Other assets - net

Bank Mega's other assets, which are included in the financial assets' category, are interest receivables, security deposits, rent receivables, and restricted assets, which are included in other assets. Cumulatively, this account reached Rp1.23 trillion in 2023 from Rp1.28 trillion last year.

Non-Financial Assets

On a cumulative basis, Bank Mega's non-financial assets reached Rp8.60 trillion, a decline of 1.64% yoy compared to the previous year's Rp8.74 trillion. This decrease was largely due to the decline in fixed assets and right-of-use assets - net by 2.65% yoy to Rp6.20 tillion.

(Expressed in millions of Rupiah)

Description	2022	2022	Char	nges
Description	2023 2022	2022	Nominal	(%)

Liabilities due immediately

Bank Mega's current liabilities increased by 20,60% yoy to reach Rp296,18 billion in 2023 compared to Rp245.59 billion a year earlier. Obligations due immediately mainly consist of clearing transactions or unsettled customers' money transfer and deposit of tax payments which has not yet been transferred to the account of Kantor Perbendaharaan dan Kas Negara (KPKN) in relation with the Bank's function as Collecting Bank.

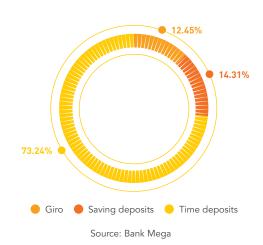

Deposits from customers

The total customer deposits or third-party funds (DPK) of Bank Mega dropped by 13,13% yoy to Rp89,44 trillion in 2023. This decrease as compared to Rp102.95 trillion in 2022 was mainly due to the lower amount of time deposits collected by the Bank. Bank Mega's time deposits amounted to Rp63.65 trillion in 2023, down from Rp75.40 trillion in 2022. The contribution of time deposits to the total savings of customers reached 73.24% or higher in 2022, compared to 71.17% in 2023. Thus, the CASA ratio of the Bank reached 28.83% in 2023, higher than the 26.76% in 2022.

Third-party funds composition in 2023

Third-party funds composition in 2022

Deposits from other banks

Bank Mega also recorded deposits from other banks amounting to Rp3.87 trillion in 2023, 150.38% higher yoy from Rp1.55 trillion in the previous year. This increase was mainly due to higher deposits from other banks in Rupiah to Rp3.41 trillion in 2023, up 196.09% yoy from Rp1.15 trillion in the previous year.

Bank Mega posted deposits from related parties to reach Rp1.19 trillion in 2023, up 110.10% yoy from Rp568.74 billion in the previous year. The outstanding balances of deposits from related parties represents deposits from PT Bank Mega Syariah, PT Bank Pembangunan Daerah Sulawesi Utara dan Gorontalo, PT Bank Pembangunan Daerah Sulawesi Tengah and PT Allo Bank Indonesia Tbk.

Securities sold under repurchased agreements

Securities sold under repo transactions fell by 5.20% from Rp13.26 trillion in 2022 compared to Rp12.57 trillion in 2023. This is in line with the decline in Bank Mega's repo value in 2023, although the counterparties are more diverse compared to the previous year. Bank Indonesia was the only counterparty for Bank Mega's repo transactions in 2022.

Derivatives payable

In line with the decrease in derivative assets, Bank Mega recorded lower derivative liabilities of Rp18.93 billion. In the previous year, the derivative liabilities amounted to Rp66.82 billion.

Fund Borrowings

Bank Mega's fund borrowings raised by 56.73% yoy from Rp1.86 trillion in 2022 to Rp2.91 trillion in the following year. This increase was mainly influenced by acquiring the US Dollar denominated loans received from Bank BCA and Citibank in 2023, which cumulatively reached Rp1.45 trillion.

Acceptance payable

Bank Mega reported an accepted debt amounting to Rp53.03 billion in 2022. However, this account was no longer recorded in 2023.

Subordinated Bonds - net

Bank Mega issued Rp50.00 billion subordinated 2020 bonds with a 5-year maturity. The issuance of the subordinated bonds is to comply with the provisions of POJK No.14/POJK.03 / 2017 dated April 4, 2017 concerning the Recovery Plan Report for Systemic Bank. The structure of this subordinated bond is explained in the Financial and Operational Highlights of this Annual Report.

Other liabilities

Bank Mega's other liabilities, which are a part of its financial liabilities, reached Rp214.18 billion in 2023 as compared to Rp302.81 billion in the previous year. This account consists of interest payable and security deposit.

(Expressed in millions of Rupiah)

Description	2023	2022	Char	nges
Description		2022	Nominal	(%)
Income taxes payable	59,596	143,076	(83,480)	(58.35%)

Non Financial Liabilities	924,055	782,550	141,505	18.08%

Non-Financial Liabilities

Cumulatively, non-financial liabilities raised by 18.08% yoy from Rp782.55 billion in 2022 to Rp924.06 billion the following year. The decline is primarily due to deferred tax liabilities - net raising to Rp156.81 billion in 2023.

Income taxes payable

The bank's income tax liability stood at Rp59.60billion in 2023, declining by 58.35% yoy. In the previous year, this account amounted to Rp143.08 billion.

Deferred tax liabilities - net

Bank Mega recorded a deferred tax liability - net of Rp156.81 billion in 2023. In the previous year, the bank's deferred tax liabilities were Rp49.00 billion.

Post-employment benefits liability

The post-employment benefit liability reached Rp277.53 billion in 2023. This account grew by 14.80% yoy as compared to Rp241.75 billion in the previous year.

Accrued expenses and other liabilities

This account consists of obligations on securities purchased, lease obligations, accrued expenses, etc. Cumulatively, the accounts included in the non-financial liabilities' category reached Rp430.12 billion in 2023, lower than the previous year's figure of Rp348.73 billion.

Interest income

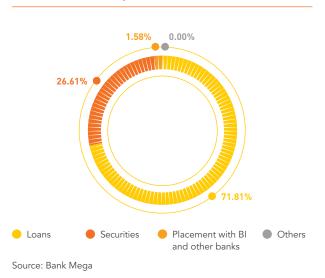

In spite of recording a slowdown in bank loans, Bank Mega managed to increase interest income by 12.66% yoy to reach Rp10.22 trillion in 2023. Compared to the previous year's Rp9.07 trillion, this increase in interest income was influenced by the higher lending rates, which was in line with the rising benchmark interest rate.

Interest income from loans makes the largest contribution, amounting to 75.35% in 2023 and 71.81% in 2022. Another double-digit contribution to interest income is provided by securities, which amounts to 23.33% and 26.61% in 2023 and 2022, respectively. The composition of Bank Mega's interest income is as follows:

Interest income composition in 2023

Interest income composition in 2022

Interest expense

The composition of the bank's DPK, which is dominated by time deposits in the amount of 71.17% in 2023 and 73.24% in 2022, has the effect of increasing interest expenses even though the amount of DPK has actually decreased. Cumulatively, Bank Mega recorded interest expense of Rp4.68 trillion with a growth of 46.42% yoy. Of this amount, interest expense from term deposits reached Rp3.45 trillion in 2023. This is an increase of 55.36% yoy from Rp2.22 trillion in the previous year.

Net Interest Income

The increase in interest expense, which was higher than the increase in interest income, caused the net interest income to decrease by 5.74% yoy to Rp5.53 trillion in 2023. In the previous year, the net interest income amounted to Rp5.87 trillion.

Other Operating Income

Cumulatively, Bank Mega recorded total other operating income of Rp2.29 trillion in 2023, down 8.38% yoy from Rp2.50 trillion last year. The decrease in total other operating income was mainly influenced by fees and commissions, which dropped to Rp1.67 trillion in 2023 from Rp1.92 trillion in the previous year. Meanwhile, gain on sale of securities - net of Bank Mega was up from Rp1470.74 billion in 2022 to Rp535.37 billion in 2023.

Other Operating Expenses

Cumulatively, Bank Mega's other operating expenses increased by 3.65% yoy to Rp3.49 trillion from Rp3.36 trillion last year. This higher profile is mainly due to 7.70% yoy increase in salary expenses and other allowances. This operating expense component stood at Rp1.46 trillion in 2023.

Meanwhile, provision for impairment losses on financial and non-financial assets - net will reach Rp195.32 billion in 2023, 32.11% higher than last year's Rp147.84 billion. This increased expense was influenced by the Bank's rising NPL ratio from 1.23% in 2022 to 1.57% in 2023.

Net Operating Income

Considering the achievement of net interest income, other operating income and other operating expenses explained above, Bank Mega recorded net operating income of Rp4.33 trillion in 2023. This income dropped by 13.38% yoy as compared to the previous year of Rp5.02 trillion in 2022.

Income Before Income Tax

Taking into account the net non-operating income of Rp10.25 billion in 2023, the bank's profit before tax reached Rp4.34 trillion in 2023. This figure is 13.63% lower yoy compared to Rp5.03 trillion in the previous year.

Net Income for The Year

Bank Mega's bottom line performance shows a 13.37% yoy decline in 2023. The bank's profit for the year stood at Rp3.51 trillion in 2023. This is compared to Rp4.05 trillion in the previous year.

Total Comprehensive Income for The Year

Bank Mega posted a total comprehensive income for the current year of Rp3.96 trillion in 2023. This includes other comprehensive income of Rp447.91 billion. This profile is higher than the previous year's figure of Rp4.29 trillion.

Statements of Cash Flows

Cash Flows from Operating Activities

Bank Mega recorded net cash used in operating activities reaching Rp10.34 trillion in 2023. This was mainly influenced by higher payments of interest and other financing

charges to Rp4.66 trillion compared to Rp3.13 trillion in the previous year. In addition, the Bank also recorded a significant reduction in the deposits from customers in the form of term time deposits to Rp11.75 trillion in 2023.

(Expressed in millions of Rupiah)

Description	2022	2022	Changes	
Description	2023	2022	Nominal	(%)

Cash and Cash Equivalents at The End of The Year	11,679,531	19,516,551	(7,837,020)	(40.16%)

Cash Flows from Investing Activities

Bank Mega recorded net cash provided by investing activity of Rp4.29 trillion for 2023. This performance was influenced by the proceeds from the sale of financial assets measured at fair value through other comprehensive income in the amount of Rp18.68 trillion in that year.

Cash Flows from Financing Activities

Bank Mega recorded net cash used in financing activities of Rp1.79 trillion. This was mainly due to the payment of cash dividends of Rp2.84 trillion in 2023.

Cash and Cash Equivalents at End of Year

Supported by the availability of cash and cash equivalents at the beginning of the year in the amount of Rp19.52 trillion, Bank Mega managed to record cash and cash equivalents at the end of the year in the amount of Rp11.68 trillion.

Solvency and Receivables Collectibility

Ability to pay debts

From an external perspective, Bank Mega's ability to pay its debts is reflected in the corporate rating assigned by Pefindo, which is idAA-/stable. An obligor rated idAA differs from the highest-rated obligors only to a small degree, and has a very strong capacity to meet its longterm financial commitments relative to that of other Indonesian obligors. The minus (-) sign indicates that the rating is relatively weak within its category.

The credibility of this rating can be demonstrated, among other things, by Bank Mega's ability to pay subordinated bonds that have been due for payment on time.

Ability to Pay Short-Term Debts (Bank Liquidity)

Bank Mega uses the minimum statutory reserve (MSR) ratio indicator to measure liquidity. Banks are required to maintain MSR in Rupiah currency in their commercial banking activities and MSR in foreign currency in their foreign currency transaction activities. As of December 31, 2023, and 2022, the Bank's GWM was calculated in

accordance with the Regulations for Members of the Board of Governors (PADG), which have undergone several changes. The results of the calculation of the GWM ratio are shown in the table above.

Ability to Pay Long-Term Debts (Bank Solvency)

Bank Mega's capital adequacy ratio or CAR stood at 26.7% in 2023, which is increased 0.76% than the previous year's CAR ratio of 25.41%. This ratio shows that the bank's solvency is still good as it has exceeded the minimum CAR ratio required by the regulator to cover credit risk, market risk and operational risk.

Bank Profitability

Bank Mega uses Return on Assets (ROA), Return on Equity (ROE), Net Interest Margin (NIM), Operating Expense to Operating Profit (BOPO) and Cost to Income Ratio (CIR) to determine the bank's profitability level. The bank's performance in terms of these ratios in 2023 can be seen in the table above.

Substandard	79,162	136,160	55,989	(24,182)	80,171
Doubtful	203,301	218,760	104,223	(10,314)	114,537
Loss	759,717	503,766	517,987	255,951	(14,221)
Total	66,304,718	70,311,357	60,740,894	4,006,639	9,570,463

Bank Mega consistently monitors credit quality in the implementation of risk management. The Bank continuously improves the credit quality by diversifying the portfolio to sectors with better quality by considering the national sector GDP and Bank Mega's internal sector credit quality as well as the national sector credit quality. In addition, the Bank is also considering the provision of loans to business group debtors with a strong backbone to maintain the level of credit quality. On the other hand, the Bank has conducted and will continue training programs for all officers and officials regarding credit activities.

Total loans in 2022 increased by Rp9.57 trillion from 2021, but in 2023 it fell by Rp4 trillion, most of the decline was due to partial repayment of large debtors. The NPL ratio experienced an upward trend from 1.12% in 2021 to 1.23% in 2022 and then increased to 1.57% in 2023. The

increase in the NPL ratio in 2023 was due not only to a hike in nominal NPLs but also to a decrease in total loans. Nevertheless, Bank Mega's NPL ratio is still lower than the national NPL ratio of 2.19% (OJK SPI data, latest position as of Nov 23).

•

Bank Mega Restructuring Portfolio as of December 2023

Loans based on collectability

(Expressed in millions of Rupiah)

	2022	2022	2022		Change	
	2023	2022 2021	2023-2022	2022-2021

Total	3,401,313	5,177,609	7,706,288	(1,776,2496)	(2,528,649)	

There was a significant decline in the outstanding restructuring debtors, namely a decline of IDR 2.53 trillion in 2022 and a decline of IDR 1.78 trillion in 2023. The decline was dominated by the debtor sector which

was not included in the targeted sectors in the recent COVID-19 stimulating regulations. Moreover, the Bank has made efforts to monitor debtors, especially restructuring debtors closely.

Prime Lending Rate

As a form of compliance with the OJK Circular Letter No. 9/SEOJK.03/2020 on the Transparency and Publication of the Reports of Conventional Commercial Banks, Bank Mega discloses information on the Base Lending Rate (SBDK). Presenting information on the Base Lending Rate is the Bank's fulfillment of its obligations as a conventional commercial bank to report and publish the Prime Lending Rate in Rupiah.

The presentation of the prime lending rate shall be the basis for the determination of the credit interest rate that will be charged by the bank to the customer. However, the Prime Lending Rate does not take into account the estimated risk premium component, the amount of which depends on the Bank's risk assessment for each borrower or borrower group. Therefore, the lending rate charged to borrowers is not necessarily the same as the prime lending rate.

Basis for Determining Management Policy on Capital Structure

In capital management, the Bank is required to maintain and strengthen the capital position that supports business growth and maintains the confidence of investors, stake holders, customers and the market as reflected in the implementation of POJK No. 11/POJK.03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks. The Bank has taken into account on this regulation in evaluating and managing its capital adequacy. The Bank's implementation of this regulation is proof of the Bank's commitment to maintain a strong and resilient capital structure, in accordance with regulatory requirements and industry best practices.

Capital Structure Policy

In the context of calculating capital adequacy, Bank is required to calculate Risk-Weighted Assets (RWA) for Operational, Market, and Credit risks as a component in the calculation of Capital Adequacy Ratio (CAR). In order to calculate the capital charge and RWA for operational risk, Bank currently applies the Standard Approach (SA) in accordance with SEOJK No. 6/SEOJK.03/2020.

Furthermore, Bank has also conducted 2 trial runs for the calculation of operational risk capital charge using the Standardized Approach (SA) in accordance with the provisions of SEOJK No. 06/SEOJK/03/2020 on the Calculation of Risk Weighted Assets (RWA) for Operational Risk using the Standardized Approach, has been effectively applied since January 2023.

For the calculation of RWA for market risk, Bank uses the Standard Method, which refers to SEOJK No.38/SEOJK.03/2016 on the Guidelines for the Use of the Standard Method in the Calculation of Minimum Capital Requirements for Commercial Banks with Consideration of Market Risk.

With the issuance of SEOJK No.23/SEOJK.03/2022 on the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks, the Bank then must prepare a Report on the Calculation of RWA for Market Risk using the standardized approach or a simplified standardized approach. The Bank will also submit a trial run of the Report on the Calculation of RWA for Market Risk for the end of June 2023, September 2023, and December 2023 positions. Furthermore, this Report on the Calculation of RWA for Market Risk must be submitted for the first time at the end of January 2024 for individual banks and at the end of March 2024 for consolidated banks.

In the calculation of RWA for credit risk, the preparation and calculation of RWA refers to SEOJK No.42/SEOJK.03/2016 on the Guidelines for the Calculation of Risk-Weighted Assets for Credit Risk using the Standardized Approach as amended by SEOJK No.11/SEOJK.03/2018 on the Amendment to SEOJK No.42/SEOJK.03/2016. Effective from January 2023, the preparation and calculation of credit RWA will change and refer to SEOJK No.24/SEOJK.03/2021 on the Calculation of Risk Weighted Assets for Credit Risk using the Standardized Approach which has adopted Basel 3 reforms.

The Bank's obligation in providing minimum capital according to risk profile as regulated in POJK No. 11/POJK.03/2016 is as follows:

- a. 8% of the RWA for Bank with a risk profile rating of 1;
- b. 9% until less than 10% of the RWA for bank with a risk profile rating of 2;
- c. 10% until less than 11% of the RWA for bank with a risk profile rating of 3;
- d. 11% until 14% of RWA for bank with risk profile ratings of 4 or 5.

Capital Structure

Based on POJK Regulation Number 11/POJK.03/2016, the Bank divides its capital into two parts:

- Tier 1 capital which includes primary core capital (Common Equity Tier 1) and additional core capital (Additional Tier 1).
- Tier 2 capital

A more complete explanation of Bank Mega's capital structure is given in the following table:

Construction in progress	19,522	14,393
Right of use of assets	36,763	35,290
Total	146,907	319,020

Material Information and Material Information Subsequent Events

The Bank reported there was no material fact and information happened after accounting report date.

Dividend Policy and Its Distribution

Dividend Policy

The Dividend Policy is based on the Bank's Articles of Association, taking into account the IPO Prospectus issued by the Bank, as well as the provisions of the OJK as regulated by POJK No. 17 of 2023 on the Implementation of Commercial Bank Governance.

The Bank has and is implementing a Dividend Policy by Decree Number 128/DIRBM/23 to ensure the implementation of sound Corporate Governance principles regarding dividend distribution. The Dividend Policy regulates, among other things:

1. The dividend distribution proposal is decided at a Joint Meeting of the Board of Commissioners and Directors

- cash dividends are given at least 20% (twenty percent)
 of the net profit for the financial year at the GMS, which
 can be distributed as cash dividends unless the General
 Meeting of Shareholders (GMS) decides otherwise.
- 3. The dividend distribution plan is based on fulfilling shareholder rights by prioritizing the interests of the Bank and is included in the Bank Business Plan (RBB).
- 4. If the GMS approves the distribution of cash dividends, the Bank is obliged to pay cash dividends to entitled shareholders no later than 30 (thirty) calendar days after the announcement/publishing of the summary of the GMS Minutes and ensure equal treatment to all entitled Shareholders by the procedures by applicable regulations.

The chronology of the payment of dividends for 2023 and 2022 is as follows:

	2023	2022
Legal Basis	AGMS Resolution dated February 24, 2023	AGMS Resolution dated February 25, 2022
Fiscal Year	2022 audited financial report	2021 audited financial report
Infome for the year	4,052,678	4,008,051
Dividends (Rp Million)	2,836,818	2,800,000
Dividend per share (Rp)	241.618	402.081
Dividend Pay Out Ratio	69.99%	69.82%
Cash dividend announcement date	February 24, 2023	February 25, 2022
Cash dividend payment date	March 28, 2023	March 23, 2022

Information About Employee and/or Management Share Ownership Program (ESOP/MSOP)

As of December 31, 2023, Bank Mega has not yet implemented an employee and/or management share-based program. As a result, the Company does not provide any information regarding the number of ESOP/MSOP shares and their realization, the time period, the requirements for eligible employees and/or management, and the exercise price.

Information Regarding the Realization of the Use of Public Offering Proceeds

The Bank did not conduct a public offering of either shares or bonds throughout 2023. Therefore, the Company did not disclose information regarding the total proceeds; plan for the use of proceeds; details of the use of proceeds; proceeds balance; and the date of approval of the GMS/RUPO for changes in the use of funds (if any).

Material Information Regarding Investment, Expansion, Divestment, Business Merger, Acquisition, and/or Debt/ **Capital Restructuring**

As of December 31, 2023, Bank Mega has not made any investments, expansions, dispositions, acquisitions or restructurings of debt and capital. Accordingly, the Company does not provide information in this regard.

Material Information on Transactions that Contain **Conflict of Interest and/or Transactions with Affiliated Parties/Related Parties**

Material Transactions Containing Conflicts Interest

During 2023, there will be no material transactions containing a conflict of interest.

Transactions with Affiliates

In the normal course of its business, the Bank enters into transactions with related parties which are defined under SFAS No. 7 regarding "Related Party Disclosures".

Transactions with related parties are made on terms agreed by both parties, where such requirements may not be the same as other transactions undertaken with third parties. Material transactions and balances with related parties are disclosed in the notes to the financial statements and the relevant details have been presented in Note 39 of the financial statements as attached in this annual report.

Business Strategy of the Bank

The Bank's business development strategy is based on the development of reliable human resources, transformation of information technology systems to support the development of digital banking, improvement of business processes and strong synergy within the CT Corpora Group to develop retail business, with a focus on each business segment as follows:

- Loan disbursement by increasing volume, increasing fee-based income and improving credit quality
- Growth in Third Party Funds (TPF) through acquisitions and onboarding; increase in low-cost funds and number of transactions; and optimization of wealth products for affluent clients.

- Growth in credit cards through acquisition growth with good and healthy quality, growth in loans outstanding, digital transformation and increased fee-based income
- Sustained growth in treasury services, including by investing the Bank's excess liquidity in assets with relatively lower risk such as government bonds and also placement with Bank Indonesia; managing the funding gap between assets and liabilities; and ensuring that the Bank's liquidity stability is well maintained.

Business Prospect

The Indonesian government said that Indonesia's economic outlook will grow by 5.05 percent in 2023, lower than the initial estimate of 5.3 percent. This is in line with the slowdown in the world economy and the challenge of the

rise in inflation, which will have an impact on consumption growth. The Ministry of Finance's baseline assumptions for the 2023 economic outlook and 2024 RAPBN are:

Indicators	Outlook 2023	RAPBN 2024
Economic Growth (%,yoy)	5.05	5.2
Inflation (%,yoy)	3.1	2.8
Exchange Rate (Rp/US\$)	15,100	15,000
10 Year SUN Interest Rate (%)	6.8	6.7
Indonesian Crude Oil Price (US\$/barrel)	78	80
Crude Oil Lifting (thousands of barrels per day)	614	625
Gas Lifting (thousand barrels of oil equivalent per day)	985	1,033

Meanwhile, Bank Indonesia expects Indonesia's economy to continue growing well and resilient to global spillover effects. According to Bank Indonesia, the continued good economic growth is also reflected in the performance of key economic sectors such as manufacturing, mining, construction, and related services including transportation and storage, accommodation and food services, and information and telecommunication.

Based on these developments, Bank Indonesia estimates that economic growth will reach the range of 4.5 - 5.3% in 2023 and will increase to 4.7 - 5.5% in 2024.

In line with Indonesia's economic outlook, the Bank's policy direction is to transform from a mid-sized bank to a large bank based on the reliability of the ecosystem that combines financial services and retail transactions. In addition, in connection with the development of digital technology that is increasingly influencing the business model of the banking industry, the Bank is also transforming its business model to a digital ecosystem so that the Bank can become a one-stop banking solution for its customers.

To achieve the above objectives, the strategic steps that will be taken include:

- Synergies with companies in the CT Corpora to increase business volumes, create new business opportunities and increase the number of branch networks in a
- Leveraging appropriate ecosystems and synergies to create new products and services that benefit customers and the Bank.
- Transform information technology to support the development of retail and digital banking businesses, mitigate operational risks, and increase efficiency of operating costs

Information on Business Continuity

Matters that may have a significant impact on business

In line with estimates that the Indonesian economy will continue to grow well and be able to withstand the impact of global spillovers as reflected in the performance of various business sectors that are still well sustained, Bank Indonesia forecasts that economic growth will increase to 4.7% - 5.5% in 2024. The economy, which is expected to grow at a stronger pace, is supported by higher estimated private consumption, which is expected to grow by 4.7 to 55.5 percent in 2024. Investment is also estimated to grow by 5.1 percent to 5.9 percent, or stronger than the 3.7 percent to 4.5 percent in 2023.

It is hoped that this optimism about household consumption and investment growth can support bank lending. After an estimated growth of 9-11% in 2023, the growth of bank credit is expected to be 10-12% in 2024.

In line with this, the government also estimates that the growth of household consumption will be stronger in 2024, when the general election and the Pilkada will be held at the same time. The government stated that national political stability is expected to be maintained, which will encourage optimism among the public and business actors for the continuation of economic activities and the positive trend of new job openings. In addition, the improvement of social welfare levels will also be a driver of consumption in 2024. Cumulatively, the Government is aiming to see the economy grow by 5.2% in the coming year.

Management Assessment of Business Continuity Factors

Bank Mega evaluates the implementation of the strategy and assesses the bank's ability to achieve the goals set out in the bank's business plan (RBB) in order to ensure business continuity. This step was taken taking into account the dynamics occurring in the macro economy and the banking industry.

In this regard, the Board of Commissioners and the Board of Directors have an active role in the management of the bank's internal strength, which has an important influence on Bank Mega's business continuity. This active role can be seen in the preparation and implementation of the bank's strategy, in addition to the evaluation of the periodic financial reports.

Bank Mega's long and proven track record in banking is supported by strong parent support and synergies. Business synergies with business groups with PT CT Corpora as well as other factors that are the bank's competitive advantage are strengthened by Pefindo's assignment of the Bank's corporate rating, is the key to Bank Mega's business continuity in the coming year, which will continue to be well-maintained.

Assumptions used by management in conducting the assessments

Several important aspects of bank management such as capital, liquidity, profitability and asset quality are taken into consideration by Bank Mega in the assessment of business continuity with reference to the RBB. These four key aspects are then described in the RBB and are the parameters for Bank Mega's business continuity management in the national banking industry. The Bank also uses these four key aspects as indicators to evaluate how the Bank performs compared to previously set targets. In addition, Bank Mega also prioritizes sustainable financial aspects through the alignment of business with environmental sustainability aspects, social aspects, and good corporate governance.

Business Supporting Overview

Human Capital

Human Resources Focus and Development

The human resources development program will continue to be developed and refined throughout 2023 to ensure its continued contribution. This development and refinement process will be optimized through the use of a multi-platform human resource management technology system. The development program is a combination of human resources and organizational resources, with the involvement of technology, which will be increasingly integrated into both the program and its implementation process.

Human Resources Fulfillment

The Bank's need to fill critical positions and other positions with employees who are competent in their fields of expertise is carried out through internal and external sourcing. The process of fulfilling human resources is carried out online through various job portals, and various activities are also carried out offline, including walk-in interviews, campus recruiting, and job fairs. The Employee Referral Program is also a way to fill the positions required by the bank. Employer branding is carried out through the Bank's social media to attract potential talent.

In 2023, 2,202 people were fulfilled from external sources, with the composition of human resources located at the Head Office amounting to 574 people or 26% and human resources from regional offices and branches amounting to 1,628 people or 74% of the total fulfillment that exists.

The need to fulfill human resources is also carried out through development programs that are generalist and functional in nature and are specifically developed in accordance with the Bank's objectives and needs. The selection of the participants in the programs is carried out in stages that are systematically defined with reference to the criteria established by the Bank.

Career Development

The Bank continuously implements employee career development programs in order to retain talents or human resources that are competent and of good quality, and to achieve an optimal level of employee performance. The career development program is implemented by taking into account the employee's career planning and calculating the employee's needs as determined by the Bank. Career development in an organization can occur within the same function or job family, or cross-functionally to different areas

by enhancing or developing potential and competencies. Employee career management is carried out by ensuring that positions are filled through promotion from within, and that employees are provided with training or development opportunities according to their needs.

Organizational Development

The Organizational Development Program is implemented to assist the Bank in achieving business growth in line with organizational strategies and plans.

Both internal and external factors are considered in the development of this organization. Internal factors, such as the quality of human resources and coordination between individual work units, both business units and support units, are crucial. Meanwhile, external factors such as the development of digital technology and the increasing competitiveness of the banking industry are things that need to be considered. The optimization of organizational functions is necessary to achieve higher business performance, which is continuously achieved by improving the organization in each line and function.

Employee Education, Development and Training

In line with the Bank's aspirations, employee skills are enhanced to enable them to meet the business challenges of the banking world. Various human resource development and training programs have been implemented throughout 2023. The Bank is committed to promoting the improvement of human resource competencies and skills needed in the future to adapt to the increasingly developing digital era.

The Bank has implemented 1,300 training programs with more than 100,000 participants throughout 2023, including competency certification, hard and soft skills training, and leadership. Training is organized according to the needs and objectives of learning, namely face-to-face and digital learning using virtual learning, hybrid and e-learning methods. Digital learning is the Bank's effort to take advantage of technological and digital developments so that employee capacity building can take place anywhere, anytime.

The curriculum and development and training modules are aligned with all business processes directly related to business and support functions. The Bank also organizes various forums or trainings related to regulatory requirements

and policies, including APU/CFT, Anti-Fraud Strategy, and Handling and Resolving Customer Complaints, which aim to create awareness and increase the competency of employees in terms of risk and control.

The competency certification program is organized by the Bank with reference to the Indonesian National Work Competency Standards (SKKNI) and the Indonesian National Framework (KKNI) applicable to banking and financial services. The Bank also conducts regular monitoring of compliance with the required competency certification and maintenance of competency certification in accordance with its area of expertise. These competency certification programs are Risk Management Certification (SMR), Rupiah Payment and Currency Management System (SPPUR), Treasury, AAJI, WPPE-P and WAPERD Certification, as well as other certifications as needed, including IT and Audit Certification.

The Bank also implements several programs to build competency in the business area to support business performance, including the development program for branch managers through the Branch Manager Training Program (BMTP), training programs for the marketing team through the Retail Funding Officer Training Program (RFOTP), Retail Funding Training Program (RFTP), Retail Funding Acquisition Training Program (RFATP), and Telemarketing Officer Training Program (TOTP). For the Operations function, the Operations Supervisor Development Program (OSDP) is conducted to enhance the competency of employees in operational work functions.

The Bank continuously organizes leadership and entrepreneurship development programs to prepare future leaders through the Mega Management Development Program (MMDP). The MMDP provides a comprehensive understanding of banking business processes from both academic and practical perspectives. Graduates of the MMDP program have been placed in various work functions. They currently occupy key positions, both structural and functional.

The Bank is also organizing a program to prepare employees who are talented and professional in the field of IT through the Information Technology Development Program (ITDP), which will carry out digital transformation and support the Bank in industrial competition in the digital era.

To support employee learning and development programs, the Bank has provided an e-learning platform as a learning medium for employees that can be accessed anytime and anywhere. The e-learning program is also a concern for the Bank, which can support efficiency while paying attention to the effectiveness of the programs being implemented. With a learning model that is more dynamic, interactive and informative, the Bank continues to improve learning modules, infrastructure and the use of technology.

Throughout 2023, the Bank has conducted e-learning with more than 40,000 participants for various modules, including Corporate Regulations, Complaints Handling, APU/PPT, IT Security Awareness, Good Corporate Governance, Sustainable Financial Action Plan (RAKB) and Basic Credit. Learning through e-learning will continue to increase and be developed according to the Bank's needs.

HR System Development

Human resources management will be supported in its implementation by digital technology systems with employee self-service systems including performance management, online attendance, online recruitment, e-learning and others that can be accessed on multiple platforms. The development and improvement of the human resources system will continue throughout 2023 by optimizing the employee self-service system and improving existing processes, such as adding features such as the document/ certificate submission module, the employee insurance participation registration module, the Know Your Employee (KYE) module, the employee leave module, and the online employee credit module. (KYE) module, employee leave module, and online employee loan application module.

This digital technology support will continue to be developed into a more comprehensive, multi-platform, integrated human resources system that is more informative, easier to use, and more effective in supporting human resources activities. Employee information and communication tools will continue to evolve based on technology. This change will be continuous with the development of the organization to further improve customer experience in terms of service quality and employee experience as customers.

The development of the banking business in the year 2023 will be influenced by the increasingly rapid advances in technology and will become a challenge for all sectors of the industry. Banks must continue to develop initiatives to manage human and organizational resources so that they are focused on achieving predetermined goals and are able to adapt to current and future business challenges. The human resource management system will be consistently developed to improve the performance and commitment of employees to meet the needs of the bank in carrying out its business functions. The increasing use of digital-based technology continues to be one of the driving factors for the Bank to further develop technology-based systems and infrastructure to manage human resources effectively and

efficiently. The employee demographic, which is currently dominated by the Millennial and Generation Z generations, also requires the Bank to pay attention to the harmony of the way of working so that it remains relevant to current conditions, both internal and external.

Employee Demographic Table

The employee demographics as of December 31, 2023 are shown in the following tables.

Number of Employees by Gender/Sex (People)

Information Technology

Digital banking continues to grow rapidly, especially since the COVID-19 pandemic outbreak in early 2020. Since then, the standard for conducting banking transactions has changed. It is no longer necessary to visit a branch or an ATM. As one of the evolving banks, Bank Mega continues to improve the best digital experience for customers through product innovation that meets their needs and lifestyles. In addition to product and feature innovation, the bank also consistently invests in information technology (IT) and security systems. This ensures the reliability, stability, and security of its systems. Throughout 2023, the Bank has continued to develop information technology that can improve services to customers. These include:

- 1. Enhanced Features in Personal Electronic Banking (M-Smile)
 - a. Online credit card application for digital credit cards, allowing customers to make online transactions immediately without waiting for the physical credit card.
 - b. Loan On Card application is a request for disbursement of funds up to 50% of the credit card limit, which can be withdrawn at any time through a quick and convenient process.
 - c. Enhanced the Quick Response Code Indonesian Standard (QRIS) service to allow for cross-border transactions (QRIS Crossborder). It can now be

- used for payment transactions in Thailand, Malaysia and Singapore.
- d. Easily perform remittance transactions, withdraw cash and deposit cash using the Indonesian Standard Quick Response Identification System (QRIS) via ATM/Merchant/Agent connected to other Payment Service Providers quickly, securely and conveniently.
- e. CT Corp Group's lifestyle features can be easily accessed through the Explore feature.
- Enhancements made to existing features and services include:
 - i. Addition of payment services with improvements in digital money recharge, airfare payment, insurance and signal car tax.
 - ii. Development of comprehensive mobile banking security for the maintenance of application stability, cybercrime and customer data security.
 - iii. Development of the loyalty points function in MPC Point and easy viewing of credit card data in a secure manner.
- 2. Sustainable development of national open API payment system standards (SNAP) with industry standards set by the regulator.
- 3. As a provider of information technology services (PJTI) for LJK Bank in CT Corpora.

- 4. Other developments in the area of reconciliation system, regeneration process, data center security enhancement and disaster recovery plan (DRP) improvement.
- 5. Development of branch services to keep up with developments in banking digitalization, namely with the Branch Delivery System Application.

To support various efforts to improve its digital capabilities, Bank Mega consistently invests in information technology (IT) and security systems to ensure the reliability, stability and security of its systems. In 2023, the total investment in the IT sector reached IDR 69,922,295,350, representing an increase of 12% compared to that invested in the previous year.

IT Management

Bank Mega has an Information Technology Steering Committee, which is a working institution that involves the Board of Directors in determining the strategic direction for developing IT applications and infrastructure to support the Bank's business.

Bank Mega has obtained ISO 27001:2013 certification for its Information Security Management System, which demonstrates the Bank's commitment to continuously improve the security of the Bank's system environment.

IT Governance is implemented by the Bank as an important operational asset that can increase the Bank's added value and competitiveness, although its implementation involves various risks. This implementation includes the alignment of the IT Strategic Plan with the Bank's business strategy, the optimization of resource management, the use of IT (Value Delivery), and the inclusion of a well-performed information security risk control in order to maintain the confidentiality, integrity, and availability aspects of the Bank's information.

Evaluation of the implementation of IT activities at Bank Mega includes risk and audit aspects as a form of control and control in maintaining the check and balance process in the Bank's internal IT development. The form of evaluation carried out by the Bank includes the monitoring of risk data parallel to the implementation of IT development, as well as the examination of administrative and technical aspects of the operation of IT applications and systems.

Role of Information Technology

Information Technology at Bank Mega is considered an important operational asset in supporting the general operational and business activities of the bank. A competent IT is supported by annual IT capacity and resource planning. This enables IT to support planned business activities that are expected to occur within a predetermined time period. In developing new business through the Bank's products,

IT provides appropriate resources to meet these needs, including the provision of competent technical personnel and adequate infrastructure.

Information Technology at Bank Mega prioritizes efficient operational processes that follow the business needs of the bank. The IT development process and IT operations are continuously updated in accordance with the latest IT developments and applicable banking standards.

IT Focus and Development in 2023

Bank Mega's IT development focus is on the development of applications to support banking products, such as a wealth management system to sell wealth products such as bonds, and a trade finance system to support trading processes involving the bank's counterparties. In addition, the development of Internet banking for corporate customers is a strategic project in Bank Mega's IT application development. In terms of IT application services, Bank Mega has completed several stages of development of the BI-FAST system, which is Bank Mega's flagship mobile banking channel transfer function, in order to enhance system stability and reliability so that customer transactions are more convenient.

IT Development Strategy for 2023

Bank Mega implements IT application development strategically divided into 5 (five) aspects;

- Channel Transformation
 - Represented in the development of corporate Internet banking revamp
 - Participating in the development of mobile banking functions (M-Smile)
- Single Customer View Represented in the development of data management system
- Credit Management
 Represented in the development of LOS (Loan
 Originating System) for secured & unsecured loans
- Supporting System
 Represented in the development of Talkbot, Branch
 Transformation via BDS (Branch Delivery System)
 development, Human Resources System development,
 Reconciliation System development, etc.
- Product Enrichment
 Represented in the development of Trade Finance
 System, BI-FAST Phase II, Open API, Credit Card
 System Enhancement, etc.

IT Development Strategy for 2024

In addition to IT applications, Bank Mega implements strategic development in the field of IT infrastructure, which is divided into 1 (one) aspect, namely Operational Excellence, which includes;

- Sustainable development of IT infrastructure including core banking hardware and core credit system, network and server hardware, and security system.
- Continuous development of data center facilities including improvement of electrical and mechanical systems
- Development of security projects such as security assessment through penetration testing and vulnerability assessment of the Bank's IT applications and implementation of DDOS protection.

As stated in the Bank's Business Plan, Bank Mega's policy direction is to carry out a transformation from a mediumsized bank to a large bank based on the reliability of an ecosystem that combines financial services and retail transactions, so this IT Strategy Plan contains imperatives and initiatives that will be implemented by IT to support the Bank's policy direction.

The Bank is consistently committed to always invest in the IT area, both in the areas of technology, applications, infrastructure, which includes security (cyber security), data management, and is committed to building quality IT Human Resources (HR) to always provide products - the best IT products, quality, and meet security factors.

The Information Technology Strategy Plan (RSTI) was prepared as a guide for IT to support the Bank's business growth during the period 2024 - 2028, which covers 3 (three) areas, including:

- 1. Strategic Application,
- 2. Information Technology Infrastructure,
- 3. Information Technology Organization and Governance.

These three areas are in line with the Bank's vision and mission, which resulted in 5 (five) strategic intentions in the development of the Information Technology Strategic Plan:

Bank Mission The Bank's policy direction **Strategic Intentions** Synergy with Group and Non-Group CT Corpora. medium-scale bank to a largescale bank. Increasing Fee-Based Income. Unifying financial services and **Effective and Efficient** retail transactions based on Ecosystem reliability. Operations. integrated ecosystem. Reliable Digital Innovation. Business transformation towards a digital ecosystem so that it becomes a one-stop banking solution for its customers. to customers along with effective and efficient Increasing Asset Value and Quality.

IT Development in 2024

Some of Bank Mega's IT developments planned to be implemented in 2024 are as follows:

- Updates of Internet banking systems and corporate electronic banking services
- Development of data management with the concept of CRM (Customer Relationship Management)
- Development of onboarding functions, cashless payment functions, product functions, and corporate ecosystem functions in Bank Mega Mobile Banking
- Development of credit processing system including credit scoring review, collection scoring review and restructuring
- Development of an open API for Bank Mega in cooperation with the CT Corpora ecosystem and third parties, with national standards and in accordance with regulatory requirements.
- And other things that will be continuously developed to support the bank's operations.

Capital

The capital on December 31, 2023 increased compared to the capital on September 30, 2023, amounting to Rp1,044 billion mainly from profit for the year amounting to Rp716 billion, on the other hand the fair value of available-for-sale financial assets increased by Rp384 billion.

Capital Adequacy Requirement (CAR)

Minimum Capital Adequacy Requirement (KPMM) for December 2023 position of 26.17% above the provisions required by the Regulator of 12,50%. This ratio has increased by 0,70% when compared to the position in September 2023 of 25,47%. Capital increased by Rp1.04 trillion, and there was a decrease in RWA loans of Rp1.84 trillion September 2023. 2022.

CET1 (Common Equity Tier 1)

CET1 consists of several components, namely:

- 1. Paid-in Capital;
- 2. Disclosed Reserve;
- 3. Non controlling interest;
- 4. Deduction Factor of CET 1.

The CET1 after the fulfilment of the buffer is 12.90%, which is above the minimum requirement of 4.50% of the RWA. CET1 consists of Rp10.67 trillion, which includes Rp5.87 trillion of paid-in capital, Rp4.83 trillion of disclosed reserves, and Rp31.94 billion of Tier 1 capital deduction factor.

Liquidity Coverage Ratio (LCR)

The Liquidity Coverage Ratio as of December 2023 is 153.58% above the regulatory requirement of 100% (POJK Number 42/POJK.03/2015 on Obligations to Meet the Liquidity Coverage Ratio for Commercial Banks). The Liquidity Coverage Ratio for the December 2023 position was 153.58%, a decrease of 15.03% compared to the September 2023 position of 160.81%. The increase in this ratio was due to:

- 1. Decrease in High Quality Liquid Assets (HQLA) by Rp4.32 trillion.
- 2. Decrease in cash outflow of Rp1.92 trillion.
- 3. Decrease in cash inflow of Rp274.33 billion.

High Quality Liquid Asset (HQLA)

The High Quality Liquid Asset (HQLA) position in December 2023 was Rp35.44 trillion, a decrease of Rp4.32 trillion compared to the position in September 2023 of Rp39.76 trillion. This decrease in HQLA was caused by:

- 1. Decrease in the holding of government bonds by Rp1.40 trillion.
- 2. Decrease in placements with Bank Indonesia by Rp2.81 trillion; and
- 3. Decrease in cash and cash equivalents by Rp113.46 billion.

Net Cash Outflow

Net Cash Outflow for the December 2023 position was Rp23.07 trillion, a decrease of Rp1.65 trillion compared to the September 2023 position of Rp24.72 trillion. The decrease in net cash outflow was caused by a decrease in cash outflow of Rp1.92 trillion and a decrease in cash inflow of Rp274.34 billion. The following are the significant movements in the Net Cash Outflow component ≤30 days:

- 1. Cash Outflow
 - a. The decrease in FI DPK was Rp1.22 trillion.
 - b. The decrease in Non-FI DPK was Rp1.51 trillion (after weighting).
- 2. Cash Inflow
 - a. The decrease in Interbank Placing was Rp167.88 billion.

Net Stable Funding Ratio (NSFR)

Bank Mega's NSFR (Net Stable Funding Ratio) position in December 2023 is 116.30% above the regulatory requirement of 100% (POJK Number 50/POJK.03/2017 concerning obligations to meet the Net Stable Funding Ratio). For commercial banks, Bank Mega's NSFR position in December 2023 was 116.30%, an increase of 5.70% compared to the position in September 2023 of 110.60%. The increase in this ratio was due to:

- 1. Increase in Available Stable Funding (ASF) by IDR 4.93 trillion.
- 2. Increase in Required Stable Funding (RSF) of IDR 975.44 billion

Capital

Qualitative Disclosure regarding Capital Structure and Capital Adequacy

Indonesia

Banks must explain the origin of the difference between the carrying value according to financial accounting standards, as reported in the financial statements, and the exposure value according to prudential provisions, as contained in templates LI1 and LI2.

- (a) The bank must explain the source of the significant difference between the values in columns (a) and (b) in LI1.
- (b) The bank must explain the source of the difference between the recorded value and the value used for regulatory purposes, as stated in LI2.
- (c) By implementing the guidelines on prudential valuation, banks should describe the systems and controls to ensure prudential and reliable valuation estimates. Disclosures must include:

Indonesia

- (i) Valuation methodology, including explaining the extent of use of mark-to-market and mark-to-model methodologies.
- (ii) Description of the independent price verification process.
- (iii) Procedures for valuation or reserve adjustments (including a description of the process and methodology for valuing trading positions by instrument type).

The carrying amount as stated in the publication of the financial statements has taken into account the precautionary principle so that there is no difference between the two values. The carrying amount according to each risk is the value in accordance with the POJK for the Calculation of the Credit Risk Framework, Calculation of the Securitization Asset Framework, Counterparty Credit Risk Framework, and Market Risk Framework.

Capital December 31, 2023, increased compared to December 31, 2022, amounting to IDR 1.057 trillion, an increase This came from Tier 1 Capital, amounting to IDR 1,050 trillion, and Tier 2 Capital, amounting to IDR 7.7 billion. The liability Ratio Minimum Capital Requirement (KPMM) for December 2023 is 26.17%, still above the required provisions. The regulator was 10.00%. This ratio increased by 0,70% when compared to the December position 2022, which is 25.41%. However, the Bank's RWA also experienced an increase of IDR 1,708 trillion, where Credit Risk RWA increased by IDR 5.772 trillion, while Operational Risk RWA experienced an increase of IDR 5.772 trillion, a decrease of IDR 4,589 trillion. The increase or decrease was due to changes in provisions OJK, where the calculation of Credit Risk RWA and Bank Operational Risk RWA calculations are calculated using the Standard Approach according to SEOJK No. 24/ SEOJK.03/2021 and SEOJK No. 6/SEOJK.03/2020 which is effectively implemented in January 2023.

Qualitative Disclosures on Counterparty Credit Risk

Counterparty credit risk exposure currently consists of government reverse repo and derivative transactions arising from the portfolio category of loans and advances to banks and loans and advances to corporates.

The Bank has a comprehensive risk management framework in place, which includes monthly monitoring of the Counterparty Credit Risk exposure, including the measurement of the Potential Future Exposure (PFE), and at least annual stress testing of the Credit Valuation Adjustment (CVA), which is reported to the regulator.

Counterparty Credit Risk Exposure Analysis

Report on the Implementation of Risk Management for Interest Rate Risk in Banking Book (IRRBB)

Report on the Implementation of Risk Management for Interest Rate Risk in Banking Book (IRRBB)

Analisis Kualitati

1. IRRBB Definition for Measurement and Control of Interest Rate Risk

IRRBB is a risk arising from changes in interest rates that cause changes in present value and determination of timing of future cash flows that affect the economic value of assets, liabilities, and administrative account transactions of the Bank and cause changes in the value of net interest income. Because its effects affect the economic value and income, the Bank needs to accurately identify risks and calculate and report IRRBB to OJK in accordance with the regulated standards and references so that they can carry out appropriate corrective actions.

2. Risk Management Strategy and Risk Mitigation for IRRBB

The Bank prepares a Risk Management Strategy and Risk Mitigation by determining the level of risk to be taken (risk appetite) and risk tolerance in line with the Bank's business strategy and policies and procedures for controlling IRRBB. The form of policies and procedures provides an overview of the delegation of power, authority and responsibility for each level of position and hedging strategy. In addition, the Bank needs to pay attention to the gap risk, basis risk, or certain positions with embedded options and explicit options. Furthermore, IRRBB Risk Management policies and procedures need to be reviewed at least 1 (one) time in 1 (one) year.

Periodization of IRRBB Calculations and Specific Measurements Used by Banks to Measure Sensitivity to IRRBB

Based on the rules of the regulator, the Bank carries out an IRRBB calculation every 3 (three) months in accordance with the reporting period of Market Risk Profile and Bank Soundness Reporting. However, the Bank continues to make monthly IRRBB calculations as a form of risk control. Specific measurements are used for asset and liability instruments that have behavioral properties such as Credit Prepayment Rate (CPR) on Credit exposures, Term Deposit Redemption Ratio (TDRR) on Deposit exposures, and Behavioral Non Maturity Deposit (NMD) exposure on Savings or Demand Deposits using historical data. In addition, it also calculates the cash flow projection for monthly installment payments for credit instruments with fixed rate types, while for loans with floating rate types, it is determined to have a repricing period of 1 (one) month

Interest Rate Shock Scenarios and Stress Scenarios Used by Banks in IRRBB Calculations Using EVE and NII

Based on the regulatory provisions, the Bank applies 6 (six) types of interest rate shock scenarios for the DEVE calculation, namely Parallel Up, Parallel Down, Steepener, Flattener, Short Rates Up and Short Rates Down. Whereas the DNII calculation uses 2 (two) shock scenarios, namely Parallel Up and Parallel Down. In the process of interest rate shock scenario, the Bank uses 2 (two) types of currencies, namely Rupiah and foreign currencies using the US Dollar approach. For the scenario of interest rate shock with a Parallel type, the Bank uses a change in the value of the interest rate of 400 bps for Rupiah and 200 bps for US Dollar. Whereas in the short condition use the amount of changes in interest rates of 500 bps (Rupiah) and 300 bps (US Dollar) and for the long condition use the change in interest rates of 350 bps (Rupiah) and 150 bps (US Dollar) respectively. The entire amount follows the rules of the regulator.

Modeling Assumptions that Significantly Impact IRRBB Calculations, which are different from the IRRBB Calculation with a Standard Approach

All modeling assumptions made by the Bank in the calculation of IRRBB are in accordance with the standard and reference approaches set by the Regulator. So for now the Bank does not have specific modeling assumptions that have a different approach from the standard approach.

6. Hedging against IRRBB (if any) and related Accounting Treatment

Currently the Bank does not take any hedging measures against IRRBB.

7. Comprehensive explanation of the main assumptions of modeling and parametric used to calculate EVE and NII:

a. Credit Prepayment Rate (CPR)

The Bank determines the Credit Prepayment Risk (CPR) model based on the longest historical data held by the Bank with the 2007 – 2019 data period. The determination of the CPR rate is done by comparing the credit ceiling that has an accelerated repayment status (Prepayment) with all credit ceiling owned by the data historically, both the repayment status is accelerated, paid off according to the maturity date, and those that are still active. Furthermore, the CPR rate value obtained is used as an initial assumption of potential Credit whose repayment will be accelerated in the calculation of IRRBB cash flow projections.

b. Term Deposit Redemption Ratio (TDRR)

The Bank determines the Term Deposit Redemption Ratio (TDRR) model based on the longest historical data held by the Bank with the 2007 – 2019 data period. The determination of the TDRR rate is carried out by comparing the outstanding deposits that have an early redemption status with all outstanding deposits that are owned in historical data, whether the status of the disbursement is accelerated, the status of the disbursement is in accordance with the due date, and the status is still active. Furthermore, the TDRR rate value obtained is used as an initial assumption of potential Deposits whose disbursement will be accelerated in the calculation of IRRBB cash flow projections.

c. Non-Maturity Deposit (NMD)

The Bank divides NMD into 3 (three) based on rules, namely Transactional, Non-Transactional, and Corporate (Wholesale). Where the approach uses the assumption of stable and unstable deposits from the Liquidity Coverage ratio (LCR) calculation model to determine Transactional and Non-Transactional nominal. The Transactional Category is assumed to be a stable deposit while the Non-Transactional Category is assumed to be an unstable savings on LCR. For Corporate deposits (Wholesale) only differ by the customer field of business. The Bank determines the amount of core deposit for Savings and Current Accounts using historical data for 10 (ten) years from 2009 - 2019. Where the assumption of core deposits used is the minimum nominal value of Savings and Current Accounts during the period of historical data and the minimum value is placed on bucket repricing that fits the NMD category. Furthermore, if the nominal Savings and Current Accounts at the reporting date exceeds the minimum value (core deposit), the excess is considered as non-core deposits that will be placed on overnight bucket repricing.

d. Aggregation Method between Currencies and Significant Interest Rate Correlations between Currencies

The Bank needs to aggregate the EVE calculation calculation between each currency in order to obtain a consolidated value of all currencies that describe the Bank's condition in general. The bank takes an aggregation value of 50% which will be used to weight the value of EVE calculation in foreign currency. Where the rules used are if the value of EVE in the calculation of foreign exchange experiences a profit, then only 50% of the value of the EVE is taken to add up to the value of EVE in Rupiah. However this does not apply if the value of EVE foreign currency losses.

8. Other information

None

Qualitative Analysis

1. Average Repricing Maturity Period applied for NMD

The bank follows the rules of the regulator by setting the average period of repricing maturity for NMD in the range of 5 years for transactional NMD, 4.5 years for non-transactional NMD, and 4 years for corporate NMD.

2. The longest period of repricing maturity applied for NMD

The Bank follows the rules of the regulator by applying the repricing maturity period for NMD in the range of 5 years for Transactional NMD, 4.5 years for Non-Transactional NMD, and 4 years for NMD Corporations.

Information:

1Adjusted values calculated after haircut, run-off rate, and inflow rate as well as a maximum limit of HQLA component, such as a maximum limit of HQLA Level 2B and HQLA Level 2 and a maximum limit of cash inflow which can be calculated in LCR.

Qualitative Analysis

- Liquidity Coverage Ratio for the position of Quarter IV 2023 is 153.58% above the provisions required by the Regulator, which is 100% (POJK Number 42/POJK.03/2015 regarding the Obligation to Fulfill the Liquidity Coverage Ratio for Commercial Banks).
- 2. The Liquidity Coverage Ratio for the fourth quarter of 2023 was 153.58%, a decrease of 7.24% when compared to the third quarter of 2023 at 160.81%. The decrease in this ratio is caused by:
 - a. Decrease in High Quality Liquid Assets (HQLA) of Rp4.32 billion.
 - b. Decrease in Cash Outflow of Rp1.92 billion.
 - c. Increase in cash inflow of Rp274.3 billion.
- 3. The composition of Bank Mega's average HQLA during Quarter IV 2023 is dominated by Government securities at 78% (after weighting).

Qualitative Analysis

- 1. Encumbered assets are assets that are owned by the Bank but are limited to legal and contractual liquidity needs. Asset Restricted also does not include assets held in custody or agreed with Bank Indonesia, which has not yet been used to generate liquidity. Currently, the Bank has tied assets consisting of Repo amounting to IDR 12.57 trillion (average maturity period at under 1 month) and Government Securities with blocked status amounting to IDR 206.63 billion.
- 2. The Bank has assets that are stored or pledged with Bank Indonesia in the form of a Primary GWM of IDR 5.29 trillion, RIM's GWM is IDR 0.94 trillion, and
- PLM's GWM is IDR 3.89 trillion. Stored assets at Bank Indonesia have not yet been used to generate liquidity but can still be calculated as HQLA as regulated in POJK Liquidity Coverage Ratio (LCR).
- 3. Unrestricted Assets are assets that comply with requirements as HQLA as regulated in POJK Liquidity Coverage Ratio (LCR). At the moment, Banks have unrestricted assets in the form of Cash, Letters, Government Securities, Corporate Securities, and Reverse Repos.

LIQA - Liquidity Risk Management

LIQA - Liquidity Risk Management

Liquidity risk governance, including: risk tolerance; liquidity risk management structure and responsibilities; internal liquidity reporting; and communication of liquidity risk strategies, policies and practices across business lines and with the board of directors.

Risk Tolerance

The Bank sets risk tolerance & risk appetite for Liquidity Risk that is consistent and relevant to the business and complexity of the Bank's business activities. These limits include, among others, the Liquidity Coverage Ratio (LCR) limit, the Net Stable Funding Ratio (NSFR) limit, the Macroprudential Intermediation Ratio (RIM) limit, the cash flow mismatch limit both in the short and long term including cash flows originating from administrative accounts, concentration limits on assets and liabilities, and other liquidity ratios. Tolerance limits are set so that the Bank can manage liquidity under normal and crisis conditions. The determination of the limit for risk appetite and risk tolerance is proposed by the Risk Management Unit (SKMR) and approved by the Board of Directors and Commissioners through the Risk Management Committee (KMR). If a limit is exceeded, the Risk Management Unit (SKMR) will coordinate with the relevant Business Units to prepare an action plan.

Liquidity Risk Management Structure and Responsibilities

The Bank determines the organizational structure, tools and completeness of the units / functions related to the implementation of risk management for Liquidity Risk in accordance with the characteristics and complexity of the Bank's business activities. The person in charge of Liquidity Risk management is the Business Unit whose activities are directly exposed to Liquidity Risk. The Business Unit is further assisted by the Risk Management Unit (SKMR) by providing objective input and analysis in the process of identifying, measuring, monitoring and reporting Liquidity Risk independently. The Board of Directors and Commissioners are responsible for ensuring that the implementation of Liquidity Risk management is in accordance with the strategic objectives, scale, business characteristics and profile of the Bank's Liquidity Risk, including ensuring the integration of risk management implementation for Liquidity Risk with other risks that may impact the Bank's liquidity position.

Internal Liquidity Reporting and Strategy Communication

The Bank has an adequate and reliable Risk Management Information System for reporting purposes related to Liquidity Risk. In general, the Bank has submitted and reported information related to risk management for Liquidity Risk which consists of: liquidity ratios, cash flow and maturity profiles, Liquidity stress testing, Liquidity Risk Profile, and other information related to the Bank's Liquidity Position and Bank compliance against Liquidity Risk policies and procedures. All information is submitted to the related Business Units as well as the Board of Directors and Commissioners through the Bank's internal information system channel and monthly Risk Management Committee (KMR) meetings. The Risk Management Work Unit (SKMR) will then coordinate periodically with the related Business Units that manage Liquidity Risk if there is an exceedance of policies or limits for Liquidity Risk and compile an action plan.

Liquidity Risk Policies and Practices in All Business Lines and with the Board of Directors

In practice, Business Units that are exposed to Liquidity Risk will submit information regarding the condition of macroeconomic indicators and business projections through the Asset and Liability Committee (ALCO) meeting and may submit limits and risk tolerance levels related to Liquidity Risk to the Risk Management Unit (SKMR). to be reviewed and submitted to the Risk Management Committee for approval. Related Business Units also prepare action plans, develop a strong risk culture, and implement risk management policies and procedures for Liquidity Risk that have been established by the Board of Directors. Furthermore, the Board of Directors will monitor and ensure that the implementation of risk management for Liquidity Risk is in accordance with the objectives and characteristics of the Bank, assisted by the Risk Management Unit.

The funding strategy, including the policy of diversification sources and funding tenors, and whether the funding strategy is centralized or decentralized.

In general, the Bank will formulate a funding strategy as part of efforts to control Liquidity Risk. This strategy includes a strategy to diversify sources and term of funding related to the characteristics and business plans of the Bank. This is stated in the risk limit for Liquidity Risk related to the concentration of funding such as the concentration of Time Deposits to Total TPF, special rate DPK concentration to Total TPF, Corporate TPF concentration to Total TPF, as well as Interbank Liability concentrations.

Liquidity risk mitigation techniques

The Bank mitigates liquidity risk by monitoring the liquidity risk limits set by the Bank's management. If the limit is breached, the Risk Management Unit coordinates with the Related Business Unit to carry out an action plan.

4. A description of how the stress-test is used

Liquidity Stress Testing is used to determine the ability of the Bank to meet liquidity needs in a crisis by using a specific stress test scenario (Bank specific scenario) and market stress (general market stress scenario).

5. Outline of urgent funding plan for the bank

To control liquidity in a crisis situation, a Liquidity Crisis Center Management (LCCM) organization was formed which has the task and responsibility to carry out continuous monitoring of bank liquidity conditions. If the bank's liquidity condition falls within the high risk criteria, the Bank will activate the Emergency Funding Plan.

Customized measuring instruments or metrics that assess a bank's balance sheet structure or projected cash flows and future liquidity position, taking into account the risk of off-balance sheet transactions specific to that bank.

The measurement used by the Bank in projecting cash flows is by looking at the main business activities of the bank based on the business information approach, remaining maturity (contractual) and behavioral on & off balance sheet. In addition, the bank also carries out a Funding/Use Plan (RPP) in managing short-term liquidity.

General Qualitative Disclosures

Qualitative Analysis

1. The Bank implements management policies and risks in accordance with the Services Authority Regulations Finance Number 18/POJK.03/ 2016 and OJK Circular Letter Number 34/SEOJK/032016 regarding the Implementation of Risk Management for Commercial Banks also refer to regulations internally regarding risk management policies. Several internal policies related to management operational risks, including the Management Framework Operational Risk, Risk Management Policy, Operational Risk Management Policy, Committee Risk management, RWA Calculation Guidelines Operational Risk; Profile Preparation Guidelines Risk; Capital Adequacy Obligation Policy Minimum (KPMM) according to Risk Profile; Guidelines Preparation of Branch Risk Profiles; Risk Policy Mega Bank Limits; Product Committee Policy and New Product or Activity Issuance Process; Risk Control Self Assessment (RCSA) provisions; Appointment of

- Directorate Operational Risk Management (DORM); Policy for Preparing Emergency Plans (Contingency Plan) in Worst Conditions (Worst Case Scenario); Business Continuity Policy Management (BCM); Determination of Organization Members Business Continuity Management (BCM); Making Business Continuity Plan (BCP) Document; Classification Work Unit Tiers Based on Business Activities. The existence of an Operational Risk Management Policy is used as a guideline for Banks in managing the Operational Risks inherent in every Bank activity, especially to determine responsibility, accountability, and internal coordination work process. It is hoped that this can minimize the potential losses from malfunctioning internal processes, human error, system failure, and/ or external events by anticipating the early emergence of events/errors because they don't know Operational Risk is managed well.
- 2. To increase the effectiveness of implementation, the Bank Operational Risk Management has developed an operational risk management organization with tasks and responsibilities that have been formulated clearly, starting from the Branch, Regional, and Office levels Center. At the Head Office level, the Bank has established an Operational Risk Management Work Unit located under the coordination of the Risk Management Work Unit. This Work Unit assists the Board of Directors in managing operational risk, monitoring processes, implementing active risk management, and ensuring management policies. Operational risk runs at all levels of the organization. In its implementation, the Work Unit Operational Risk Management coordinates with several Work Units in the Control Forum Internal, such as the Internal Audit

Work Unit, Work Unit Process Management & Internal Control, Work Unit Compliance, and other related Work Units that hold regular meetings to discuss material Operational Risk issues to ensure risks These can be controlled effectively from an early age. To implement the Management Framework, Operational Risk has been appointed by 3 elements of insurance, which is the responsibility of the manager in each Work Unit consisting of the Risk Owner, Operational Risk Manager, and Responsible Person. The risk Owner (RO) is the Top Leader in the Directorate, Office Work Unit Central, Regional, and Branch responsible for managing Operational Risk in the Work Unit he leads. The operational Risk Manager (ORM) is an Operational Risk management function that helps the Risk Owner implement an Operational Risk Management Framework consisting of Corporate ORM/CORM (Bank level), Directorate ORM/DORM (Directorate level), and ORM/UORM Unit (Head Office Work Unit level). Meanwhile, the Responsible Person (RP) is there if needed to help UORM manage Operational Risk. Apart from that, to supervise risk management operations and oversee risk issues in each unit, work is carried out by operational risk governance meetings starting at the work unit, directorate, and bank level. Operational risk issues discussed in Governance Meetings can be obtained based on data recording risk events, selfassessment results, results inspection, etc. Identified risks will be measured and followed up to suppress risk levels.

3. The Bank is developing an operational risk management system (ORMS) to improve existing tools. ORMS has three modules, namely Risk Control Self Assessment (RCSA), Key Risk Indicator (KRI), and Risk Event Database (RED). RCSA assists risk owners in operational risk management processes, including risk identification and measurement, predictive independent operations, and anticipatory. Furthermore, KRI is a tool that provides early information regarding symptoms and risks that the trend shows enhancement. Meanwhile, RED is a tool that functions as a database of risk events, which is used for Bank learning data. The Bank builds a risk events database, which contains data on losses due to risk operations through the Risk Event Database module (RED) in the ORMS application. This is part of the Bank's activities to record Loss Data, which will be used in Capital calculations, Operational Risk, and RWA Operational Risk. Events recorded include Loss Events and near-miss Events. The event can originate from activities that are both transactional and non-transactional. Near Miss is an event with the risk of almost causing financial Loss or that has caused financial Loss. However, the Loss has been fully recovered, with notes when recording in the system ORMS-RED risk events have been resolved well on

- the same day as the event or not, while a Loss Event is a risk event with a financial impact or Loss of Bank funds. To obtain complete information, operational risk events must be analyzed chronologically, including causes and effects. The event risks that have an actual financial impact are mandatory recorded in the RED module, regardless of the value of the Loss, against Risk Events that have occurred. Note that the Work Unit monitors losses from Losses Event regarding updates for each loss recovery up to the final and recording of losses last in the Bank's books. Operational Risk Work Unit Management will reconcile the recorded Loss in the Risk Event Note with those recorded in GL Bank Losses.
- 4. The Risk Management Work Unit (SKMR), particularly The Operational Risk Management Work Unit, has published or compiled several reports on conditions of risks related to the Bank management ranks. These reports are made public to support the performance of related units through the provision of informative and dual-controlled data in risk control, including Risk Reports Limit, Minimum Capital Requirement (KPMM), Bank Health Level Assessment, Risk Event Database (RED), Operational Risk Online Test (OPRIST), Report Branch Risk Profile, Risk Assessment Result Report, Monitoring Reports & Risk Loss GL Reports Operational, Weighted Asset Calculation According to Operational Risk Using Approach Basic Indicators in previous periods and Calculation of Weighted Assets According to Operational Risk by Using Standard Indicators in the period 2023 by SEOJK No 6/SEOJK.03/2022. The Bank Health Level Assessment has several risks, including operational assessment parameters on inherent risks, such as business characteristics and complexity, source human resources, information technology and infrastructure support, fraud, and external events. Parameter This is by the relevant OJK Circular Letter. Bank Health Level Assessment.
- The Bank continues to perfect the implementation of operational risk management by improving employee awareness of risks as well as improving policies and procedures for bank operations. These various efforts aim to mitigate inherent risks and continuously improve systems control, especially regarding operational risks. Banks continually increase risk awareness among all their employees through multiple media, including e-campaigns, newsletters, and direct outreach. As an Implementation of Risk Management by the level of risk to be taken, risk tolerance, and the Bank's overall strategy, consistently pay attention to the Bank's capital ability to absorb risk exposure or losses that arise, past loss experience, ability of human resources and compliance with applicable internal and external provisions. The Bank must set risk limits according to the level of risk to be taken (Risk Appetite) and tolerance

of adequate risk (Risk Tolerance) according to targets strategic and overall Bank business strategy, which must be adhered to by all lines of the organization. Therefore, the Bank's Risk Limit Policy was issued. Banks must implement a risk culture (Risk Culture), including consistently implementing the process identification, measurement, monitoring, control, and reporting of possible losses that the Bank can experience, preventing risk events (Risk Events), and minimizing Bank losses (Risk loss). Then, the identification process, measurement, monitoring, control, and reporting of each type and group of risks must be carried out separately, sustainable, and integrated. Management Culture Risk is internalized at all levels of the organization to encourage consistency and effectiveness of Implementation Bank Risk Management. It is the shared responsibility of all employees in every line of the organization. The Bank strengthens internal control through forums internal control by holding regular meetings to discuss material Operational Risk issues

to control these risks early. A Product Committee has been formed for optimized function, namely identifying and mitigating the risks inherent in the product and new activities and evaluating the performance of products launched. The Bank has developed management guidelines for risks for specific products to facilitate mitigation steps for product risks by related work units. All cash and Bank Notes managed by the Bank must be insured; the type of cash insurance at the Bank contained in Cash Save (money in the treasury main), Cash In Counter (money in the Teller drawer, and Branch Operations Officer Box in the counter area Teller) and Cash In Transit (transit money). As a form of active supervision by the Board of Directors on implementing Management Implementation Quality Operational Risk, the Bank has implemented an Operational Risk Governance Meeting at the Bank level, the primary purpose of which is to identify and manage critical risks at the Bank level.

General Bank Risk Management Disclosures

Organization

The implementation of risk management is governed by the Financial Services Authority (POJK) Decree No. 18/POJK.03/2016 on the implementation of risk management for merchant banks.

Risk Management at PT Bank Mega, Tbk is coordinated by the Directorate of the Deputy General Manager for Support, where this directorate oversees 12 work units, namely Operational Risk Management, Credit Risk Management, Market, Liquidity & Integrated Risk Management, IT & Cyber Risk Management, National Credit Review & Restructuring, National Credit Appraisal, Credit Collection Remedial & Recovery, Collection Strategy & Support, CCPL Collection, CCPL Remedial, CCPL Recovery, and Corporate Legal.

The Credit Risk Management, Operational Risk Management, Market, Liquidity & Integrated Risk Management, IT & Cyber Risk Management, National Credit Appraisal, National Credit Review & Restructure,

together with Compliance & Good Corporate Governance, Crime & Fraud Investigation, Anti Money Laundering, Corporate Legal, Customer Experience & Customer Care, Process Management & Internal Control and other related work units are tasked with identifying, reviewing and monitoring all major risks of the Bank in accordance with established risk management policies and procedures. The risk control function is located in the Internal Audit Department (IADT) and the Process Management & Internal Control Department (PMIC).

On a bank-wide level, PT Bank Mega, Tbk has a Risk Management Committee (KMR) which assists the Board of Commissioners and the Board of Directors in carrying out an active supervision in terms of risk management. In the structure of the Board of Commissioners, there is a Risk Monitoring Committee, a Remuneration and Nomination Committee, and an Audit Committee, while in the Board of Directors itself, there is an Executive Committee consisting of: Risk Management Committee (KMR), Credit Policy Committee, Product Committee, Information Technology

Committee, Human Resources Committee, Assets & Liabilities Committee (ALCO) and Crisis Management Committee (KMK).

On a group level, PT Bank Mega, Tbk is the main entity in the implementation of Integrated Risk Management in Mega Corpora Financial Conglomerate. The Market, Liquidity & Integrated Risk Management Department is the Integrated Risk Management Department (SKMRT). Apart from this, there is also an Integrated Risk Management Committee (KMRT) which is held on a quarterly basis.

Risk Indicators

In its implementation, the Bank has divided the risks inherent in the Bank's activities into 9 (nine) risk types according to the provisions of the Financial Services Authority (OJK), namely 8 (eight) main risks of the Bank based on OJK Circular (SEOJK) No. 34/SEOJK. 03/2016 dated 1 September 2016 and 1 (one) additional risk outside the 8 (eight) main bank risks related to the implementation of integrated risk management based on SEOJK No.14/SEOJK.03/2015. Each risk is assessed from 2 (two) aspects, namely, Inherent Risk and Quality of Implementation of Risk Management.

The parameters used to assess the Inherent Risk according to SEOJK No.14/SEOJK.03/2017 dated March 17, 2017 regarding the Assessment of the Soundness Level of Commercial Banks are as follows:

Types of Risk	Risk Indicators
Liquidity	 Asset portfolio composition and concentration levels Quality of funding and adequacy of reserves Funding strategy and sources of funding External factors
Market	 Portfolio volume and composition Potential loss from interest rate risk in the banking book Business strategy and policy
Liquidity	 Composition of assets, liabilities and transactions on administrative accounts (TRA) Concentration of assets and liabilities Vulnerability to funding needs Access to funding sources
Operational	 Business characteristics and complexity Human Resources Information technology and supporting infrastructure Fraud External events
Compliance	 Nature and significance of the violations committed Frequency of violations committed or the bank's track record of non-compliance Violation of generally applicable terms or business standards for specific financial transactions
Strategic	 Suitability of strategy to business environment High-risk and low-risk strategy Business Position Achievement of the Bank's Business Plan (RBB)
Legal	 Litigation Factors Engagement weakness factors Absence/Change in Legislation factors
Reputation	 Influence of the reputation of bank owners and related companies Violation of business ethics Product complexity and cooperation between banks Frequency, materiality and exposure of negative bank news Frequency and materiality of customer complaints
Intra-Group Transaction*	 Composition of intra-group transactions in financial conglomerates (KK) Documentation and fairness of transactions Other information

^{*} Parameters for Evaluating the Inherent Risk of Intra-Group Transactions According to SEOJK No.14/SEOJK.03/2015 on Implementing Integrated Risk Management

Risk Profile

On the basis of the conditions and measures of risk management in 2023, the assessment of the risk profile of PT Bank Mega, Tbk for June 2023 and December 2023, which has been adjusted to the results of the KMR meeting, is as follows:

	Ju	June 2023 period			December 2023 Period

Risk Management Implementation Process

The implementation of Risk Management is an obligation for every bank as regulated by POJK No.18/POJK.03/2016 dated March 16, 2016 on the implementation of Risk Management for commercial banks and SEOJK No.34/SEOJK.03/2016 dated September 1, 2016 on the implementation of Risk Management for commercial banks. Based on these provisions and the Bank's internal needs, PT Bank Mega, Tbk has implemented risk management in accordance with the scope of its activities.

The achievement of Bank Mega's strategic goals and business objectives must be balanced with the implementation of Risk Management, in accordance with the best practices in national banking (risk-return management). For this reason, the Bank establishes risk appetite and risk tolerance parameters, which are periodically reviewed. The definition of risk level and its measurement based on a combination of inherent risk aspects and quality of risk management implementation (KPMR) refers to SEOJK No.14/SEOJK.03/2017.

The four pillars of risk management implementation have become a reference for the implementation of risk management in all work units of the Bank. The implementation of the four pillars of risk management in PT Bank Mega, Tbk is as follows:

1. Active Oversight by the Board of Commissioners and the Board of Directors

Active oversight by the Board of Commissioners is provided through the approval and evaluation of risk management policies prepared by the Board of Directors. The Board of Commissioners periodically evaluates the implementation of the risk management policies both in the Board of Directors and Commissioners' meeting forums and in the Risk Monitoring Committee (RMC) meetings. In addition, the Committee evaluates and approves requests from the Board of Directors for transactions/policies.

Active supervision by the Board of Directors includes the preparation, approval and implementation as well as the evaluation of risk management policies and procedures and risk limits, both of which are carried out at Risk Management Committee (RMC), Assets & Liabilities Committee (ALCO) and Policy Committee meetings. Credit. The Board also prepares and establishes approval mechanisms for transactions exceeding limits/authorities and deviations, and approves transactions exceeding limits/authorities or deviations.

In order to support the implementation of risk management, Bank Mega has established several policies related to risk management and determination of risk

2. Policy Adequacy and Limit Setting

- limits. In their implementation, these policies have been documented in writing in the form of Decree Letters (SK) and Circular Letters (SE) and reviewed periodically with approval up to the Board of Directors level through committee meetings or by circulation to the Board of Directors, depending on the level of authority.
- 3. Adequacy of Risk Identification, Measurement, Monitoring and Control Processes and Risk Management Information Systems Risk Management Process at PT Bank Mega, Tbk which includes risk identification, measurement, monitoring and control of 8 (eight) types of risks supported by a Risk Management Information System as follows:
 - a. Governance & Policy Establish risk management policy governance, which includes determining risk appetite and

risk tolerance.

- b. Risk Identification & Measurement Protect the bank from unexpected losses through risk measurement, which includes:
 - Identifying risks in existing banking processes and activities and in new banking activities
 - Measuring potential risks
 - Measuring actual losses
- c. Risk Monitoring

Monitoring risk events to detect and prevent losses

- d. Risk Control Effectively implement risk control
- e. Risk Disclosure Submit risk reports, including risk management reports to the Board of Directors and risk management information reports to the public.
- 4. Internal Control System

The internal control system of PT Bank Mega, Tbk has been developed and implemented using the Three Lines of Defense model, which consists of:

Risk Taking Unit

1st Line of Defense

Risk Owner, responsible for risk exposure, execution and results (day-to-day risk management and control)

Risk Control

2nd Line of Defense

Risk Control, responsible for the

- Prepare proposed risk management strategies and policies, including risk appetite and risk limits.

 Develop risk management frameworks, policies, principles, tools, methodologies and standards.

 Provide recommendations to the 1st line of defense in the implementation of risk policies in accordance with authority.

 Escalate key issues to senior management / directors / risk management committee.

Risk Assurance

Risk Assurance, responsible for independently assessing the effectiveness of risk management

In order to improve the implementation of risk management, PT Bank Mega, Tbk is constantly developing the tools used, evaluating and correcting any weaknesses in the process and in the development of human resources as the key to implementation. This is important to do considering that risk factors have a dynamic nature following the development of banking business practices themselves.

In addition to the Internal Audit Department (IADT), which performs regular supervision/audits, the Process Management & Internal Control Department (Branch Operations Control, Head Office & Operation Control, and Credit Control subdivisions) also performs ex-post supervision. The National Credit Review & Restructure (NCRR) Department is responsible for the supervision and monitoring of the provision of credit.

Supervision and monitoring of operational activities is performed by Process Management & Internal Control (Branch Operations Control and Head Office & Operation Control sub-units) through on-site and off-site inspections.

Based on the results of this inspection, it can be concluded that improvements are still needed in the operational activities. The action plan for improvement is as follows:

- 1. Monitoring of pre-signed documents and implementation of APU-PPT program at branches (potential OJK findings)
- 2. Sharing knowledge of risk event profile database based on 4 (four) causes of operational risk and monitoring dormant accounts
- 3. Knowledge sharing on Business Continuity Plan (BCP)
- 4. Coordinate with internal control team, process and product owners, and IT (transformation) team to remediate vulnerabilities related to issues that arise
- 5. Review Fixed Assets and Inventory (ATI) policy to improve control over existing policies
- 6. Impose sanctions

Risk Management Process Improvement

There are 5 (five) main areas of focus in the efforts to improve risk management, namely

- 1. Identification
 - a. Risk awareness, as the main key to risk management, is constantly being improved at both the implementation and management levels. One method is to include risk management material in employee training programs. Risk awareness

is also carried out through internal media such as Credit and Operational Risk Bulletins, which are distributed to all employees of the Bank, where in 2023 the Bank has published Credible, which contains material on updates on the Bank's mega credit developments, economic updates, latest policy updates on Credit RWA and Covid-19 stimulus, as well as material on the digitalization of credit cards and payers.

In addition, socialization, especially on operational risk issues, was carried out to all employees through the publication of a bulletin entitled "Risk Event Database (RED) Volume" and risk campaigns containing operational risk events, the operational risk campaigns carried out in 2023:

- Risk campaign for March 2023 on "Always Apply Dual Control in Every Work Activity".
- Risk Campaign for June 2023 on "The Importance of Segregating Duties in a Work **Process**
- Risk Campaign for July 2023 on "Covid 19 Endemic
- Risk Campaign in July 2023 regarding "Business Continuity Plan
- Risk Campaign in October 2023 regarding "Implementation of OPRIST Cycle II 2023 for Branches and Regionals
- Risk Campaign in November 2023 regarding "Beware of Monkey Pox
- Risk Campaign in December 2023 regarding "Beware of Flooding due to Extreme Rainfall
- December 2023 Risk Campaign on "Covid-19, Don't Panic, Stay Alert

Several trainings have been conducted for employees with resource persons from both internal and external parties, including: Socialization and Operations Forum, Bank Indonesia Socialization regarding the Plan for Issuing Provisions on Macroprudential Liquidity Incentive (LKM) Policy, Socialization of Bank Indonesia Regulation (PBI) No. .3 of 2023 on Consumer Protection, Socialization of PBI No. 6 of 2023 on Money Markets and Foreign Currency Money Markets (PUVA), Socialization of PBI No. 7 of 2023 on Export Proceeds Foreign Exchange and Import Payment Foreign Exchange. Socialization of the Law on Personal Data Protection.

In September 2023, the Bank conducted a risk assessment of the CCOP Work Unit regarding work processes in all areas of the Work Unit.

- b. The Bank also carries out thematic analyses to identify operational risks, namely:
 - In Semester I, an analysis was conducted on dormant accounts which was presented at the KMR meeting in March 2023, as well as monitoring the follow-up analysis on the use of power of attorney, control of presigned documents, and implementation of the APU-PPT program in branches (potential OJK findings). In Semester II, we conducted a thematic analysis of the risk event database profile based on 4 (four) causes of operational risk and conducted monitoring of dormant accounts.
 - In the second semester, the Bank also conducted quarterly monitoring of internal governance regulations that had expired, namely for Decrees (SK) valid for 5 (five) years and Circular Letters (SE) valid for 3 (three) years, as well as monitoring of thematic analyses conducted in previous years, namely Power of Attorney analysis, Pre-sign documents analysis.
- c. Understanding of policies, existing products and their authorities is a priority that is carried out by the relevant work units for implementing staff in the field. To identify risks associated with the development of new products and activities, the Bank implements an approval mechanism through the Product Committee. In addition to analyzing the risks of products and activities under development, a review of existing products is also conducted with the aim of improving product weaknesses. In addition, in order to increase the efficiency and effectiveness of risk management in this area, the Bank has a special product assessment for certain products that are considered to have significant risks. Regarding product risk, the Bank has a special product assessment for certain products that are considered to have significant risks. With regard to product risk, the Bank has issued provisions for measuring the Bank's product risk in accordance with SE No. 126/DIRBM-PMOC/22 on the Implementation of Bank Products, which refers to POJK No. 13/POJK.03/2021 on the Implementation of Commercial Bank Products.

With the growth of the Bank's loan portfolio, the risk identification process is very important in view of the high potential risks, both in terms of potential deterioration of credit quality and credit concentration based on financing limits per economic sector. The Bank has conducted and will continue to conduct training and education programs for all officers and officials involved in credit activities. A form of credit portfolio monitoring is carried out by the Process Management & Internal Control Department through the Credit Control team, starting from the disbursement of the loan to determine whether the loan disbursed is in compliance with the Bank's procedures and policies.

d. The process of credit risk identification is carried out by the Credit Risk Management unit by looking at the loan portfolio as a whole, based on segmentation, credit quality, economic sector, concentration of loans to individual borrowers and business groups, and the adequacy of loan loss provisions. In addition to the monitoring of the loan portfolio, individual loans are also monitored in the form of a watch list as an early warning system to prevent deterioration in credit quality. In addition, since 2021, the watch list has also been used as a form of early warning system for the COVID-19 credit restructuring system regarding the potential for deterioration in the Bank's credit quality, which takes into account the debtor's historical and projected repayment capacity, the percentage of deferred interest, the debtor's business performance as measured by the debtor's financial performance, the support of shareholders, as well as external factors such as GDP growth per economic sector. The process of identifying credit card risks is also carried out through credit risk assessment in the account maintenance process. In order to identify the Bank's credit risks for economic sectors, an industry analysis of the blockchain industry was conducted.

In addition, the Bank has also begun to identify climate risks that may affect the Bank's credit portfolio, where the emergence of climate risks, such as risks resulting from natural disasters and risks resulting from the transition to a low-carbon economy, may affect the financial performance of debtors.

- e. For market risk, the identification process is based on portfolio categories, product details and transaction types, such as transactions related to foreign exchange, interest rates and various derivatives. To facilitate the identification process, Spectrum and Bloomberg systems are used.
- f. The liquidity risk identification process is carried out on the Bank's products and activities that affect the collection and distribution of funds in assets, liabilities and administrative accounts, as well as other risks that have the potential to increase liquidity risk. In addition, the Bank has a tool for monitoring the Early Warning System of market/external indicators related to market risk and liquidity risk. This tool identifies the state of market indicators and liquidity outside the Bank (external) in normal or tight conditions, which is expected to affect the Bank's business conditions. This can help the Bank's business unit in making business decisions by prioritizing the level of prudence and vigilance.
- g. Throughout 2023, the operational risk identification strategy will focus on identification through data. Some tools that generate the required data are Risk Event Database (RED), Key Risk Indicator (KRI) and Risk Control Self Assessment (RCSA), Operational Risk Online Test (OPRIST), e-learning. In 2023, the Bank will intensively and optimally implement the Operational Risk Management System (ORMS) developed in 2016, which includes RCSA, RED and KRI, as well as use the Operational Risk Web Links (OWL) system application to implement the Operational Risk Online Test (OPRIST), which is a test conducted online for Bank Mega employees to measure the understanding of policies and procedures, products and other regulations related to their area of work, as well as to increase employees' risk awareness.
- h. In 2023, the Bank will optimize the role of the Internal Control Forum (Internal Audit, Audit Unit, Risk Management, Business Unit and Fraud Investigator) to collaborate in the control of operational risk. The Internal Control Forums held during 2023 are as follows:
 - Internal Control Forum on January 25, 2023 with the PMIC, NTOP, SAPG, NTOP and CGCG work units, with the theme of Power of Attorney risks.
 - Internal Control Forum on March 2, 2023 with the IADT, AMLA, PMIC, NTOP, CFIN, CGCG, SAPG, and RPMG work units on dormant account and power of attorney risks.

- Coordination with the product and support team regarding dormant account analysis on March 13, 2023.
- Internal Control Forum on April 6, 2023 with NTOP Work Unit and Regional Operations Head on RED and OPRIST risk issues.
- Regional Operations Workshop Jakarta-1 on May 27, 2023 with Work Units on Branch Risk Profile, RCSA, OPRIST, RED and BCP.
- Internal Control Forum (Coordination of Risk Issues with Regional Operations Head) on August 9, 2023 with NTOP Work Unit and Regional Operations Head, covering Regional and Branch RED Profiles for Semester I 2023, Follow-up of IADT Findings for Branches, Document Fulfillment BCP and 2023 BCP Trial for Regional and Branch Offices.
- Internal Control Forum (Coordination of Operations - Business) on August 30, 2023 with the SAPG, NTOP, PMIC work units, with the topic Customer Transaction Call Backs, LOI, Mobile Numbers as Verification, etc.
- Internal Control Forum on December 6, 2023 with the PMIC, CGCG, SAPG, COLG, PSSD, COBS, NTOP work units and the Product Owner team (RPMG, CPMA, SBDV, TIBS, CUST, HCMG, HCRO) on the topic of Formulation of Terms and Conditions related to PDP and Customer Consent with the Personal Data Protection Law.
- i. Since 2020, the Bank has measured operational risk in branches through the assessment of the branch operational risk profile, which is published quarterly, and the publication of graphical information (resume) of the branch operational risk profile, which is published monthly.
- j. Periodically updating the Action Plan Document (Recovery Plan) and conducting tests (stress tests) of recovery options in the Action Plan Document (Recovery Plan), as an implementation of POJK No. 14/POJK.03/2017 on Action Plans (Recovery Plan) for Systemic Banks.
- k. The Bank also raises awareness of information technology and cyber risk management for all employees, which includes technology and information security risk, including cyber risk, through various communication media, including: E-Learning Security Awareness, Email Blast Cyber Risk Awareness, PC Wallpaper/Laptop, Cyber Risk and Resilience Technology Information Bulletin (INTERAKSI), and Online Training related to ISO 27001.

- I. The Bank has also conducted cybersecurity testing based on vulnerability analysis to identify the weaknesses of the Bank's system, namely by conducting a vulnerability assessment followed by penetration testing.
- m. The Bank also conducts cybersecurity testing based on scenarios to validate the process of dealing with potential threats of cyber-attacks and recovering from potential cyber incidents, namely by conducting a table-top exercise to assess the Bank's readiness to respond to cyber incidents and a social engineering exercise in the form of a phishing email simulation for all Bank employees and a dumpster diving exercise for work units that process customer transaction data.
- n. As part of the Bank's efforts to adequately and effectively manage security and information risks, the Bank has implemented and obtained certification to the international standard ISO 27001:2013 on Information Security Management Systems (ISMS). ISO 27001 requires banks to establish, implement, maintain and continuously improve an information security management system appropriate to its scope.

2. Measurement

- a. Risk measurement is carried out by the Risk Management Department (SKMR) through a quarterly assessment of the bank's risk profile and a semi-annual assessment of the bank's health level (PTKB). In the context of Mega Corpora Financial Conglomeration, PT Bank Mega, Tbk is designated as the Main Entity which is required to submit an Integrated Risk Profile Report and an Integrated Minimum Capital Requirement Report (KPMM) every semester.
- b. Regarding the KPMM provisions, the Bank has implemented the Basel II Standardized Approach for measuring market risk and the Basel III Standardized Approach for credit risk.
- c. In measuring credit risk, the Bank uses a standard method in accordance with SEOJK No.24/ SEOJK.03/2021 on Calculation of Risk Weighted Assets (RWA) for Credit Risk Using a Standard Approach for Commercial Banks. The Bank also has

- credit stress testing tools. The Bank will continue to develop and implement ratings and scoring for corporate, commercial, INCH executing credit segments and interbank facilities. The Bank also continues to improve scoring for the credit card segment, where the development of internal and external scoring, both traditional and nontraditional, is carried out to speed up the credit card application process with the desired level of risk. The Bank validates and reviews the credit card scoring to ensure that the limit and quality of the scores used are still in line with the Bank's risk level. In addition, the bank also conducted an industry analysis of the blockchain industry to measure the level of risk and the bank's exposure to the industry.
- d. Credit risk measurement also includes Bottom Up Scenario Test (BUST) stress testing and loan portfolio stress testing to determine the Bank's capital and liquidity resilience and its impact on profitability. In addition, the Bank has currently started to develop a methodology for conducting climate risk stress tests for priority sectors identified by the OJK.
- e. Market risk measurement includes the process of valuing financial instruments, calculating market risk capital requirements, stress testing, and sensitivity analysis. For the valuation process, the Bank may use the marked-to-market method and/or the markedto-model method. Meanwhile, to calculate the market risk capital charge, the Bank uses a standard calculation method that has been reported to the regulatory authorities (BI and OJK). In addition, the Bank has also measured interest rate market risk in the banking book using the IRRBB (interest rate risk in the banking book) calculation in accordance with SEOJK No.12/SEOJK.03/2018 on the implementation of risk management and risk measurement standard approaches for interest rate risk in the banking book for commercial banks.
- f. In order to measure capital adequacy, the Bank has been using a standardized approach for commercial banks to calculate operational risk RWA since January 2023.

- g. With the issuance of SEOJK No.23/SEOJK.03/2022 regarding the calculation of risk-weighted assets for market risk for commercial banks, the Bank has developed the calculation of market RWA using the Standardized Approach (SA) method, which will be effective from January 2024. The Bank has also conducted three trials of the Market RWA calculation reports using the Standardized Approach (SA) method, namely in June 2023, September 2023, and December 2023.
- h. In order to improve the implementation of Basel II Pillar 2 and Basel III, the Bank has conducted Internal Liquidity Adequacy Assessment Process (ILAAP) measurements by assessing liquidity adequacy in various market condition scenarios and periods of pressure that the Bank may face without considering liquidity support from the Central Bank.

There are several new features in the measurement and management of liquidity risk in the implementation of ILAAP, such as Available HQLA, which only takes into account HQLA that can be quickly disbursed without obstacles or penalties (excluding GWM and PLM); Survival Period Monitoring, with a survival period that is not only calculated for the next 30 days under stress conditions, but is adjusted to the bank's risk limit; Providing information on the volume of funds due and new funds received, including daily rollover funding within 1 (one) month; improving intraday liquidity by capturing time-specific intraday liquidity risks and correspondent banking vulnerabilities; monitoring liquidity adequacy for significant foreign currencies (liabilities in these currencies are > 5% of the bank's total liabilities).

i. In the process of measuring liquidity risk, the Bank performs measurements that include liquidity exposures arising from assets, liabilities and administrative accounts. The measurement tools used to measure liquidity risk include minimum statutory reserves (GWM), macroprudential intermediation ratio (RIM), loan to deposit ratio (LDR), maturity profile, daily cash flow projections, liquid assets to non-core deposits, liquid assets to DPK, risk limit, liquidity risk and stress test. The Bank has also implemented the calculation of Basel III liquidity ratios, namely Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR). In

- addition, the Bank has carried out measurements of the Emergency Funding Plan indicators.
- j. The Bank also has tools for measuring operational risk, namely RCSA, which is one of the risk management tools for conducting self-assessments on the quality of the implementation of controls to anticipate operational risk in the future. Currently, RCSA has been implemented in branches and several work units at Head Office, especially those with transactional activities. The implementation of RCSA will be carried out in 2023:
 - In Semester I, the Bank implemented RCSA from April 10, 2023 to May 17, 2023 with the participation of 435 participants consisting of 46 head office work units, 8 regional offices and 381 branch offices.
 - In Semester II, the Bank conducted RCSA from November 13, 2023 to December 1, 2023 with 422 participants consisting of 45 Head Office Work Units, 8 Regional Offices and 369 Branches.
- k. In measuring human resource competency, the Bank also measures the competency of employees according to their job titles by implementing the Operational Risk Online Test (OPRIST) as a work unit tool both at KPNO and at Branches, Sub-Branches and Regional Offices. Oprist in 2023 will be conducted in Semester I starting from 08 s.d. May 22, 2023 and Semester II starting in September 2023 for KPNO and October 2023 for Branch Offices, Sub-Branch Offices and Regional Offices.
- In determining the level of cybersecurity maturity and also the level of digital maturity achieved by the Bank, the Bank has conducted an assessment of the Bank's level of cybersecurity maturity and an assessment of the Bank's level of digital maturity in accordance with applicable regulations. In the assessment of the digital maturity level, Bank Mega is one (1) bank out of 19 (nineteen) banks designated by the regulator to conduct the pilot.
- m. In the assessment of the level of bank health (PTKB), the bank has added cyber risk aspects as part of the operational risk profile related to the use of information technology (IT). These aspects include the use of updated antivirus software, the frequency of cyber attacks and the impact of cyber incidents. This step will assist the Bank in

monitoring the vulnerability of IT systems to cyber threats and attacks.

3. Monitoring

- a. The Risk Management Committee (KMR), the Credit Policy Committee (KKP) and the Product Committee also act as monitoring instruments for the risk management process in various functional areas, where policies proposed by the business units are first evaluated from various risk aspects before being implemented.
- b. The Assets and Liabilities Committee (ALCO) meets on a regular basis (monthly) to monitor the achievement of business targets, the implementation of interest rate policy, macroeconomic forecasts, as well as to discuss strategic issues related to the management of market risk and the Bank's liquidity risk.
- c. The Bank routinely monitors the credit quality of all credit segments that have the potential to become problematic or are starting to become problematic through periodic credit monitoring meetings and monthly periodic reporting through the Monthly Credit Report for all credit segments. In the credit card and personal loan segments, the Bank also monitors acquisition and portfolio quality on a weekly basis through the Weekly Dashboard. The Bank also routinely reviews credit card and personal loan approvals on a sample basis to ensure that the process has been carried out in accordance with applicable policies.
- d. Risk monitoring has been inherently performed by each unit through each supervisor and manager, in line with the Three Lines of Defense concept. In addition, the Internal Audit Department (IADT) and Process Management & Internal Control (Branch Operations Control and Head Office & Jakarta Operations Control sub-units) play a role in making the implementation of the monitoring process more effective.
- e. The Bank has monitoring lending limits based on economic sectors and a mechanism for monitoring economic sectors through trigger and action tools. In addition, the Bank has monitoring of credit risk limits. The Credit Risk Management Department has been monitoring the credit performance in relation to the economic sector limits and credit

- risk limits. The monitoring results are reported periodically (once a month) to the Board of Directors and Commissioners, as well as to several related departments.
- f. Credit monitoring is also carried out through periodic reporting, daily, monthly and quarterly for all credit and credit card segments, in terms of concentration levels, credit risk limits, credit quality, credit mutations, credit provisions, credit restructuring, as well as comparisons with commercial banks and peer groups.
- g. The use of credit decision authority limits (CDAUs) for credit decision officers is also monitored on a regular basis. This periodic monitoring is carried out as part of the review of credit performance and the authority limits of BWMK holders. The policy for granting Credit Decision Authority Limits (CDAL) is also reviewed periodically.
- h. The Bank also monitors the COVID-19 restructuring loan portfolio based on portfolio development, quality, restructuring plans, maturity monitoring and realization of due payments. The monitoring is carried out periodically (once a month), which is then reported to the Credit Director, Deputy Main Director and several related departments.
- i. The market risk monitoring process for trading and counterparty activities is monitored by Treasury International Banking Business Support (TIBS) and Market, Liquidity & Integrated Risk Management (MIRG). The Bank also monitors and reports daily on the exposure, risk and utilization of Treasury limits and global markets, which are reported to the relevant business units and Bank Management.
- The Bank monitors the fairness of market prices (off-market) as an effort to maintain the fairness of market prices in relation to the exchange rate/rate of Forex transactions made to both customers and counterparties. With regard to interest rate risk, the Bank also monitors the securities portfolio using the duration & PV01 method in order to anticipate changes in interest rates.
- k. The liquidity risk monitoring process is based on the results of the following measurements: statutory minimum reserve (GWM), macroprudential intermediation ratio (RIM), loan to deposit ratio (LDR),

maturity profile, daily cash flow projections, liquidity to non-core deposits, liquidity to DPK, liquidity coverage ratio (LCR), net stable funding ratio (NSFR) and liquidity stress test. Daily liquidity needs are met by Treasury. The results of the monitoring are periodically presented to the regulators and the Bank's management.

- I. Bank also monitors early warning indicators (Early Warning System), internal indicators such as Contingency Funding Plan and Action Plan (Recovery Plan), which are periodically reported to management. Meanwhile, monitoring external indicators such as: foreign exchange market indicators, stock price index (IHSG), foreign ownership securities, credit default swap (CDS).
- m. The Bank monitors operational risk issues from each Directorate in the Operational Risk Governance Meeting (ORGM) forum at the Bank level, based on the results of self-assessments from each work unit.
- n. Periodically monitor the action plan (recovery plan) trigger levels in terms of capital, liquidity, profitability and asset quality in accordance with the regulations. Perform escalations and prepare action plans when trigger levels are exceeded.
- o. Monitoring of IT Risk Event Data (RED) related to the Bank's critical applications/systems, including followup in the form of analysis and further discussions with IT business units to understand events and planned corrective actions based on incident escalations recorded in the Operational Risk Management System (ORMS) system/database.
- p. To complete the operational risk monitoring process, the Bank will routinely monitor the accounting of operational risk losses based on 7 (seven) operational loss GLs throughout 2023. The results of the Operational Loss GL monitoring will be reported in the form of Operational Risk Loss Monthly Monitoring, which will be published monthly.
- q. Operational Risk monitoring is also carried out through the preparation of Operational Risk Profile Reports, Compliance Risk, Reputation Risk and Legal Risk periodically, both monthly for risk limits and quarterly for profiles.
- In monitoring indicators that could potentially cause operational risks in branches, the Bank has prepared quarterly branch risk profile reports and monthly

infographics. This can help branch risk owners to identify risks that have the potential to occur (inherent risks).

4. Controls

- a. The Bank has internal policies for the implementation of the Bank's risk management and integrated risk management policies, as well as policies for the Bank's 8 (eight) main risks, namely Credit Risk, Market Risk, Strategic Risk, Liquidity Risk, Operational Risk, Reputation Risk, Compliance Risk, Legal Risk, and 1 (one) additional risk within the scope of the Mega Corpora Financial Conglomerate, namely Intra Group Transaction Risk. With respect to Information Technology and Cyber Risk, the Bank currently has an Information Technology (IT) & Cyber Risk Management Policy.
- b. In an effort to improve the quality of risk management implementation, particularly in terms of the suitability of risk management strategies with the Bank's strategic objectives and overall business strategy, the Bank has included risk limits as part of the Bank's business plan. The risk limit is periodically monitored for compliance with the risk tolerance set by the Bank.
- c. The parameters, percentages or figures for risk appetite and risk tolerance are determined on the basis of historical data analysis, statistical approaches, business/expert judgment and the state of the Bank's general data, as well as strategic decisions of the management.
- d. The Bank has a Credit Risk Limit Tools Trigger & Action Mechanism policy to ensure that the Bank reviews or creates action plans for credit risk limit parameters that have exceeded risk appetite or risk tolerance.
- e. Reviews of risk appetite and risk tolerance are conducted periodically, taking into account changes in the Bank's internal business conditions and strategies, as well as the national banking macroeconomy. The Bank also reviews the lending limits based on economic sectors at least twice a year, taking into account the business loan distribution plans as well as the business prospects and economic conditions for each sector, where these limits become milestones for the management in determining the direction of the loan portfolio development in the economic sector by the desired risk level.

Parameter-parameter risk limit (risk appetite dan risk tolerance) yang saat ini menjadi acuan berdasarkan SK No.088/ DIRBM/23 tentang Kebijakan Risk Limit Bank Mega, adalah sebagai berikut:

No	Parameter	Risk Appetite	Risk Tolerance
1.	Strategic Risk		
а	Bank Mega's assets are compared to the Bank's business plan targets.	≥ 80%	≥ 60%
b	Bank Mega's DPK compared to the Bank's business plan target	≥ 80%	≥ 60%
С	Bank Mega credit compared to the Bank's business plan target	≥ 80%	≥ 60%
d	CAR Position	≥ 17%	≥ 15%
е	BOPO Position	≤ 80%	≤ 90%
f	Market share compared to peer group		
	Asset	≥ 17%	≥ 15%
	DPK	≥ 17%	≥ 15%
	Loans	≥ 15%	≥ 10%
	Capital	≥ 17%	≥ 15%
g	CAR after stress test	> 14%	above the applicable minimum bank capital
2.	Operational Risk		
а	Frequency of internal fraud (1 [one] month)	0	< 3 times
b	Frequency of external fraud (1 [one] month)	0	< 8 times
С	Frequency of internal and external fraud (1 [one] month)	0	< 3 times
d	Significant nominal fraud	Nihil	≤ Rp250 Million
е	Ratio of the number of permanent employees leaving to the total number of permanent employees 1 [One] Month	≤ 1.15%	≤ 1.30%
f	Ratio of the number of employees who have not received training (12 [twelve] months) to the total number of employees	≤ 5%	≤ 20%
g	OPRIST score	≥ 85	≥ 75
h	Total core system downtime (1 [one] month)		
	Silverlake Downtime	< 60 minutes	< 120 minutes
	Ascend Downtime	< 60 minutes	< 120 minutes
	MOJF Downtime	< 60 minutes	< 120 minutes
	Downtime Spectrum	< 60 minutes	< 120 minutes
	PCE Downtime	< 60 minutes	< 120 minutes
i	Total Core System Downtime Frequency (1 [One] Month)		
	Silverlake Downtime Frequency	NIHIL	≤ 1 times
	Ascend Downtime Frequency	NIHIL	≤ 1 times
	MOJF Downtime Frequency	NIHIL	≤ 1 times
	Spectrum Downtime Frequency	NIHIL	≤ 1 times
	PCE Downtime Frequency	NIHIL	≤ 1 times

No	Parameter	Risk Appetite	Risk Tolerance
3.	Credit Risk		
а	Low quality loans to total loans	≤ 7.50%	≤ 22.50%
	Low quality corporate loans to total corporate loans	≤ 7.50%	≤ 20.00%
	Low quality commercial loans to total commercial loans	≤ 5.00%	≤ 15.00%
	Low quality SME loans to total SME loans	≤ 10.00%	≤ 25.00%
	Low quality consumer loans to total consumer loans	≤ 7.50%	≤ 15.00%
	Indirect Channel Low Quality Credits to Total Indirect Channel Credits	≤ 10.00%	≤ 25.00%
	Low quality loans Credit card & personal loans (CCPL) to total CCPL loans	≤ 5.00%	≤ 15.00%
b	NPLs to total loans	≤ 2.00%	≤ 4.00%
	NPLs as a percentage of total corporate loans	≤ 1.00%	≤ 3.00%
	Commercial NPL loans to total commercial loans	≤ 2.00%	≤ 4.00%
	SME NPL loans to total SME loans	≤ 2.00%	≤ 4.00%
	Consumer NPL loans to total consumer loans	≤ 2.00%	≤ 4.00%
	Indirect channel NPL loans to total Indirect channel loans	≤ 2.00%	≤ 4.00%
	CCPL NPL loans to total CCPL loans	≤ 3.00%	≤ 4.50%
С	Net NPLs to total loans	≤ 1.50%	≤ 3.50%
d	Loans to core borrowers to total loans	≤ 65.00%	≤ 75.00%
е	Allowance for credit losses (CKPN) to total loans	< 1.25%	< 2.25%
f	Foreclosed assets (AYDA) to total assets	< 1.00%	< 2.00%
1.	Market Risk		
а	PDN (including DNDF) to CAR Capital	< 5%	< 10%
b	Unrealized Loss Bonds to CAR Capital	> -3%	> -5%
С	Maximum loss ΔEconomic Value of Equity (ΔΕVE) to capital	≤ 13%	≤ 15%
5.	Liquidity Risk		
а	Liquidity portfolio risk limit

b	Total DPK from Mega Corpora Group to Total Bank DPK	≤ 5%	≤ 10%
С	Total income from Mega Corpora Group to total bank income	≤ 5%	≤ 10%
d	Total costs/expenses from Mega Corpora Group to total bank costs/expenses	≤ 5%	≤ 10%

- 1. The risk limit is periodically reviewed to ensure that it is consistent with Bank Mega's strategic objectives and business strategy, as well as with the risk tolerance set by Bank Mega.
- 2. The credit granting process is carried out in accordance with the four-eyes principle, i.e. the credit granting decision involves both business and risk parties and is decided in the Credit Committee according to its level.
- 3. Credit risk control is carried out periodically by the Internal Audit Department. Meanwhile, the credit risk control process in the branches is routinely carried out by the Process Management & Internal Control (PMIC) department through the Credit Control work team. Various aspects of credit control include compliance aspects and potential risks arising in the credit process, economic market conditions and documents, and financial monitoring.
- 4. Credit risk control for the credit card and personal loan segment is performed through the development of dashboard parameters to ensure and monitor the credit card and personal loan approval process running on the system in accordance with applicable regulations.
- 5. In addition to being integrated into the transactional and operational work units, Internal Control also carries out periodic credit and operational checks in the branches. Problem loans are handled by a separate, independent unit, the National Credit

- Review & Restructure (NCRR), which is responsible for restructuring loans that are beginning to experience problems but still have the potential to be repaid. Meanwhile, the CCPL Collection, CCPL Remedial, CCPL Recovery and Credit Collection Remedial & Recovery work units play a role in the collection and liquidation of assets surrendered by problem debtors whose restructuring is no longer possible.
- 6. Market and liquidity risks are managed through a limit system and discussions at ALCO and Risk Management Committee (KMR) meetings.
- 7. Liquidity risk is managed through funding strategies, management of daily liquidity positions and liquidity risk, management of intra-Group liquidity positions and liquidity risk, management of high-quality liquid assets and contingency funding plans.
- 8. Ensuring the Continuity of Business Processes in the Midst of Crisis Conditions. The Bank continues to improve its Business Continuity Management (BCM) covering business and operational aspects.
- 9. The Bank continuously strengthens risk control mechanisms, especially for operational risk, with steps such as fulfilling and improving human resources through training programs, improving coordination of control work units, improving policies and procedures, strengthening first line of defense control, etc.

- 10. In the event of the spread of the Covid-19 outbreak, the Bank has issued provisions for PT Bank Mega, Tbk Covid-19 Control Group (SE: 182/DIRBM-PMOC/20), provisions for the determination of PT Bank Mega, Tbk Covid-19 Control Group Kuningan Office Card Center (SE: 125/DIRBM-PMOC/21), and the provisions of the Covid-19 Prevention and Control Guide at PT Bank Mega in implementing business continuity management to ensure that the bank's operations continue and the spread within the bank can be controlled (SE: 119/DIRBM-PMIC/23).
- 11. Through regular monitoring of risk limits, management can determine the direction of movement of the bank's main risks (credit, market, liquidity, strategic and operational) as an early warning signal.
- 12. The control of IT and Cyber Risks is carried out in accordance with the "Three Lines of Defense" concept, whereby work units or risk-taking units in IT carry out control self-assessments, refine policies

and procedures, and also perform consultation and communication functions related to risk management.

Pelaporan

- Bank melakukan pelaporan secara periodik dan rutin kepada regulator atas perkembangan bisnis yang terjadi. Teknis dan jenis laporan-laporan yang dikirim telah sesuai dengan ketentuan dan format yang ditetapkan oleh regulator. Melalui sistem pelaporan ini, Bank Mega melakukan fungsi penjabaran kondisi risiko internalnya secara periodik kepada regulator.
- Satuan Kerja Manajemen Risiko (SKMR) juga telah mempublikasikan beberapa laporan terkait kondisi risiko-risiko yang terkait dengan bank umum kepada beberapa unit kerja dan jajaran manajemen. Laporanlaporan ini dipublikasi dalam rangka mendukung kinerja unit terkait melalui penyediaan data yang informatif dan dual-control dalam pengendalian risiko.

No	Report	Explanation
1.	Risk Limit Report	Realization reports are compared with risk appetite and risk tolerance. Risk limit parameters are submitted to the Board of Directors on a monthly basis and to the regulator on a quarterly basis as part of the Bank's Business Plan Realization Report. The preparation of the reports and the calculation of the risk limits are regulated by Decree No. 088/DIRBM/23 on the Risk Limit Policy of Bank Mega.
2.	CAR Bank Mega & Integrated CAR	CAR reports to the regulator (OJK) regarding capital, risk-weighted assets (RWA), market, credit and operations calculations as well as integrated CAR reports.
3.	Counterparty Limit & Trader Limit Monitoring	Monitoring results report on Treasury limit breaches.
4.	Assessment of Bank Soundness Level and Integrated Risk Profile	Independent measurement and assessment of various risk management factors in accordance with SEOJK No.14/SEOJK.03/2017 dated March 17, 2017, on the assessment of the health level of commercial banks and SEOJK No.14/SEOJK.03/2015, on the implementation of integrated risk management.
5.	Daily Cash Flow	Cash flow projections.
6.	Operational Risk Online Test (OPRIST)	Reports on the results of online tests, in particular for employees of branches, subbranches, regional offices and certain work units to determine the level of understanding of policies, procedures, product knowledge and aspects of operational risk control, are regulated in the SE on Operational Risk Online Tests (OPRIST).
7.	Branch Risk Profile Report	Branch Operational Risk Profile Assessment Report containing inherent risk measurements and risk management implementation quality (KPMR). Branch Profile Assessment has been regulated in SE No.116/DIRBM-PMOC/22 on Branch Risk Profiles.
8.	Risk Control Self Assessment (RCSA) Report	The self-assessment report on the quality of the implementation of controls to anticipate future operational risks is regulated by SE No. 156/DIRBM-OMIC/23 on Risk Control Self-Assessment (RCSA).
9.	Operational Risk Governance Meeting (ORGM) Report	The reports on the implementation of the operational risk management governance function, carried out at each level of the structure to determine the top risk at the Bank level based on the self-assessment of each work unit, have been regulated in SE No. 018/DIRBM-ORMG/21 on Operational Risk Management Working Guidelines (ORMG).
10.	Business Continuity Plan (BCP) Report	Reports containing planned and coordinated series and activities regarding risk reduction measures, management of the effects of disturbances or disasters as well as recovery processes so that the Bank's operational activities continue are regulated in SE No. 106/DIRBM-PMOC/22 concerning Preparation of Business Continuity Plan Documents (BCP).
11.	Risk Assessment Results Report	Risk Assessment Results Reports are issued for each risk assessment process performed and are specifically addressed to the Director of the relevant area and the Deputy Director General, including the relevant work unit.

No	Report	Explanation
12.	Risk Exposure Quantitative Information Report	Publication of quantitative information on the Bank's risk exposure every 6 (six) months based on POJK No.32/POJK.03/2016 dated August 12, 2016 on Transparency and Publication of Bank Reports and SEOJK No.43/SEOJK.03/2016 on Transparency and Publication of Conventional Commercial Bank and SEOJK Report No.24/SEOJK.03/2021 on Calculation of Risk-weighted Assets Using a Standard Approach.
13.	GWM Monitoring	Monitoring compliance with the minimum statutory reserve (GWM).
14.	Credit Risk Weighted Assets (RWA) - Standardized Approach	The compilation and calculation of Credit Standardized Approach RWA refers to SEOJK No.24/SEOJK.03/2021 concerning the calculation of risk-weighted assets according to the Standardized Approach. Credit RWA calculations are performed monthly and reported to the OJK online via the APOLO system.
15.	Sector-based lending limit report & sector monitoring mechanism	Reports on the development of the bank's loan portfolio in 23 economic sectors defined by the regulator, as well as early warning and action tools for sectors that have exceeded expansion limits.
16.	Loan portfolio report	Credit portfolio reports are prepared on a monthly basis and include the development of all credit segments in terms of total portfolio, loan mutations, credit quality, loan restructurings, charge-offs and write-offs, as well as credit provisions.
17.	Watchlist Debitur	Monitoring of debtors with a potential for quality deterioration as an application of early warning signals for credit risk management.
18.	Calculation of Interest Rate Risk - Banking Book (IRRBB)	Preparation and calculation of interest rate risk - banking book based on SEOJK No.12/SEOJK.03/2018 on the application of the standard approach to risk management and risk measurement for interest rate risk in the banking book (interest rate risk in the banking book).
19.	Market Risk Weighted Assets (RWA) - Standard Method	Market Risk RWA is a form of calculation of bank assets related to market risk based on POJK No.11/POJK.03/2016 on Minimum Capital Requirements for Commercial Banks and SEOJK No.38/SEOJK.03/2016 on Guidelines for the Use of Standard Methods in the Calculation of Minimum Capital Requirements for Commercial Banks Taking into Account Market Risk. Market risk RWA is calculated for general interest rate risk, specific interest rate risk, and foreign exchange rate risk. Market risk RWA calculations are performed monthly and reported to the regulator online and offline.
20.	Allowances for Impairment Losses (CKPN) of Bank Mega's Financial Assets	Activities related to the collective and individual CKPN for the Bank's financial assets in accordance with PSAK 71 have been regulated in the Guidelines for Reserves for Impairment Losses on Bank Mega's Financial Assets.
21.	Securities Valuation (Marked to Market & Marked to Model)	The process of determining the fair value (marked to market) of securities to determine the Bank's position on a daily basis relative to the closing market price on that day. For securities that do not have a quoted market price (illiquid securities), a marked-to-model valuation is performed using the credit risk spread approach. These illiquid securities are based on movements in government bond yields with the addition of risk factors.
22.	Fairness of Market Prices (Off-Market)	Measure and monitor the fairness of off-market foreign exchange transactions.
23.	Backtesting exchange rate volatility	Validate the model used to calculate exchange rate volatility against the real exchange rate.
24.	Early Warning System Monitoring (Early Warning System) External Indicators	In order to manage market and liquidity risks while paying attention to the Bank's prudential principles, a tool or system for early warning monitoring (Early Warning System) is required in accordance with SEOJK No.34/SEOJK.03/2016 on the implementation of risk management for commercial banks) Market and liquidity related external indicators of market and liquidity risks.
25.	Calculation of liquidity stress tests	As part of the implementation of liquidity risk management, stress testing is used to test the Bank's ability to meet liquidity needs under crisis conditions.
26.	Liquidity Coverage Ratio (LCR)	Calculation Report on Liquidity Adequacy Ratio Compliance as regulated in POJK No.42/POJK.03/2015.
27.	Net Stable Funding Ratio (NSFR)	Report on calculation of the Net Stable Funding Ratio as regulated in POJK No.50/POJK.03/2017.
28.	Rasio Intermediasi Makroprudensial (RIM)	Calculation of RIM (Macroprudential Intermediation Ratio) as regulated in PBI No. 20/4/PBI/2018 and Regulation of Members of the Board of Governors No. 22/11/PADG/2020.
29.	Profil Maturity Behavioral	The bank identifies the existence of a liquidity gap between asset, liability and management account positions over a given time horizon based on customer behavior/product characteristics (behavioral).

No	Report	Explanation
30.	Credit stress test report	In order to implement credit risk management, stress tests are performed on the credit portfolio by considering the deterioration of credit quality and its impact on the Bank's reserves, profitability and capital adequacy.
31.	Credit Limit Risk Action & Trigger Tools	Action reports resulting from the monitoring of risk limits based on percentage breaches of risk appetite and risk tolerance parameters in the credit area are prepared and submitted on a monthly basis in accordance with the Tools Trigger & Action Mechanism Policy for Credit Risk Limits.
32.	Trigger Level Monitoring Report Program Action Plan (Recovery Plan)	In order to monitor the trigger level of the Program Action Plan (Recovery Plan), a Program Action Plan Trigger Level Monitoring Report is prepared in the form of Capital, Liquidity, Profitability and Asset Quality.
33.	Contingency Funding Plan (CFP) Indicator Monitoring Report	To monitor the Contingency Funding Plan (CFP) indicators that are reported periodically.
34.	Industry Analysis	An analysis of the current state and conditions of an industry, which is used as a reference for business units and underwriters when allocating credit to borrowers in that industry.
35.	Credit Risk Bulletin	Communicate updates on internal and external credit-related regulations, economic developments, portfolio developments and other credit-related topics to all employees in the form of bulletins or other reports.
36.	Reconciliation of intra-group transactions	Bank Mega, as the main entity in the financial conglomerate Mega Corpora, routinely reconciles intra-group transactions to see the dependency between one entity and other entities within a financial conglomerate.
37.	Operational Risk Bulletin & Risk Campaign	Socialization of updates on internal and external regulations related to operations, as well as other topics related to operational risk, communicated to all employees in the form of bulletins, campaign posters, etc.
38.	GL Monitoring Report on Operational Losses	As part of the monitoring and analysis of the GL accounting of operational losses in a work unit, and to ensure that the accounting of operational losses is in accordance with its provisions, as regulated in SE No. 217/DIRBM-PMOC/21 on Accounting and Monitoring of GL - Operational Risks, GL Loss Operations and Return/Recovery of Operational Losses.
39.	Calculation of risk-weighted assets for operational risk using a standardized approach	With reference to SEOJK No. 6/SEOJK.03/2020 on the calculation of risk-weighted assets for operational risk using a standard approach for commercial banks and SE No. 132/DIRBM-PMIC/23 on the guidelines for the calculation of risk-weighted assets (RWAs) for operational risk using a standard approach, the Bank has implemented the calculation of RWAs using the standard approach for commercial banks in 2023 and the results of the calculation have been submitted to the OJK.
40.	Bottom-up stress test (BUST) report	Stress tests conducted by banks appointed by the authorities (OJK and BI) using data and internal bank satellite models based on scenarios and assumptions provided by the authorities.
41.	Dokumen Rencana Aksi (Recovery Plan)	Plan to overcome financial problems that may occur in the bank by preparing several alternative / recovery options scenarios determined by the bank to respond to financial stress experienced by the bank in preventing, recovering or improving financial conditions and business continuity banks (viability).
42.	Dokumen Rencana Resolusi (Resolution Plan)	Document containing information about the bank and its resolution strategy, which is one of the considerations for the deposit insurance corporation (LPS) in the treatment or resolution of a bank that has been identified as a failed bank.
43.	Monitoring of credit approval limits (BWMK)	Monitoring is performed to assess the quality of portfolios approved by BWMK holders, to ensure that all applicable BWMK limits are valid and correct, and to revoke BWMK limits that are no longer valid.
44.	Weekly Credit Card and Personal Loan Dashboard	Weekly publication on the acquisition and quality of the credit card and personal loan portfolio.
45.	Daily Portfolio Credit Report	Daily credit portfolio development reports include detailed credit information per debtor.
46.	Credit Risk Assessment Account Maintenance	Credit risk assessment is performed to evaluate the appropriateness of credit policies and the implementation of the account maintenance approval process in the credit card area.

In order to measure Bank Mega's level of resilience to an extreme external event scenario, Bank Mega conducts stress tests as a basis for decision making and as a means of meeting regulatory requirements. The purpose of stress testing is to estimate the magnitude of losses, the resilience of the Bank's capital to absorb losses, the adequacy of

liquidity to meet the Bank's obligations, and to identify steps that need to be taken to mitigate risks and maintain capital resilience. The implementation of stress testing covers the main types of risk, including credit risk, market risk and liquidity risk. The implementation of stress testing in 2023 is based on the Bottom Up Stress Test (BUST) scenario. The

Bank also conducts stress testing for COVID-19 Restructuring Credit, which aims to estimate the deterioration in the Bank's credit quality and the impact on CKPN, profitability, and the adequacy of the Bank's liquidity and capital, so that the action plan to be taken by the Bank can be seen. In general, the stress test results show that Bank Mega is still able to maintain capital resilience and adequate liquidity in conditions of economic weakness, although there is pressure on profits.

With reference to POJK No. 14/POJK.03/2017 on action plans (recovery plans) for systemic banks, Bank Mega has prepared action plans and recovery options to prevent, restore or improve the financial condition and continuity of the Bank's operations in the event of financial stress. . The prepared Action Plan includes an analysis of the condition of all the Bank's business lines, including scenario analysis of stress conditions (stress testing) that occur idiosyncratically at the Bank and market-wide shocks that could threaten the Bank's business continuity. The Bank prepares recovery options to address capital, liquidity, profitability and asset quality conditions in accordance with the trigger levels set for the purpose of prevention, recovery and improvement of the Bank's financial condition. Bank Mega has also conducted a feasibility and effectiveness analysis to ensure that each prepared recovery option can be properly implemented.

Furthermore, as part of the implementation of the Deposit Insurance Corporation's (LPS) Regulation No. 1 of 2021 on Resolution Plans for Commercial Banks and LPS Letter no. S-304/DKRB/2021, dated December 20, 2021, concerning the notification of the obligation to prepare and submit a resolution plan for 2022, Bank Mega is required to prepare a resolution plan document (resolution plan) in order to overcome the financial problems that will arise. The scope of the resolution plan document shall include at least an executive summary and a resolution strategy.

Risk Management Strategy

The risk management policy is aligned with the Bank's business strategy. The focus of the 2023 business strategy is on the Corporate and Joint Finance segments. In response to the direction of business development, the risk management strategy has taken steps in several key areas. Starting with:

- 1. Measurement, monitoring and control of the Bank's health so that it remains within the risk appetite corridor or at least within the risk tolerance.
- 2. Monitoring of each risk limit parameter in the Bank's activities. This activity is implemented in each business line as part of management supervision, so that the Bank's risk level remains within the risk tolerance corridor.
- 3. Internalization of risk statements and risk culture at all levels of the Bank's organization.
- 4. Maintain the strength of independence of operational and risk management units in each directorate.
- 5. Development of human resources, especially risk management skills. This development program will be implemented in the form of Risk Management Certification Training & Refreshment to Enterprise Risk Management based training.
- 6. Implement regulatory requirements or recommendations in an orderly and sustainable manner.

Specific Bank Risk Management Disclosures

Credit Risk

Credit risk is the risk that debtors and/or other parties will default on their obligations to the Bank. Credit risk management is an integral responsibility of management and staff at all levels, which must be reflected in daily activities through a culture of risk awareness. Each party involved in the planning, decision-making and implementation of the credit approval process is required to analyze and mitigate credit risk in accordance with their respective functions and responsibilities.

Application of Risk Management to Credit Risk

The duties and responsibilities of the Commissioners and Directors, the Risk Management Work Unit, the Support Unit, the Credit Committee, the Risk Management Committee, the Risk Monitoring Committee, and the Credit Policy Committee are set forth in Bank Mega's Credit Risk Management Policy.

An independent work unit has been established to independently assess, monitor and report various risks. The unit is designed to operate independently from the business unit.

The principles applied by the Bank in conducting its credit risk management activities are based on the internal credit risk policy set forth in the Bank's Mega Credit Risk

Management Policy. This policy provides guidance on credit risk management strategies for activities with significant credit risk exposure, credit concentration risk management, and credit risk measurement and control mechanisms.

Credit concentration risk management is carried out by diversifying the credit portfolio across different geographical areas, industries, credit products and individual borrowers and business groups in order to minimize credit risk. In all segments, the banks have lending limits based on economic sectors.

The mechanism for measuring and controlling credit risk is carried out using various analytical tools, including a rating and scoring system as a credit decision tool, a credit decision authority system, other credit risk analysis based on quantitative calculations, as well as credit risk thresholds in the calculation of risk profiles based on ratings. Bank Health Level (PTKB).

PTKB periodically reports to the OJK and is measured using a risk-based bank rating (RBBR) approach, which consists of 2 (two) parts, namely inherent risk and quality of credit risk management implementation. These inherent indicators are grouped into four broad categories, namely asset portfolio composition and concentration level, quality of funding and adequacy of reserves, funding strategy and sources of funding, and external factors.

The Bank also takes into consideration the economic sector in its lending activities. The Bank focuses on lending to sectors with high credit potential and low risk. As of December 2023, the majority of the Bank's loans are allocated to the Information and Communication (19.93%), Transport and Storage (14.49%) and Mining and Quarrying (11.40%) sectors. The amount of loans in this sector is in line with the Bank's lending focus, namely in the corporate segment, especially in the provision of loans to large, less risky corporate groups, as well as in the indirect channel of lending and the credit card segment.

The provision of credit in this sector also takes into account the growing growth of digital business, as well as the economic conditions in each sector, where in the third quarter of 2023, the GDP growth in the information and communication sector was 8.52%, in the transport and storage sector 14.74%, and in the mining and quarrying sector (6.95%), well above the national GDP growth of 4.94%.

Every month, the Bank also measures the risk of Covid-19 debtors restructuring, which is reflected in the scoring value carried out as a kind of early warning system. In addition, the Bank monitors the quality of loans that have undergone COVID-19 restructuring in order to avoid potential defaults.

Disclosure of Quantitative Credit Risk Standards

The Bank uses a standardized approach in calculating risk weighted assets (RWA) for credit risk in accordance with SEOJK No.24/SEOJK.03 /2021 on Calculation of Risk Weighted Assets Using a Standardized Approach, which includes information on the policies on the use of ratings in the calculation of Risk Weighted Assets (RWA) for Credit Risk, the portfolio categories using ratings, the rating agencies used, and the disclosure of counterparty credit risk, including the types of credit risk mitigation instruments generally accepted/used by the Bank and the types of credit risk mitigation instruments used in the calculation of RWA for the Bank's megacredit risk.

Disclosure of qualitative standards for credit risk mitigation

The Bank has a policy on the main types of collateral that can be accepted, the procedures and processes for the evaluation and management of collateral, the main parties providing guarantees and the creditworthiness of these parties, as well as information on the level of concentration resulting from the use of credit risk mitigation techniques listed in the Collateral Appraisal Guidebook.

All of the above policies/guidelines are reviewed periodically to ensure that they are in line with the latest developments in regulations, the business environment and changes resulting from the Bank's business growth and global economic conditions.

Asset Securitization Qualitative Disclosures

The Bank has no exposure to asset securitization.

Market Risk

Market risk is the exposure of balance sheet and administrative account positions, including derivative transactions, to general changes in market conditions, including changes in option prices. Market risk includes, but is not limited to, interest rate risk, foreign exchange risk, equity risk and commodity risk. Interest rate risk, foreign exchange risk and commodity risk may arise from both trading book and banking book positions.

Implementation of market risk management

The determination of the organizational structure, tools and completeness of units/functions related to the implementation of market risk management must be adapted to the characteristics and complexity of the bank's business activities.

In order to implement effective risk management, the bank develops roles and responsibilities that are tailored to the business objectives and policies, size and complexity, and capabilities of the bank. Responsibility for market risk management generally rests with each business unit whose activities are exposed to market risk, and specifically with the Treasury & Financial Institutions business unit as the overall manager of the Bank's market risk. In carrying out this management function, Treasury & Financial Institutions is supported by Market, Liquidity & Integrated Risk Management (MIRG), which independently provides objective input and analysis in the process of identifying, measuring, monitoring and managing market risk.

The division of authority and responsibility between the Board of Managing Directors, the Market, Liquidity & Integrated Risk Management (MIRG) units, the Risk Management Committee (KMR) and the Asset and Liability Management Committee (ALCO), and the support units consisting of Internal Audit, the business units and the operational units is set out in the Market Risk Management Policy.

Trading and banking book portfolio management Trading book and banking book portfolio management and valuation methods are also governed by the Market Risk Management Policy.

Market risk is managed and controlled by setting and reviewing market risk limits on a regular basis. These limits include the market risk limit and the threshold risk level for the Bank's soundness assessment (PTKB) on the market risk profile (carried out using historical data, statistics, expert judgement and business perspective approaches).

The Bank also periodically measures and reports to the OJK on the management of market risk based on market risk parameters in the Bank Soundness Level Assessment (PTKB) using a risk approach (Risk-based Bank Rating/ RBBR) consisting of two parts, namely inherent risk and quality of risk management implementation. These inherent indicators are grouped into 3 (three) broad categories, namely portfolio volume and composition, potential losses from interest rate risk in the banking book, and the bank's business strategy and policies.

Market risk measurement mechanism

The measurement of market risk in the trading book for foreign exchange and interest rates is determined by calculating the Minimum Capital Requirement (MCR) using the Standardized Approach on a monthly basis, as required by regulatory provisions. The Bank has also implemented regulatory requirements for the calculation of specific interest rate risks, which are weighted based on portfolio categories and security ratings. In addition, the daily net open position (NOP) calculation is used to measure market risk in accordance with regulatory requirements.

Interest rate risk in the banking book is measured on a monthly basis using the Interest Rate Risk in the Banking Book (IRRBB) measure. Interest rate risk is viewed from the perspective of the maximum loss from ΔEconomic Value of Equity (EVE) to capital and ΔNeutral Income (NII) to profit target.

Portfolio coverage in KPMM

Portfolio coverage (trading and banking book) is calculated in KPMM using the standard method in accordance with OJK regulations. Calculations in KPMM consist of interest rate risk (specific risk & general risk) and foreign exchange risk. The specific interest rate risk is calculated based on the OJK regulation regarding the guidelines for the use of standard methods in the calculation of KPMM for commercial banks, taking into account the market risk.

Specific interest rate risk is calculated using securities data (trading book) based on portfolio categories and securities ratings. Risk weights are determined based on a combination of portfolio categories and ratings. In general, the weighting is divided into 3 (three) groups, namely Government Category, Qualification Category (Investment Grade) and Non-Qualification Category, with weight variations ranging from 0% to 12%.

For general interest rate risk (trading book), the maturity method is used, with grouping based on the residual maturity bucket from \leq 1 month to > 20 years. The risk weight varies between 0% and 12.5%.

Meanwhile, foreign exchange risk is calculated as the net open position (PDN) multiplied by a capital charge of 8%. PDN calculations are based on regulatory requirements.

Steps and plans to anticipate market risk

The analysis and monitoring of market risk limits and market risk profiles, including trading strategy and banking book parameters, as well as the complexity of the Bank's derivative products, are regularly presented to management through the Risk Management Committee in order to formulate anticipatory measures and plans.

Qualitative disclosure of market risk calculations using internal models

The Bank does not calculate market risk using internal models.

Liquidity Risk

Liquidity Risk is the risk resulting from the bank's inability to meet maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be collateralized without disrupting the bank's financial activities and condition. The inability to obtain cash flow funding sources, thereby giving rise to Liquidity Risk, can be caused by, among other things:

- 1. Inability to generate cash flows from productive assets or from sales of assets including liquid assets; and/or
- 2. Inability to generate cash flow originating from raising funds, inter-bank transactions, and loans received.

Implementation of Liquidity Risk Management

Determination of the organizational structure, tools and completeness of units/functions related to the implementation of risk management for Liquidity Risk must be adjusted to the characteristics and complexity of the Bank's business activities.

In order to implement effective risk management, the Bank develops roles and responsibilities that are tailored to the Bank's business objectives and policies, size and complexity, and capabilities. As a general rule, each business unit with activities exposed to liquidity risk has a person responsible for liquidity risk management. Market, Liquidity & Integrated Risk Management (MIRG) independently provides objective input and analysis in the process of identifying, measuring, monitoring and managing liquidity risk.

The division of authority and responsibility between the Board of Commissioners and Directors, the Market, Liquidity & Integrated Risk Management (MIRG) work units, the Asset and Liability Management Committee (ALCO), the support units consisting of Internal Audit, the business units and the operational work units is set out in the Liquidity Risk Management Policy.

Mekanisme Pengukuran dan Pengendalian Risiko Likuiditas

Identification of all sources of liquidity risk as set out in the Liquidity Risk Management Policy, including:

- 1. Banking products and activities that may affect the source and use of funds in both asset and liability positions and administrative accounts.
- 2. b. Other risks that may increase liquidity risk, such as credit risk, market risk and operational risk.

The tools used to measure and control liquidity risk relate to regulatory requirements, including minimum statutory reserves (MSR), macroprudential intermediation ratio (RIM), loan to deposit ratio (LDR), maturity profile, daily cash flow projections, liquid assets to non-core deposits, liquid assets to DPK, Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), Liquidity Stress Test, and Liquidity Risk parameters in the bank health assessment (PTKB) using a risk-based bank rating (RBBR) approach consisting of 2 parts, namely inherent risk and quality of risk management implementation. These inherent indicators are grouped into 3 (three) broad categories, namely composition of assets, liabilities and administrative account transactions, concentration of assets and liabilities, vulnerability to funding needs. In addition, the Bank has monitoring tools for the Early Warning System for market/ external indicators of market risk and liquidity risk.

Liquidity risk anticipation policies and plans

Analysis and monitoring of liquidity risk limits and liquidity risk profiles, which include parameters of asset and liability composition, concentration of assets and liabilities, susceptibility to funding needs and access to funding sources, which are periodically presented to management through the Risk Management Committee to formulate actions and anticipatory plans.

Control is exercised over activities with increased risk. Control is exercised through funding strategies, management of daily liquidity positions and liquidity risk, management of intercompany liquidity positions and liquidity risk, management of high-quality liquid assets and contingency funding plans.

Operational Risk

Risiko Operasional adalah risiko yang disebabkan Operational risk is a risk caused by the inadequacy and/or malfunction of internal processes, human error, system failure or external problems that affect the Bank's operations. Since the issuance of the POJK on the Implementation of Risk Management for Commercial

Banks, Bank Mega has been seriously implementing Operational Risk Management by constantly improving the form of implementation in all of the Bank's activities, both those inherent in the transactional activities of the branches and the support activities of the Head Office.

Organization of Operational Risk Management

In order to increase the effectiveness of the implementation of operational risk management, the Bank has established an operational risk management organization with clearly formulated roles and responsibilities, starting from the branch, regional and head office levels. The functions and duties of the organization are constantly reviewed in order to enhance the effectiveness of coordination and sharpen the implementation of risk identification.

At Head Office level, the Bank has established an Operational Risk Management Work Unit under the coordination of the Risk Management Work Unit. This unit is responsible for assisting the Board of Directors in the management of operational risk, monitoring the process of implementing operational risk management as a whole, and ensuring that operational risk management policies are implemented at all levels of the organization. Some of these responsibilities include:

- 1. Assisting the Board of Directors in developing operational risk management policies.
- 2. Designing and implementing operational risk assessment and reporting tools, and coordinating operational risk management activities across business units.
- 3. Prepare operational risk profile reports.
- 4. Provide support to business units on operational risk management issues and training on operational risk management.

In its implementation, the Operational Risk Management Work Unit coordinates with the Internal Audit Work Unit, Process Management & Internal Control Work Unit, Compliance & GCG Work Unit, Crime & Fraud Investigation Work Unit and other related work units by holding an Internal Control Forum to discuss risk issues. significant transactions so that these risks can be controlled at an early stage.

On the other hand, the Bank has also established an Operational Risk Support Group to the Risk Management Committee (KMR), whose task is to support the KMR in identifying operational risks, especially those related to the risk management process carried out by the risk owner. This support group also acts as a filter for risk issues brought to

the KMR meeting, so that only critical and material issues are sought for resolution in the KMR meeting forum.

Operational Risk Identification and Measurement Mechanism

The Bank uses the Operational Risk Online Test (OPRIST) tool to measure the level of mastery of policies and procedures, authority, and products among branch employees and various work units at Head Office. Identifying risks by looking at the level of employees' mastery of policies and procedures is seen as an effective way to look at potential risks from errors in the implementation of operational processes (especially people risk factors). Since 2022, the Operational Risk Online Test (OPRIST) has used the Operational Risk Web Links (OWL) system application, namely a test conducted online for Bank Mega employees at Head Office and branches to measure understanding of policies and procedures, products and regulations. others related to their field of work, as well as to increase employees' risk awareness.

In addition, Operational Risk Management e-learning has also been implemented for all employees to measure the employees' understanding of Operational Risk Management. Through the implementation of e-learning, the level of awareness of operational risk can be seen while providing refreshment to employees.

On a bank-wide basis, risk identification and measurement is carried out on the basis of several key indicators that are considered to represent the Bank's operational risks. These indicators are grouped into 5 (five) broad categories, namely business characteristics and complexity, human resources, information technology and supporting infrastructure, fraud and external events. The end result of this identification and measurement is the Bank's operational risk profile, which is reported to the OJK on a quarterly basis.

On the other hand, the Bank currently uses the Standardized Approach (SA) for risk measurement related to the calculation of risk-weighted assets (RWA) for operational risk.

Operational Risk Mitigation Mechanism

In order to mitigate or control the operational risk inherent in the operational activities, the Bank periodically reviews the policies and standard operating procedures (SOPs) to ensure the adequacy of these policies and SOPs as work guidelines, considering the Bank's increasingly developing business activities. In addition, the Bank also delegates

authority, particularly for branch transactions, in the form of transaction limits, thereby facilitating the customer service process without neglecting risk aspects.

Separation of functions and duties or segregation of duties is always applied to all operational activities, both transactional and non-transactional, including the reporting process. This includes the implementation of dual control to ensure the validation of transactions. Other operational risk control methods such as security systems, improvement and capability of human resources are also always implemented to minimize operational risk so that the Bank avoids losses.

Legal Risk

Legal risks arise from legal requirements and/or weaknesses in legal aspects. Legal risks can cause significant losses if not properly managed. Early identification of legal risks is very helpful in managing legal risks so that they do not cause losses beyond the bank's tolerance.

Legal Risk Management Organization

The Bank views legal risk as a type of risk that needs to be managed seriously, considering that its impact can be significantly detrimental. Based on this view, the Bank has established a legal risk management organization at both Head Office and Regional Office levels. At Head Office, the Bank has a Corporate Legal Work Unit, which functions as a legal watchdog, whose duties include handling legal issues faced by the Bank, providing legal opinions on cooperation agreements to be entered into by the Bank, and providing legal analysis related to the launch of new products and activities. The Corporate Legal Department reports to the President Director.

In the Regional Office, the legal functions are performed by the Legal Manager under the coordination of the Regional Operational Manager. The existence of this work unit is considered to be very helpful in handling legal issues in the work area of the respective regional office, so that if legal issues arise, they can be dealt with immediately. In the branch office, legal functions are performed by the Legal Officer.

Legal Risk Control Mechanism

Legal risk control is carried out from the first moment when the Bank enters into business cooperation with the Customer in the form of liability, credit or other service activities. Completeness of administrative documents is an important prerequisite for opening an account and performing banking operations, so if the Customer is

unable to provide the relevant documents, the Bank cannot perform the transaction.

If all the Bank's services to the Customer are not performed properly, they may lead to the Customer's complaints, which in turn may lead to legal problems. In order to avoid these things, the Bank has equipped each customer service activity with appropriate policies and procedures so that each Bank employee can handle customer transactions more prudently.

On the other hand, in order to control the legal risk, especially when launching new products and activities, the Corporate Legal Work Unit constantly reviews cooperation agreements, one of the objectives of which is to ensure that the Bank's legal position is correct. In addition, the Corporate Legal Work Unit routinely conducts training sessions for employees on legal risk management, particularly in connection with client transactions in both the liability and credit areas. The aim is to increase employees' competence in managing legal risks.

Strategic Risk

Risiko Stratejik adalah risiko ketidaktepatan dalam Strategic risk is the risk of inaccuracy in making and/or implementing a strategic decision, as well as failure to anticipate changes in the business environment. Therefore, the accuracy of the strategy prepared by the Bank is the main key to achieving the set goals. Considering the importance of this strategy, the bank constantly monitors its implementation and evaluates the weaknesses/deviations that occur in order to correct them immediately.

Generally, the Bank's strategy has been formulated and outlined in a business plan document, which must be reported to the OJK at the end of each year. This document sets out the Bank's objectives and targets in terms of assets, liabilities and new products and activities to be issued. Deviations that occur during the implementation phase are risks that must be managed in order to avoid losses to the Bank.

Strategic Risk Management Organization

All business and support units are responsible for assisting the Board of Directors in the preparation of strategic planning and the effective implementation of strategies. The Bank has a Financial Control Department whose responsibilities include monitoring the achievement of the Bank's business objectives. In addition, the Bank's Strategic Risk Management is focused on the achievement of targets set as a form of monitoring the appropriateness of the strategy implemented by the Bank.

Efforts to Identify and Respond to Changes in the Business **Environment**

One of the issues to be considered in strategic risk management is how quickly the Bank can respond positively to changes in the business environment, both domestically and internationally. In this regard, the Bank always adapts any business strategy that is formulated to developments in the relevant environment. One form of this is the Bank's increased focus on business development through integration with the Group's businesses, while always complying with internal and external laws and regulations. At present, services to key customers (priority banking) are still considered to have great development potential. Promotional strategies through the synergy of credit products and TPF products, which are then offered primarily to priority customers, continue to be implemented in order to maintain customer loyalty and attract new customers.

Mechanisms to measure progress against an established business plan

Strategic risk control is always carried out by all work units, in particular by business work units at the branch level, business areas up to the head office. Each week, the branch evaluates its business performance. This is also done on a weekly basis for Business Areas and Head Office. The scope of the evaluation includes not only the achievement of the set targets, but also finding solutions to the obstacles encountered in the field. All these steps are taken to ensure that the Bank's strategy can be implemented in accordance with what has been determined, i.e. to minimize strategic risk.

Compliance Risk

Compliance risk is the risk arising from the Bank's failure to comply with and/or implement applicable laws and regulations. Compliance risk may arise from, among other things, legal conduct, i.e. the Bank's conduct/activities that deviate from or violate applicable laws or regulations, and organizational conduct, i.e. the Bank's conduct/activities that deviate from or violate generally accepted standards. Compliance risk has a very significant impact if it is not adequately managed, as the impact can be in the form of heavy fines or sanctions. In this regard, the Bank always pays attention to the fact that Compliance Risk is a risk that needs to be managed seriously.

Organization of Compliance Risk Management

Based on this view, the Bank has established a work unit dedicated to compliance, namely the Compliance & Good

Corporate Governance (CGCG) Work Unit, which is located at the Head Office. In order to manage compliance risk, the Bank, through this unit, always ensures that it does not violate applicable regulations, be they internal or external. Monitoring the implementation of all reporting obligations that the Bank has to fulfil to the regulator. CGCG reports to the Compliance Director (Director of Compliance & Human Capital).

Strategy and Effectiveness of Compliance Risk Management Implementation

The existence of the CGCG work unit is independent of the business and support work units, so that it can perform its duties and functions more effectively. In this regard, the Bank always ensures that it does not violate external regulations when drafting and reviewing internal policies, both in the form of operational policies and Standard Operating Procedures (SOPs). Technically, each policy issued must be reviewed by the Compliance Department. On the other hand, when providing services to clients, the officer performing the transaction is obliged to ensure the completeness and accuracy of the documentation. This is done as an anticipatory step so that the Bank is not exposed to compliance risk.

Compliance Risk Monitoring and Control Mechanism

The Internal Audit Department, the Operational Control Department and the Credit Control Department play a very important role in the implementation of compliance risk monitoring. The three work units, according to their roles and duties, work hand in hand to monitor compliance risk for all work units, both business and support. On the other hand, in order to optimize the internal control aspects, the Bank routinely conducts compliance training for employees, especially for new employees and those who have been working for the Bank for a long time. At the branch level, a morning briefing is routinely held at least once a week, which is a discussion forum specifically dedicated to discussing policies issued by headquarters and external regulations.

Reputational Risk

Reputational risk is the risk arising from a decline in stakeholder confidence due to negative perceptions of the Bank. Reputational risk can arise from various business activities of the Bank, such as negative news in the mass media, violations of business ethics and customer complaints, or weaknesses in the Bank's governance, corporate culture and business practices. Given that Reputation Risk is closely related to customers, if it is

not well managed, Reputation Risk has a very significant impact, including the occurrence of a run that ultimately results in the Bank abandoning its customers.

Organization of Reputation Risk Management

As a commercial institution whose business activities are based on public trust, a good name or reputation plays a very important role for the bank. Reputation in the form of public trust needs to be built over a long period of time and therefore requires good management. Based on this, the Bank has a work unit in charge of reputation risk management, namely Corporate Affairs, where the technical implementation is carried out by the Corporate Communication team. This unit is tasked with monitoring negative news in the mass media and handling any customer complaints in the mass media, as well as performing public relations functions and responding to negative news or other events that may affect the Bank's reputation and cause losses to the Bank. It is also responsible for communicating information to investors, clients, creditors, associations and the general public.

In addition, the Bank has a Customer Care Department, which is responsible for handling customer complaints received by the branches. Technically, each customer complaint received by a branch is reported by the branch to Customer Care through the system/application provided. In addition, Customer Care routinely monitors complaints in the system/application and then coordinates with the relevant work units to find solutions to resolve them.

Policies and Mechanisms to Improve Customer Service

In order to maintain its reputation, the Bank is constantly striving to improve its service to customers. When customers feel that all their interests are met, they are expected to make a positive contribution to the Bank's reputation. Increasing the competence of employees who

have direct contact with customers is an effective way of improving service. The Bank does this by providing regular training to tellers, customer service and marketing staff, particularly on how to serve customers and to increase their understanding of the Bank's products.

In addition, the Bank always applies the principles of information transparency towards the clients. In this regard, the Bank always provides information to the client on the benefits, risks and costs of each product and service offered by the Bank. In this way, customers receive balanced information about the products or services they use.

Managing reputational risk in times of crisis

A crisis condition is a condition that is least expected by all types of companies, including banks, because this condition can be a destroying factor of the reputation that has been built by the bank. For this reason, appropriate steps are needed to manage crisis conditions, including how to communicate them to customers to avoid creating negative perceptions of the bank. The role of managing the Bank's reputation risk in times of crisis is performed by the Corporate Affairs department under the direct direction of the President Director. Several strategies that can be implemented by the Bank are maintaining good relations with the mass media in a professional manner, providing adequate understanding and education to the public/customers regarding the crisis conditions so that customers can receive correct information. This is to avoid customer panic.

05
Corporate
Governance

Foreword

Bank Mega is aware of the importance of the implementation of good corporate governance (GCG), now and in the future, in view of the increasing risks and challenges facing the banking industry. Therefore, Bank Mega has a strong commitment to the continuous improvement of the implementation of GCG best practices at all levels of the organization. The implementation of GCG is a

key element for Bank Megain conducting all business activities in the banking industry in Indonesia. In addition, GCG plays an important role as a key component of the Bank's efforts to improve performance, protect stakeholder interests, and enhance compliance with applicable laws and regulations as well as generally accepted ethical values in national banking.

1

Legal Basis for the Implementation of Corporate Governance

Bank Mega's implementation of corporate governance at all levels of the organization is guided by various laws and regulations applicable to the banking industry and public companies, including:

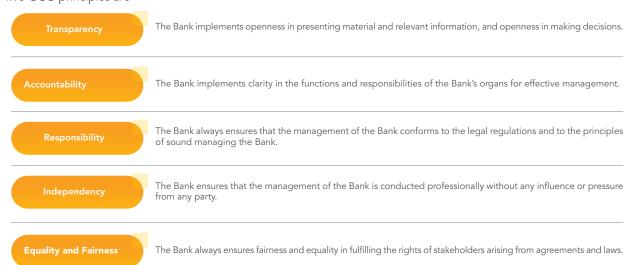

Legal Basis	Type of Regulations
Law (UU) of the Republic of Indonesia	 Law no. 10 Year 1998 concerning Banking; Law no. 40 Year 2007 concerning Limited Liability Companies; Law No. 27 Year 2022 concerning Personal Data Protection

Corporate Governance Principles

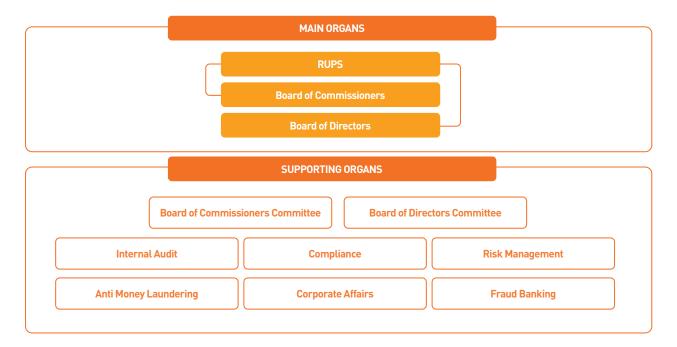

Bank Mega's GCG implementation also refers to the 5 GCG principles consisting of transparency, accountability, responsibility, independence and fairness. The implementation of the five GCG principles involves the Board of Commissioners, Directors, and all employees of the bank to strengthen the bank's business operations as a whole. The five GCG principles are

Governance Structure

As stipulated in the Law on Limited Liability Companies and in the Articles of Association of Bank Mega, the Bank's GCG structure is composed of the General Meeting of Shareholders (GMS), the Board of Commissioners and the Directors. In addition, the Board of Commissioners and the Directors are assisted in the performance of their duties and powers in the management of the Bank by supporting committees, as shown in the table below:

As stipulated in the Board Manual for the Board of Commissioners of Bank Mega, the Board of Commissioners is required to form an Audit Committee, a Risk Monitoring Committee and a Remuneration and Nomination Committee. The formation of these three committees is in accordance with the provisions for the implementation of the governance of commercial banks in accordance with POJK No. 17 of 2023. Meanwhile, Bank Mega's Board of Directors formed a committee according to the Bank's needs as regulated in the Board Manual. Currently, the supporting organs of the Board of Directors are committees and work units under the Board of Directors.

The Board of Directors has formed several executive committees to assist it in carrying out its duties and responsibilities. These committees are: Risk Management Committee, Assets and Liabilities Committee (ALCO), Credit Policy Committee, Information Technology Steering Committee, Human Resources Committee, Product Committee, Crisis Management Committee and Credit Committee. Besides these committees, the Bank also established Integrated Risk Management Committee and Integrated Governance Committee considering

Bank Mega's position as the Main Entity in Mega Corpora Financial Conglomerate.

The Board of Directors of Bank Mega has also formed a working unit under the Board of Directors to assist in the performance of the duties and powers of the Bank's management. The Work Units in question consist of the Internal Audit Work Unit, the Compliance Work Unit, the Risk Management Work Unit, the Anti-Money Laundering (AMLA) Work Unit and the Anti-Fraud Strategy Implementation Work Unit. The existence of this Work Unit meets the requirements set forth in POJK No. 17 of 2023 concerning the Implementation of Commercial Bank Governance.

In order to strengthen the functions of various supporting bodies under the Board of Commissioners and Directors, Bank Mega has prepared a set of policies and procedures based on the regulations of the Financial Services Authority and Bank Indonesia, as well as applicable laws and regulations. The preparation of these policies and procedures is balanced with their direct socialization or publication in media that are easily accessible to all employees.

Annual General Meeting of Shareholders

The General Meeting of Shareholders (GMS) is an organ of the Bank, which has powers that are not granted to the Directors or the Board of Commissioners within the limits established by the Law on Limited Liability Companies and/or the Articles of Association. The implementation of the General Meeting of Shareholders of Bank Mega is regulated by POJK No. 15/POJK.04/2020 on the Planning and Organization of General Meetings of Shareholders of Public Companies, POJK No. 16/POJK.04/2020 of 2020 on the Implementation of Electronic General Meetings of Shareholders of Public Companies and the Statute of Bank Mega.

Type of GMS

According to the POJK Regulations on the Implementation of GMS and the Bank's Articles of Association, GMS can be divided into Annual GMS and Extraordinary GMS. The Annual GMS (AGMS) must be held no later than 6 (six) months after the end of the fiscal year. At the AGMS, the Board of Directors submits an annual report, which has been reviewed by the Board of Commissioners and which includes, among other things, a report on the management of the Bank carried out by the Board of Directors during the previous financial year, for approval at the AGMS. The Board of Directors also submits financial reports audited by a public accountant registered with the OJK for approval by the AGMS. In addition, the AGMS decides on the appropriation of the net profit, if any, and appoints a public accountant registered with the OJK. The AGMS may decide on such matters as may be proposed in accordance with the Bank's Articles of Association.

Meanwhile, an Extraordinary General Meeting (EGM) shall be held by the Board of Directors at the written request of the Board of Commissioners or of 1 (one) or more shareholders who together represent 1/10 (one tenth) of the total shares with valid voting rights. which may be held at any time accompanied by reasons and fulfilling the requirements stipulated in the Bank's Articles of Association.

The Implementation and Resolutions of Agms 2023 for the Fiscal Year 2022

Chronology of the AGMS

Bank Mega held an Annual GMS (AGMS) on February 24, 2023 at 14:16 - 15:54 at the Mega Auditorium, Bank Mega Tower, 3rd Floor, Jalan Captain Tendean Kav. 12 - 14A, South Jakarta 1279. Prior to the holding of the AGMS, the Company made an announcement via PT Bursa Efek Indonesia's website (www.idx.co.id), the Bank's website (www.bankmega.com) and eASY.KSEI's website (https:// akses.ksei.co.id). Through the same media, Bank Mega has summoned the AGMS on February 2, 2023. In the AGMS notice, Bank Mega also provided a link to participate in the AGMS by accessing KSEI's Electronic General Meeting System (eASY.KSEI) at https://akses. ksei.co.id/ provided by KSEI.

This process is conducted by the Company in accordance with POJK No. 15/2020, POJK No. 16/POJK.04//2020 dated 21 April 2020 on the Implementation of Electronic Shareholders' Meetings of Public Corporations and the Articles of Association of the Bank.

Quorum of Shareholders Present

The meeting was attended by shareholders and/or proxies/representatives of shareholders, both physically and through the eASY.KSEI application, representing 11,437,176,871 shares or 97.41% of the votes out of the total number of shares with valid voting rights issued by the Company until the date of the meeting, which amounted to 11,740,923,365 shares.

All the shareholders present gave 100% approval to all the resolutions on the agenda of the AGMS, except for the agenda of the third meeting, which was not adopted at the meeting because it was only intended to inform the shareholders about the Company's Sustainable Financial Action Plan for 2023.

Questions and Answers

For each item on the agenda of the Meeting, the shareholders have the opportunity to ask questions or express opinions related to the discussion of the item on the agenda of the Meeting. On the agenda of the first meeting there was 1 (one) question from shareholders and for the agenda of the second to ninth meetings there were no questions from legal holders.

Decision-making mechanism

Decisions are made on the basis of votes cast physically and electronically via the eASY.KSEI application. Decisions of the meetings are made by voting, taking into account physical votes and electronic votes via the eASY.KSEI application.

AGMS Agenda and Resolutions

The AGMS agenda and resolutions are as follows:

No	Agenda	Decision

	Follow-Up/Realization	Have been documented in Deed No. 9 dated February 25, 2022 made before Dharma Akhyuzi S.H., Notary at Jakarta and have been implemented.

Board of Commissioners

Pursuant to POJK No. 33/POJK.04/2014 on the Board of Directors and the Board of Commissioners of Issuers or Public Companies, the Board of Commissioners is the body of the Issuer or Public Company that, in accordance with the Articles of Association, is responsible for general and/or specific supervision and for advising the Board of Directors. The board of commissioners is responsible for the supervision and monitoring of the management policy, the course of management in general, both with regard to the issuer or public company and the business of the issuer or public company, and advises the board of directors.

The Board of Commissioners' Board Manual

As one of the implementations of the GCG, Bank Mega has a Board Manual as one of the tools to implement the GCG in the form of rules or working guidelines for the Board of Commissioners. The Board Manual is based on the Bank's Articles of Association, Banking Regulations and other related regulations. The Charter of the Board of Commissioners is a work guideline and code of ethics applicable to all members of the Board of Commissioners and all committees under the Board of Commissioners in the performance of their duties and responsibilities. The Board of Commissioners Charter addresses the following matters:

Currently, the Board Manual is being updated to comply with POJK No. 17 of 2023 on the Implementation of Governance for Commercial Banks.

Duty and Responsibility of Board of Commissioners'

Based on the Board of Commissioners Manual, the duties and responsibilities of the Board of Commissioners are as follows:

- 1. To direct, monitor and evaluate the Bank's strategic policies so that they are consistent with the Bank's objectives, taking into account the rules and regulations applicable to the banking industry.
- 2. To ensure that the Board of Directors has implemented the principle of prudence in the Bank's business activities.
- 3. Ensure the implementation of the principles of good governance in each of the Bank's business activities at all levels of the organization.
- 4. Ensure that the implementation of risk management is appropriate in accordance with the Risk Management Policy and Strategy.
- 5. Ensuring that the Board follows up on audit findings and recommendations from the Internal Audit Department, external auditors, results of supervision by the Financial Services Authority, Bank Indonesia and/or results of supervision by other authorities.
- 6. Evaluate the implementation of the Bank's compliance function at least 2 (two) times a year by providing suggestions for the improvement of the quality of the implementation of the Bank's compliance function to the President Director with a copy to the Director in charge of the compliance function.
- 7. Promote a culture of compliance and anti-fraud at all levels of the organization.

Independence of the Board of Commissioners

In accordance with the Manual of the Board of Commissioners, the majority of the members of the Board of Commissioners are prohibited from having family relationships up to the second degree with other members of the Board of Directors and/or members of the Board of Commissioners. Former members of the Board of Directors or Executive Officers of the Bank, or parties who have a relationship with the Bank that may influence the person's ability to act independently, must serve a cooling-off period of at least one (1) year before becoming an Independent Commissioner of the Bank. This provision is not applicable to former members of the Board of Directors who are in charge of supervisory functions or to executive officers who are in charge of supervisory functions at the Bank.

The Board of Commissioners shall make a declaration of independence which shall be valid in accordance with the period of time or term of office as set forth in the GMS. In addition, the Board of Commissioners also makes a Declaration Letter of Not Using the Bank for Personal Benefit, which is valid in accordance with the period or term of office as determined in the GMS.

Meetings of the Board of Commissioners

The policy of the Bank's Board of Commissioners meeting, as regulated in the Board of Commissioners Manual, refers to the holding of regular Board of Commissioners meetings at least 1 (one) time in 2 (two) months or more if deemed necessary by the Board of Commissioners in accordance with POJK No. 17/2023 on the Implementation of Commercial Bank Governance.

In addition to the agenda of the meeting, the level of participation of each member of the Board of Commissioners in the internal meeting of the Board of Commissioners and in the Annual GMS 2023 shall be as follows:

			2023 AGMS		
Name	Position Total Meeting		Total Attendance	Attendance Level	Attendance

Training and/or competency enhancement of the members of the Board of Commissioners

The Bank is committed to improving the competence of the Board of Commissioners by means of continuous training and professional development. The training attended by the Board of Commissioners during the year 2023 can be seen in the Corporate Profile chapter, in particular in relation to the Profile of the Board of Commissioners in this Bank's Annual Report.

Performance of the duties of the Board of Commissioners

As stipulated in the Board of Commissioners' Manual, the Board of Commissioners prepares a supervision report for 1 (one) year, a business plan supervision report per semester, a report on the main points of internal audit results, a report on violations of laws and regulations in the financial and banking sector, and the situation or assessment of conditions that may endanger the continuity of the Bank's business, as well as other reports presented in the Annual Report on the Implementation of the Bank's Governance. The recommendations made by the Board of Commissioners are set out below:

Assessment of the Performance of the Committees under the Board of Commissioners

In accordance with the Bank's Articles of Association, the Board of Commissioners is required to form a committee to carry out its duties and responsibilities. In addition, the Board of Commissioners periodically assesses and evaluates the performance of the Audit Committee by ensuring that the Audit Committee has held discussions and made proposals on various important activities of the Bank. The Audit Committee reports that it held 14 meetings during the year.

The Risk Monitoring Committee has also performed well by discussing and making suggestions on various risk management activities of the Bank. The Risk Monitoring Committee reports that it held 7 meetings in 2023.

Meanwhile, the Nomination and Remuneration Committee has also performed its duties well. These include assisting the Board of Directors in performing its supervisory and coaching functions for the Board of Directors and its staff with respect to the implementation of the remuneration and nomination policies by providing opinions and recommendations to the Board of Directors. Cumulatively, the Nomination and Remuneration Committee held 5 meetings in 2023.

The Board of Commissioners has established criteria for the evaluation of the performance of the committees reporting to the Board of Commissioners, which consist of:

- 1 Professionalism and Independence
- 2. Perform supervisory and coaching functions
- 3. Identify matters requiring the attention of the Board of Commissioners.

Independent Commissioners

Independent Commissioner, as regulated by POJK No. 17 of 2023, is a member of the Board of Commissioners who has no financial, management, shareholding and/or family relationship with members of the Board of Directors, other members of the Board of Commissioners and/or controlling shareholders, including the last controlling shareholder, or relationship with the Bank which may affect the person's ability to act independently. In accordance with POJK regulations, Bank Mega's Independent Commissioners constitute 60% of the board of commissioners (more than the minimum requirement of 50%).

The existence of independent members is intended to promote the creation of a more objective working climate and environment and to ensure fairness and equality between various interests, including the interests of minority shareholders and stakeholders.

Independence Requirements for Independent Commissioners

Specifically, Independent Commissioners have the following independence requirements as set forth in POJK No. 33 /POJK.04/2014:

 Not a person who works or has the authority and responsibility to plan, direct, control or supervise the activities of the issuer or public company within the past 6 (six) months, except for reappointment as an independent commissioner of the issuer or public

- company in the following period;
- 2. Does not own, directly or indirectly, any shares in the issuer or the public company;
- 3. Has no affiliation with the issuer or the public company, members of the Board of Commissioners, members of the Board of Directors or major shareholders of the issuer or the public company; and
- 4. Has no direct or indirect business relationship with the business of the issuer or the public company.

Independence of the Independent Commissioners
The profiles of the Bank's Independent Commissioners,
Achjadi Ranuwisastra, Lambock V. Nahattands and
Hizbullah, can be found in the Company Profile section.
As Independent Commissioners, the three Independent
Commissioners have no affiliation with members of
the Board of Directors, other members of the Board of
Commissioners or shareholders. They are required to
carry out their duties and responsibilities independently,
professionally and without interference from other parties.

Board Of Directors

The Board of Directors is the organ of the Bank with the authority and full responsibility to manage the Bank in the Bank's interests and in accordance with the Bank's objectives. The Board of Directors represents the Bank in and out of court in accordance with the provisions of the Articles of Association of banks that are limited liability companies. In addition, the Board of Directors shall conduct and be responsible for the management of the issuer or public company for the issuer's or public company's interests in accordance with the issuer's or public company's goals and objectives set forth in the Articles of Association.

Board Manual of the Board of Directors

As one of the implementations of the GCG, Bank Mega has a Board of Directors Manual as one of the tools for implementing the GCG in the form of rules or working guidelines for the Board of Directors, which are guided by the Bank's Articles of Association and Banking Regulations and other related regulations. The Board of Directors' Manual is a working guideline and code of ethics applicable to all members of the Board of Directors and all supporting bodies of the Board of Directors in the performance of their duties and responsibilities. The following matters are

regulated in the Board of Directors' Manual published in March 2020:

Currently, the Board Manual is being updated to comply with POJK No. 17 of 2023 on the Implementation of Governance for Commercial Banks.

Duties and Responsibilities of Each Member of the Board of Directors

The duties and responsibilities of each director are described below in accordance with the Board Manual:

Independence of the Board of Directors

As set forth in the Manual of the Board of Directors, the members of the Board of Directors are not allowed, either individually or collectively, from owning shares in excess of 25% of the paid-up capital of any other company. The majority of the Board members is prohibited from having family relations up to the second degree with other Board members and/or members of the Board of Statutory Auditors.

In addition, the members of the Board of Directors in charge of the compliance function have complied the independence requirements of the regulatory authorities. The Board of Directors makes a declaration of independence, which is valid according to the period/term of office as defined in the GMS. Finally, the Board of Directors makes a declaration not to use the Bank for personal gain, which is valid according to the period/term of office as determined in the GMS.

Board of Directors Meeting

The Board of Directors Manual of Bank Mega stipulates that Board of Directors meetings are held regularly at least 1 (one) time per month or more if deemed necessary by the President Director or other Board members. This provision is in accordance with POJK No. 17/2023, which requires the holding of regular meetings of the board of directors at least 1 (one) time each month.

In addition to the meeting agenda, the attendance of each member of the Board of Directors at the internal meetings of the Board of Directors and the 2023 AGM are explained in the following table:

Training and/or Improving the Competence of Directors

The Bank is committed to improving the competence of the Board of Directors through continuous education and training. The training attended by the Directors during the year 2023 can be seen in the Corporate Profile chapter, in particular in relation to the Directors' Profile in the Bank's Annual Report.

Implementation of the duties of the Board of Directors As stipulated in the Board of Directors' Manual, the Board of Directors is obliged to provide the authorized parties with financial reports and the Company's business activities in accordance with banking regulations and applicable laws. The implementation of the duties of the Board of Directors during the year 2023 is as follows

- Determine the Bank's long, medium and annual goals and strategies as outlined in the Corporate Plan and the Bank's Business Plan.
- 2. Establish strategic policies related to the management of the Bank, in accordance with the authority granted, and periodically evaluate such policies.
- 3. Develop compensation policies and communicate the Bank's strategic human resources policies to employees.
- 4. Implement the principles of good governance and the application of risk management in all of the Bank's business activities at all levels of the organization.
- 5. Develop a culture of risk awareness, compliance and anti-fraud at all levels of the organization.
- 6. Enhance the knowledge, skills and abilities of all employees at all tiers and levels of the organization.
- 7. Evaluate the performance of the Committee at the end of each fiscal year.
- 8. Follow up on the results of internal audit, external audit and supervision by Bank Indonesia, the Financial Services Authority and the results of supervision by other authorities.

- Evaluate and monitor the Bank's prudential policies and compliance and the implementation of internal controls.
- 10. Transparency of financial and non-financial conditions to stakeholders as required by banking regulations and applicable laws.
- 11. Organize an annual GMS as required by banking regulations and laws and the Articles of Association, and be accountable for the performance of its duties to the Board of Commissioners and the shareholders through the GMS.

Evaluation of the performance of the Board Committees

As provided in the Board Manual, the Board may form committees to assist in the effective discharge of the duties and responsibilities of the Board. In connection with the formation of this committee, the Board is required to evaluate the performance of the committee at the end of each fiscal year. As of December 31, 2007, there were 8 (eight) committees formed by the Board of Directors consisting of the Risk Management Committee, the Assets and Liabilities Committee (ALCO), the Credit Policy Committee, the Information Technology Steering Committee, the Human Resources Committee, the Product Committee, the Crisis Management Committee and the Credit Committee.

In general, the Board of Directors believes that the eight Board Committees are capable of fulfilling their duties and authorities until 2023. For a more detailed explanation of the implementation of the Board Committees, please refer to the section "Board Committees".

Transparency of Information Related to the **Board of Commissioners and Board of Directors**

Diversity of Composition of the Board of Commissioners and Board of Directors

Bank Mega is committed to ensuring that the composition of the Board of Commissioners and Directors is made in such a way that the decision-making process can be enriched by different perspectives and backgrounds, as well as by experience and expertise. The composition of the Board of Commissioners and Directors shall be arranged in accordance with the applicable regulations, in particular POJK no. 33 /POJK.04/2014, which requires the Board of Commissioners and Directors to have knowledge and/or expertise in the fields required by issuers or public companies. Furthermore, POJK No. 17 of 2023 stipulates that when replacing and/or appointing members of the Board of Commissioners and Directors, professional composition, independence, competence suitability and diversity shall be prioritized. The diversity referred to includes the professional background, the experience, the educational background and the gender.

Diversity of the Board of Commissioners

In accordance with POJK No. 17 of 2023, the diversity of the Board of Commissioners can be seen from 4 (four) aspects, namely education history, age, career and experience, and gender.

Education history

The members of the Board of Commissioners have different educational backgrounds ranging from bachelor's to doctoral degrees from home and abroad with different majors such as dentistry, economics, management and law. In addition, there are members of the Board of Commissioners who have attended executive programs at the Harvard Executive Program at Harvard Business School, Massachusetts - USA to enhance their professional competence.

The members of the Board of Commissioners range in age from 62 to 79, reflecting a long track record in the financial and banking industry.

Career and experience

The members of the Board of Commissioners are experienced in the financial and banking industry with various careers including Chairman of the National Economic Committee and Coordinating Minister for the Economy, special staff in ministries, and have been key persons in various leading

Diversity of the Board of Directors

In line with the Board of Commissioners, the Bank's Directors also consider diversity as regulated by POJK No. 17 of 2023:

The members of the Board of Directors have a variety of educational backgrounds ranging from bachelor's to master's degrees, both domestic and foreign, in various fields such as engineering, geology, economics, management, business administration and law.

The members of the Board of Directors range in age from 55 to 62 years, reflecting a long and proven track record in the financial and banking industry.

The members of the Board of Directors are experienced in the financial and banking industry with various career backgrounds such as Bank Indonesia and have been key persons in the management of financial and banking institutions with reliable competencies.

Gender

There are 8 members of the Board of Directors, 6 men and 2 women. Thus, the ratio of female members of the Board of Directors to the total members of the Board of Directors is 25%. In addition, the two female members of the Board of Directors were appointed as Deputy Main Directors of Bank Mega.

Concurrent Positions of the Board of Commissioners and Directors

The Bank's Board of Commissioners and the Board of Directors are committed to complying with the laws and regulations, in particular those relating to the dual positions of the Board of Commissioners and the Board of Directors. Explanations relating to the dual positions of each member

of the Board of Commissioners and Directors have been explained in the profiles of each member of the Board of Commissioners and Directors in the Corporate Profile chapter of this Annual Report.

Joint Meeting

Bank Mega develops the working relationship between the Board of Commissioners and the Board of Directors as a check and balance relationship in relation to the implementation of their respective duties and responsibilities in the management of the Bank, based on the principles of openness and mutual respect. As set forth in the Board Manual, the relationship between the Board of Commissioners and the Board of Directors may be established through informal meetings or meetings between members of the Board of Commissioners and members of the Board of Directors outside of formal meeting forums. The purpose of these meetings is not to make decisions, but rather to harmonize opinions through informal expression of views.

The Board of Commissioners and the Board of Directors may also establish formal communication or communication between the organs related to the fulfillment of formal provisions as regulated in the Articles of Association in the form of submission of reports and/or exchange of supporting data, information and analysis.

Finally, as provided for in the Manual of the Board of Directors, joint meetings shall be held when deemed necessary by the Board of Commissioners or the Board of Directors. The Board, on the basis of the needs or at the request of the Board, will send notices of joint meetings to the Board and, as appropriate, to resource people, through the Corporate Secretary, including the meeting documents, at least 3(three) days prior to the meeting. This joint meeting shall be held periodically by the Board of Directors at least once every 4 (four) months in accordance with the Board Manual.

This provision is in accordance with Law No. 17 of 2023, which requires the Board of Directors to hold regular meetings of the Board of Directors and the Committee at least once every four (4) months. A meeting of the Board of Directors with the Board of Commissioners is a meeting of the Board of Directors together with the Board of Commissioners, inter alia, for the purpose of the Board of Directors seeking direction or guidance or reporting to the Board of Commissioners on the management of the Bank.

The level of attendance of each member of the Commissioners and of the Directors at the joint meetings during the year 2023, together with the agenda of the meeting, is as follows:

		Joint Meetings		
Position	Name	Total Meetings	Total Attendance	Attendance Level
President Commissioner	Chairul Tanjung	34	34	100%
Vice President Commissioner	Yungky Setiawan	34	34	100%

Performance Assessment of the Board of Commissioners and Board of Directors

Performance Assessment of the Board of Commissioners

In accordance with the Board Manual, the Board of Commissioners has a self-assessment policy for the assessment of the performance of the Board of Commissioners and Directors in accordance with the Decree of the Board of Commissioners. Based on the Board of Commissioners' Decree No. 014/DEKOM/XII/16, dated December 23, 2016, on the self-assessment of the Board of Commissioners and Directors, as well as the succession in the nomination process of Directors; and/or the Board of Commissioners' Decree No. 005/DEKOM/III/20, dated March 18, 2020, on the working guidelines and rules and regulations for the Remuneration and Nomination Committee, the Board of Commissioners' performance assessment is carried out once every 1 (one) year.

The assessment of the Board of Commissioners shall be carried out in accordance with established criteria, including duties and responsibilities in accordance with the relevant regulations.

Performance Assessment of the Board of Directors

The Board of Commissioners, under the guidance of the Board of Directors Manual, has a policy for the assessment

of the performance of the Board of Directors in accordance with the Decree of the Board of Commissioners. Based on the Board of Commissioners Decree No. 014/DEKOM/XII/16 of December 23, 2016 on the self-assessment of the Board of Commissioners and the Directors, as well as the succession in the nomination process of the Directors, the performance assessment of the Directors is carried out once every 1 (one) year. The same provisions are also regulated in the Board of Commissioners' Decree No. No. 011/DEKOM/XI/23 of November 13, 2023 on the Working Guidelines and Rules of Procedure for the Remuneration and Nomination Committee.

The assessment of the Board of Directors is carried out in accordance with established criteria, which include duties and responsibilities in accordance with the relevant regulations. The self-assessment is followed by the implementation of succession planning in the Board nomination process. This is part of the process of preparing for continued leadership by identifying potential candidates to serve on the Board. Finally, the selected potential candidates are nominated to the Board of Commissioners as members of the Board of Directors.

Remuneration of the Board of Commissioners and Board of Directors

The appointment of the members of the Board of Commissioners and the Board of Directors, as well as the determination of the amount of the remuneration of the members of the Board of Commissioners and the Board of Directors, are subject to the authority of the shareholders through the GMS mechanism.

Appointment of the Board of Commissioners and Directors

Decree of the Board of Commissioners No. SK.012/DEKOM/XI/23 of November 25, 2023 on the nomination policy for the Board of Commissioners and members of the Board of Directors regulates the nomination process for the Board of Commissioners and Directors.

The nomination mechanism for members of the Board of Commissioners and members of the Board of Directors shall be as follows:

- The Remuneration and Nomination Committee shall hold discussions as set forth in the minutes of the meetings of the Remuneration and Nomination Committee. Such discussions shall include, but not be limited to, the reasons and/or considerations for the proposals and the qualifications, including the track record, of the candidates for the Board of Commissioners and/or the Board of Directors.
- The Remuneration and Nomination Committee shall inform the Board of Commissioners in writing about the candidates for the Board of Commissioners and/or the candidates for the Board of Directors.

- The decision of the Board of Commissioners will take into account the recommendations of the Remuneration and Nomination Committee, which will then be submitted to the shareholders for discussion at the Annual General Meeting.
- 4. The decision of the GMS regarding the composition of the Board of Commissioners and/or Directors shall be ratified and recorded in the Deed of Minutes or Minutes of the GMS, which shall be reported to the OJK no later than 10 (ten) days after the date of the GMS. The decision of the GMS shall then be reported to the Ministry of Law and Human Rights through a notary public not later than 30 (thirty) days after the date of the deed.
- Members of the Board of Commissioners and/or members of the Board of Directors who have received approval from the GMS will participate in the Fit and Proper Test process organized by the OJK.

Implementation of Remuneration Governance

The implementation of Bank Mega's Remuneration Governance Policy is stipulated by the Board of Directors' Resolution SK. 093/DIRBM/22 on the Remuneration Governance Policy of PT Bank Mega, Tbk. This policy was implemented as of January 1, 2017 (in accordance with the provisions stipulated in POJK No. 45/POJK.03/2015 dated December 23, 2015 and SE OJK No. 40/SEOJK.03/2016 dated September 26, 2016 concerning the implementation of internal governance providing remuneration for commercial banks). This provision becomes effective for the calculation of remuneration for 2017, which will be paid in 2018.

Remuneration of the Board of Commissioners and Directors

The Board of Commissioners and Directors receive the following remuneration and facilities packages:

		Board of Commissioners		Board of Directors	
No	Jenis penghasilan/Fasilitas	Number of Members	(RpMillion) - gross	Number of Members	(RpMillion) - gross

Ratio of highest director and highest employee salaries	3.75:1

Nominal Severance Payments Per Person in 1 Year	Total Employee
Above Rp1 billion	-
Above Rp500 million to Rp1 billion	1
Rp500 million and below	82

Supporting Organs of the Board of **Commissioners**

As set forth in the Board Manual, the Board of Commissioners is required to form an Audit Committee, a Risk Monitoring Committee and a Remuneration and Nomination Committee to assist in the effective discharge of its duties and responsibilities. A committee chairperson may only serve as chairperson of another committee with a maximum of 1 (one) other committee. A more detailed explanation of the supporting committees of the Board of Directors is provided below:

Audit Committee

Pursuant to POJK No. 55/POJK.04/2015 on the Establishment and Guidelines for Implementing the Work of the Audit Committee, the Audit Committee is a committee formed by and responsible to the Board of Commissioners to assist the Board in performing its duties and functions. The purpose of establishing the Bank Mega Audit Committee is to assist the Board of Commissioners in fulfilling its oversight responsibilities related to financial reporting, internal control systems, conducting internal and external audits, implementing GCG principles, and complying with applicable laws and regulations in accordance with the Bank's objectives.

Audit Committee Charter

This Audit Committee Charter is made by reference to applicable laws and regulations Financial Services Authority Regulation No. 55/POJK.04/2015 of 23 December 2015 on Formation and Guidelines for Work Performance of Audit Committee. The Audit Committee Charter of the Bank has been established as a reference for the Audit Committee in the performance of its functions and duties in accordance with the internal and external regulations.

The Audit Committee Charter, which was signed by the Bank's Board of Directors on November 13, 2002, addresses important issues such as the composition, structure, and membership requirements; duties, responsibilities, and authority; committee rules; meetings, quorums, and decision-making; the term of office of independent committee members; the performance evaluation mechanism; and the review period for working guidelines and regulations.

Duty and Responsibility

The Audit Committee, as set forth in the Audit Committee Charter, has several duties and responsibilities to assist the Board in carrying out its duties and functions. The duties and responsibilities of the Audit Committee include, but are not limited to the following:

- 1. Oversee and evaluate the planning and performance of internal audit functions to assess the adequacy of internal control, including the adequacy of the financial reporting process.
- 2. Provide recommendations to the Board of Directors regarding the preparation of the annual audit plan, scope and budget.
- 3. Review the conduct of audits by internal auditors and oversee the implementation of audit findings by
- 4. Evaluate the conduct of audits by external auditors and/or public accountants in accordance with auditing standards, the adequacy of time spent on site, the evaluation of services provided and the adequacy of sampling, and make recommendations for improvements.
- 5. Review the compliance of the Bank's financial statements with applicable financial reporting standards.

Organizational Structure and Composition of the Audit

In accordance with POJK no. 17/2023, the Charter of Audit Committee of Bank Mega also regulates the structure and composition of the Audit Committee, which is appointed and dismissed by the Board of Commissioners and is responsible to the Board of Commissioners. The Audit Committee consists of at least three members, all of whom are independent. The Audit Committee is composed of independent members of the Board of Commissioners and independent parties from outside the Bank, each of whom has expertise in the field of finance or accounting and one of whom has expertise in the field of law or banking. This structure of the Audit Committee is designed to comply with POJK No. 17 of 2023, Article 64, Paragraph 1, relating to the Audit Committee.

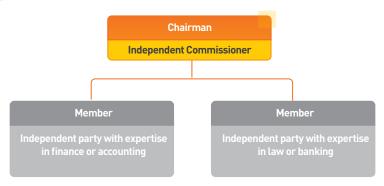

The Bank's Audit Committee is chaired by an independent commissioner and member with the following organizational structure:

The Bank's Audit Committee composition as of December 31, 2023 is as follows::

Name	Position	Appointment Date	Expertise
Hizbullah*	Chairman	September 1, 2023	Banking

6	Evaluate the results of the implementation of the internal audit and the adequacy of the audit reporting for the fiscal year 2023	An evaluation has been made of the results of the internal audit function and the adequacy of audit reporting. This is done by evaluating the monthly internal audit report and presenting it in the minutes of the review meeting, which is then presented to the Board of Commissioners.
7	Evaluate the implementation of the Board's follow- up of internal and external audit findings.	The implementation of the Board's follow-up actions on internal and external audit findings has been evaluated.
8	Renewal of the Audit Committee Charter	The Audit Committee Charter has been updated in accordance with the Financial Services Authority Regulation No. 17 of 2023 dated September 14, 2023 on the Implementation of Governance for Commercial Banks

Risk Monitoring Committee

The Risk Monitoring Committee has been established in order to implement the principles of the GCG and in view of the increasingly complex duties and functions of the Board of Commissioners in the supervision of Bank Mega. This Committee has been established by the Board of Commissioners in order to assist the Board of Commissioners in fulfilling its duties and responsibilities in its supervisory function and to make recommendations to the Board of Commissioners in order to ensure that the implementation of the risk management of the Bank meets the elements of adequate risk management procedures and methods.

The Risk Monitoring Committee Charter

The Bank has established a Risk Monitoring Committee Charter with reference to the provisions of applicable laws and regulations, including POJK No. 17 of 2023 on the implementation of governance for commercial banks and SEOJK No. 34/SEOJK.03/2016 on the implementation of risk management for commercial banks.

The Risk Monitoring Committee Charter, which was signed by the Bank's Board of Commissioners on November 13, 2002, addresses important issues such as the composition, structure, and membership requirements; duties, responsibilities, and authority; committee rules; meetings, quorums, and decision-making; the term of office of independent committee members; the performance evaluation mechanism; and the review period for working guidelines and regulations.

Duty and Responsibility

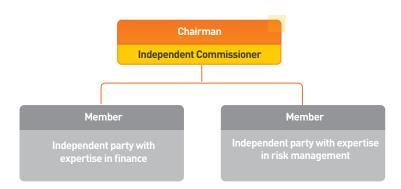

The Risk Monitoring Committee has a number of duties and responsibilities to assist in the performance of the duties and functions of the Board of Commissioners as set forth in the Risk Monitoring Committee Charter. The duties and responsibilities of the Risk Monitorin Committee include the following:

- 1. Assessing the adequacy of the risk management policies and the implementation of the Bank's policies, as well as monitoring and evaluating the performance of the duties of the Risk Management Committee and the Risk Management Department.
- 2. Providing opinions and recommendations to the Board regarding the Bank's risk management policies and implementation.
- 3. Providing opinions and recommendations to the Board of Commissioners on the performance of the duties of the Risk Management Committee and the Risk Management Work Unit, including integrated risk management.

Organizational structure and composition of the Risk Monitoring Committee

Bank Mega's Risk Monitoring Committee Charter also determines the structure and membership of the Risk Monitoring Committee, which is appointed and removed by the Board of Commissioners and is responsible to the Board of Commissioners. The Risk Monitoring Committee is composed of at least three members, one of whom is an independent commissioner, one (1) independent party with expertise in risk management and one (1) independent party with expertise in finance. The structure of the Risk Monitoring Board meets the requirements of Article 65 (1) of the POJK no. 17 of 2023.

The Bank's Risk Monitoring Committee is chaired by an Independent Commissioner and has the following organizational structure:

Name	Chairman	Appointment Date	Expertise
Achjadi Ranuwisastra	Chairman	01 Maret 2022	Banking
Iramady Irdja	Member	01 Maret 2022	Finance
Adrial Salam	Member	01 Maret 2022	Risk Management

A brief profile of each of the three members of the Risk Monitoring Committee is set out below:

Profile of the Risk Monitoring Committee Chairman

6	03-Nov-23	Quarter III / 2023 Risk Profile Evaluation
7	22-Dec-23	Risk profile evaluation for November 2023

Independence of the Risk Monitoring Committee

The Risk Monitoring Committee Charter requires that each member of the Risk Monitoring Committee meet independence requirements. The independence of each member of the Risk Monitoring Committee can be measured by the fulfillment of the requirements set forth below:

1. Former members of the Board of Directors, executive officers or parties having a relationship with the Bank that may influence the person's ability to act independently must complete a cooling off period of at least 6 (six) months before becoming an independent party, except for former members of the Board of Directors who are in charge of supervisory functions or officers who perform supervisory functions at the Bank.

2. A personal statement of independence shall be provided by the Independent Party.

Training During the Fiscal Year

Mr. Achjadi Ranuwisastra, as the Chairman of the Risk Monitoring Committee, attended various training sessions, which are listed in the Company Profile section of this Annual Report.

Implementation of Risk Monitoring Committee Activities The Risk Monitoring Committee has contributed to the implementation of the monitoring function of Bank Mega's performance throughout the year 2023. The Risk Monitoring Committee's work program and implementation for this year are as follows:

No	Work Program	Implementation
1.	Evaluate the Risk Profile of Bank Mega	An assessment of Bank Mega's risk profile was carried out for the quarter IV/2022, the quarter IV/2023 and the quarter III/2023. The risk profile was prepared in accordance with the regulatory requirements. The Bank's risk profile is relatively stable during 2023, i.e. at a low to moderate level.
2.	Evaluate the effectiveness of the Risk Management Committee and the Risk Management Department	Active participation in monthly KMR meetings. KMR and RIMG have performed their functions as they should, so that the implementation of risk management has been carried out in accordance with the regulations. Risk parameters exceeding risk appetite and entering risk tolerance were discussed and improvements were pursued.
3.	Assess the effectiveness of the Integrated Risk Management Committee	Actively participate in quarterly KMRT meetings. KMRT in Integrated Financial Mega Corporations has been conducted in accordance with the provisions. The integrated risk profile can be maintained at a low to moderate level until October 2023.
4.	Evaluates monthly risk limit reports and attends monthly ALCO meetings. In general, the risk limit can be maintained within the Bank's risk appetite and risk tolerance.	Monitor risk limits for credit risk, market risk, liquidity risk, strategic risk, operational risk, legal risk, compliance risk and reputational risk.
5.	Provide information and proposals to the Board of Directors	This information and suggestions is communicated to the Board of Commissioners via Service Memos throughout 2023
6.	Evaluate the implementation of the 2023 Recovery Plan	The results of the evaluation is communicated to the Board of Commissioners via Service Memo.
7	Evaluate the simulation of stress test implementation (solvency & liquidity)	The results of the evaluation is communicated to the Board of Commissioners via Service Memo.
8.	Evaluate the implementation of the compliance function per semester in 2022 and 2023	An evaluation of the implementation of the compliance function was conducted for the second half of 2022 and the first half of 2023.
9.	Renewal of the Risk Monitoring Committee Charter	The Risk Monitoring Committee Charter has been updated in accordance with the Financial Services Authority Regulation No. 17 of 2023 dated September 14, 2023 on the implementation of governance for commercial banks.

Remuneration and Nomination Committee

The Remuneration and Nomination Committee (KRN) is a committee formed by and responsible to the Board of Commissioners to assist in the performance of the functions and duties of the Board of Commissioners with respect to remuneration and nomination of members of the Board of Commissioners and members of the Board of Directors. The Remuneration and Nomination Committee has also been formed in order to implement the principles of the GCG and to take into account the increasingly complex duties and functions of the Board of Commissioners in the supervision of Bank Mega.

Remuneration and Nomination Committee Charter

The Bank has established a Remuneration and Nomination Committee Charter with reference to the provisions of applicable laws and regulations, including POJK No. 17/2023 on the implementation of governance for commercial banks and POJK No. 45/2015 on the Implementation of Governance in the Provision of Remuneration for Commercial Banks.

The important matters regulated in the Compensation and Nomination Committee Charter, which was signed by the Bank's Board of Directors on November 13, 2023, are the composition, structure and membership requirements, duties and responsibilities and powers, committee rules, meetings, quorum and decision-making, term of office of independent committee members, performance evaluation mechanism, and review period of work guidelines and regulations.

Duty and Responsibility

The Remuneration and Nomination Committee, as set forth in the Remuneration and Nomination Committee Charter, has several duties and responsibilities to assist the Board in carrying out its duties and functions. The duties and responsibilities of this committee with respect to the remuneration policy include the following:

- 1. Make recommendations to the Board regarding the compensation structure, policy and amount of compensation for members of the Board of Directors and/or members of the Board of Commissioners, to be evaluated by the Compensation and Nomination Committee at least 1 (one) time in 1 (one) year.
- 2. Assist the Board of Commissioners in conducting performance evaluations in accordance with the compensation received by each director and/or member of the Board of Commissioners.
- 3. Provide evaluation results and recommendations to the Committee regarding the overall employee compensation policy to be presented to the Board.

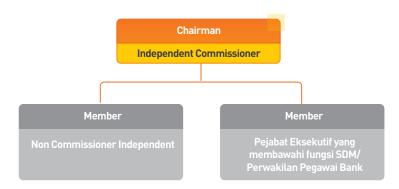

The duties and responsibilities with respect to the Nominating Policy are as follows:

- 1. Make recommendations to the Board of Commissioners regarding the composition of the Board of Directors and/or the Board of Commissioners, the guidelines and criteria required in the nomination process, and the performance evaluation guidelines for the Board of Directors and/or the Board of Commissioners.
- 2. Assist the Board of Trustees in evaluating the performance of directors and/or members of the Board of Trustees based on benchmarks established as evaluation materials.
- 3. Make recommendations to the Board regarding capacity development programs for directors and/or members of the Board of Commissioners.

Organizational structure and composition of the **Remuneration and Nomination Committee**

The Bank's Remuneration and Nomination Committee Charter also regulates the structure and composition of the Remuneration and Nomination Committee, which must be composed of at least: 1 (one) independent director, who is also the Chairman; 1 (one) non-independent director; and 1 (one) executive officer in charge of human resources or 1 (one) employee representative of the Bank. If the members of the Remuneration and Nomination Committee are determined to be more than 3 (three) persons, the Independent Committee shall be composed of at least 2 (two) persons.

The Bank's Remuneration and Nomination Committee shall be chaired by an independent member and shall have the following organizational structure:

The Bank's Remuneration and Nomination Committee composition as of December 31, 2023 is as follows:

Name	Chairman	Appointment Date	Expertise
Achjadi Ranuwisastra	Chairman	March 1, 2022	Banking
Yungki Setiawan	Member	March 1, 2022	Finance

Corporate Secretary

The important role of company secretary is necessary to improve openness, service and communication to stakeholders as an implementation of the principles of good corporate governance by issuers or public companies. According to POJK No. 35/2014, public companies or issuers are required to have the function of a company secretary. A company secretary is an individual or a person in charge of a work unit who performs the functions of a company secretary.

Duties and Responsibilities

The company secretary has the following duties and responsibilities:

- To keep abreast of developments in the capital market, in particular the regulations applicable to the capital market sector.
- Provide services for any information required by shareholders and the public regarding the condition of the Bank, such as requests for annual reports and annual general meetings.
- 3. To assist the Board of Directors in complying with capital market regulations and their implementing rules.
- 4. To act as a liaison between Bank Mega and the Financial Services Authority, PT Bursa Efek Indonesia (BEI), other regulators and the public.
- 5. To prepare a special list of shares.
- 6. To maintain and be responsible for the availability of the minutes of the meetings of the Board of Directors and the joint meetings of the Board of Commissioners and the Board of Directors.
- 7. To prepare the necessary materials in connection with the routine reports/activities of the Directors that are to be presented to external parties.
- 8. To be responsible for the organization of the General Meeting of Shareholders.

Role of the Corporate Secretary

The role of the Corporate Secretary in the working relationship between the Board of Commissioners and the Board of Directors, based on the Board Manual, is as follows

- Organize document management activities related to policies issued, minutes of meetings, and minutes of meetings attended by the Board of Commissioners and Directors.
- Act as a liaison between the Board of Directors and the Board of Commissioners with shareholders, related agencies, the community, and other stakeholders.
- Perform protocol functions for the activities of the Board of Directors and the Board of Commissioners, the implementation of the GMS and the official activities of the Bank.
- Serve as the Bank's spokesperson to external parties and collect information related to the Bank and parties outside the Bank related to the Bank's business activities and implement communication strategies in accordance with the Bank's needs.
- Other functions as specified in the Bank's Internal Regulations.

Profile of the Corporate Secretary

The Corporate Secretary of Bank Mega was appointed on the basis of a report to the Indonesian Stock Exchange and the Financial Services Authority with Letter No. 262/DIRBM-COAF/15 dated November 02, 2015 and also serves as the Head of Corporate Affairs. The position of Corporate Secretary of Bank Mega is held by Christiana M. Damanik, whose profile has been explained in the Corporate Secretary Profile section of the Company Profile chapter of this Annual Report.

Performance of the Corporate Secretary's activities

The Corporate Secretary has fulfilled his duties and responsibilities throughout the year 2023. In terms of information disclosure, Bank Mega has submitted reports as a form of information disclosure carried out by the Corporate Secretary, which can be accessed through https://bankmega.com/id/tangan-kami/ new-investorrelations/.

In addition, the Corporate Secretary also publishes press releases related to Bank Mega throughout 2023. These press releases can be accessed at https://bankmega.com/ id/tentang-kami/profil-bank-mega/

Internal Audit

Pursuant to POJK No. 56/2015 on the establishment of an internal audit unit and guidelines for the preparation of an internal audit unit charter, the internal audit unit is a working unit within an issuer or public company that performs the internal audit function. Specifically, through POJK No. 1/2019 on the Implementation of the Internal Audit Function in Commercial Banks, the OJK states that internal audit is an independent and objective activity that provides confidence and consultation, with the aim of increasing value and improving bank operations, through a systematic approach. by evaluating and improving the effectiveness of the bank's risk management, control and governance processes.

Internal Audit Charter

In accordance with the aforementioned POJK, Bank Mega has prepared an Internal Audit Unit Charter, which was ratified by the Bank's Directors and Deputy Directors, as well as the Chairman of the Audit Committee on April 18, 2022. This Charter regulates the following important matters: Scope and function, structure and position, duties and responsibilities, authority, relationship between the Internal Audit Department and the business units performing internal control functions, requirements for internal auditors, code of ethics, prohibition of holding concurrent duties and positions, accountability of the Internal Audit Department, responsibility and accountability, independence in providing consulting services or other special tasks, and coordination with external auditors.

Duties and Responsibilities

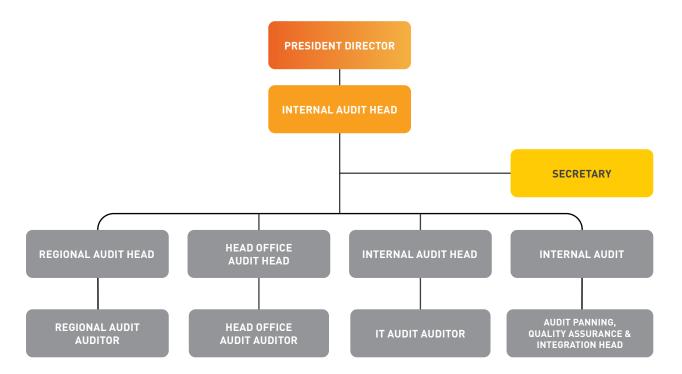

In accordance with POJK no. 1/2019, Bank Mega has defined the duties and responsibilities of the Internal Audit Department, as set out in the Internal Audit Department Charter, as follows:

- To prepare and implement the annual audit work plan (RKAT) and allocate the budget for the implementation of the internal audit function, where the RKAT and budget allocation are approved by the President Director and the Board of Commissioners, taking into account the recommendations of the Audit Committee;
- Assist the President Director and the Board of Commissioners in providing oversight by explaining operationally the planning, implementation, and monitoring of audit results;
- Analyze, evaluate, assess, and test, through audits, the adequacy and effectiveness of the implementation of governance, risk management, and internal control in the areas of finance, accounting, operations, human resources, information technology, marketing, and other activities;
- Identify all opportunities to improve and increase the efficiency of the use of resources and funds;
- Provide objective and corrective recommendations on audited activities to all levels of management;
- Monitor, analyze, and report on the implementation of follow-up improvements agreed upon with the management of the audited entity;
- Carry out special audits when necessary, provided that independence is not compromised;
- To perform its functions as an integrated internal audit work unit, refer to the Integrated Governance Guidelines for the PT Mega Corpora Financial Conglomerate:

- a. Oversee the conduct of internal audits in each related financial services institution (LJK) in the financial conglomerate;
- b. Submit monitoring reports on the conduct of integrated audits to the director in charge of supervising the LJK in the financial conglomerate and to the board of commissioners of the parent company, as well as to the director in charge of the compliance function of the parent company.

Organizational Structure and Composition of the Internal Audit Unit

Bank Mega's Internal Audit Department (IADT) is headed by the Head of Internal Audit, who is appointed and dismissed by the President Director with the approval of the Board of Commissioners, taking into account the recommendations of the Audit Committee, and reports to the OJK. The IADT Charter also provides that the Head of Internal Audit is directly subordinate to and responsible to the President Director and may communicate with the Directors, the Board of Commissioners, and the Audit Committee to provide information on various matters related to audit activities. The internal auditors are progressively responsible through the Audit Section Leader to the IADT Head as shown in the following chart:

Profile of the Head of Internal Audit

Aloysius Ary Satrio has been appointed Head of Internal Audit effective October 1, 2020. His profile is described in the "Profile of an Executive Officer" section of the Company Profile chapter of this Annual Report.

Number of Auditors

As of December 31, 2023, the IADT is supported by resources, most of which are risk management certified, as follows:

No	Risk Management Certification	Total Employees	Description
1	Level 1	25	Auditor/Specialist
2	Level 2	2	Auditor
3	Level 3	4	Head of Audit Department/ Team Leader
4	Level 4	2	IADT Head/Team Leader
5.	Not Yet	7	Auditor/Specialist/IADT Secretary
	Total	40	

Independence of Internal Audit

The Charter of the Internal Audit Unit requires each member of the Internal Audit Unit to meet independence requirements. The independence of each member of the Internal Audit Unit can be measured by the following requirements:

- Freedom to determine the method, scope, methods, techniques, and approach of the audit to be performed and to report the results;
- Able to express opinions and thoughts without influence or pressure from any party;
- Free from any conflict of interest with respect to the subject matter or activity being audited; if the Internal Auditor has a conflict of interest, the individual is required to disclose the relationship so that he or she is not assigned to perform audit activities on the subject matter or activity in question;
- Perform no operational activities outside of the internal audit function.

Training During the Fiscal Year

Regular and continuous improvement of the quality of human resources skills will be carried out by the Internal Audit Unit through the inclusion of seminar and training programs during 2023 consisting of:

Name of Training/ Seminar/Workshop	Total Employees
New Employee Induction Program (NEIP) 2023 Training	2

Implementation of the activities of the Internal Audit Unit

The Internal Audit Unit has performed its duties and responsibilities throughout the year 2023. The work program and work implementation of the Internal Audit Unit for this year are as follows:

- 1. Conducted operational and business audits of 74 Regional Offices/Branches/Sub-Branches.
- 2. Conducted audits of 28 departments, thematic audits, and mandatory regulatory audits at the Non-Operational Head Office (KPNO).
- 3. Conducted Mega Oto Joint Financing (MOJF) audits at 6 partner offices.

- 4. Conducted APU PPT audits, risk management, antifraud, and consumer services and protection for 3 branches/sub-branches.
- 5. Conducted Information System Technology (TSI) Audits of 9 Mandatory Regulators, 2 Mandatory Information Technology Service Providers (PJTI) and 8 Applications.
- 6. Monitored audit findings for all auditees.
- 7. Monitored the implementation of internal audits for 10 financial services institutions (LJK) in the Mega Corpora group.
- 8. Acted as counterpart of Bank Indonesia/Financial Services Authority.

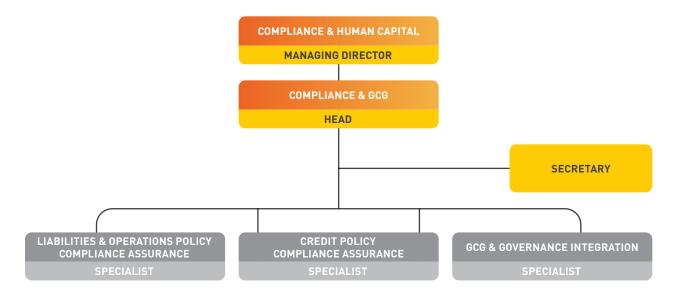

Compliance Function

Pursuant to POJK No. 46/POJK.03/2017 on the Implementation of the Compliance Function of Commercial Banks, the Compliance Function is a set of preventive (prior) measures or steps to ensure that the policies, regulations, systems and procedures, as well as the business activities conducted by the Bank, are in accordance with the provisions of the Financial Services Authority and statutory regulations, including the Shariah rules for Shariah commercial banks and Shariah business entities, as well as to ensure compliance with the commitments made by the Bank to the Financial Services Authority and/or other competent supervisory authorities.

The Compliance function plays an important role in strengthening the Bank's structure against risks that may arise from advances in information technology, globalization and financial market integration. The Compliance function also ensures compliance with various laws and regulations, as well as commitments to competent authorities.

Compliance Structure

Bank Mega has a director in charge of the compliance function (Director of Compliance & Human Capital) and a compliance work unit (Compliance & GCG) that is independent from the operational work unit. The organization chart of the Compliance & Human Capital Directorate is based on No.099/DIRBM/23 tanggal 31 July 2023 and is effective from 1 August 2023.

In performing the Compliance function, the Compliance Director, together with the Compliance Work Unit, has prepared the following Compliance Report:

- 1. Report to OJK:
 - a. Semester I 2023 Compliance Report via Letter No. 044/DIR-CHC/2023 dated July 26, 2023.
 - b. Semester II 2023 Compliance Report via Letter No.002/DIR-CHC/2024 dated January 22, 2024.
- 2. Report to the President Director (copy to the Board of Commissioners)
 - a. First Quarter 2023 Compliance Report via Service Memo No. MD.018/DIR-CHC/23 dated May 2,
 - b. Third Quarter 2023 Compliance Report via Service Memo No.MD.046/DIR-CHC/23 dated October 24, 2023.

Compliance Framework

- 1. Take steps to support the creation of a culture of compliance in all of the Bank's business activities at all levels of the organization.
- 2. Identify, measure, monitor and control compliance risks by referring to the applicable regulations of the Financial Services Authority (POJK) (in coordination with SKMR).
- 3. Ensure that the Bank's policies and procedures and business activities are in compliance with the provisions of the Financial Services Authority (OJK), Bank Indonesia (BI) and applicable laws and regulations.
- 4. Review and/or recommend updating and improving the policies and procedures that the Bank has issued and/ or will issue so that they comply with the provisions of the Financial Services Authority (OJK), Bank Indonesia (BI) and applicable laws and regulations.
- 5. Ensure that the Bank complies with the commitments made by the Bank to the Financial Services Authority (OJK) / Bank Indonesia (BI) and/or other competent regulatory authorities.
- 6. Conduct socialization on matters related to the Compliance Function and applicable policies and procedures.
- 7. Serve as a point of contact for internal and external parties on compliance issues related to the Bank.
- 8. Create a compliance checklist for plans to issue new products, synergistic cooperation within a Bank Business Group (KUB) and the Mega Corpora Financial Conglomeration.
- 9. Coordinate the preparation of reports related to compliance functions in accordance with the applicable regulations of the Financial Services Authority (OJK), such as:
 - a. Compliance report as required by applicable Financial Services Authority (OJK) regulations.
 - Compliance work plan included in the Bank's business plan.

c. Special report (if there is a significant deviation from the provisions of the Financial Services Authority (OJK)/Bank Indonesia and/or applicable laws and regulations) to the Financial Services Authority (OJK).

Implementation of the Compliance Function

The Compliance Function has performed its duties and responsibilities throughout 2023. The work program and work implementation of the Compliance Function for this year are as follows:

- 1. Review of Draft Policy
 - a. Review draft operational, credit, product and other internal policies.
 - b. Review draft policies related to the implementation of compliance and governance functions.
- 2. Oversee lending
 - a. Review proposals for credit applications with certain limits and proposals for cooperation in the distribution of credit (joint financing, etc.).
 - b. Monitoring credit quality.
 - c. Monitoring the achievement of the macroprudential ratio for inclusive financing (RPIM) and lending to productive enterprises.
- 3. Implementation of Compliance Socialization In an effort to increase employee awareness of compliance risks and to promote and realize the implementation of a compliance culture at all levels of the Bank's organization and business activities. The Bank, in this case CGCG, has implemented the following steps:
 - a. a. The direct socialization that has been carried out is as follows:
 - Becoming a facilitator in training programs such as training for new employees (New Employee Induction Program) as well as employees who participate in career development programs (Development Programs) such as Mega Management Development Program (MMDP) and Operation Supervisor Development Program (OSDP). In 2023, there will also be another training program, namely Basic Banking For IT.
 - ii. Organize socialization/training on improving the implementation of Compliance and Governance Culture for Regional Office and Branch Office officials with discussion materials: Function of Compliance and Governance, Anti-Fraud Strategy, Implementation of APU PPT & PPSPM and Operations.
 - b. Indirect socialization is done in the following ways:
 - i. Through Bank Mega's internal website accessible to all employees.

- ii. Preparation of Service Memos to all work units and branches/sub branches regarding internal and external regulations, which are published every month. During 2023, 12 such service memos were prepared.
- iii. Prepare a reminder service memo to the work unit regarding the implementation of a provision that requires a review of internal provisions and/or the preparation of an action plan for its implementation. In 2023, 44 reminder service memos were issued.
- 4. Prudential Supervision
 - Monitoring compliance with OJK and BI regulations and implementation of the Bank's prudential principles in fulfilling capital, liquidity, lending limits, asset/credit quality, GWM and foreign exchange management requirements.
- 5. Development of the Bank's Operational Activities Based on the analysis of the Internal Audit Findings Report in the areas of Operations, Funding, and Credit for 2023, 39 coaching service memos were prepared for the heads of work units at Headquarters, Regional Offices, and Branch Offices to improve the supervision and coaching function.
 - Guidance through service memos is an effort to reduce repeat audit findings (same findings in multiple offices) and high risk, which is expected to improve a culture of compliance where all work unit leaders at headquarters, regional, and branch offices are expected to:

- a. Ensure that each operational/financial/credit activity is in compliance with applicable policies and procedures and the limits of authority granted.
- b. Ensure the implementation of dual control (check & balance) in various operational / financing / credit activities and is guided by the Bank's prudential principles.
- c. Ensure that each employee has performed his/her duties and responsibilities in accordance with his/ her job description.
- d. Enhance employee knowledge through ongoing discussion of policies and procedures and foster a culture of compliance and risk awareness.
- e. Provide suggestions/input for improvements to policies and procedures that are no longer appropriate/relevant to operational/financial/credit conditions, taking into account risks and prioritizing the Bank's prudential principles.
- f. Verification of the completeness of the documents of the Synergy Cooperation Agreement concluded by Bank Mega with the Banks of the Bank Business Group.

Internal Control System

The Internal Control System (ICS) is an important component of bank management and is the basis for sound and safe bank operations. An effective internal control system can assist management in safeguarding the Bank's assets, ensure the availability of reliable financial and management reporting, enhance compliance with applicable laws and regulations, and reduce the risk of losses, irregularities, and violations of regulatory requirements.

Basis for Determination

The basis for determination of Bank Mega's SPI is based on OJK Circular Letter No. 35/SEOJK.03/2017 on guidelines for internal control standards for commercial banks. By implementing the SPI, it is hoped that the Bank will be able to support the achievement of its Vision and Mission and increase value for various stakeholders, while complying with various applicable laws and regulations and minimizing the risk of loss.

It is the shared responsibility of all management and employees of the Bank to implement risk management and internal control systems. Risk awareness continues to be instilled at all levels of the organization. Bank Mega periodically reviews the adequacy of segregation of duties, dual control/dual custody, policies and procedures for implementing the internal control system to provide reasonable assurance.

Compliance with the implementation of the internal control system with COSO (Internal Control Framework)

Bank Mega follows the COSO (Committee of the Sponsoring Organizations of the Treadway Commission) Internal Control Integrated Framework to ensure the adequacy of operational and financial controls, financial reporting, operational effectiveness and efficiency, and compliance with applicable laws and regulations. In this case, internal control is a system or process that is also used by a company's board of directors, management, and employees to achieve control objectives.

Financial and Operational Control

Bank Mega implements an internal control system that consists of two important aspects, namely Operational Control and Financial Control. The internal control over the Bank's operations and financial reporting is carried out with reference to the international reference COSO -Internal Control Integrated Framework, which includes 5 (five) control components, namely:

- 1. Control environment
- 2. Risk assessment
- 3. Control Activities
- 4. Information and communication; and
- 5. Monitoring activities.

In addition, Bank Mega has an internal inspection and control policy through operational control. The purpose of this policy is to:

Establish procedures for inspection and internal control by Branch Operations Control, Unit Headquarters & Jakarta Operations Control and Unit Operations

- Development & Support within the Process Management & Operations Control (PMOC) Work Unit to perform monitoring activities to be more focused, structured, effective and efficient.
- Become a reference for related work units (Internal Audit and other) in implementing the internal control scheme.

In practice, Operations Control is linked to the Defense Line Work Unit in order to implement a good internal control system. The Operations Control Work Unit works with the Controlling Work Unit through the Three Lines of Defense (TLD) concept. The first line is operational defense, the second line is risk management, and the third line is IADT.

The role of Operations Control in the TLD concept is to act as an independent assessor of the First Line (Operational Implementation Work Unit) by providing reasonable assurance regarding the implementation of controls and operational risk management.

Findings that indicate fraud by the Process Management & Operations Control Work Unit are communicated to the Fraud Control Work Unit. If the findings are proven to be fraud, the resolution process is carried out by the Fraud Control unit.

Evaluation of the Effectiveness of the Internal Control **System**

Bank Mega is implementing an internal control system in accordance with the Internal Control Integrated Framework issued by COSO. Control activities are initially planned and implemented to control risks that could affect the Bank's performance or result in losses. Issues related to the adequacy of internal control are reported to the Board of Directors, the Board of Commissioners and the Audit Committee, and follow-up actions are taken to minimize risks.

Implementation of Other Corporate Governance

•

Implementation of Anti-Money Laundering and Counter-Terrorism Financing/Financing of Proliferation of Weapons of Mass Destruction (APU PPT/PPSPM)

The implementation of the APU PPT/PPSPM program is an obligation for all parties, especially for banks. As financial service providers, banks are required or obligated to mitigate the risk of being used by perpetrators of the crimes of money laundering (TPPU) and terrorism financing/proliferation financing (TPPT/PPSPM). Therefore, the commitment of all parties is required to support the regime for the eradication of money laundering and terrorist financing/proliferation financing.

Bank Mega, as one of the national private banks with a wide network in the territory of the Republic of Indonesia (Unitary State of the Republic of Indonesia), has a high potential risk of being used as a means for money laundering and terrorism financing crimes/proliferation of weapons of mass destruction. Therefore, Bank Mega has attempted to prevent and mitigate risks through the implementation of the APU PPT/PPSPM program with a risk-based approach/RBA.

APU Program Implementation Policies and PPT/PPSPM Procedures

Pursuant to OJK Regulation (POJK) No. 12/POJK.01/2017, as amended by POJK No. 23/POJK.01/2019, on the Implementation of the APU PPT Program in the Financial Services Sector, Bank Mega has a policy and procedure for the implementation of the APU PPT/PPSPM Program that is consistent with and in accordance with the relevant OJK Regulations, which includes, among other things:

- Implementation of the pillars of the APU PPT/ PPSPM Program.
- Customer Due Diligence (CDD) and/or Enhanced Due Diligence (EDD) procedures for Prospective Customers/ Customers/Beneficial Owner (BO)/Walk In Customer (WIC).
- 3. Mandatory screening procedures.
- 4. Procedures for monitoring customer profiles, monitoring customer transactions and monitoring Walk In Customers (WIC).
- 5. Procedures for customer data update programs.

- 6. Procedures for rejecting account openings, rejecting transactions, and closing accounts.
- 7. Procedures for performing APU PPT/PPSPM risk assessment.
- 8. Fund transfer procedures.
- 9. Cross-Border Correspondent Banking (CBCB) procedures.
- Procedures for implementation of LTKT, LTKL, LTKM/ LTKMP reporting.
- 11. Procedures for reporting the implementation of the APU PPT/PPSPM program to management.

Socialization of the Implementation of the APU Program and Prevention of Terrorist Financing

Bak Mega is playing an active role in the socialization of the implementation of the APU program and the prevention of terrorism financing to the public. The Bank urges the public to be cautious and understand that they can become passive actors by receiving or controlling the placement, transfer, payment, grant, donation, custody and exchange of criminal funds without informing the authorities.

The public can play an active role by avoiding entrusting financial transactions; protecting personal identity from being misused for transactions by irresponsible parties; supporting and following the basic process of recognizing service users carried out by financial service institutions in a cooperative manner; providing information to the PPATK if they are aware of any actions that indicate money laundering, financing of terrorism and financing of proliferation of weapons of mass destruction; and confirming and more closely examining fundraising activities.

Bank Mega has also made this socialization in the form of a video that can be accessed through the bank's website, namely https://bankmega.com/id/tangan-kami/tata-kelola-usaha-new/ or through the YouTube link: https://www.youtube.com/watch?v=TQlyC3wBRNk.

APU, PPT and PPPSPM Programs in 2023

A risk-based APU, PPT and PPPSPM work program has been implemented to support the implementation of the provisions of the APU, PPT and PPPSPM program at Bank Mega, which is outlined in the following points:

- 1. Conduct a risk assessment for TPPU and TPPT/ PPSPM in the branch operational network using a risk-based approach by assessing inherent risk and control effectiveness.
- 2. Prepare and/or make adjustments to internal regulations related to the implementation of the APU, PPT and PPPSPM programs in accordance with applicable external regulations.
- 3. Provide opinions, assistance and discussions to business units regarding the implementation of the APU, PPT and PPPSPM programs.
- 4. Provide regular support to all branches by distributing data lists containing data to be followed up and/or corrected (data up-dating).
- 5. Periodically conduct a data updating program in accordance with applicable regulations, and to require banks to annually report to the OJK the target and implementation of customer data updating.
- 6. In order to comply with the screening obligations, the Bank has 8 (eight) types of data sources, namely
 - a. List of Suspected Terrorists and Terrorist Organizations and Proliferation Financiers of Weapons of Mass Destruction.
 - b. List of Politically Exposed Persons (PEPs) and PEP Associates.
 - c. List of online gambling operators.
 - d. List of unlicensed online lenders (Illegal Pinjol).
 - e. List of names issued by the Authority in connection with the prohibition on providing banking facilities.
 - f. OFAC (Office of Foreign Assets Control) List.
 - g. UN (United Nations) List.
 - h. EU Sanctions Lists. In addition to being performed upon the acceptance of new customers, the screening obligation will be

performed periodically in accordance with the customer data update schedule.

- 7. Implementation of APU, PPT and PPPSPM program training for new employees through onboarding training activities, and also monitoring the achievement of participation in the 2023 version of e-learning for employees who are on the list of those required to participate in the respective e-learning.
- 8. Create an AML forum with various discussion topics presented in the form of questions and answers (Q&A) to facilitate the industry's understanding of the implementation of the provisions of the APU, PPT and PPPSPM programs.
- 9. Increase the competency and awareness of all levels of Bank Mega's employees, especially AMLA Division employees, regarding the implementation of the APU,

- PPT, and PPPSPM programs through certification, refresher, outreach, and training.
- 10. Improve the quality of submission of Suspicious Financial Transaction Reports (LTKM), Cash Financial Transaction Reports (LTKT), Financial Transaction Reports on Transfers of Funds to and from Overseas (LTKL), and Integrated Service User Information System (SIPESAT) in accordance with regulatory requirements.
- 11. Improve the applications supporting the implementation of APU, PPT and PPPSPM programs, including the development of internal applications to be used to support reporting obligations according to PPATK goAML requirements.
- 12. Establish and maintain good relations, cooperation and coordination with regulators and law enforcement agencies, particularly in fulfilling customer data and/ or information requests.
- 13. Play an active role in work programs or activities organized by the regulator to which the activities in question relate:
 - a. Implementation of FIR on ML/TF (Financial Integrity Rating on Money Laundering & Terrorism Financing) PPATK
 - The FIR on ML/TF is an assessment through the completion of a questionnaire, as evidenced by the relevant attachments, followed by an in-depth interview. The measurements are based on qualitative and quantitative data related to the assessment of the reporting party's integrity in supporting the effectiveness of the implementation of the APU, PPT and PPPSPM programs.
 - b. Implementation of the Survey and Assessment of the PPATK Performance Effectiveness Index in Efforts to Prevent and Eradicate Money Laundering (TPPU) and Terrorist Financing (TPPT) Crimes in the Banking Sector in 2023
 - The Index is intended as a periodic monitoring and evaluation tool of the performance of the PPATK in the previous 1 (one) year through a national survey targeting stakeholders of the APU PPT (Anti-Money Laundering and Prevention of Terrorism Financing) Regime who have cooperated with or received PPATK products/outputs.

The survey was conducted simultaneously across the country using web/online data collection applications with the assistance of independent surveyors with extensive experience and expertise. The survey was conducted from July 26 to August 11, 2023.

- c. Commemoration of the 2nd Decade of the National APU PPT Movement
 - Bank Mega's participation in supporting this commemoration includes
 - Socialization support in the form of making standing banners for 20 years of APU PPT Movement to be placed in all regional offices;
 - ii. Publicity support in the form of a 20 Years of APU PPT Movement flyer that was published on Bank Mega WEB; and
 - iii. echnical support in the form of planting trees for 20 years of APU PPT Movement. The tree planting was conducted together with 9 other banks under the coordination of FKDKP (Banking Compliance Director Communication Forum) in Ngargoretno Village, Magelang Regency, Central Java. Bank Mega will participate in planting 100 bamboo trees every year for 5 consecutive years.

Challenges in Implementing the 2024 APU, PPT and PPPSPM Program Provisions

With the increasingly rapid development of digital technology supported by the digitalization era, financial service users have the freedom to conduct transactions anywhere and anytime. These conditions will undoubtedly pose great and diverse challenges to the effective implementation of the provisions of the APU, PPT and PPSPM programs. In order to minimize these challenges, Bank Mega anticipates the obligation to have a reliable support system for the implementation of APU, PPT and PPPSPM programs and the support of qualified human resources (HR) both in terms of competence and sufficient number.

Apart from the things that need to be fulfilled internally by Bank Mega, the support of relevant government institutions/ agencies/authorities to support the effectiveness of the client onboarding process in the financial services sector obviously plays an important role in supporting the implementation of the APU, PPT and PPPSPM programs as a whole.

Insider Trading Prevention Policy

The policy for the prevention of insider trading is explained in the Integrity Commitment Guide signed by the Board of Commissioners and Directors of Bank Mega. In this policy, it is specified that insider trading is a trading transaction that is carried out for personal gain or for internal parties of the Bank on the basis of information that is not within their rights. This action is prohibited for directors as stated in Section F, Prohibited Actions of Directors, No. 9, which explains the attitudes and conduct prohibited for the Board of Directors is to take personal profit from

corporate activities other than the salary and allowances received from the corporation, including insider trading.

Insider trading is also prohibited for employees as explained in Point G No. 14. The attitudes and behaviors that are prohibited for employees include taking personal advantage of Company activities other than the salary and benefits received from the Company, including insider trading.

Anti-Corruption and/or Fraud Policy

The anti-corruption and/or anti-fraud policy is also explained in the Integrity Commitment Guide signed by the Board of Commissioners and Directors of Bank Mega. In this Integrity Commitment Guide it is stated that: Corruption is an act committed fraudulently or against the law by members of the Board of Directors, members of the Board of Commissioners, Bank Management, managers or employees of the Bank, which is contrary to the interests of the Bank, or the abuse of the authority of the position/ trust given to them with the aim of enriching themselves or other people or certain groups.

Meanwhile, Fraud is an act of deviation or omission that is deliberately carried out to deceive, mislead or manipulate the Bank, Customers or other parties, which occurs within the Bank and/or using the Bank's facilities, thereby causing the Bank, Customers or other parties to suffer losses. and/ or the perpetrator of the Fraud obtains financial benefits, either directly or indirectly.

Fighting corruption and/or fraud is one of Bank Mega's main concerns, so it is the 3rd Commitment of Bank Mega's Management and Employees, which states that Bank Mega's Management and Employees are obliged to create a working environment that is free from corruption, bribery and/or fraud related to the position or position in Bank Mega's organizational structure.

In addition, the Integrity Commitment Guide also sets forth the obligations of the Board of Commissioners (item 15), the obligations of the Board of Directors (item 15), and the obligations of employees (item 19) to avoid conflicts of interest in performing their duties and creating a work environment free from acts of corruption and/or fraud.

Operational Policy for the Protection of Consumer Assets, Privacy and Data within the Framework of the Protection of Consumers and Public

Consumer and Community Protection is an effort to provide knowledge and understanding of the Bank's products and/ or services that are used or exploited by Consumers and/ or the Community, and an effort to provide legal certainty to protect Consumers in the fulfillment of Consumer rights and obligations at the Bank. To maintain the confidentiality and security of consumer data and/or information, banks are required to:

- Establish functions responsible for protecting Consumer Data and/or Information
- Reliable information system to support the implementation of consumer data and/or information protection
- Mechanisms and procedures for protecting consumer data and/or information.

Banks are also prohibited from:

- Disclosing personal data and/or information about consumers to third parties;
- Requiring consumers to agree to share personal data and/or information as a condition of using products and/or services;
- Using for commercial purposes personal data and/or information of consumers who have terminated their agreement with the bank's products and/or services;

- Using personal data and/or information of potential consumers whose application to use products and/or services has been rejected by the Bank; and/or
- Use of personal data and/or information of potential consumers who apply to use products and/or services.

The Bank is required to conduct self-assessments of the provisions, implementation and evaluation related to protection against misuse of assets, privacy and consumer data, as regulated by the self-assessment prescribed by the OJK. The business unit responsible for the provisions, implementation, and evaluation related to protection against misuse of assets, privacy, and consumer information is the business unit that handles the credit card support business; business financing; business credit support; treasury and financial institution business; capital market business; IT infrastructure; and provisioning.

2023 Service Report and Handling of Customer Complaints

Whistleblowing System

System as a form of implementation of the principles of good corporate governance. This system is implemented to create awareness among employees and other stakeholders to disclose possible violations without fear in order to create a clean, safe and transparent business environment.

Whistleblowing System Mechanism

Based on the provisions written in the SK No. 084/ DIRBM/2022 on the implementation of the anti-fraud

strategy, the reporter (whistleblower) can submit complaints/ information through the Whistleblowing System, which can be accessed through the following media:

• Whistleblowing System application, which can be accessed through Bank Mega's Intranet (Megaweb), namely megaweb.bankmega.local and Bank Mega's website, namely www.bankmega.com.

- **Email**, which can be sent to fbi@bankmega.com or to any of the Banking Fraud staff email addresses.
- Telephone, which can be reached on the landline number +62 21-791500 ex. 15.112, 15.212 dan 15.215.
 Telephone Number/SMS/Whatts App (WA): 0822-0822-0500 dan 0822-0822-1999.
- Verbally, which can be delivered/delivered to the address: Crime & Fraud Investigation (CFIN) Work Unit, Menara Bank Mega Lt. 15 Jl. Captain Tendean Kav 12-14A Jakarta 12790.

This is regulated by Decree No. 084/DIRBM/2022 on the Implementation of Anti-Fraud Strategies to Facilitate Complaints of Fraud Incidents, to Encourage/Awareness of Bank Employees and Officials to Report Fraud Incidents. The Crime and Fraud Investigation (CFIN) department is responsible for the implementation of the whistleblower system.

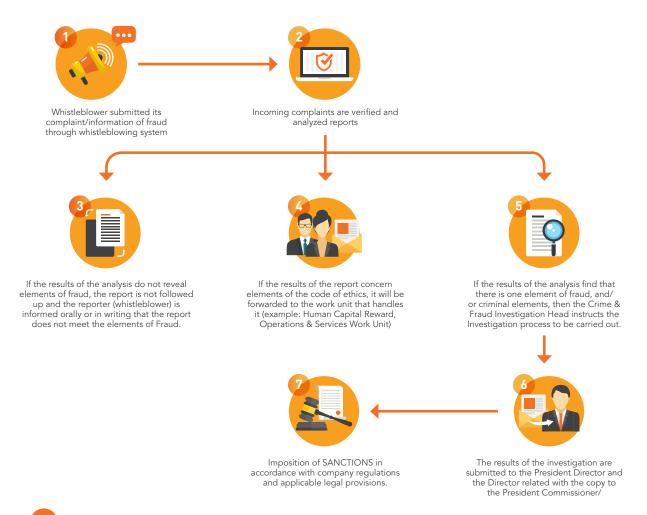

Whistleblower Protection

In order to increase the effectiveness of the whistleblower, the reporter may submit a request for protection to the CFIN Work Unit in the event of pressure and threats from related parties, with the following steps

- The CFIN Work Unit submits a request to the Board of Directors to provide guaranteed protection to the whistleblower (who is involved in cases of fraud and causing losses to the Company). The guarantees of protection provided include:
 - a. Protection against physical and/or psychological threats from superiors or perpetrators.
 - b. Legal assistance to the whistleblower in the event of legal opposition from the whistleblower.
 - c. Disguise or conceal the reporter, unless the reporter becomes a witness and the case proceeds to trial.
- Recommending to the Board of Directors, if necessary, the transfer of the whistleblower to a place of work that is considered safer, taking into consideration various issues of safety, security and risks that may be faced by the whistleblower.
- 3. The implementation of the protection of whistleblowers will be monitored by CFIN.

The Complaint Handling Process

The complaint handling process is outlined in the following diagram:

No.	Process
1.	The reporter (whistleblower) reports the suspected violations/fraud through the available means.
2.	Incoming complaints are reviewed and the report is analyzed.
3.	If the results of the analysis do not reveal elements of fraud, the report is not followed up and the reporter (whistleblower) is informed orally or in writing that the report does not meet the elements of Fraud.
4.	If the results of the report include elements of the Code of Ethics, the report will be forwarded to the appropriate work unit. (example: Human Capital Rewards, Operations & Services).
5.	If the results of the analysis indicate that there is an element of fraud and/or a criminal element, the Crime & Fraud Investigation Leader will initiate an investigation.
6.	The results of the investigation will be reported to the President Director and appropriate Directors with a copy to the President Commissioner/Board of Commissioners.
7.	Impose SANCTIONS in accordance with Company policies and applicable laws.

Complaint Handling Party

All internal parties MUST report to CFIN if they witness, know and/or find indications of Fraud within the company, so that immediate handling and follow-up can be carried out.

All members of the CFIN Work Unit may receive all forms of reports of indications or incidents of fraud, with a view to providing convenience and the widest access to reporting parties.

All Heads of Work Units/Functional and Business Units are required to report to the CFIN Work Unit any incident or indication of fraud as soon as possible (1x24 hours).

The Crime & Fraud Investigation (CFIN) Work Unit has the authority to handle all forms of cases indicated as fraud. Reports of violations/indications of fraud received by the CFIN Work Unit are not limited to verbal or written form, but if there is other evidence in the form of recorded images, sounds, photos, videos, documents or other evidence, it will make the investigation process easier and faster.

Complaint Handling in 2023

In 2023, the number of complaints received by the whistleblowing system will be 105 case reports. From these reports, 90 cases are valid for investigation regarding fraud cases. There were 18 cases where the perpetrators were internal/bank employees, 69 cases where the perpetrators were external, and 3 cases where the perpetrators were both internal and external. The types of cases dealt with in 2023 are 46 cases of fraud, 9 cases of deception, 1 case of leakage of information, 1 case of misappropriation of assets and 33 cases of other actions. Of the 90 cases handled by the CFIN, only 1 case is still open in 2023 because it is still being investigated by the police.

If the results of the analysis do not reveal elements of fraud, the report is not followed up and the reporter (whistleblower) is informed orally or in writing that the report does not meet the elements of Fraud.

Code of Conduct

The Code of Ethics applicable to Bank Mega is included in the in the Integrity Commitment. The main points of the Integrity Commitment include, among others:

imposition of administrative sanctions is more lower compared to the previous year with a frequency of 18 (eighteen) times and a nominal fine of Rp453.80 million.

Adequacy of Transparency Financial and Non-Financial

In accordance with the applicable OJK regulations, the Bank has made financial and non-financial terms and conditions transparent to stakeholders and reported them to the Financial Services Authority.

The Bank provides transparent information about the Bank's products in accordance with the provisions on the transparency of the Bank's product information and the use of personal data of customers. Product transparency is provided in the form of brochures, leaflets and other promotional materials. It is also provided on Bank Mega's website. Similarly, with regard to customer complaints, the Bank has made the procedures for customer complaints and dispute resolution transparent, and has a customer

complaint system that can be used by customers via the Bank Mega website, call center, or through the Bank's employees.

In order to ensure transparency in the implementation of governance, Bank Mega has prepared a report on the implementation of governance, which is reported in accordance with the applicable regulations. The report includes the results of the Bank's assessment of governance implementation according to indicators set by the Financial Services Authority. The report has been submitted to the Financial Services Authority and published on Bank Mega's website. The report is part of the Bank's Annual Report.

Self-Assessment of the Implementation of Commercial Bank Governance

As a form of commitment to the implementation of commercial bank governance, Bank Mega has conducted a self-assessment on the implementation of bank governance (GCG) for the first and second semester of 2023. The self-assessment results are an integral part of the Governance Implementation Report. The self-assessment

of the implementation of the GCG is guided by the OJK Regulation No. 55/POJK.03/2016 and the OJK Circular Letter No. 13/SEOJK.03/2017 on the implementation of governance for commercial banks. Bank Mega's 2023 GCG self-assessment results are as follows:

Assessment Period	Alt Accessment Recults		Rating Definition	
Semester I - 2023	Individual	2	Reflects that the management of the bank has generally implemented good governance practices. This is reflected in an adequate level of compliance with the Governance	
Semester II - 2023	Individual	2	practices. In the event that there are weaknesses in the application of the Governance Principles. In the event that there are weaknesses in the application of the Governance Principles, these weaknesses are generally of a minor nature and can be remedied by the Bank's management through the normal course of action.

PT Bank Mega Tbk

Opini

Kami telah mengaudit laporan keuangan PT Bank Mega Tbk ("Bank") terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2023, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan ekuitas dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan PT Bank Mega Tbk tanggal 31 Desember 2023, serta kinerja keuangan dan arus kasnya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan pada laporan kami. Kami independen terhadap Bank berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opinion

We have audited the financial statements of PT Bank Mega Tbk ("the Bank"), which comprise the statement of financial position as of December 31, 2023, and the statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of PT Bank Mega Tbk as of December 31, 2023, and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements paragraph of our report. We are independent of the Bank in accordance with the ethical requirements that are relevant to our audit of the financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our opinion.

THE POWER OF BEING UNDERSTOOD ASSURANCE | TAX | CONSULTING

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut:

Kerugian Kredit Ekspektasian ("KKE") - Cadangan Kerugian Penurunan Nilai atas Kredit yang Diberikan Seperti yang dijelaskan dalam Catatan 11 (Kredit yang diberikan) atas laporan keuangan pada tanggal 31 Desember 2023, total kredit yang diberikan sebesar Rp66.292.896 juta dengan cadangan kerugian penurunan nilai sebesar Rp604.816 juta.

Cadangan kerugian penurunan nilai atas kredit yang diberikan ditentukan Bank berdasarkan kerangka kerugian kredit ekspektasian ("KKE") sesuai dengan PSAK 71: Instrumen Keuangan, seperti yang dijelaskan dalam Catatan 2.m (i) (Penurunan nilai aset keuangan) atas laporan keuangan.

Kami fokus pada area ini karena signifikansi nilai tercatat atas kredit yang diberikan, yang mewakili 50,2% dari jumlah aset Bank pada tanggal 31 Desember 2023 dan besarnya nilai cadangan kerugian penurunan nilai yang dibentuk atas kredit tersebut nilainya signifikan terhadap laporan keuangan Bank. Lebih lanjut, penentuan KKE membutuhkan pertimbangan manajemen yang subjektif dan melibatkan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

Bank menghitung KKE untuk kredit yang diberikan yang tidak memburuk dan kredit yang diberikan yang memburuk. Untuk kredit yang diberikan yang tidak memburuk dan kredit yang diberikan memburuk, yang secara individual tidak dianggap signifikan, Bank menghitung KKE secara kolektif menggunakan model KKE dengan beberapa asumsi utama, antara lain probability of default, loss given exposure at default, default. dan setelah memperhitungkan faktor masa depan dan informasi eksternal lainnya.

Untuk kredit yang memburuk, yang secara individual dianggap signifikan, Bank menghitung KKE secara individual dengan menggunakan estimasi arus kas ekspektasian dari kredit yang diberikan, yang membutuhkan pertimbangan signifikan dalam mengestimasi probabilitas rata-rata tertimbang kerugian kredit, serta estimasi waktu dan jumlah pembayaran dari kredit yang diberikan.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is outlined as follows:

Expected Credit Losses ("ECL") - Allowance for Impairment Losses of Loans

As described in Notes 11 (Loans) to the financial statements as of December 31, 2023, the total loans amounted to Rp66,292,896 million with allowance for impairment losses of loans amounted to Rp604,816 million.

The allowance for impairment losses of loans is determined by the Bank based on the Expected Credit Losses ("ECL") framework under PSAK 71: Financial Instrument, as described in Notes 2.m (i) (Impairment of financial assets) to the financial statements.

We focused on this area as the total loans represents 50.2% of the total assets of the Bank as of December 31, 2023, and the allowance for impairment losses provided against the loans were significant to the Bank's financial statements. Furthermore, determining ECL involves subjective management judgement and is subject to a high degree of estimation uncertainty.

The Bank calculated ECL for both non-impaired loans and impaired loans. For non-impaired loans and impaired loans which are not considered individually significant, the Bank assesses collective ECL using the ECL modelling approach that incorporates key assumptions, including probability of default, loss given default, and exposure at default, after considering forward-looking factors and other external information.

For impaired loans, which are considered individually significant, the Bank assesses individual ECL by estimating the expected cash flows obtained from the loans, which requires significant judgement in estimating the weighted average probability of credit losses, and the timing and amount of the repayments against the loans.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

 Kami memperoleh pemahaman atas pendekatan Bank dalam mengidentifikasi kredit yang diberikan yang mengalami peningkatan risiko kredit secara signifikan atau bukti objektif penurunan nilai, dan melakukan pengujian, berdasarkan uji petik, kesesuaian dari klasifikasi kualitas kredit yang diberikan dengan menelaah dokumen kredit dari debitur-debitur yang menjadi sampel, serta membuat penilaian independen kami apakah ada peningkatan risiko kredit secara signifikan atau terdapat bukti objektif penurunan nilai.

2. Kami menilai kecukupan cadangan kerugian penurunan nilai yang dihitung secara individual dengan menguji, berdasarkan uji petik, kecukupan cadangan kerugian penurunan nilai yang dihitung oleh manajemen, dengan mengevaluasi kesesuaian estimasi probabilitas rata-rata tertimbang kerugian kredit yang diberikan, serta estimasi waktu dan jumlah pembayaran dari kredit yang diberikan, yang diterapkan oleh Bank dalam mengestimasi arus kas ekspektasian dari kredit yang diberikan.

3. Kami menilai metodologi dan menguji asumsi permodelan signifikan yang digunakan dalam model KKE kolektif, dengan bantuan pakar kredit kami. Kami permodelan probability of default, loss given default dan exposure at default, yang mencakup (i) evaluasi prakiraan makroekonomi Indonesia dengan membandingkan prakiraan dengan informasi vang tersedia untuk umum tentang prospek makroekonomi Indonesia; dan (ii) menguji kelengkapan dan keakuratan data vang digunakan dalam model dengan data aktual yang tersedia di Bank.

 Kami melakukan perhitungan ulang dan menguji, berdasarkan uji petik, akurasi perhitungan KKE yang dinilai secara kolektif dan individual.

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas,

How our audit addresses the key audit matter

We have performed the following audit procedures to address this key audit matter:

- 1. We understood the Bank's approach over the identification of financial assets that have experienced a significant increase in credit risk or objective evidence of impairment, and tested, on a sample basis, the appropriateness of the credit quality classification by reviewing the credit files of those sampled debtors, and formed our own independent judgement as to whether there was a significant increase in credit risk or any objective evidence of impairment.
- 2. We assessed the adequacy of individual allowance for impairment losses by testing, on a sample basis, the adequacy of the allowance for impairment losses calculated by management, by evaluating the appropriateness of weighted average probability of credit losses, and the timing and amount of the repayments against the loans, which were applied by the Bank in estimating the expected cash flow obtained from the loans.
- 3. We assessed the methodologies applied and tested the significant modelling assumptions used in collective ECL models, with assistance from our credit modelling expert. We tested probability of default, loss given default and exposure at default, which included (i) evaluating the forecasts of Indonesia macroeconomics by comparing forecasts with publicly available information on the Indonesia macroeconomic outlook; and (ii) testing the completeness and accuracy of data used in the model with the actual data available within the Bank.
- We recalculated and tested, on a sample basis, the accuracy of the collective and individual ECL calculation.

Other information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes

jika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Hal lain

Laporan keuangan PT Bank Mega Tbk pada tanggal dan untuk tahun yang berakhir pada tanggal 31 Desember 2022 diaudit oleh auditor independen lain yang dalam laporannya tertanggal 27 Januari 2023 menyatakan opini tanpa modifikasian atas laporan keuangan tersebut.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan, manajemen bertanggung jawab untuk menilai kemampuan Bank dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Bank atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Bank.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi,

available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Other matters

The financial statements of PT Bank Mega Tbk as of and for the year ended December 31, 2022 were audited by other independent auditor whose report dated January 27, 2023 expressed an unmodified opinion on those financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on

tetapi bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah. pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas efektivitas pengendalian internal Bank.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi atas kelangsungan usaha manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan kemampuan Bank untuk signifikan atas mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, perlu menentukan apakah untuk harus memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness management's use of the going concern basis of accounting and, based on the audit whether evidence obtained. a uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial such disclosures statements or. opinion. Our inadequate, to modify our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

 Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

 Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine such matter that was of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. We describe the matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PT BANK MEGA TBK CATATAN ATAS LAPORAN KEUANGAN

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

1. Umum 1. General

1.a. Pendirian Bank dan Informasi Umum

PT Bank Mega Tbk didirikan di negara Republik Indonesia dengan nama PT Bank Karman berdasarkan akta pendirian No. 32 tanggal 15 April 1969 yang kemudian diubah dengan akta tanggal 26 November 1969 No. 47, kedua akta tersebut dibuat di hadapan Mr. Oe Siang Djie, notaris di Surabaya. Akta pendirian ini disahkan oleh Menteri Kehakiman Republik Indonesia dalam Surat Keputusan No. J.A 5/8/1 tanggal 16 Januari 1970 dan telah diumumkan dalam Tambahan No. 55 pada Berita Negara Republik Indonesia No. 13. Anggaran dasar Bank telah mengalami beberapa kali perubahan, perubahan terakhir dilakukan dengan Akta Notaris Dharma Akhyuzi, S.H., No. 17 tanggal 23 Maret 2022 mengenai perubahan modal ditempatkan dan disetor. Perubahan tersebut telah diterima dan dicatat oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dalam Surat AHU-AH.01.03-0195605 Keputusan No. tanggal 23 Maret 2022. Perubahan ini juga telah didaftarkan dalam Daftar Perseroan dengan No. AHU-0057461.AH.01.11.Tahun 2022 tanggal 23 Maret 2022.

Bank mulai beroperasi secara komersial sejak tahun 1969 di Surabaya. Pada tahun 1992 nama Bank berubah menjadi PT Mega Bank dan pada tanggal 17 Januari 2000 berubah menjadi PT Bank Mega Tbk.

PT Mega Corpora adalah entitas induk dari Bank. Entitas induk terakhir Bank adalah CT Corpora.

Sesuai dengan Pasal 3 anggaran dasar Bank, ruang lingkup kegiatan usaha Bank adalah menjalankan kegiatan umum perbankan. Bank memperoleh izin usaha sebagai bank umum keputusan berdasarkan Surat Menteri Keuangan Republik Indonesia No. D.15.6.5.48 tanggal 14 Agustus 1969. Pada tanggal 2 Agustus 2000, Bank memperoleh izin untuk menyelenggarakan kegiatan usaha sebagai wali amanat dari Badan Pengawas Pasar Modal - Lembaga Keuangan ("BAPEPAM-LK"). Bank juga memperoleh izin untuk menjalankan aktivitas sebagai bank devisa berdasarkan surat keputusan Deputi Gubernur Senior Bank Indonesia No. 3/1/KEP/DGS/2001 tanggal 31 Januari 2001.

1.a. Establishment of the Bank and General Information

PT Bank Mega Tbk was established in the Republic of Indonesia under the business name of PT Bank Karman based on Notarial Deed No. 32 dated April 15, 1969 which was amended by Notarial Deed No. 47 dated November 26, 1969, both deeds were effected by Mr. Oe Siang Djie, notary in Surabaya. The deed of establishment was approved by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. J.A 5/8/1 dated January 16, 1970 and was published in Supplement No. 55 to the State Gazette of the Republic of Indonesia No. 13. The articles of association have been amended several times. with the latest amendment effected by Notarial Deed No. 17 of Dharma Akhyuzi, S.H., dated March 23, 2022, regarding changes in issued and paid-up capital. The amendment has been accepted and recorded by the Minister of Law and Human Rights of the Republic of Indonesia in Decree No. AHU-AH.01.03-0195605, dated March 23, 2022. This change has also been registered in the Register of Companies with No. AHU-0057461.AH.01.11 Year 2022, dated March 23, 2022.

The Bank started its commercial operations in 1969 in Surabaya. In 1992, the Bank changed its name to PT Mega Bank and on January 17, 2000 was changed to PT Bank Mega Tbk.

PT Mega Corpora is the parent entity of the Bank. The ultimate holding entity of the Bank is CT Corpora.

According to Article 3 of the Bank's articles of association, the Bank is engaged in general banking activities. The Bank was granted with the license to conduct general banking activities based on the decision letter of the Minister of Finance of the Republic of Indonesia No. D.15.6.5.48 dated August 14, 1969. On August 2, 2000, the Bank was granted with the license to conduct custodian activities by the Capital Market and Financial Institution Supervisory Agency ("BAPEPAM-LK"). The Bank was also granted with the license to conduct foreign exchange activities based on the decision letter of Senior Deputy Governor of Bank Indonesia 3/1/KEP/DGS/2001 dated January 31, 2001.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Bank's Head Office is located at Menara Bank Mega, Jl. Kapten Tendean 12-14A, Jakarta. The Bank has the following offices (unaudited):

1.b. The Bank's Public Offerings and Increase of Share Capital

Based on the decision of Extraordinary General Meeting of Shareholders held on January 17, 2000, which was notarized under Notarial Deed No. 9 of Imas Fatimah, S.H., the Bank conducted an initial public offering of its 112,500,000 shares with par value of Rp500 (full amount) per share at offering price of Rp1,200 (full amount) per share. On March 15. 2000, in accordance with the letter from the chairman of BAPEPAM-LK No. 493/PM/2000. the Bank's Registration Statement for the initial public offering became effective and on April 17, 2000, the shares were listed and traded in the Indonesia Stock Exchange.

Based on the decision of Extraordinary General Meeting of Shareholder held on March 29, 2001, which was notarized under Notarial Deed No. 21 of Imas Fatimah, S.H., the Bank declared bonus shares of Rp69.526 by issuing 139,052,000 bonus shares at par value of Rp500 (full amount) per share which came from additional paid-in capital and declared stock dividends of Rp63,785 or 56,698,000 shares which came from retained earnings using the closing price of the Bank's shares published by the Indonesian Stock Exchange on March 28, 2001, at Rp1,125 (full amount) per share. Accordingly, the issued and fully paid-up capital of the Bank increased to Rp379,125 which represent 758,250,000 shares.

Based on the Decision of Extraordinary General Meeting of Shareholders held on May 22, 2002, which was notarized under Notarial Deed No. 33 of Imas Fatimah, S.H., the Bank offered Limited Public Offering I with Pre-emptive Rights of 181,980,000 shares at par value of Rp500 (full amount) per share at

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

181.980.000 saham dengan nilai nominal Rp500 (nilai penuh) per saham dan harga penawaran sebesar Rp1.100 (nilai penuh) per saham.

Dengan Penawaran Umum Terbatas ini, modal saham ditempatkan dan disetor penuh menjadi sebesar Rp470.115 yang terdiri dari 940.230.000 saham. Penawaran Umum Terbatas I dengan Hak Memesan Efek Terlebih Dahulu tersebut telah memperoleh pernyataan efektif dari ketua BAPEPAM-LK pada tanggal 20 Mei 2002 melalui surat No.S-1023/PM/2002.

2. Ikhtisar Kebijakan Akuntansi yang Material

Kebijakan akuntansi utama yang diterapkan dalam penyusunan laporan keuangan Bank adalah seperti dijabarkan di bawah ini:

Pernyataan Kepatuhan

Laporan keuangan Bank telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia yang meliputi Pernyataan Standar Akuntansi Keuangan (PSAK) dan Interpretasi Standar Akuntansi Keuangan (ISAK) yang diterbitkan oleh Dewan

2. Summary of Material Accounting Policies

The principal accounting policies adopted in preparing the financial statements of the Bank are set out below:

Statement of Compliance

The Bank's financial statements were prepared and presented in accordance with Indonesian Financial Accounting Standards which include the Statement of Financial Accounting Standards (PSAK) and Interpretation of Financial Accounting Standards (ISAK) issued

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Standar Akuntansi Keuangan-Ikatan Akuntan Indonesia (DSAK-IAI), serta peraturan Pasar Modal yang berlaku antara lain Peraturan Otoritas Jasa Keuangan/Badan Pengawas Pasar Modal dan Lembaga Keuangan No. VIII.G.7 (OJK/Bapepam-LK) tentang pedoman penyajian laporan keuangan, keputusan Ketua Bapepam-LK No. KEP-347/BL/2012 tentang penyajian dan pengungkapan laporan keuangan emiten atau perusahaan publik.

2.a. Dasar penyusunan laporan keuangan

Laporan keuangan disusun berdasarkan harga perolehan, kecuali untuk aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi dan seluruh instrumen derivatif yang diukur berdasarkan nilai wajar dan aset tanah dan gedung yang diukur pada nilai wajar sejak 31 Desember 2015. Laporan keuangan disusun berdasarkan prinsip akuntansi berbasis akrual, kecuali laporan arus kas.

Laporan arus kas disusun dengan menggunakan metode langsung mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan. Untuk tujuan laporan arus kas, kas dan setara kas mencakup kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada Bank Indonesia dan bank lain, Sertifikat Bank dan Sertifikat Deposito Bank Indonesia Indonesia yang jatuh tempo dalam 3 (tiga) bulan sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan untuk pinjaman serta tidak dibatasi penggunaannya.

Pos-pos dalam penghasilan komprehensif lainnya disajikan terpisah antara akun-akun yang akan direklasifikasikan ke laba rugi dan akun-akun yang tidak akan direklasifikasikan ke laba rugi.

Dalam penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia, dibutuhkan estimasi dan asumsi yang mempengaruhi:

 Nilai aset dan liabilitas dilaporkan, dan pengungkapan atas aset dan liabilitas kontinjensi pada tanggal laporan keuangan,

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Financial Accounting bv the Standard Board-Indonesian Institute of Accountant (DSAK-IAI), and regulations in the Capital Market include Regulations of Financial Sevices Authority/Capital Market and Supervisory Board and Financial Institution (OJK/Bapepam-LK) No. VIII.G.7 regarding guidelines for the presentation of financial statements, decree of Chairman of Bapepam-No. KEP-347/BL/2012 reaardina presentation and disclosure of financial statements of the issuer or public company.

2.a. Basis for preparation of the financial statements

The financial statements have been prepared under the historical cost principle except for financial assets at fair value through comprehensive income, financial assets and liabilities measured at fair value through profit and loss and all of the derivative instruments measured at fair value and land and building assets measured at fair value since December 31, 2015. The financial statements have been prepared based on accrual principle, excluding the statement of cash flows.

The statements of cash flows were prepared based on the direct method with cash flows classified into cash flows from operating, investing and financing activities. For the purpose of the statements of cash flows, cash and cash equivalents include cash, current accounts with Bank Indonesia and other banks, placements with Bank Indonesia and other banks, Certificates of Bank Indonesia and Deposits Certificates of Bank Indonesia maturing within 3 (three) months or less from the acquisition date as long as they are not being pledged as collateral for borrowing nor restricted.

The items under other comprehensive income are presented separately between items to be reclassified to profit or loss and those items not to be reclassified to profit or loss.

The preparation of financial statements in conformity with Financial Accounting Standards in Indonesia requires the use of estimates and assumptions that affect:

 The reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

• Jumlah pendapatan dan beban selama periode pelaporan.

Walaupun estimasi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan tindakan saat ini, hasil yang timbul mungkin berbeda dengan jumlah yang diestimasi semula.

Estimasi-estimasi dan asumsi-asumsi yang digunakan ditelaah secara berkesinambungan. Revisi atas estimasi akuntansi diakui pada periode dimana estimasi tersebut direvisi dan periode yang akan datang yang dipengaruhi oleh revisi estimasi tersebut.

Secara khusus, informasi mengenai hal-hal penting yang terkait dengan ketidakpastian estimasi dan pertimbangan-pertimbangan penting dalam penerapan kebijakan akuntansi yang memiliki dampak yang material terhadap jumlah yang diakui dalam laporan keuangan dijelaskan di Catatan 3.

Mata uang penyajian yang digunakan pada laporan keuangan adalah Rupiah, yang merupakan mata uang fungsional Bank.

Seluruh angka dalam laporan keuangan ini, kecuali dinyatakan lain, dibulatkan menjadi jutaan Rupiah.

Bank telah menyusun laporan keuangan dengan dasar bahwa Bank akan terus mempertahankan kelangsungan usaha.

2.b. Transaksi dan saldo dalam mata uang asing

Transaksi dalam mata uang asing dicatat dalam Rupiah berdasarkan kurs yang berlaku pada saat transaksi dilakukan. Pada tanggal pelaporan, aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam Rupiah berdasarkan kurs tengah Reuters pukul 16.00 WIB. Laba atau rugi selisih kurs yang terjadi dikreditkan atau dibebankan pada laba rugi tahun yang bersangkutan.

Kurs mata uang asing utama yang digunakan untuk menjabarkan mata uang asing ke dalam Rupiah adalah sebagai berikut (nilai penuh):

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

• The reported amounts of revenues and expenses during the reporting period.

Although these estimates are based on management's best knowledge of current events and activities, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have material effect on the amount recognized in the financial statements are described in Note 3.

The presentation currency used in the financial statements is Indonesian Rupiah, which is the functional currency of the Bank.

Figures in the financial statements are rounded to and stated in millions of Rupiah unless otherwise stated.

The Bank has prepared the financial statements on the basis that it will continue to operate as going concern.

2.b. Transactions and balances in foreign currency

Transactions in foreign currencies are recorded in Rupiah based on the rates prevailing at the transaction dates. On the reporting date, monetary assets and liabilities denominated in foreign currencies are converted into Rupiah based on the Reuters' middle rate at 16.00 Western Indonesian Time. Exchange gains or losses from foreign exchange transactions are credited or charged to the current year profit or loss.

The major exchange rates used to translate foreign currencies into Rupiah were as follows (full amount):

2.c. Informasi segmen

Segmen operasi adalah komponen dari Bank yang terlibat dalam aktivitas bisnis yang menghasilkan pendapatan dan menimbulkan beban, termasuk pendapatan dan beban yang terkait dengan transaksi dengan komponen lain Bank, dimana hasil operasinya dikaji ulang secara berkala oleh pengambil keputusan utama dalam operasional Bank untuk membuat keputusan mengenai sumber daya yang akan dialokasikan pada segmen tersebut dan menilai kinerjanya, serta tersedia informasi keuangan yang dapat dipisahkan. Hasil segmen yang dilaporkan kepada pengambil keputusan operasional Bank meliputi komponenkomponen yang dapat diatribusikan secara langsung kepada suatu segmen, komponen-komponen yang dapat dialokasikan dengan dasar yang wajar.

2.d. Transaksi dengan pihak berelasi

Dalam menjalankan usahanya, Bank melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK No. 7 tentang "Pengungkapan Pihak-pihak Berelasi".

Pihak berelasi adalah orang atau entitas yang terkait dengan entitas pelapor:

- a. Orang atau anggota keluarga dekatnya mempunyai relasi dengan entitas pelapor jika orang tersebut:
 - i. Memiliki pengendalian atau pengendalian bersama atas entitas pelapor;
 - ii. Memiliki pengaruh signifikan atas entitas pelapor; atau
 - iii. Merupakan personel manajemen kunci entitas pelapor atau entitas induk dari entitas pelapor.

2.c. Segment information

An operating segment is a component of the Bank that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Bank's other components, whose operating results are reviewed regularly by the Bank's chief operating decision maker to make decision about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the Bank's chief operating decision maker include items directly attributable to a segment. as well as those that can be allocated on a reasonable basis.

2.d. Transactions with related parties

In the normal course of its business, the Bank enters into transactions with related parties which are defined under PSAK 7 regarding "Related Party Disclosures".

A related party is a person or an entity that is related to the reporting entity:

- a. A person or a close member of that person's family is related to a reporting entity if that person:
 - i. Has control or joint control over the reporting entity;
 - ii. Has significant influence over the reporting entity; or
 - iii. Is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- b. Suatu entitas berelasi dengan entitas pelapor jika memenuhi salah satu hal berikut:
 - Entitas dan entitas pelapor adalah anggota dari kelompok usaha yang sama (artinya entitas induk, entitas anak, dan sesama entitas anak saling berelasi dengan entitas anak lainnya);
 - ii. Satu entitas adalah entitas asosiasi atau ventura bersama dari entitas lain (atau entitas asosiasi atau ventura bersama yang merupakan anggota suatu kelompok usaha, dimana entitas lain tersebut adalah anggotanya);
 - iii. Kedua entitas tersebut adalah ventura bersama dari pihak ketiga yang sama;
 - iv. Satu entitas adalah ventura bersama dari entitas ketiga dan entitas yang lain adalah entitas asosiasi dari entitas ketiga;
 - v. Entitas tersebut adalah suatu program imbalan pascakerja untuk imbalan kerja dari salah satu entitas pelapor atau entitas yang terkait dengan entitas pelapor. Jika entitas pelapor adalah entitas yang menyelenggarakan program tersebut, maka entitas sponsor juga berelasi dengan entitas pelapor;
 - vi. Entitas yang dikendalikan atau dikendalikan bersama oleh orang yang diidentifikasi dalam huruf (a);
 - vii. Orang yang diidentifikasi dalam huruf (a) (i) memiliki pengaruh signifikan atas entitas atau merupakan personil manajemen kunci entitas (atau entitas induk dari entitas); atau
 - viii. Entitas atau anggota dari kelompok di mana entitas merupakan bagian dari kelompok tersebut, menyediakan jasa personil manajemen kunci kepada entitas pelapor atau kepada entitas induk dari entitas pelapor.

Transaksi dengan pihak berelasi dilakukan berdasarkan persyaratan yang disetujui oleh kedua belah pihak, dimana persyaratan tersebut mungkin tidak sama dengan transaksi lain yang dilakukan dengan pihak-pihak yang tidak berelasi. Seluruh transaksi dan saldo yang material dengan pihak-pihak berelasi diungkapkan dalam catatan atas laporan keuangan yang relevan dan rinciannya telah disajikan dalam Catatan 39 atas laporan keuangan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- b. An entity is related to the reporting entity if any of the following conditions applies:
 - The entity and the reporting entity are members of the same group (which means that each parent, subsidiary, and fellow subsidiaries are related to each others);
 - ii. One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - iii. Both entities are joint ventures of the same third party;
 - iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - v. The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity, or an entity related to the reporting entity. If the reporting entity in itself such a plan, the sponsoring employers are also related to the reporting entity;
 - vi. The entity is controlled or jointly controlled by a person identified in (a);
 - vii. A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or a parent of the entity); or
 - viii. The entity or any members of a group of which it is a part, provides key management personnel service to the reporting entity or to the parent of the reporting entity.

Transactions with related parties are made on terms agreed by both parties, where such requirements may not be the same as other transactions undertaken with third parties. Material transactions and balances with related parties are disclosed in the notes to the financial statements and the relevant details have been presented in Note 39 of the financial statements.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

i. Klasifikasi

Bank mengklasifikasikan aset keuangannya berdasarkan kategori sebagai berikut pada saat pengakuan awal:

- Aset keuangan yang diukur pada nilai wajar melalui laba rugi;
- Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain:
- Aset keuangan yang diukur pada biaya perolehan diamortisasi.

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut:

- aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual; dan
- persyaratan kontraktual dari aset keuangan tersebut memberikan hak

i. Classification

The Bank classifies its financial assets according to the following categories at initial recognition:

- Financial assets measured at fair value through profit or loss;
- Financial assets measured at fair value through other comprehensive income;
- Financial assets measured at amortized cost.

Financial assets are measured at amortized cost if they meet the following conditions:

- financial assets are managed in a business model that aims to have financial assets in order to collect contractual cash flow; and
- the contractual terms of the financial asset provide rights on a certain date

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Persyaratan kontraktual dari aset keuangan tersebut memenuhi kriteria SPPI.

Pada saat pengakuan awal, Bank dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai aset keuangan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

pengakuan awal Bank membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch").

Penilaian model bisnis

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

 Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci Bank;

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

for cash flow obtained solely from payment of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are measured at fair value through other comprehensive income if they meet the following conditions:

- Financial assets are managed in a business model that aims to collect contractual cash flow and sell financial assets: and
- The contractual requirements of the financial assets meet the SPPI criteria.

At initial recognition, the Bank may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

At initial recognition, the Bank can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost or fair value through other comprehensive income at fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as "accounting mismatch").

Evaluation of business models

The business model is determined at a level that reflects how Bank's financial assets are managed together to achieve certain business objectives.

The evaluation of the business model is carried out by considering, but not limited to, the following:

 How the performance of the business model and financial assets held in the business model are evaluated and reported to the Bank's key management personnel;

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- Apakah risiko yang memengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

Aset keuangan yang dimiliki untuk diperdagangkan atau dikelola dan penilaian kinerjanya berdasarkan nilai wajar diukur pada nilai wajar melalui laba rugi.

Derivatif juga dikategorikan dalam kelompok ini, kecuali derivatif yang ditetapkan sebagai instrumen lindung nilai efektif.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Untuk tujuan penilaian ini, pokok didefinisikan sebagai nilai wajar dari aset keuangan pada saat pengakuan awal. Bunga didefinisikan sebagai imbalan untuk nilai waktu atas uang dan risiko kredit terkait jumlah pokok terutang pada periode waktu tertentu dan juga risiko dan biaya peminjaman standar, dan juga marjin laba.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga dilakukan dengan mempertimbangkan persyaratan kontraktual, apakah termasuk aset mengandung persyaratan keuangan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual. Dalam melakukan penilaian, Bank mempertimbangkan:

- Peristiwa kontinjensi yang akan mengubah waktu atau jumlah arus kas kontraktual;
- Fitur leverage;
- Persyaratan pembayaran dimuka dan perpanjangan kontraktual;
- Persyaratan mengenai klaim yang terbatas atas arus kas yang berasal dari aset spesifik; dan
- Fitur yang dapat mengubah nilai waktu dari elemen uang.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- How to evaluate the performance of managers of financial assets (for example, whether performance appraisals are based on the fair value of the assets being managed or the contractual cash flows obtained).

Financial assets held for trading or managed and which performance appraisals based on fair value are measured at fair value through profit or loss

Derivatives are also categorized under this classification unless they are designated as effective hedging instruments.

Evaluation of contractual cash flows obtained solely from payment of principal and interest

For the purpose of this valuation, principal is defined as the fair value of financial assets at initial recognition. Interest is defined as compensation for the time value of money and credit risk in relation to the principal amount owed over a certain period of time and also the risk and standard borrowing costs, as well as profit margins.

An assessment of contractual cashflows obtained solely from principal and interest payments is made by considering contractual terms, including whether financial assets contain contractual terms that can change the timing or amount of contractual cash flows. In assessing, the Bank considers:

- Contingency events that will change the timing or amount of contractual cash flow:
- Leverage feature;
- Terms of advance payment and contractual extension:
- Requirements regarding limited claims for cash flows from specific assets; and
- Features that can change the time value of the money element.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Liabilitas keuangan diklasifikasikan dalam kategori sebagai berikut pada saat pengakuan awal:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;
- Liabilitas keuangan lain. Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

ii. Pengakuan

Bank pada awalnya mengakui aset dan liabilitas keuangan pada tanggal perolehan. Pembelian dan penjualan aset keuangan yang lazim (reguler) diakui pada tanggal perdagangan dimana Bank memiliki komitmen untuk membeli atau menjual aset tersebut. Semua aset dan liabilitas keuangan lainnya pada awalnya diakui pada tanggal perdagangan dimana Bank menjadi suatu pihak dalam ketentuan kontraktual instrumen tersebut.

Pada saat pengakuan awal, aset atau liabilitas keuangan diukur pada nilai wajar ditambah (untuk item yang tidak diukur pada nilai wajar melalui laba rugi setelah pengakuan awal) biaya transaksi yang dapat diatribusikan secara langsung atas perolehan aset keuangan atau penerbitan liabilitas keuangan. Pengukuran aset dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasi aset keuangan dan liabilitas keuangan tersebut.

Biaya transaksi hanya meliputi biaya-biaya yang dapat diatribusikan secara langsung untuk perolehan suatu aset keuangan atau penerbitan suatu liabilitas keuangan dan merupakan biaya tambahan yang tidak akan terjadi apabila instrumen keuangan tersebut tidak diperoleh atau diterbitkan. Untuk aset keuangan, biaya transaksi ditambahkan pada jumlah yang diakui pada awal pengakuan aset, sedangkan untuk liabilitas keuangan, biaya transaksi dikurangkan dari jumlah utang yang diakui pada awal pengakuan liabilitas.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Financial liabilities are classified into the following categories at initial recognition:

- Financial liabilities at fair value through profit or loss, which has 2 (two) subclassifications, i.e. those designated as such upon initial recognition and those classified as held for trading;
- Other financial liabilities. Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

ii. Recognition

The Bank initially recognizes financial asset and liabilities on the date of origination. Regular way purchases and sales of financial assets are recognized on the trade date at which the Bank commits to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Bank becomes a party to the contractual provisions of the instruments.

A financial asset or liability is initially measured at fair value plus (for an item not valued at fair value through profit and loss at initial recognition) transaction costs subsequently measured at fair value that are directly attributable to the acquisition of financial assets or issuance of financial liabilities. The subsequent measurement of financial assets and liabilities depends on their classifications.

Transaction costs include only those costs that are directly attributable to the acquisition of a financial asset or issue of a financial liability and are incremental costs that would not have been incurred if the instrument had not been acquired or issued. In the case of financial assets, transaction costs are added to the amount recognized initially, while for financial liabilities, transaction costs are deducted from the amount of debt recognized initially.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Biaya transaksi tersebut diamortisasi selama umur instrumen berdasarkan metode suku bunga efektif dan dicatat sebagai bagian dari pendapatan bunga untuk biaya transaksi sehubungan dengan aset keuangan atau sebagai bagian dari beban bunga untuk biaya transaksi sehubungan dengan liabilitas keuangan.

iii. Pengukuran setelah pengakuan awal

- Aset keuangan dalam kelompok nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi diukur pada nilai wajarnya.
- b. Aset dan liabilitas keuangan lainnya yang diukur pada biaya perolehan diamortisasi, diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

iv. Penghentian pengakuan

Bank menghentikan pengakuan aset keuangan pada saat hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut kadaluwarsa, atau pada saat Bank mentransfer seluruh hak untuk menerima arus kas kontraktual dari aset keuangan dalam transaksi dimana Bank secara substansial telah mentransfer seluruh risiko dan manfaat atas kepemilikan aset keuangan yang ditransfer. Setiap hak atau liabilitas atas aset keuangan yang ditransfer yang timbul atau yang masih dimiliki oleh Bank diakui sebagai aset atau liabilitas secara terpisah.

Bank menghentikan pengakuan liabilitas keuangan pada saat liabilitas yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kedaluwarsa.

Dalam transaksi dimana Bank secara substansial tidak memiliki atau tidak mentransfer seluruh risiko dan manfaat atas kepemilikan aset keuangan, Bank menghentikan pengakuan aset tersebut jika Bank tidak lagi memiliki pengendalian atas aset tersebut. Hak dan kewajiban yang timbul atau yang masih dimiliki dalam transfer tersebut diakui secara terpisah sebagai aset atau liabilitas. Dalam transfer dimana pengendalian atas aset masih dimiliki, Bank tetap mengakui aset yang ditransfer tersebut sebesar keterlibatan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Such transaction costs are amortized over the terms of the instruments based on the effective interest method and are recorded as part of interest income for transaction costs related to financial assets or interest expense for transaction costs related to financial liabilities.

iii. Subsequent measurement

- a. Fair value through other comprehensive income financial assets and financial assets and liabilities measured at fair value through profit or loss are subsequently measured at fair value.
- b. Assets and other financial liabilities which are measured at amortized cost, are subsequently measured at amortized cost using the effective interest method.

iv. Derecognition

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when the Bank transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Bank is recognized as a separate asset or liability.

The Bank derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

In transactions in which the Bank neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset, the Bank derecognizes the asset if it does not retain control over the asset. The rights and obligations retained in the transfer are recognized separately as assets and liabilities as appropriate. In transfers in which control over the asset is retained, the Bank continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> berkelanjutan, dimana tingkat keberlanjutan Bank dalam aset yang ditransfer adalah sebesar perubahan nilai aset yang ditransfer.

> Bank menghapusbukukan saldo kredit dan efek utang untuk tujuan investasi, dan cadangan kerugian penurunan nilai terkait, pada saat Bank menentukan bahwa kredit atau efek-efek tersebut tidak dapat ditagih. Keputusan ini diambil setelah mempertimbangkan informasi seperti telah terjadinya perubahan signifikan pada posisi keuangan debitur/penerbit sehingga debitur/penerbit tidak lagi dapat melunasi liabilitasnya, atau hasil penjualan agunan tidak akan cukup untuk melunasi seluruh ekposur kredit yang diberikan.

v. Saling hapus

Aset keuangan dan liabilitas keuangan saling hapus dan nilai netonya dilaporkan di laporan posisi keuangan jika, dan hanya jika, saat ini terdapat hak yang berkekuatan hukum untuk saling hapus jumlah keduanya dan terdapat intensi untuk diselesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

Hak yang berkekuatan hukum berarti:

- a. tidak terdapat kontinjensi di masa yang akan datang, dan
- b. hak yang berkekuatan hukum pada kondisi-kondisi berikut ini;
 - i. kegiatan bisnis normal;
 - ii. kondisi kegagalan usaha; dan
 - iii. kondisi gagal bayar atau bangkrut.

Pendapatan dan beban disajikan dalam jumlah bersih hanya jika diperkenankan oleh standar akuntansi.

vi. Pengukuran biaya diamortisasi

Biaya perolehan diamortisasi dari aset atau liabilitas keuangan adalah jumlah aset atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif dengan menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya, dan dikurangi cadangan kerugian penurunan nilai.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

exposed to changes in the value of the transferred asset.

The Bank writes off a loan and investment debt security balance, and any related allowance for impairment losses, when the Bank determines that the loan or security is uncollectible. This determination is reached after considering information such as the occurrence of significant changes in the borrowers/issuers financial position such that the borrower/issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

v. Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is currently an enforceable legal rights to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Enforceable right means:

- a. there are no contingencies in the future, and
- b. enforceable right to the following conditions:
 - i. deploying normal activities;
 - ii. conditions of business failures; and
 - iii. conditions of default or bankruptcy.

Income and expenses are presented on a net basis only when permitted by accounting standards.

vi. Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus allowance for impairment losses.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

vii. Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut: atau
- Jika tidak terdapat pasar utama, dipasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomik terbaiknya.

Pengukuran nilai wajar aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomik dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Bank menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1 : harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.
- Level 2 : input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset dan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

vii. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

liabilitas baik secara langsung (misalnya harga) atau secara tidak langsung.

 Level 3: input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Untuk aset dan liabilitas yang diakui pada laporan keuangan secara berulang, Bank menentukan apakah terjadi transfer antara level di dalam hierarki dengan cara mengevaluasi kategori (berdasarkan input level terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

viii. Reklasifikasi instrumen keuangan

Bank mereklasifikasi aset keuangan jika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui laba rugi dicatat sebesar nilai wajarnya. Selisih antara nilai tercatat dengan nilai wajar diakui sebagai keuntungan atau kerugian pada laba rugi.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi nilai wajar melalui laba rugi dicatat pada nilai wajar. Keuntungan atau kerugian yang belum direalisasi direklasifikasi ke laba rugi.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai tercatat. Keuntungan atau kerugian yang belum direalisasi dihapus dari ekuitas dan disesuaikan terhadap nilai wajar.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat pada nilai wajar.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

either directly (for example, price) or indirectly.

 Level 3: inputs for the asset and liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

viii. Reclassification of financial instruments

The Bank reclassifies financial assets if and only if, the business model for managing financial assets changes.

Reclassifications of financial assets from amortized cost classifications to fair value through profit or loss are recorded at fair value. The difference between the recorded value and fair value is recognized in profit or loss on the statement of profit or loss and other comprehensive income.

Reclassifications of financial assets from amortized cost classifications to fair value classifications through other comprehensive are recorded at their fair values.

Reclassifications of financial assets from fair value classification through other comprehensive income to fair value classification through profit or loss are recorded at fair value. Unrealized gains or losses are reclassified to profit or loss.

Reclassifications of financial assets from fair value classifications through other comprehensive income to the amortized cost classification are recorded at carrying value. Unrealized gains or losses is removed from equity and adjusted agains the fair value.

Reclassifications on financial assets from fair value classification through profit or loss to fair value classification through other comprehensive income are recorded at fair value.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai wajar.

2.f. Giro pada Bank Indonesia dan bank lain

Giro pada Bank Indonesia dan bank lain setelah perolehan awal dinilai sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif (EIR). Cadangan kerugian penurunan nilai untuk giro pada bank lain diukur bila terdapat indikasi penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2m.

2.g. Penempatan pada Bank Indonesia dan bank lain

Penempatan pada Bank Indonesia dan bank lain merupakan penanaman dana dalam bentuk *call money*, Fasilitas Simpanan Bank Indonesia dan deposito berjangka.

Penempatan pada Bank Indonesia dinyatakan sebesar saldo penempatan dikurangi dengan pendapatan bunga yang ditangguhkan.

Penempatan pada bank lain pada awalnya diukur pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif (EIR). Cadangan kerugian penurunan nilai diukur bila terdapat indikasi penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2m.

2.h. Efek-efek

Efek-efek terdiri dari obligasi korporasi, Obligasi Pemerintah Indonesia, Sertifikat Bank Indonesia ("SBI"), Surat Perbendaharaan Negara, dan Sekuritas Rupiah Bank Indonesia ("SRBI").

Efek-efek pada awalnya diukur pada nilai wajar ditambah biaya transaksi, kecuali aset keuangan yang diklasifikasikan pada nilai wajar melalui laba rugi dimana biaya transaksi diakui langsung ke laporan laba rugi dan penghasilan komprehensif lain. Pengukuran setelah pengakuan awal tergantung pada klasifikasinya.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Reclassifications of financial assets from fair value classification through profit or loss to amortized cost classification are recorded at fair value.

2.f. Current accounts with Bank Indonesia and other banks

Subsequent to initial recognition, current accounts with Bank Indonesia and other banks are measured at their amortized cost using the effective interest rate (EIR) method. Allowance for impairment losses for current account with other bank is assessed if there is an indication of impairment using the impairment methodology as disclosed in Note 2m.

2.g. Placements with Bank Indonesia and other banks

Placements with Bank Indonesia and other banks consist of call money, Bank Indonesia Deposit Facilities and time deposits.

Placements with Bank Indonesia are stated at the outstanding balances, less unearned interest income.

Placements with other banks are initially measured at fair value plus incremental direct transaction cost directly attributable to obtain the financial asset, and subsequently measured at their amortized cost using the effective interest rate (EIR) method. Allowance for impairment losses is assessed if there is an indication of impairment using the impairment methodology as disclosed in Note 2m.

2.h. Securities

Securities consist of corporate bonds, Government Bonds, Certificates of Bank Indonesia ("SBI"), State Treasury Notes, and Bank Indonesia Rupiah Securities ("SRBI").

Securities are initially measured at fair value plus transaction costs, except for financial assets classified as fair value through profit or loss where the transaction costs are recognized directly to the statement of profit or loss and other comprehensive income. Subsequent measurement depends on their classification.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Pengukuran efek-efek dan obligasi Pemerintah didasarkan atas klasifikasinya sebagai berikut:

 Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain

Surat-surat berharga yang diklasifikasikan sebagai dinilai pada nilai wajar melalui penghasilan komprehensif lain dinyatakan pada nilai wajar. Pendapatan bunga diakui dalam laba rugi menggunakan metode suku bunga efektif. Laba atau rugi selisih kurs atas surat-surat berharga diakui pada laba rugi.

Perubahan nilai wajar lainnya diakui langsung dalam ekuitas sampai surat-surat berharga dijual atau mengalami penurunan nilai, dimana akumulasi keuntungan dan kerugian yang sebelumnya diakui dalam ekuitas diakui dalam laba rugi.

 Aset keuangan yang diukur pada nilai wajar melalui laba rugi Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam laba rugi tahun berjalan. Pendapatan bunga dari surat-surat berharga dicatat dalam laba rugi sesuai dengan persyaratan dalam kontrak.

2.i. Instrumen keuangan derivatif

Seluruh instrumen derivatif (termasuk transaksi valuta asing untuk tujuan pendanaan dan perdagangan) dicatat dalam laporan posisi keuangan berdasarkan nilai wajarnya. Nilai wajar tersebut ditentukan berdasarkan harga pasar dengan menggunakan kurs *Bloomberg* pada tanggal laporan atau metode arus kas yang didiskontokan.

Instrumen keuangan derivatif diakui di laporan posisi keuangan pada nilai wajar. Setiap kenaikan nilai wajar kontrak derivatif dicatat sebagai aset apabila memiliki nilai wajar positif dan sebagai liabilitas apabila memiliki nilai wajar negatif.

Tagihan dan liabilitas derivatif diklasifikasikan sebagai aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

Keuntungan atau kerugian dari kontrak derivatif disajikan dalam laporan keuangan berdasarkan tujuan Bank atas transaksi yaitu untuk (a) lindung nilai atas nilai wajar,

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The measurement of securities and Government bonds are based on the classification of the securities as follows:

1. Financial assets measured at fair value through other comprehensive income

Marketable securities which are classified under fair value through other comprehensive income investments are stated at fair value. Interest income is recognized in the profit or loss using the effective interest method. Foreign exchange gains or losses on securities are recognized in the profit or loss.

Other fair value changes are recognized directly in equity until the securities is sold or impaired, whereby the cumulative gains and losses previously recognized in the equity are recognized in the profit or loss.

2. Financial assets measured at fair value through profit or loss
Unrealized gains or losses resulting from changes in fair value are recognized in the profit or loss in current year. The interest income from marketable securities is recorded in the profit or loss according to the terms of the contract.

2.i. Derivative financial instruments

All derivative instruments (including foreign currency transactions for funding and trading) are recorded in the statement of financial position at fair value. Fair value is determined based on market value using Reuters rate at reporting date or discounted cash flow method.

Derivative financial instruments are recognized in the statement of financial position at fair value. Each increase in fair value of derivative contract is recorded as asset when the fair value is positive and as liability when the fair value is negative.

Derivative receivables and payables are classified as financial assets and liabilities at fair value through profit or loss.

Gains or losses on derivative contracts are presented in the financial statements based on its purpose on the transaction, as (a) a hedge of the fair value, (b) a cash flow hedge, (c) a

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- (b) lindung nilai atas arus kas, (c) lindung nilai atas investasi bersih pada kegiatan operasi luar negeri, atau (d) instrumen perdagangan, sebagai berikut:
- a. Keuntungan atau kerugian dari kontrak derivatif yang ditujukan dan memenuhi syarat sebagai instrumen lindung nilai atas nilai wajar dan keuntungan atau kerugian atas perubahan nilai wajar aset dan liabilitas yang dilindungi, diakui sebagai laba atau rugi yang dapat saling hapus dalam periode akuntansi yang sama. Setiap selisih yang terjadi menunjukkan terjadinya ketidakefektifan lindung nilai dan secara langsung diakui sebagai laba atau rugi tahun berialan.
- Bagian efektif dari keuntungan atau kerugian atas kontrak derivatif yang ditujukan sebagai lindung nilai atas arus kas dilaporkan sebagai penghasilan komprehensif lainnya. Bagian yang tidak efektif dari lindung nilai dilaporkan sebagai laba atau rugi tahun berjalan.
- c. Keuntungan atau kerugian dari kontrak derivatif yang ditujukan sebagai lindung nilai atas investasi bersih pada kegiatan operasi luar negeri dilaporkan sebagai penghasilan komprehensif lainnya, sepanjang transaksi tersebut dianggap efektif sebagai transaksi lindung nilai.
- d. Keuntungan atau kerugian dari kontrak derivatif yang tidak ditujukan sebagai instrumen lindung nilai (atau kontrak derivatif yang tidak memenuhi persyaratan sebagai instrumen lindung nilai) diakui sebagai laba atau rugi pada tahun berjalan.

2.j. Efek-efek yang dibeli dengan janji dijual kembali dan efek-efek yang dijual dengan janji dibeli kembali

Efek-efek yang dibeli dengan janji dijual kembali (reverse repo) diakui sebesar harga jual kembali efek yang bersangkutan, dikurangi pendapatan bunga yang belum diamortisasi. Selisih antara harga beli dengan harga jual diperlakukan sebagai pendapatan bunga yang belum diamortisasi dan diakui sebagai pendapatan bunga sesuai dengan jangka waktu efek dibeli hingga dijual kembali dengan menggunakan metode suku bunga efektif (EIR). Efek yang dibeli tidak dibukukan sebagai aset dalam laporan posisi keuangan karena kepemilikan efek tetap berada pada pihak penjual.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

hedge of a net investment in foreign operations, or (d) trading instruments, as follows:

- a. Gains or losses on derivative contracts that are designated and qualified as hedging instruments of the fair value and the gains or losses on changes in fair value of assets and liabilities that are protected, recognized as a gain or loss may be offset in the same accounting period. Any difference representing hedge ineffectiveness is recognized as profit or loss in current year.
- b. The effective portions of gains or losses on derivative contracts designated as cash flow hedge are reported as other comprehensive income. The ineffective portions of the hedge are reported as profit or loss in current year.
- c. Gains or losses on derivative contracts designated as hedges of a net investment in a foreign operation are reported as other comprehensive income to the extent it is effective as a hedge.
- d. Gains or losses on derivative contracts not designated as a hedging instrument (or derivative contract that does not qualify as a hedging instrument) is recognized as profit or loss in current year.

2.j. Securities purchased under agreement to resell and securities sold under agreement to repurchase

Securities purchased under agreements to resell (reverse repo) are recognized in the amount of the resale price of the related securities, less unamortized interest. The difference between purchase price and the selling price is treated as unamortized interest and is recognized as interest income in accordance with the period since the securities are purchased until they are resold by using effective interest rate (EIR) method. The securities received are not recorded as assets on the statements of financial position because the ownership of the securities remains with the seller.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Efek-efek yang dibeli dengan janji untuk dijual kembali diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Efek-efek yang dijual dengan janji dibeli kembali (repo) diakui sebesar harga pembelian kembali yang disepakati dikurangi beban bunga yang belum diamortisasi. Beban bunga yang belum diamortisasi merupakan selisih antara harga jual dengan harga beli kembali yang disepakati dan diakui sebagai beban bunga selama jangka waktu sejak efek dijual hingga dibeli kembali dengan menggunakan metode suku bunga efektif (EIR). Efek yang dijual tetap dicatat sebagai aset dalam laporan posisi keuangan karena secara substansi kepemilikan efek tetap berada pada pihak Bank sebagai penjual.

Efek-efek yang dijual dengan janji dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

2.k. Kredit yang diberikan

Kredit yang diberikan pada awalnya diukur pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh keuangan tersebut, aset dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Cadangan kerugian atas penurunan nilai dilakukan bila terdapat bukti obiektif penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2m.

Kredit yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian pinjaman atau hubungan normal antara Bank dan debitur dengan jaminan telah berakhir. Pinjaman yang tidak dapat dilunasi dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai. Pelunasan kemudian atas pinjaman yang telah dihapusbukukan sebelumnya, dikreditkan ke cadangan kerugian penurunan nilai pinjaman di laporan posisi keuangan.

Restrukturisasi kredit

Restrukturisasi kredit meliputi modifikasi persyaratan kredit, konversi kredit menjadi saham atau instrumen keuangan lainnya dan/atau kombinasi dari keduanya.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Securities purchased under agreements to resell are classified as amortized cost.

Securities sold under agreement to repurchase (repo) agreements are recognized at the agreed repurchase price less unamortized interest. The unamortized interest represents the difference between the selling price and the agreed repurchase price and is recognized as interest expense during the period from the sale of securities to the date of repurchase by using Effective Interest Rate (EIR) method. The securities sold are recorded as assets on the statements of financial position because in substance the ownership of the securities remains with the Bank as the seller.

Securities sold under agreement to repurchase are classified as financial liabilities measured at amortized cost.

2.k. Loans

Loans are initially measured at fair value plus incremental transaction costs which can be directly attributable and are additional costs to obtain those financial assets, and subsequently measured at their amortized cost using the effective interest method. Allowance for impairment losses is assessed if there is an indication of impairment using the impairment methodology as disclosed in Note 2m.

Loans are written-off when there are no realistic prospects of collection or when the Bank's normal relationship with the collateralized borrowers has ceased to exist. When loans are deemed uncollectible, they are written-off against the related allowance for impairment losses. Subsequent recoveries of loans written-off are credited to the allowance for impairment losses from loans in the statement of financial position.

Loan restructuring

Loan restructuring may involve a modification of the terms of the loans, conversion of loans into equity or other financial instruments and/or a combination of both.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Kerugian yang timbul dari restrukturisasi kredit yang berkaitan dengan modifikasi persyaratan kredit diakui bila nilai tunai penerimaan kas masa depan yang telah ditentukan dalam persyaratan kredit yang baru, termasuk penerimaan yang diperuntukan sebagai bunga maupun pokok, adalah lebih kecil dari nilai kredit yang diberikan yang tercatat sebelum restrukturisasi.

Untuk restrukturisasi kredit bermasalah dengan cara konversi kredit yang diberikan menjadi saham atau instrumen keuangan lainnya, kerugian dari restrukturisasi kredit diakui hanya apabila nilai wajar penyertaan saham atau instrumen keuangan yang diterima dikurangi estimasi biaya untuk menjualnya, adalah kurang dari nilai tercatat kredit yang diberikan.

2.l. Tagihan dan utang akseptasi

Dalam kegiatan bisnis biasa, Bank memberikan jaminan keuangan, seperti *letters of credit*, bank garansi dan akseptasi.

Setelah pengakuan awal, tagihan dan utang akseptasi dicatat pada biaya perolehan diamortisasi.

Cadangan kerugian penurunan nilai dilakukan bila terdapat indikasi penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2m.

2.m. Penurunan nilai aset keuangan dan nonkeuangan

i. Penurunan nilai aset keuangan

Bank menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi investment grade yang dipahami secara global.

Pengukuran Kerugian Kredit Ekspektasian ("KKE")

Kerugian Kredit Ekspektasian adalah estimasi probabilitas tertimbang dari kerugian kredit yang diukur sebagai berikut:

 Aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini dari seluruh kekurangan kas (yaitu selisih antara arus kas yang terutang kepada Bank sesuai dengan kontrak dan arus kas yang diperkirakan akan diterima oleh Bank);

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Loss on loan restructuring in respect of modification of the terms of the loans are recognized only if the cash value of total future cash receipt specified in the new terms of the loan, including both receipt designated as interest and those designated as loan principal, are less than the recorded amounts of loans before restructuring.

For non-performing restructured loan which involves a conversion of loan into equity or other financial instrument, a loss on loan restructuring is recognized only if the fair value of the equity investment or other financial instrument received, reduced by estimated costs to sell the equity or other financial instrument, is less than the carrying value of the loan.

2.1. Acceptance receivable and payable

In the ordinary course of business, the Bank provides financial guarantees, consisting of letters of credit, bank guarantees and acceptances.

After initial recognition, acceptance receivables and payables are recorded at amortized cost.

Allowances for impairment losses are assessed if there is an indication of impairment by using the impairment methodology as disclosed in Note 2m.

2.m. Impairment of financial and non-financial assets

i. Impairment of financial assets

The Bank considers debt instruments to have low credit risk when the credit risk rating is at par with the globally understood definition of investment grade.

Measurement of Expected Credit Losses ("ECL")

Expected Credit Loss is an estimate of the weighted probability of a credit loss measured as follows:

- Financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the difference between the present value of all cash shortages (i.e. the difference between the cash flows owed to the Bank in accordance with the contract and the cash flows expected to be received by the Bank);

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- Aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
- Komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh Bank:
- Kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

Bank mengklasifikasikan kredit yang diberikan menjadi 3 tahap/stage sesuai dengan peningkatan risiko kredit secara signifikan sejak pengakuan awalnya.

Kerugian Kredit Ekspektasian 12 Bulan (Stage 1)

KKE diakui pada saat pengakuan awal instrumen keuangan dan kekurangan kas merepresentasikan sepanjang umur aset yang timbul dari kemungkinan gagal bayar di masa yang akan datang dalam kurun waktu 12 bulan sejak tanggal pelaporan. KKE ditentukan oleh dasar ini sampai timbul peningkatan risiko kredit yang signifikan pada instrumen tersebut atau instrumen tersebut telah mengalami penurunan nilai kredit. Jika suatu instrumen tidak lagi dianggap menunjukkan peningkatan risiko kredit yang signifikan, maka KKE dihitung kembali berdasarkan basis 12 bulan.

Peningkatan Risiko Kredit yang Signifikan (*Stage* 2)

Jika aset keuangan mengalami peningkatan risiko kredit yang signifikan ("SICR") sejak pengakuan awal, kerugian kredit ekspektasian diakui atas kejadian gagal bayar yang mungkin terjadi sepanjang umur aset. Peningkatan signifikan dalam risiko kredit dinilai dengan membandingkan risiko gagal bayar atas eksposur pada tanggal pelaporan dengan risiko gagal bayar saat pengakuan awal (setelah memperhitungkan perjalanan waktu dari akun tersebut). Signifikan tidak berarti signifikan secara statistik, juga tidak dinilai dalam konteks perubahan dalam KKE. Perubahan atas

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- Financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;
- For undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Bank;
- For financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.

The Bank classifed the loans into 3 stages in accordance with its significant increase in credit risk since their initial recognition.

12 Months - Expected Credit Losses (Stage 1)

ECL are recognized at the time of initial recognition of a financial instrument and represent the lifetime cash shortfalls arising from possible default events up to 12 months into the future from the reporting date. ECL continues to be determined on this basis until there is either a significant increase in the credit risk of an instrument or the instrument becomes credit-impaired. If an instrument is no longer considered to exhibit a significant increase in credit risk, ECL will revert to being determined on a 12-month basis.

Significant Increase in Credit Risk (Stage 2)

If a financial asset experiences a significant increase in credit risk ("SICR") since initial recognition, an expected credit loss provision is recognized for default events that may occur over the lifetime of the asset. Significant increase in credit risk is assessed by comparing the risk of default of an exposure at the reporting date to the risk of default at origination (after taking into account the passage of time). Significant does not mean statistically significant nor is it assessed in the context of changes in ECL. Whether a change in the risk of default is significant or not is assessed

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

risiko gagal bayar dinilai signifikan atau tidak, dinilai menggunakan sejumlah faktor kuantitatif dan kualitatif, yang bobotnya bergantung pada tipe produk dan pihak lawan. Aset keuangan dengan tunggakan 30 hari atau lebih dan tidak mengalami penurunan nilai akan selalu dianggap telah mengalami peningkatan risiko kredit yang signifikan.

Eksposur yang Mengalami Penurunan Nilai Kredit atau Gagal Bayar (*Stage* 3)

Aset hanya akan dianggap mengalami penurunan nilai dan kerugian kredit ekspektasian sepanjang umurnya diakui, jika terdapat bukti objektif penurunan nilai yang dapat diobservasi. Faktor-faktor yang diobservasi ini, termasuk antara lain aset gagal bayar atau mengalami kesulitan keuangan yang signifikan atau mengalami forbearance atas kredit yang mengalami penurunan nilai.

Aset keuangan yang mengalami penurunan nilai kredit atau gagal bayar merupakan aset yang setidaknya telah memiliki tunggakan lebih dari 90 hari atas pokok dan/atau bunga. Aset keuangan juga dianggap mengalami penurunan nilai kredit di mana debitur kemungkinan besar tidak akan membayar dengan terjadinya satu atau lebih kejadian yang teramati yang memiliki dampak menurunkan jumlah estimasi arus kas masa depan dari aset keuangan tersebut. Cadangan kerugian penurunan terhadap aset keuangan yang mengalami penurunan nilai ditentukan berdasarkan penilaian terhadap arus kas dapat dipulihkan berdasarkan sejumlah skenario, termasuk realisasi jaminan yang dimiliki jika memungkinkan.

Aset Keuangan yang Direstrukturisasi

Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

 Jika restrukturisasi tidak mengakibatkan penghentian pengakuan aset yang ada, maka arus kas yang diperkirakan yang timbul dari aset keuangan yang dimodifikasi dimasukkan dalam perhitungan kekurangan kas dari aset yang ada.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

using a number of quantitative and qualitative factors, the weight of which depends on the type of product and counterparty. Financial assets that are 30 days or more past due and not creditimpaired will always be considered to have experienced a significant increase in credit risk.

Credit Impaired or Defaulted Exposures (Stage 3)

An asset is only considered credit impaired and lifetime expected credit losses recognized, if there is observed objective evidence of impairment. These factors, which includes, amongst other factors, assets in default or experiencing significant financial difficulty, or experiencing forbearance on impaired credit.

Financial assets that are credit impaired or in default represent those that are at least 90 days past due in respect of principal and/or interest. Financial assets are also considered to be credit impaired where the debtors are unlikely to pay on the occurrence of one or more observable events that have a detrimental impact on the estimated future cash flows of the financial asset. Loss provisions against credit impaired financial assets are determined based on an assessment of the recoverable cash flows under a range of scenarios, including the realisation of any collateral held where appropriate.

Restructured Financial Assets

If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

- If the restructuring does not result in the termination of recognition of existing assets, then the estimated cash flows arising from the modified financial assets are included in the calculation of cash shortages of existing assets.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> - Jika restrukturisasi akan menghasilkan penghentian pengakuan aset yang ada, maka nilai wajar aset baru diperlakukan sebagai arus kas akhir dari aset keuangan yang ada pada saat penghentian pengakuannya. Jumlah ini dimasukkan dalam perhitungan kekurangan kas dari keuangan yang ada yang didiskontokan dari tanggal penghentian pengakuan ke tanggal pelaporan menggunakan suku bunga efektif awal dari aset keuangan yang ada.

Aset Keuangan yang Memburuk

Pada setiap tanggal pelaporan, Bank menilai apakah aset keuangan yang dicatat pada biaya perolehan diamortisasi dan aset keuangan instrumen utang yang dicatat pada nilai wajar melalui penghasilan komprehensif lain mengalami penurunan nilai (memburuk). Aset keuangan memburuk ketika satu atau lebih peristiwa yang memiliki dampak merugikan atas estimasi arus kas masa depan dari aset keuangan telah terjadi.

Kriteria yang digunakan oleh Bank untuk menentukan bukti objektif penurunan nilai adalah sebagai berikut:

- Kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- Pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan;
- Pihak pemberi pinjaman, untuk alasan ekonomik atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- Terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya; atau
- Hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan.
- Pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- If the restructuring will result in a derecognition of the existing assets, the fair value of the new asset is treated as the final cash flow of the existing financial assets at the time of derecognition. This amount is included in the calculation of cash shortages from existing financial assets which are discounted from the date of derecognition to the reporting date using the initial effective interest rate of the existing financial assets.

Credit-impaired Financial Assets

At each reporting date, the Bank assesses whether the financial assets recorded at amortized cost and the financial assets of debt instruments which are recorded at fair value through other comprehensive income are credit- impaired (worsening). Financial assets deteriorate when one or more events that have an adverse effect on the estimated future cash flows of the financial assets have occurred.

The criteria used by the Bank to determine that there is objective evidence of impairment include:

- Significant financial difficulties experienced by the issuer or the borrower;
- Breach of contract, such as a default or arrears;
- The lender, for economic or contractual reasons in relation to the financial difficulties experienced by the borrower, has given concessions to the borrower which is not possible if the borrower does not experience such difficulties;
- It is probable that the borrower will enter bankruptcy or the other financial reorganization; or
- Loss of an active market for financial assets due to financial difficulties.
- Purchase or issuance financial asset at significant discount which reflect the credit loss that occurs.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Aset Keuangan yang dibeli atau yang berasal dari aset keuangan yang mengalami penurunan nilai (*Purchased or originated credit-impaired financial assets* - POCI)

Aset keuangan dikategorikan sebagai POCI apabila terdapat bukti objektif penurunan nilai pada saat pengakuan awal. Pada saat pengakuan awal, tidak ada penyisihan kerugian kredit yang diakui karena harga pembelian atau nilainya telah termasuk estimasi kerugian kredit sepanjang umurnya. Selanjutnya, perubahan kerugian kredit sepanjang umurnya, apakah positif atau negatif, diakui dalam laporan laba rugi sebagai bagian dari cadangan kerugian penurunan nilai.

Penyajian penyisihan kerugian kredit ekspektasian dalam laporan posisi keuangan

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan sebagai berikut:

- aset keuangan yang diukur pada biaya perolehan diamortisasi, penyisihan kerugian kredit ekspektasian disajikan sebagai pengurang dari jumlah tercatat bruto aset;
- komitmen pinjaman dan kontrak jaminan keuangan, penyisihan kerugian kredit ekspektasian disajikan sebagai provisi;
- instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, penyisihan kerugian kredit ekspektasian tidak diakui dalam laporan posisi keuangan karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun demikian penyisihan kerugian kredit ekspektasian diungkapkan dan diakui dalam penghasilan komprehensif lain.

Perhitungan penurunan nilai secara individual

Bank menetapkan kredit yang diberikan yang harus dievaluasi penurunan nilainya secara individual jika kredit yang diberikan diklasifikasikan sebagai *Stage* 3 dan dianggap signifikan secara individual. Bank menghitung KKE dengan mengestimasi arus kas ekspektasian dari kredit yang diberikan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Purchased or originated credit-impaired financial assets – POCI

Financial assets are catergorized as POCI if there is objective evidence of impairment at initial recognition. At initial recognition, no allowance for credit losses is recognized because the purchase price or value has included lifetime estimated credit losses. Furthermore, changes in lifetime credit losses, whether positive or negative, are recognized in the statement of profit or loss as part of the allowance for impairment losses.

Presentation of allowance for expected credit losses in statements of financial position

Allowance for expected credit losses is presented in the statement of financial positions as follows:

- Financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;
- Loan commitments and financial guarantee contracts, allowance for expected credit losses is presented as a provision;
- Debt instruments measured at fair value through other comprehensive income, allowance for expected credit losses are not recognized in the statement of financial position because the carrying amounts of these assets are at their fair values. However, allowance for expected credit losses is disclosed and recognized in other comprehensive income.

Individual impairment calculation

The Bank determines that loans should be evaluated for impairment through individual evaluation if loans are classified as Stage 3 and considered individually significant. The Bank assesses ECL by estimating the expected future cash flow from the loans.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Perhitungan penurunan nilai secara kolektif

Bank menetapkan kredit yang diberikan yang harus dievaluasi penurunan nilainya secara kolektif jika kredit yang diberikan diklasifikasikan sebagai *Stage* 1, *Stage* 2 dan *Stage* 3 yang tidak dianggap signifikan secara individual. Bank menghitung KKE menggunakan pendekatan kolektif dengan model parameter risiko yang menggunakan beberapa parameter utama, antara lain *Probability of Default* ("PD"), *Loss Given Default* ("LGD"), *Exposure at Default* ("EAD"), dan tingkat diskonto setelah memperhitungkan informasi perkiraan masa depan, termasuk faktor makroekonomi.

Bank menggunakan model yang kompleks yang menggunakan matriks PD, LGD dan EAD.

a. Probability of Default ("PD")

Probabilitas yang timbul di suatu waktu dimana debitur mengalami gagal bayar, dikalibrasikan sampai dengan periode 12 bulan dari tanggal laporan (*Stage* 1) atau sepanjang umur (*Stage* 2 dan 3) dan digabungkan pada dampak asumsi ekonomi masa depan yang memiliki risiko kredit. PD diestimasikan pada poin *in time* di mana hal ini berfluktuasi sejalan dengan siklus ekonomi.

b. Loss Given Default ("LGD") Kerugian yang diperkirakan akan timbul

dari debitur yang mengalami gagal bayar dengan menggabungkan dampak dari asumsi ekonomi masa depan yang relevan (jika ada) di mana hal ini mewakili perbedaan antara arus kas kontraktual yang akan jatuh tempo dengan arus kas yang diharapkan untuk diterima. Bank mengestimasikan LGD berdasarkan data historis dari tingkat pemulihan memperhitungkan dan pemulihan yang berasal dari jaminan aset keuangan dengan mempertimbangkan asumsi ekonomi di masa depan jika relevan.

c. Exposure at Default ("EAD")
Perkiraan nilai eksposur neraca pada saat gagal bayar dengan mempertimbangkan bahwa perubahan ekspektasi yang diharapkan selama masa eksposur. Hal ini menggabungkan dampak penarikan fasilitas yang

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Collective impairment calculation

The Bank determines that loans should be evaluated for impairment through collective evaluation if loans are classified as Stage 1. Stage 2 and Stage 3 which are not considered individually significant. The Bank assesses ECL using collective approach with the risk parameter modelling that incorporates a number of key parameters, including the Probability of Default ("PD"), Loss Given Default ("LGD"), Exposure at Default ("EAD"), and discount rate after taking into consideration forwardlookina information. includina macroeconomic factors.

The Bank primarily uses sophisticated models that utilise the PD, LGD and EAD metrics.

a. Probability of Default ("PD")

The probability at a point in time that a counterparty will default, calibrated over up to 12 months from the reporting date (Stage 1) or over the lifetime of the product (Stage 2 and 3) and incorporated to the impact of forward-looking economic assumptions that have an effect on credit risk. PD is estimated at a point in time that means it will fluctuate in line with the economic cycle.

b. Loss Given Default ("LGD")

The loss that is expected to arise on default, incorporating the impact of forward-looking relevant economic assumptions (if any), which represents the difference between the contractual cash flows due and those that the Bank expects to receive. The Bank estimates LGD based on the historical recovery rates and considers the recovery of any collateral that is integral to the financial assets, taking into account forwardeconomic assumptions looking relevant.

c. Exposure at Default ("EAD")

The expected balance sheet exposure at the time of default, taking into account that expected change in exposure over the lifetime of the exposure. This incorporates the impact of drawdowns of committed facilities, repayments of

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> committed, pembayaran pokok dan bunga, amortisasi dan pembayaran dipercepat, bersama dengan dampak asumsi ekonomi masa depan jika relevan.

Untuk menentukan kerugian kredit ekspektasian komponen-komponen ini akan diperhitungkan secara bersama-sama dan didiskontokan ke tanggal laporan keuangan menggunakan diskonto berdasarkan suku bunga efektif.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan

Ketika kredit yang diberikan tidak tertagih, kredit yang diberikan tersebut dihapusbuku dengan menjurnal balik cadangan kerugian penurunan nilai. Kredit yang diberikan tersebut dapat dihapus buku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

ii. Penurunan nilai aset non-keuangan

Nilai tercatat dari aset yang bukan aset keuangan Bank, kecuali aset pajak tangguhan, ditelaah setiap tanggal pelaporan untuk menentukan apakah terdapat indikasi penurunan nilai. Jika indikasi tersebut ada, maka nilai yang dapat dipulihkan dari aset tersebut akan diestimasi.

Nilai yang dapat diperoleh kembali dari suatu aset atau unit penghasil kas adalah sebesar jumlah yang lebih tinggi antara nilai pakainya dan nilai wajar aset atau unit penghasil kas dikurangi biaya untuk menjual. Dalam menilai nilai pakai, estimasi arus kas masa depan didiskontokan ke nilai sekarang dengan menggunakan tingkat diskonto sebelum pajak yang mencerminkan penilaian pasar saat ini terhadap nilai kas kini dan risiko spesifik terhadap aset tersebut.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

principal and interest, amortisation and early payments, together with the impact of forward- looking economic assumptions if relevant.

To determine the expected credit loss, these components are multiplied together and discounted to the balance sheet date using the effective interest rate as the discount rate.

Recoveries of written-off financial assets

When a loan is uncollectible, it is written off against the related allowance for impairment loss. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off financial assets from previous years are recorded as operational income other than interest income.

ii. Impairment of non-financial assets

The carrying amounts of the Bank's nonfinancial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount will be estimated.

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Cadangan penurunan nilai diakui pada tahun sebelumnya dinilai pada setiap tanggal pelaporan untuk melihat adanya indikasi bahwa kerugian telah menurun atau tidak ada lagi. Kerugian penurunan nilai dijurnal balik jika terdapat perubahan estimasi yang digunakan dalam menentukan nilai yang dapat dipulihkan.

Cadangan kerugian penurunan nilai dijurnal balik hanya hingga nilai tercatat aset tidak melebihi nilai tercatat yang telah ditentukan, dikurangi dengan depresiasi atau amortisasi, jika cadangan penurunan nilai tidak pernah diakui.

Bank tidak diwajibkan lagi untuk membentuk cadangan kerugian penurunan nilai untuk aset non produktif, tetapi Bank tetap harus menghitung cadangan kerugian penurunan nilai mengacu pada standar akuntansi yang berlaku (Catatan 14b).

2.n. Aset tetap, aset hak-guna dan liabilitas sewa

Aset tetap

Bank menerapkan kebijakan akuntansi model revaluasi untuk aset tetap berupa tanah dan bangunan. Aset tetap selain tanah dan bangunan menggunakan model biaya.

Tanah dan bangunan disajikan sebesar nilai wajar, dikurangi akumulasi penyusutan untuk bangunan. Penilaian terhadap tanah dan bangunan dilakukan oleh penilai independen eksternal yang telah memiliki sertifikasi. Penilaian atas aset tersebut dilakukan secara berkala untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan nilai tercatatnya. Akumulasi penyusutan pada tanggal revaluasi dieliminasi terhadap nilai tercatat bruto aset, dan nilai netonya disajikan kembali sebesar nilai revaluasian aset tetap.

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi setiap 3 tahun sekali, dengan mempertimbangkan kondisi pada tahun tersebut.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Allowance for impairment loss recognized in prior year is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

Allowance for impairment losses is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

The Bank is not required to provide an allowance for impairment losses for non-productive assets, but the Bank should still calculate the impairment losses in accordance with the applicable accounting standards (see Note 14b).

2.n. Fixed assets, right-of-use assets and lease liabilities

Fixed assets

Bank applies revaluation model as accounting policy for land and buildings. Fixed assets other than land and buildings apply cost model.

Land and buildings are stated at fair value, less subsequent depreciation for buildings. Valuation of land and buildings is performed by external independent valuers with certain qualification. Valuations are performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset.

If the fair value of the revalued asset change significantly, it is necessary to revaluate on an annual basis, whereas if the fair value of the revaluated asset does not change significantly, it is necessary to revaluate every 3 years, taking the conditions of the related year into considerations.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dan bangunan dicatat sebagai "Surplus Revaluasi Aset Tetap" dan disajikan sebagai "Penghasilan Komprehensif Lain". Penurunan nilai tercatat yang timbul dari revaluasi, jika ada, dicatat sebagai beban pada tahun berjalan. Apabila aset tersebut memiliki saldo "Surplus Revaluasi Aset Tetap" maka selisih penurunan nilai tercatat tersebut dibebankan terhadap "Surplus Revaluasi Aset Tetap" yang disajikan sebagai "Penghasilan Komprehensif Lain" dan sisanya diakui sebagai beban tahun berjalan.

Surplus revaluasi yang dipindahkan ke saldo laba adalah sebesar perbedaan biaya perolehan awalnya. Pemindahan surplus revaluasi ke saldo laba tidak dilakukan melalui laba rugi.

Aset tetap, selain tanah dan bangunan, pada awalnya dinyatakan sebesar harga perolehan. Biaya perolehan mencakup harga pembelian dan semua pengeluaran-pengeluaran yang terkait secara langsung untuk membawa aset tersebut ke lokasi dan kondisi yang diperlukan untuk memungkinkan aset tersebut beroperasi sebagaimana ditentukan oleh manajemen. Setelah pengukuran awal, aset tetap diukur dengan model biaya, dicatat pada harga perolehan dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai aset.

Tanah, termasuk biaya pengurusan legal hak atas tanah ketika tanah diperoleh pertama kali, diakui sebagai bagian dari biaya perolehan aset tanah dan tidak diamortisasi. Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah ditangguhkan dan diamortisasi sepanjang umur hukum hak atau umur ekonomi tanah, mana yang lebih pendek.

Penyusutan aset tetap selain tanah dihitung dengan menggunakan metode garis lurus atau saldo menurun berganda berdasarkan taksiran masa manfaat aset tetap sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Increase in the carrying amount arising from revaluation of land and buildings is recorded in "Revaluation Surplus of Fixed Assets" and presented as "Other Comprehensive Income". Decrease in carrying amount as a result of revaluation, if any, is recorded as expenses in the current year. If the asset does have balance on its "Revaluation Surplus of Fixed Assets", loss from revaluation of fixed asset is charged to "Revaluation Surplus of Fixed Assets" which is presented as "Other Comprehensive Income" and the remaining balance is charged to current year's expenses.

The amount of the surplus transferred would be the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Transfer from revaluation surplus to retained earnings is not made through profit and loss.

Fixed assets, except land and buildings, are initially recognized at cost. Acquisition cost includes purchase price and expenditures directly attributable to bring the assets to the location and condition necessary for it to be capable of operating in the manner attended by management. Subsequent to initial measurement, fixed assets are measured using cost model, carried at its cost less accumulated depreciation and accumulated impairment losses.

Land, including legal cost incurred when the land was first acquired, is recognized as part of the land acquisition cost and not amortized. The cost of the extension or renewal of legal right over land is deferred and amortized over the life of legal life or economic life of the land, whichever is shorter.

Depreciations of fixed assets other than land are calculated on a straight-line or double declining balance method based on the estimated useful lives of the assets as follows:

	Tahun/ <u>Year</u> s	
Bangunan	20	Buildings
Peralatan dan perabot kantor,		Office equipment and furniture and fixtures,
kendaraan dan perbaikan gedung	4 - 8	vehicles and building improvements

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Beban perbaikan dan pemeliharaan dibebankan pada laba rugi; sedangkan renovasi dan penambahan yang jumlahnya signifikan dan memperpanjang masa manfaat dikapitalisasi ke aset tetap yang bersangkutan. Nilai tercatat serta akumulasi penyusutan atas aset tetap yang tidak digunakan lagi atau dijual, dikeluarkan dari kelompok aset tetap yang bersangkutan, dan laba atau ruginya diakui dalam laba rugi.

Aset dalam penyelesaian merupakan aset yang masih dalam proses pembangunan dan belum siap untuk digunakan, serta dimaksudkan untuk dipergunakan dalam kegiatan usaha. Aset ini dicatat sebesar biaya yang telah dikeluarkan dan dipindahkan ke aset tetap yang bersangkutan pada saat selesai dan siap digunakan.

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset (dihitung sebagai perbedaan antara jumlah neto hasil pelepasan dan jumlah tercatat dari aset) diperhitungkan dalam laba rugi pada periode aset tersebut dihentikan pengakuannya.

Pada setiap akhir tahun buku, Bank melakukan penelaahan atas nilai residu, masa manfaat dan metode penyusutan dan disesuaikan secara prospektif.

Aset hak-guna dan liabilitas sewa

Pada tanggal permulaan kontrak, Bank menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan. Bank dapat memilih untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk:

- sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli;
- sewa atas aset dengan nilai rendah.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Bank harus menilai apakah:

Bank memiliki hak untuk mengoperasikan aset; dan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Normal repair and maintenance expenses are charged to the profit or loss; while renovation and betterments, which are significant and prolong the useful life of assets, are capitalized to the respective assets. The carrying amount and the related accumulated depreciation of fixed assets which are not utilized anymore or sold, are removed from the related Bank of assets, and the gains or losses are recognized in the profit or loss.

Construction in progress consists of assets that are still in progress of construction and are not ready for use yet and are intended to be used for business activity. This account is recorded based on the amount paid and transferred to the respective fixed assets when completed and ready to use.

An item of fixed asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period such asset is derecognized.

The residual values, useful lives and methods of depreciation of fixed asset are reviewed by Bank and adjusted prospectively, if appropriate, at the end of each year.

Right-of-use assets and lease liabilities

At the inception of a contract, the Bank assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration. The Bank can choose not to recognise the right-of-use asset and lease liabilities for:

- Leases with a term of less or equal to 12 months and there is no call option;
- Leases of low value assets.

To assess whether a contract conveys the right to control the use of an identified asset, the Bank shall assess whether:

The Bank has the right to operate the assets; and

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Bank telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

> Bank mengakui liabilitas sewa sebesar jumlah pembayaran sewa yang masih harus dibayar hingga akhir masa sewa yang didiskontokan dengan menggunakan suku bunga pinjaman inkremental. Sedangkan aset hak-guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai sewa, dikurangi insentif sewa yang diterima. Aset hak guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset.

Jika kepemilikan aset sewa dialihkan ke Bank pada akhir masa sewa atau pembayaran sewa mencerminkan pelaksanaan opsi pembelian, penyusutan dihitung menggunakan estimasi masa manfaat ekonomis aset. Aset hak-guna diuji penurunan nilainya sesuai dengan PSAK 48 tentang "Penurunan Nilai Aset".

Pada tanggal dimulainya sewa, Bank mengakui liabilitas sewa yang diukur pada nilai kini dari pembayaran sewa masa depan yang akan dibayarkan selama masa sewa. Pembayaran sewa termasuk pembayaran tetap (termasuk pembayaran tetap secara-substansi) dikurangi piutang insentif sewa, pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan jaminan dibayar dalam nilai residu. Pembayaran sewa juga termasuk harga eksekusi opsi pembelian yang wajar jika dipastikan akan dilakukan oleh Bank dan pembayaran penalti untuk mengakhiri sewa, jika jangka waktu sewa mencerminkan Bank mengeksekusi opsi penghentian sewa. Pembayaran sewa variabel tidak yang bergantung pada indeks atau suku bunga diakui sebagai beban pada periode di mana peristiwa atau kondisi yang memicu pembayaran terjadi.

Dalam menghitung nilai kini dari pembayaran sewa, Bank menggunakan suku bunga pinjaman inkremental penyewa pada tanggal dimulainya sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan. Setelah tanggal dimulainya sewa, jumlah liabilitas sewa

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

 The Bank has designed the assets by predetermining how and for what purpose it will be used.

The Bank recognized lease liabilities at the amount of lease payments accrued to the end of the lease term which is discounted using the incremental borrowing rate. While the right-of-use assets includes the amount of lease liabilities recognized, initial direct costs paid, restoration costs and lease payments on or before the start date of the lease, less lease incentives received. Right-of-use are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset.

If the ownership of lease asset is transferred to the Bank at the end of the lease term or the lease payments reflect the exercise of the purchase option, depreciation is calculated using the estimated useful life of the assets. Right-of-use assets are tested for impairment in accordance with PSAK 48 regarding "Impairment of Assets".

On the initial lease date, the Bank recognized lease liabilities which measured at the present value of future lease payments that will be paid over the lease term. Lease payments include fixed payments (including substantially fixed payments), less lease incentive receivables. variable lease payments that depends on index or interest rate, and the expected amount to be paid in a residual value guarantee. Lease payments also include the reasonable exercise price for the purchase option if it is determined to be made by the Bank and the payment of a penalty to terminate the lease, if the lease term reflects the Bank exercising the lease termination option. Variable lease payments that are not depends on an index or interest rate are recognized as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Bank uses the lessee's incremental borrowing rate at the inception date of the lease since the implicit interest rate in the lease cannot be determined. After the inception date of the lease, the amount of the

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

ditingkatkan untuk mencerminkan pertambahan bunga dan dikurangi pembayaran sewa yang dilakukan. Selain itu, jumlah tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan jangka waktu sewa, perubahan pembayaran sewa, atau perubahan dalam penilaian opsi untuk membeli aset pendasar.

Sewa jangka pendek (dengan jangka waktu kurang atau sama dengan 12 bulan) dan sewa aset bernilai rendah, serta elemen-elemen sewa tersebut, sebagian atau seluruhnya tidak menerapkan prinsip-prinsip pengakuan yang ditentukan oleh PSAK 73 akan diperlakukan sama dengan sewa operasi pada PSAK 30. Bank akan mengakui pembayaran sewa tersebut dengan dasar garis lurus selama masa sewa dalam laporan laba rugi dan penghasilan komprehensif lain. Beban ini dicatat pada beban umum dan administrasi dalam laporan laba rugi.

Penerapan pencatatan PSAK 73 berlaku untuk seluruh sewa (kecuali sebagaimana yang disebutkan sebelumnya), yaitu sebagai berikut:

- Menyajikan aset hak-guna sebagai bagian dari aset tetap dan liabilitas sewa disajikan sebagai bagian dari liabilitas lain-lain dalam laporan posisi keuangan, yang diukur pada nilai kini dari pembayaran sewa masa depan;
- Mencatat penyusutan aset hak-guna dan bunga atas liabilitas sewa dalam laporan laba rugi dan penghasilan komprehensif;
- Memisahkan jumlah total pembayaran ke bagian pokok (disajikan dalam kegiatan pendanaan) dan bunga (disajikan dalam kegiatan operasional) dalam laporan arus kas.

2.o. Agunan yang diambil alih

Agunan yang diambil alih disajikan dalam akun aset lain-lain.

Agunan yang diambil alih dinyatakan sebesar nilai realisasi bersih atau sebesar nilai outstanding kredit yang diberikan, mana yang lebih rendah. Nilai realisasi bersih adalah nilai wajar agunan yang diambil alih dikurangi dengan estimasi biaya untuk menjual agunan tersebut. Selisih lebih saldo kredit di atas nilai realisasi neto dari agunan yang diambil alih dibebankan ke dalam akun cadangan kerugian penurunan nilai kredit.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

lease liability is increased to reflect the interest increase and less lease payments made. Furthermore, the lease liabilities carrying amount is remeasured if there are modifications, changes in term of the lease, lease payments, or the valuation of the option to purchase the underlying asset.

Short-term leases (with term of less or equal to 12 months) and leases of low-value assets, and elements of those leases, partially or entirely not applying the recognition principles stipulated by PSAK 73 will be treated the same as operating leases in PSAK 30. The Bank will recognize these lease payments on a straight-line basis during the lease period on the statement of profit or loss and other comprehensive income. This expense is recorded under general and administrative expenses in profit or loss.

The recording implementation of PSAK 73 is applied for all leases (except as stated earlier), as follows:

- a. Presents right-of-use assets as part of fixed assets and lease liabilities presented as part of other liabilities in the statement of financial position which measured at the present value of the future lease payments;
- b. Records depreciation of right-of-use assets and interest on lease liabilities in the statement of profit or loss and other comprehensive income; and
- c. Separates the total amount of cash paid into principal portion (presented within financing activities) and interest (presented within operating activities) in the statement of cash flows.

2.o. Foreclosed assets

Foreclosed assets are presented in the other assets account.

Foreclosed assets are stated at net realizable value or stated at loan outstanding amount, whichever is lower. Net realizable value is the fair value of the foreclosed assets less estimated costs of disposing the assets. The excess of loan receivable over the net realizable value of the foreclosed assets is charged to allowance for loan impairment losses.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Selisih antara nilai agunan yang diambil alih dan hasil penjualannya diakui sebagai keuntungan atau kerugian pada saat penjualan.

> Manajemen mengevaluasi nilai agunan yang diambil alih secara berkala. Cadangan kerugian penurunan nilai pada agunan yang diambil alih dibentuk berdasarkan penurunan nilai agunan yang diambil alih.

Beban-beban sehubungan dengan perolehan dan pemeliharaan agunan yang diambil alih dibebankan pada laba rugi tahun berjalan pada saat terjadinya.

2.p. Aset lain-lain

Terdiri dari aset yang tidak material yang tidak dapat digolongkan dalam pos-pos sebelumnya. Aset lain-lain dinyatakan sebesar nilai tercatat, yaitu harga perolehan setelah dikurangi dengan akumulasi amortisasi, penurunan nilai atau cadangan kerugian.

2.q. Liabilitas segera

Liabilitas segera merupakan liabilitas Bank kepada pihak lain yang sifatnya wajib segera dibayarkan sesuai dengan perintah pemberi amanat atau perjanjian yang ditetapkan sebelumnya. Liabilitas segera dinyatakan sebesar nilai liabilitas Bank kepada pemberi amanat.

2.r. Simpanan dari nasabah dan simpanan dari Bank lain

Simpanan dari nasabah dan simpanan dari bank lain pada awalnya diukur pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

2.s. Pendapatan dan beban bunga

Pendapatan dan beban bunga diakui dalam laba rugi dengan menggunakan metode suku bunga efektif. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran dan penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat dari aset keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Bank mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The difference between the value of the foreclosed assets and the proceeds from the sale of such property is recorded as a gain or loss when the property is sold.

Management evaluates the value of foreclosed assets regularly. An allowance for possible losses on foreclosed assets are provided based on the decline in value of foreclosed assets.

Expenses in relation with the acquisition and maintenance of foreclosed assets are charged in the profit or loss in the current year.

2.p. Other assets

Represent immaterial assets that cannot be classified under the above accounts. Other assets are stated at carrying amount, which is cost less accumulated amortization, allowance for impairment losses or possible losses.

2.q. Obligations due immediately

Obligations due immediately represent the Bank's liabilities to beneficiaries that are payable immediately in accordance with the demand from the beneficiaries or as agreed upon by the Bank's and the beneficiaries. Obligation due immediately are stated at outstanding payables to the beneficiaries.

2.r. Deposits from customer and deposits from other banks

Deposits from customer and deposits from other banks are initially measured at fair value plus directly attributable transaction costs and subsequently measured at their amortized cost using the effective interest method.

2.s. Interest income and expense

Interest income and expenses are recognized in the profit or loss using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang.

> Perhitungan suku bunga efektif mencakup biaya transaksi (Catatan 2e.ii) dan seluruh imbalan/provisi dan bentuk lain yang dibayarkan atau diterima yang merupakan bagian tak terpisahkan dari suku bunga efektif.

Pendapatan dan beban bunga yang disajikan di dalam laba rugi meliputi:

a. Pendapatan dan beban bunga atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi, diakui pada laporan laba rugi dengan menggunakan metode suku bunga efektif.

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

Untuk aset keuangan yang memburuk setelah pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan dihitung dengan menerapkan tingkat bunga efektif terhadap nilai tercatat bruto dari aset keuangan tersebut.

b. Keuntungan dan kerugian yang timbul dari perubahan nilai wajar atas aset keuangan yang dikasifikasikan dalam kelompok nilai wajar melalui penghasilan komprehensif lain diakui secara langsung dalam laba rugi komprehensif (merupakan bagian dari ekuitas) sampai aset keuangan tersebut dihentikan pengakuannya atau adanya penurunan nilai, kecuali keuntungan atau kerugian akibat perubahan nilai tukar untuk instrumen utang.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The calculation of the effective interest rate includes transaction costs (Note 2e.ii) and all fees and points paid or received that are an integral part of the effective interest rate.

Interest income and expenses presented in the profit or loss include:

a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the statement of profit or loss using the effective interest method.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not a deteriorated financial asset) or to the amortized cost of a liability.

For financial assets that deteriorated after initial recognition, interest income is calculated by applying an effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will be calculated by applying an effective interest rate to the gross carrying amount of the financial asset.

b. Gains and losses arising from changes in the fair value of fair value through other comprehensive income financial assets other than foreign exchange gains or losses on debt instrument are recognized directly in other comprehensive income (as part of equity), until the financial asset is derecognized or impaired, except gain or loss arising from changes in exchanges rate for debt instrument.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Pada saat aset keuangan dihentikan pengakuannya atau dilakukan penurunan nilai, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui pada laba rugi.

2.t. Provisi dan komisi

Pendapatan dan beban provisi dan komisi yang signifikan dan merupakan bagian tak terpisahkan dari suku bunga efektif atas aset keuangan atau liabilitas keuangan dimasukkan ke dalam perhitungan suku bunga efektif.

Pendapatan provisi dan komisi lainnya termasuk provisi yang terkait dengan kegiatan perkreditan, kegiatan ekspor-impor, provisi sebagai pengatur sindikasi dan provisi atas jasa diakui pada saat jasa tersebut dilakukan.

Beban provisi dan komisi lainnya sehubungan dengan transaksi antar bank diakui sebagai beban pada saat jasa tersebut diterima.

Apabila pinjaman diselesaikan sebelum jatuh tempo, maka saldo pendapatan provisi dan komisi yang belum diamortisasi diakui pada saat pinjaman diselesaikan.

Keuntungan/(kerugian) perubahan nila wajar aset keuangan

Keuntungan/(kerugian) perubahan nilai wajar instrumen keuangan merupakan perubahan nilai wajar dari efek-efek dan instrumen derivatif yang ditetapkan pada nilai wajar melalui laba rugi.

2.v. Provisi

Provisi diakui jika, sebagai akibat peristiwa masa lalu, Bank memiliki kewajiban kini, baik bersifat hukum maupun bersifat konstruktif, yang dapat diestimasi secara andal, dan kemungkinan besar penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi.

2.w. Liabilitas imbalan pasca-kerja

i. Imbalan pasca-kerja Skema pensiun diklasifikasikan sebagai program iuran pasti atau program imbalan pasti, tergantung pada substansi ekonomi dari syarat dan kondisi utama program tersebut. Program iuran pasti adalah program pensiun yang mewajibkan Bank membayar sejumlah iuran tertentu kepada entitas terpisah.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

When a financial asset is derecognized or impaired, the cumulative gains or losses previously recognized in equity are recognized in profit or loss.

2.t. Fees and commissions

Fees and commission income and expenses that are significant and integral to the effective interest rate on financial asset or financial liability are included in the measurement of the effective interest rate.

Other fees and commission income, including credit related fees, export-import related fees, syndication lead arranger fees, and provision for services are recognized when the related services are performed.

Other fees and commission expense related mainly to inter-bank transaction are recognized as expense when the service are received.

The outstanding balances of unamortized fees and commissions on loans terminated or settled prior to maturity are recognized as income when the loans are settled.

2.u. Gain/(loss) from changes in fair value of financial assets

Gain/(loss) from changes in fair value of financial instruments represent changes in fair value of securities and derivative instruments designated at fair value through profit or loss.

2.v. Provisions

A provision is recognized if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

2.w. Post-employment benefits liability

i. Post-employment benefits

Pension schemes are classified as either defined contribution plans or defined benefit plans, depending on the economic substance of the plan as derived from its principal terms and conditions. A defined contribution plan is a pension plan under which the Bank pays fixed contributions into a separate entity.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Bank tidak memiliki kewajiban hukum atau konstruktif untuk membayar iuran lebih lanjut jika entitas tersebut tidak memiliki aset yang cukup untuk membayar seluruh imbalan atas jasa yang diberikan pekerja pada periode berjalan dan tahun-tahun sebelumnya. Program imbalan pasti adalah program pensiun yang bukan merupakan program iuran pasti. Program imbalan pasti adalah program pensiun yang menentukan jumlah imbalan pensiun yang akan diterima seorang pekerja pada saat pensiun, biasanya berdasarkan pada satu atau lebih faktor seperti usia, masa kerja, dan kompensasi.

Bank harus mencadangkan jumlah minimal imbalan pensiun sesuai dengan Undang-Undang No. 11/2020 tentang Cipta Kerja ("UUCK") sebagaimana diamendemen dengan Perpu No.2/2022 dan UU No.6/2023 atau Perjanjian Kerja ("PKB") Bersama atau Peraturan Perusahaan ("PP"), mana yang lebih tinggi. Karena UUCK atau PKB atau PP rumus menentukan tertentu untuk menghitung jumlah minimal imbalan pensiun, pada dasarnya, program pensiun berdasarkan UUCK atau PKB atau PP adalah program imbalan pasti.

Sehubungan dengan program imbalan pasti, liabilitas diakui pada laporan posisi keuangan setara dengan nilai kini kewajiban imbalan pasti pada akhir tahun pelaporan. Kewajiban imbalan pasti dihitung setiap tahun oleh aktuaris independen dengan menggunakan metode *Projected Unit Credit*.

Nilai kewajiban imbalan pasti kini ditentukan dengan mendiskontokan arus keluar yang diestimasi dengan menggunakan tingkat bunga obligasi korporat berkualitas tinggi dalam denominasi mata uang dimana imbalan akan dibayarkan dan memiliki jangka waktu jatuh tempo mendekati jangka waktu kewajiban pensiun. Apabila tidak terdapat pasar aktif untuk obligasi korporat tersebut, digunakan bunga obligasi pemerintah.

Biaya jasa lalu diakui segera dalam laba rugi. Keuntungan dan kerugian atas kurtailmen atau penyelesaian suatu program imbalan pasti diakui pada saat kurtailmen atau penyelesaian tersebut terjadi.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Bank has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. A defined benefit plan is a pension plan that is not a defined contribution plan. Typically, defined benefit plans define an amount of pension benefit that an employee will receive upon retirement, usually dependent on one or more factors such as age, years of service and compensation.

The Bank is required to provide a minimum amount of pension benefit in accordance with Law No. 11/2020 on Job Creation ("JCL") as amended by Perpu No.2/2022 and Law No.6/2023 or the Bank's Collective Labour Agreement (the "CLA") or Company Regulation ("CR"), whichever is higher. Since the JCL or the CLA or the CR sets the formula for determining the minimum amount of benefits, in substance pension plans under the JCL or the CLA or the CR represent defined benefit plans.

The liability recognized in the statement of financial position in respect of defined benefit pension plans is equivalent to the present value of the defined benefit obligation at the end of the reporting year. The defined benefit obligation is calculated annually by independent actuaries using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms of maturity approximating the terms of the related pension obligations. When there is no deep market for such bonds, the market rates of government bonds are used.

Past service costs are recognized immediately in profit or loss. Gains or losses on the curtailment or settlement of a defined benefit plan are recognized when the curtailment or settlement occurs.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Pengukuran kembali yang timbul dari penyesuaian pengalaman dan perubahan asumsi-asumsi aktuarial dibebankan atau dikreditkan pada ekuitas dalam laporan penghasilan komprehensif lain pada periode dimana beban tersebut terjadi. Akumulasi saldo pengukuran kembali dilaporkan di saldo laba.

2.x. Perpajakan

Beban pajak terdiri dari pajak kini dan tangguhan. Beban pajak diakui dalam laba rugi.

Manajemen melakukan evaluasi secara periodik atas posisi yang diambil dalam surat pemberitahuan pajak apabila terdapat situasi di mana peraturan perpajakan yang berlaku adalah subjek atas interpretasi. Bank membentuk cadangan, jika dianggap perlu, berdasarkan jumlah yang diestimasikan akan dibayarkan ke kantor pajak.

Pajak penghasilan tangguhan disajikan dengan menggunakan metode liabilitas untuk semua perbedaan temporer yang muncul antara dasar pengenaan pajak atas aset dan liabilitas dengan nilai tercatatnya dalam rangka kebutuhan laporan keuangan pada setiap tanggal pelaporan. Tarif pajak yang berlaku digunakan dalam menentukan pajak penghasilan tangguhan.

Aset pajak tangguhan diakui apabila terdapat kemungkinan besar bahwa jumlah laba pada masa mendatang akan memadai untuk mengkompensasi aset pajak tangguhan yang muncul akibat perbedaan temporer tersebut.

Perbedaan antara nilai tercatat dari aset revaluasian dan dasar pengenaan pajak merupakan perbedaan temporer sehingga menimbulkan liabilitas atau aset pajak tangguhan, kecuali untuk aset tertentu seperti tanah yang pada saat realisasinya dikenakan pajak final yang dikenakan atas nilai bruto transaksi.

Koreksi terhadap liabilitas perpajakan diakui saat surat ketetapan pajak diterima atau jika mengajukan keberatan, pada saat keputusan atas keberatan tersebut telah ditetapkan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Remeasurements arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in the statement of other comprehensive income in the period in which they arise. The accumulated remeasurements balance is reported in retained earnings.

2.x. Taxation

The tax expense comprises current and deferred tax. Tax expense is recognized in the profit or loss.

Management periodically evaluates the positions taken in tax returns with respect to situation in which applicable tax regulation is subject to interpretation. The Bank establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is determined using the liability method, for all temporary differences arises between the tax bases of assets and liabilities and their carrying values for financial reporting purposes at each reporting date. Currently enacted or substantially enacted tax rates are used to determine deferred income tax

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available to compensate the deferred tax assets that arise from temporary differences.

The difference between the carrying amount of a revalued asset and its tax base is a temporary difference that gives rise to a deferred tax liability or asset, except for certain asset such as land, which realization is taxed with final tax on gross value of transaction.

Amendments to taxation obligations are recorded when an assessment is received or, if appealed against, when the results of the appeal have been decided.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

2.y. Laba per saham

Laba per saham dasar dihitung dengan membagi laba tahun berjalan dengan rata-rata tertimbang jumlah saham biasa yang ditempatkan dan disetor penuh selama tahun yang bersangkutan, setelah memperhitungkan pembagian dividen saham dan saham bonus yang diterapkan secara restrospektif.

2.z. Program loyalitas pelanggan

Program loyalitas pelanggan digunakan Bank untuk memberikan insentif kepada pelanggan untuk membeli barang atau jasa entitas-entitas tertentu. Jika pelanggan membeli barang atau jasa entitas tertentu, maka Bank akan memberikan poin penghargaan kepada pelanggan (seringkali disebut sebagai "poin"). Pelanggan dapat menukar poin penghargaan tersebut dengan barang atau jasa secara gratis atau dengan potongan harga. Interpretasi ini berlaku untuk poin penghargaan loyalitas pelanggan yang:

- a. diberikan oleh Bank kepada pelanggannya sebagai bagian dari transaksi penjualan yaitu penjualan barang, pemberian jasa, atau penggunaan aset entitas-entitas tertentu oleh pelanggan; dan
- b. bergantung pada pemenuhan terhadap setiap kondisi lebih lanjut yang disyaratkan, pelanggan dapat menukar barang atau jasa secara gratis atau dengan potongan harga di masa depan.

2.aa. Sewa

Bank sebagai lessor

Dalam sewa menyewa operasi, Bank sebagai lessor mengakui aset untuk sewa operasi di laporan posisi keuangan sesuai sifat aset tersebut. Bank mencatat aset tersebut sebagai aset sewa operasi yang disusutkan dengan menggunakan metode garis lurus selama umur manfaat aset tersebut. Biaya langsung awal sehubungan proses negosiasi sewa operasi ditambahkan ke jumlah tercatat dari aset sewaan dan diakui sebagai beban selama masa sewa dengan dasar yang sama dengan pendapatan sewa. Rental kontinjen, apabila ada, diakui sebagai pendapatan pada tahuntahun terjadinya.

Bank sebagai *lessee*

Kebijakan akuntansi sehubungan dengan penerapan PSAK 73 dimana Bank adalah sebagai *lessee* diungkapkan pada Catatan 2n atas laporan keuangan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

2.y. Earnings per share

Earnings per share is computed by dividing income for the year with the weighted average number of outstanding common shares issued and are fully paid-up during the year, after considering effect of stock dividends and bonus shares distribution that applied retrospectively.

2.z. Customer loyalty program

Customer loyalty program is used by the Bank to provide customers with incentives to buy goods or services of certain entities. If a customer buys goods or services of certain entities, the Bank grants the customer award credits (often described as "points"). The customer can redeem the award credits for awards such as free or discounted goods or services. This interpretation applies to customer loyalty award credits that:

- a. the Bank grants its customers as part of a sales transaction, i.e. a sale of goods, rendering of services or use by a customer of certain entities' assets; and
- b. subject to fulfilment of any further qualifying conditions, the customers can redeem for free or discounted goods or services in the future.

2.aa. Lease

Bank as lessor

Under an operating lease, the Bank as a lessor presents assets subject to operating leases in its statements of financial position according to the nature of the asset. The Bank recorded those assets as assets under operating leases which is depreciated using straight-line method over the estimated useful lives of the assets. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents, if any, are recognized as revenue in the years in which they are earned.

Bank as lessee

The accounting policy related to the adoption of PSAK 73 where Bank as the lessee has been disclosed in Note 2n to the financial statements.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

2.ab. Pernyataan dan interpretasi standar akuntansi baru dan revisi yang berlaku efektif pada tahun berjalan

Berikut amendemen dan penyesuaian atas standar yang berlaku efektif untuk periode yang dimulai pada atau setelah 1 Januari 2023, dengan penerapan dini diperkenankan yaitu:

- Amendemen PSAK 1: Penyajian Laporan Keuangan tentang Pengungkapan Kebijakan Akuntansi;
- Amendemen PSAK 1: Penyajian Laporan Keuangan tentang Klasifikasi Liabilitas sebagai Jangka Panjang atau Jangka Pendek:
- Amendemen PSAK 16: Aset Tetap tentang Hasil Sebelum Penggunaan yang Diintensikan;
- Amendemen PSAK 25: Kebijakan Akuntansi, Perubahan Estimasi Akuntansi dan Kesalahan tentang Definisi Estimasi Akuntansi;
- Amendemen PSAK 46: Pajak Penghasilan tentang Pajak Tangguhan Terkait Aset dan Liabilitas Yang Timbul Dari Transaksi Tunggal; dan
- Revisi PSAK 107: Akuntansi Ijarah.

Implementasi standar-standar tersebut tidak memiliki dampak yang material terhadap jumlah yang dilaporkan di periode berjalan atau periode sebelumnya.

2.ab. New and revised statements and interpretation of financial accounting standards effective in the current year

The following are amendments and improvements to standards which effective for periods beginning on or after January 1, 2023, with early adoption is permitted, are as follows:

- Amendments to PSAK 1: Presentation of Financial Statements regarding Disclosure of Accounting Policies;
- Amendments to PSAK 1: Presentation of Financial Statements regarding Classification of Liabilities as Current or Non-Current:
- Amendments to PSAK 16: Fixed Assets Related to Proceeds Before Intended Use;
- Amendments to PSAK 25: Accounting Policies, Changes in Accounting Estimates and Errors regarding Definition of Accounting Estimates;
- Amendment to PSAK 46: Income Tax regarding Asset-Related Deferred Tax and Liabilities Arising from a Single Transaction; and
- Revised PSAK 107: Accounting for Ijara.

The implementation of the above standards had no material effect on the amounts reported for the current period or prior financial period.

3. Pertimbangan dan Estimasi Akuntansi yang Signifikan

Dalam proses penerapan kebijakan akuntansi Bank, manajemen telah melakukan pertimbangan profesional dan estimasi dalam menentukan jumlah yang diakui dalam laporan keuangan. Beberapa pertimbangan profesional dan estimasi yang signifikan adalah sebagai berikut:

3.a. Sumber utama atas ketidakpastian estimasi

Perhitungan cadangan kerugian penurunan nilai

Saat mengukur KKE, Bank menggunakan informasi masa depan yang wajar dan dapat didukung, yang didasarkan pada asumsi untuk pergerakan masa depan dari berbagai penggerak ekonomi dan bagaimana penggerak ini akan saling mempengaruhi.

3. Significant Accounting Judgments and Estimates

In the process of applying the Bank's accounting policies, management has exercised professional judgments and estimates in determining the amounts recognized in the financial statements. The several significant uses of the professional judgments and estimates are as follows:

3.a. Key sources of estimation uncertainty

Calculation of allowance for impairment losses

When measuring ECL the Bank uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Loss given default adalah estimasi kerugian yang timbul karena gagal bayar. Perhitungan didasarkan pada perbedaan antara arus kas kontraktual terutang dan yang diharapkan akan diterima, dengan mempertimbangkan arus kas dari agunan dan peningkatan kredit integral.

Probability of default merupakan input utama dalam mengukur ECL. Probability of default adalah perkiraan kemungkinan gagal bayar selama jangka waktu tertentu, yang penghitungannya mencakup data historis, asumsi, dan ekspektasi kondisi masa depan.

Estimasi Masa Sewa

Dalam mengestimasi masa sewa dari masingmasing perjanjian sewa. manaiemen mempertimbangkan seluruh fakta dan keadaan yang memberikan insentif ekonomik untuk mengeksekusi opsi perpanjangan, atau untuk mengeksekusi opsi penghentian, termasuk perubahan fakta atau keadaan yang diekspektasi dari tanggal permulaan hingga tanggal eksekusi opsi. Opsi perpanjangan (atau periode setelah opsi penghentian) hanya diperhitungkan dalam masa sewa jika sewa cukup pasti akan diperpanjang (atau tidak dihentikan).

<u>Cadangan Kerugian Penurunan Nilai atas Aset</u> Keuangan

Evaluasi atas kerugian penurunan nilai aset keuangan yang dicatat pada biaya perolehan diamortisasi dijelaskan di Catatan 2m.

Kondisi spesifik counterparty yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset keuangan dievaluasi secara individu berdasarkan estimasi manajemen atas nilai kini arus kas yang diharapkan akan diterima, baik dari waktu dan jumlah. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan, serta probabilitas rata-rata tertimbang kerugian kredit. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

Evaluasi cadangan kerugian penurunan nilai secara kolektif meliputi kerugian kredit yang melekat pada portofolio aset keuangan dengan karakteristik ekonomi yang sama, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menentukan perlunya

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit increase.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Estimation of Lease Term

When estimating the lease term of the respective lease arrangement, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option, including any expected changes in facts and circumstances from the commencement date until the exercise date of the option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

<u>Allowance for Impairment Losses on Financial</u> Assets

Financial assets accounted for at amortized cost are evaluated for impairment on the basis described in Note 2m.

In the calculation of allowance for impairment losses of financial assets, the specific condition of impaired counterparty is individually evaluated based on management's best estimate of the present value of the expected cash flows to be received, including both timing and amount. In estimating these cash flows, management makes judgements about the counterparty's financial situation and the net realizable value of any underlying collateral, including weighted average probability of credit losses. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows considered recoverable.

Collectively-assessed allowance for impairment losses cover credit losses inherent in portfolios of financial assets with similar economic characteristics but the individual impaired items cannot yet be identified. In assessing the need for collectively assessed

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> membentuk cadangan kerugian penurunan nilai kolektif, kredit secara manaiemen seperti mempertimbangkan faktor-faktor kualitas kredit, besarnya portofolio, konsentrasi kredit dan faktor-faktor ekonomi. Dalam mengestimasi cadangan yang diperlukan, asumsi-asumsi dibuat untuk menentukan model kerugian bawaan dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman historis, kondisi ekonomi saat ini, dan perkiraan kondisi ekonomi di masa depan.

> Ketepatan dari cadangan ini bergantung pada seberapa tepat estimasi arus kas masa depan untuk menentukan cadangan individual serta asumsi model dan parameter yang digunakan dalam menentukan cadangan kolektif.

Penentuan Nilai wajar

Dalam menentukan nilai wajar atas aset keuangan dan liabilitas keuangan dimana tidak terdapat harga pasar yang dapat diobservasi, Bank harus menggunakan teknik penilaian seperti dijelaskan pada Catatan 2e. Untuk instrumen keuangan yang jarang diperdagangkan dan tidak memiliki harga yang transparan, nilai wajarnya menjadi kurang obyektif dan karenanya, membutuhkan tingkat pertimbangan yang beragam, tergantung pada likuiditas, konsentrasi, ketidakpastian faktor pasar, asumsi penentuan harga, dan risiko lainnva mempengaruhi instrumen vand tertentu.

Aset Pajak Tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan.

Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan (Catatan 2x).

Penyusutan Aset Tetap

Manajemen mengestimasi masa manfaat ekonomis aset tetap Bank antara 4 sampai dengan 20 tahun. Ini merupakan masa manfaat ekonomis yang secara umum diharapkan dalam industri di mana perbankan. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya beban penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 2n dan 13.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

allowance for impairment losses, management considers factors such as credit quality, portfolio size, credit concentrations and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modeled and to determine the required input parameters, based on historical experience, current economic conditions, and forecast on future economic condition.

The accuracy of the allowances depends on how well these estimates of future cash flows for specific counterparty allowances and the model assumptions and parameters used in determining collective allowances.

Determining Fair Values

In determining the fair value for financial assets and liabilities for which there is no observable market price, Bank should use the valuation techniques as described in Note 2e. For financial instruments that are infrequently trade and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainly of market factors, pricing assumptions and other risks affecting the specific instrument.

Deferred Tax Assets

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference.

Management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future strategic planning (Note 2x).

Depreciation of Fixed Assets

Management properly estimates the useful lives of the Bank's fixed assets to be within 4 to 20 years. These are common life expectancies applied in the banking industries. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, and therefore future depreciation charges could be revised. Further details are disclosed in Notes 2n and 13.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Revaluasi Aset Tetap

Revaluasi aset tetap Bank bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Bank berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Bank dapat mempengaruhi secara material nilai aset tetap yang direvaluasi. Penjelasan lebih rinci diungkapkan dalam Catatan 13.

Imbalan Kerja

Penentuan liabilitas imbalan kerja Bank bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dan manajemen Bank dalam menghitung jumlahjumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian.

Pajak Penghasilan

Bank mengakui liabilitas atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan.

Cadangan atas Kasus Hukum

Bank sedang menghadapi kasus hukum. Sampai dengan tanggal 31 Desember 2023, proses hukum terhadap pihak ketiga yaitu PT Elnusa Tbk sudah mendapat putusan tetap dari Pengadilan. Akan tetapi, hasil putusan tersebut masih belum dapat dilaksanakan dikarenakan masih ada perkara perlawanan yang masih berjalan dan upaya perdamaian yang sedang berlangsung (Catatan 40).

Bank akan membukukan kerugian atas tuntutan hukum tersebut pada saat hasil keputusan final atas status hukum tersebut diperoleh dan akan dicatat pada laba rugi pada periode dimana hasil keputusan atas upaya perdamaian tersebut sudah final dan bisa dilaksanakan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Revaluation of Fixed Assets

The Bank's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions including discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Bank believes that its assumptions are reasonable and appropriate and significant differences in the Bank's assumptions may materially affect the valuation of its revalued fixed assets. Further details are disclosed in Note 13.

Employee Benefits

The determination of the Bank's employee benefits liability is dependent on its selection of certain assumptions used by the independent actuaries and the Bank's management in calculating such amounts. Those assumptions include among others, discount rates, future annual salary increase, annual employee turnover rate, disability rate, retirement age and mortality rate.

Income Tax

The Bank recognizes liabilities for corporate income tax based on estimation of whether additional corporate income tax will be due.

Provision on Legal Case

The Bank is facing legal case. As of December 31, 2023, legal proceedings against a third party, PT Elnusa Tbk, received the final decision from the court. However, the outcome of the decision could not yet be executed as there are still ongoing appeal and extra-judicial settlements (Note 40).

The Bank will recognize the loss on lawsuit when the result of the final decision from those cases are awarded and the loss will be recorded at the profit or loss in the period in which such final legal decision is determined.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

3.b. Pertimbangan akuntansi yang penting dalam menerapkan kebijakan akuntansi Bank

Pertimbangan akuntansi yang penting dalam menerapkan kebijakan akuntansi Bank meliputi:

Penilaian Instrumen Keuangan

Bank menggunakan hierarki berikut untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan (Catatan 44):

- Level 1 : harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.
- Level 2 : input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset dan liabilitas baik secara langsung (misalnya harga) atau secara tidak langsung;
- Level 3: input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Kebijakan akuntansi Bank untuk pengukuran nilai wajar dibahas di Catatan 2.

Nilai wajar dari aset keuangan dan liabilitas keuangan yang diperdagangkan di pasar aktif didasarkan pada kuotasi harga pasar atau kuotasi dari harga dealer. Untuk seluruh instrumen keuangan lainnya, Bank menentukan nilai wajar dengan menggunakan teknik penilaian. Teknik penilaian termasuk model dan arus sekarang kas vand didiskontokan, dan perbandingan dengan instrumen yang sejenis dimana terdapat harga pasar yang dapat diobservasi. Asumsi dan input yang digunakan dalam teknik penilaian termasuk suku bunga bebas risiko (risk-free) dan suku bunga acuan, credit spread dan variabel lainnya yang digunakan dalam mengestimasi tingkat diskonto, harga obligasi, kurs mata uang asing, serta tingkat kerentanan dan korelasi harga yang diharapkan.

Tujuan dari teknik penilaian adalah penentuan nilai wajar yang mencerminkan harga dari instrumen keuangan pada tanggal pelaporan yang akan ditentukan oleh para partisipan di pasar dalam suatu transaksi yang wajar.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

3.b. Critical accounting judgments in applying the Bank's accounting policies

Critical accounting judgments made in applying the Bank's accounting policies include:

Valuation of Financial Instruments

The Bank adopts the following hierarchy for determining and disclosing the fair value of financial instruments (Note 44):

- Level 1 : quoted (unadjusted) market prices in active market for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (example, price) or indirectly;
- Level 3: inputs for the asset and liability that are not based on observable market data (unobservable inputs).

The Bank's accounting policy on fair value measurements is discussed in Note 2.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments. the Bank determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models, and comparison to similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other variable used in estimating discount rates, bond prices, foreign currency exchange rates, level of vulnerability and expected price correlation.

The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Penilaian Model Bisnis

Klasifikasi dan pengukuran aset keuangan bergantung pada hasil 'semata dari pembayaran pokok dan bunga' ("SPPI") dan uji model bisnis (lihat bagian aset keuangan pada Catatan 3). Bank menentukan model bisnis pada tingkat yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama tertentu. untuk mencapai tujuan bisnis Penilaian ini mencakup penilaian mencerminkan semua bukti yang relevan termasuk bagaimana kinerja aset dievaluasi kinerjanya diukur, risiko memengaruhi kineria aset dan bagaimana hal ini dikelola dan bagaimana manajer aset diberi kompensasi. Bank memantau aset keuangan vang diukur pada biaya perolehan diamortisasi atau nilai waiar melalui penghasilan komprehensif dihentikan lain yang pengakuannya sebelum jatuh tempo untuk memahami alasan pelepasannya dan apakah alasan tersebut konsisten dengan tujuan bisnis di mana aset tersebut dimiliki. Pemantauan adalah bagian dari penilaian berkelanjutan Bank atas apakah model bisnis di mana aset keuangan yang tersisa dimiliki tetap sesuai dan jika tidak sesuai apakah telah terjadi perubahan dalam model bisnis dan dengan demikian terdapat perubahan prospektif terhadap klasifikasi aset keuangan tersebut. Tidak ada perubahan yang diperlukan selama periode yang disajikan.

Peningkatan Risiko Kredit yang Signifikan

Sebagaimana dijelaskan dalam Catatan 3, kerugian kredit ekspektasian diukur sebagai cadangan yang setara dengan KKE 12 bulan untuk aset tahap 1, atau KKE sepanjang umur untuk aset tahap 2 atau tahap 3. Suatu aset bergerak ke tahap 2 ketika risiko kreditnya telah meningkat secara signifikan sejak pengakuan awal. PSAK 71 tidak menjelaskan apa yang merupakan peningkatan risiko kredit yang signifikan. Dalam menilai apakah risiko kredit suatu aset telah meningkat secara signifikan, Bank mempertimbangkan informasi masa depan yang wajar dan dapat didukung secara kualitatif dan kuantitatif.

Klasifikasi Aset dan Liabilitas Keuangan

Kebijakan akuntansi Bank menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset dan liabilitas keuangan dengan mempertimbangkan definisi yang ditetapkan PSAK 71.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Business Model Assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test (please see financial assets sections of Note 3). The Bank determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Bank monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Bank's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. No such changes were required during the periods presented.

Significant Increase in Credit Risk

As explained in Note 3, expected credit losses are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PSAK 71 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Bank takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Financial Asset and Liability Classification

The Bank's accounting policies determine the classifications of certain assets and liabilities as financial assets and liabilities by considering the definition set forth in PSAK 71.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Rincian klasifikasi aset dan liabilitas keuangan Bank disajikan di Catatan 44 atas laporan keuangan.

Penurunan Nilai Aset Non-Keuangan

Bank mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- a. Performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b. Perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c. Industri atau tren ekonomi yang secara signifikan bernilai negatif.

Bank mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya untuk menjual dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Details of the Bank's classification are presented in Note 44 of the financial statements.

Impairment of Non-Financial Assets

The Bank assesses impairment of assets whenever events or changes in circumstances that would indicates that the carrying amount of an asset may not be recoverable. The factors that the Bank considers important which could trigger an impairment review include the following:

- a. Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- c. Significant negative industry or economic trends.

The Bank recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

Bank dipersyaratkan untuk memiliki Giro Wajib Minimum (GWM) dalam mata uang Rupiah dalam kegiatannya sebagai bank umum dan GWM dalam mata uang asing dalam kegiatannya melakukan transaksi mata uang asing.

GWM primer adalah simpanan minimum yang wajib dipenuhi oleh Bank dalam bentuk saldo rekening giro pada Bank Indonesia. Penyangga Likuiditas Makroprudensial (dahulu GWM sekunder) adalah cadangan minimum yang wajib dipelihara oleh Bank berupa Sertifikat Bank Indonesia (SBI), Surat Utang Negara (SUN), Surat Berharga Syariah Negara (SBSN), dan Sertifikat Rupiah Bank Indonesia (SRBI). **GWM** Rasio Intermediasi Makroprudensial (RIM) (dahulu GWM LFR) adalah tambahan simpanan minimum yang wajib dipenuhi oleh Bank dalam bentuk saldo rekening giro pada Bank Indonesia, jika RIM Bank di bawah minimum RIM target Bank Indonesia (84%) atau jika di atas maksimum RIM target Bank Indonesia (94%) dan Kewaiiban Penyediaan Modal Minimum (KPMM) Bank lebih kecil dari KPMM Insentif Bank Indonesia sebesar 14%.

Pada tanggal 31 Desember 2023 dan 2022, Giro Wajib Minimum (GWM) Bank telah sesuai dengan Peraturan Bank Indonesia (PBI) No. 20/3/PBI/2018 tanggal 29 Maret 2018 tentang Giro Wajib Minimum Bank Umum Dalam Rupiah dan Valuta Asing Bagi Bank Umum Konvensional sebagaimana telah diubah dengan PBI No.22/3/PBI/2020 tanggal 24 Maret 2020; PBI No.22/10/PBI/2020 tanggal 28 Juli 2020; PBI No.23/16/PBI/2021 tanggal 21 Desember 2021; dan terakhir kali melalui PBI No.24/4/PBI/2022 tanggal 01 Maret 2022 yang dijelaskan melalui Peraturan Anggota Dewan

The Bank is required to maintain minimum statutory reserves (GWM) in Rupiah for conventional banking activities and statutory reserves in foreign currencies for foreign exchange transactions.

Primary minimum statutory reserve is a minimum reserve that should be maintained by the Bank in current accounts with Bank Indonesia. Macroprudential Liquidity Buffer (formerly secondary minimum statutory reserve) whichis the minimum reserves that should be maintained by the Bank, comprised of Certificates of Bank Indonesia (SBI), Government Debenture Debt (SUN), Sharia Government Securities (SBSN), and Bank Indonesia Rupiah Securities (SRBI). The minimum statutory reserve on Macroprudential Intermediation Ratio (RIM) (formerly minimum statutory reserve on LFR) is the additional reserve that should be maintained by the Bank in the form of current accounts with Bank Indonesia, if the Bank's RIM is below the minimum of RIM targeted by Bank Indonesia (84%) or if the Bank's RIMis above the maximum of RIM targeted by Bank Indonesia (94%) and the Capital Adequacy Ratio (CAR) is below Bank Indonesia requirement of 14%.

As of December 31, 2023 and 2022, the Bank's Statutory Reserves (GWM) have complied with Bank Indonesia Regulation (PBI) No. 20/3/PBI/2018 dated March 29, 2018 concerning Statutory Reserves for Commercial Banks in Rupiah and Foreign Exchange for Banks Conventional General as amended through PBI No.22/3/PBI/2020 dated March 24, 2020; PBI No.22/10/PBI/2020 dated July 28, 2020; PBI No.23/16/PBI/2021 dated December 21, 2021; and latest amendment through PBI No.24/4/PBI/2022 dated March 01, 2022 which explained by Regulation of the

Pada tanggal 31 Desember 2023 dan 2022, harus memenuhi juga No.20/4/PBI/2018 tanggal 29 Maret 2018 tentang Rasio Intermediasi Makroprudensial dan Penyangga Likuiditas Makroprudensial bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Konvensional, Bank Umum Syariah dan Unit Usaha Syariah sebagaimana telah diubah dengan PBI No.21/12/PBI/2019 November tanggal 26 2019: No.22/17/PBI/2020 tanggal 01 Oktober 2020; dan terakhir kali melalui PBI No.23/17/PBI/2021 tanggal 22 Desember 2021 yang dijelaskan melalui Peraturan Anggota Dewan Gubernur No.21/22/PADG/2019 tanggal 28 November 2019 yang telah diubah dengan PADG No.22/30/PADG/2020 tanggal 05 Oktober 2020; PADG No.23/7/PADG/2021 tanggal 28 April 2021; PADG No.24/14/PADG/2022 tanggal 1 November 2022; PADG Nomor 10 tahun 2023 tanggal 14 September 2023; dan terakhir kali diubah dengan PADG Nomor 18 tahun 2023 tanggal 1 Desember 2023.

As of December 31, 2023 and 2022, the Bank must also comply with PBI No.20/4/PBI/2018 2018 March 29. concernina Macroprudential Intermediation Ratios and Macroprudential Liquidity **Buffers** Conventional Commercial Banks. Sharia Commercial Banks, and Conventional Units, Sharia Commercial Banks and Sharia Business Units as amended through PBI No.21/12/PBI/2019 dated November 26, 2019; PBI No.22/17/PBI/2020 dated October 01, 2020: and latest amendment through PBI No. 23/17/PBI/2021 dated December 22, 2021 which explained by the Regulation of Members of the Board of Governors No.21/22/PADG/2019 dated November 28, 2019 which has been amended through PADG No.22/30/PADG/2020 dated October 05, 2020; No.23/7/PADG/2021 dated April 28, 2021; PADG No.24/14/PADG/2022 dated November 1, 2022; PADG No.10 year 2023 dated September 14, 2023; and latest amendment through PADG No.18 year 2023 dated December 1, 2023.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Bank juga mendapatkan insentif likuiditas makoprudensial berdasarkan PADG No.24/12/PADG/2022 tertanggal 20 Juli 2022 sebagaimana diubah dengan PADG No.11 tahun 2023 tanggal 27 September 2023 tentang Peraturan Pelaksanaan Kebijakan Insentif Likuiditas Makroprudensial.

Rasio GWM Bank pada tanggal 31 Desember 2023 dan 2022 adalah sebagai berikut (tidak diaudit):

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Banks also receive macroprudential liquidity incentives based on PADG No.24/12/PADG/2022 dated July 20, 2022 as amended by PADG No.11 of 2023 dated September 27, 2023 concerning Implementation Regulations for Macroprudential Liquidity Incentive Policies.

As of December 31, 2023 and 2022, the GWM ratios of the Bank are as follows (unaudited):

	2023	2022	
Rupiah			Rupiah
- GWM Primer	8.09%	9.47%	Primary Reserves -
Harian	0.00%	0.00%	Daily
Rata-rata *)	6.88%	7.85%	Average
- RIM (d/h GWM LFR)	1.21%	1.62%	RIM (Formerly LFR Reserve) -
 PLM (d/h GWM Sekunder) 	39.94%	33.92%	PLM (Formerly Secondary Reserves) -
Mata uang asing			Foreign currencies
- GWM Primer	4.05%	4.03%	Primary Reserves -
Harian	2.00%	2.00%	Daily
Rata-rata	2.05%	2.03%	Average

*) Perhitungan GWM rata-rata 31 Desember 2023 dan 2022 telah memperhitungkan insentif sektor prioritas dan insentif RPIM yang diterima oleh Bank dengan total sebesar 2,20% dan 1,20%. Dengan demikian, Bank telah memenuhi ketentuan Bank Indonesia.

Informasi mengenai jatuh tempo diungkapkan pada Catatan 45e. Informasi mengenai klasifikasi dan nilai wajar diungkapkan pada Catatan 44.

*) The calculation of the average of the Minimum Statutory Reserve requirement for December 31, 2023 and 2022 has taken into account priority sector incentives and RPIM incentives received by the Bank by total amounted to 2.20% and 1.20%, respectively. Thus, the Bank has complied with Bank Indonesia regulations.

Information in respect of maturities is disclosed in Note 45e. Information with regards to the classification and fair value is disclosed in Note 44.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Giro pada bank lain dalam mata uang Rupiah (kecuali giro Rupiah pada bank lain untuk wilayah Indonesia Bagian Timur), Dolar Hong Kong, Yen Jepang, Dolar Selandia Baru, Franc Swiss, Poundsterling Inggris dan Euro Eropa tidak mendapatkan bunga. Tingkat suku bunga rata-rata setahun untuk giro pada bank lain dalam Rupiah dan mata uang asing lainnya adalah sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Current accounts with other banks in Rupiah (except for Rupiah current accounts with other banks in East Region of Indonesia), Hong Kong Dollar, Japanese Yen, New Zealand Dollar, Swiss Franc, Great Britain Poundsterling and European Euro are non-interest bearing accounts. The average interest rates per annum for current accounts with other banks in Rupiah and other foreign currencies are as follows:

	2023	2022	
Rupiah	0.43%	0.28%	Rupiah
Mata uang asing			Foreign currencies
Dolar Amerika Serikat	0.02%	0.01%	United States Dollar
Yuan Cina	0.72%	0.75%	Chinese Yuan
Dolar Singapura	0,03%	0.03%	Singapore Dollar
Poundsterling Inggris	2.87%	0.45%	Great Britain Poundsterling
Euro Eropa	1.89%	0.05%	European Euro

Berdasarkan hasil penelaahan dan evaluasi manajemen Bank, seluruh giro pada bank lain digolongkan lancar. Based on Bank's management's review and evaluation, all current account with other banks are classified as current.

Manajemen Bank berpendapat bahwa cadangan kerugian penurunan nilai untuk tahun 2023 dan 2022 telah memadai.

Informasi mengenai jatuh tempo diungkapkan pada Catatan 45e. Informasi mengenai klasifikasi dan nilai wajar diungkapkan pada Catatan 44.

Pada tanggal 31 Desember 2023 dan 2022, tidak terdapat giro pada bank lain yang dijaminkan.

The Bank's management believed that allowance for impairment losses in 2023 and 2022 is adequate.

Information in respect of maturities are disclosed in Note 45e. Information with regards to the classification and fair value are disclosed in Note 44.

As of December 31, 2023 and 2022, there were no current accounts with other banks which were pledged.

7. Penempatan pada Bank Indonesia dan Bank

Penempatan pada Bank Indonesia dan bank lain terdiri dari:

perusahaan yang merupakan			companies' directors
pihak berelasi	59,624	61,536	and commissioners
Total	1,318,592	880,897	Total

Pinjaman direksi dan karyawan Bank merupakan kredit yang diberikan untuk pembelian kendaraan dan rumah serta kartu kredit dengan jangka waktu yang berkisar antara 1 (satu) sampai dengan 15 (lima belas) tahun dengan suku bunga setahun rata-rata berkisar antara 5,75%-10,00% dan 0,00%-9,50% untuk tahun 2023 dan 2022, yang dilunasi melalui pemotongan gaji setiap bulan. Pada tanggal 31 Desember 2023 dan 2022, pinjaman direksi dan karyawan bank tersebut digolongkan lancar.

Loans to the Bank's directors and employees represent loans granted for car loans, housing loans and credit cards with terms ranging from 1 (one) to 15 (fifteen) years with an average loan interest of between 5.75%-10.00% and 0.00%-9.50% per annum in 2023 and 2022, respectively, which are collected through monthly payroll deductions. As of December 31, 2023 and 2022, loans to the Bank's director and employees are classified as current.

g. Rincian kredit yang direstrukturisasi (meliputi modifikasi persyaratan kredit dan perpanjangan jatuh tempo) pada 31 Desember 2023 dan 2022 adalah sebagai berikut: g. Summary of restructured loan (which consist of modification of credit terms and extension of maturity dates) as of December 31, 2023 and 2022 were as follows:

	2023	2022	
Kredit yang direstrukturisasi	3,401,313	5,177,609	Restructuring loan
Cadangan kerugian penurunan nilai	(222,673)	(263,640)	Allowance for impairment losses
Total	3,178,640	4,913,969	Total

Termasuk dalam saldo 31 Desember 2023 dan 2022, kredit yang direstrukturisasi masing-masing sebesar Rp1.017.338 dan Rp3.844.195 merupakan kredit yang direstruktur terkait dampak dari pandemi Covid-19.

Included in the balance of December 31, 2023 and 2022, restructured loans amounting to Rp1,017,338 and Rp3,844,195, respectively, which are restructured loans related to the impact of the Covid-19 pandemic.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- h. Pada tanggal 31 Desember 2023 dan 2022, jumlah kredit yang telah dihentikan pengakuan pendapatan bunganya (kredit bermasalah) masing-masing sebesar Rp1.042.180 dan Rp858.632 atau sebesar 1,57% dan 1,23% dari jumlah kredit yang diberikan.
- Pinjaman sindikasi
 Pinjaman sindikasi merupakan pinjaman yang diberikan kepada debitur berdasarkan perjanjian pembiayaan bersama dengan bank bank lain.

Keikutsertaan bank dalam pinjaman sindikasi dengan bank-bank lain adalah sebesar Rp4.022.880 dan Rp4.539.994 masing-masing pada tanggal 31 Desember 2023 dan 2022.

Keikutsertaan bank dalam pinjaman sindikasi, dimana bank bertindak sebagai anggota sindikasi adalah sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- h. As of December 31, 2023 and 2022, total loans which interest income therein have ceased to accrue (non-performing loans) amounted to Rp1,042,180 and Rp858,632, or representing 1.57% and 1.23% of total loans, respectively.
- Syndicated loans
 Syndicated loans represent loans provided to
 debtors based on syndication agreements with
 other banks.

Bank's participation in syndicated loans with other banks amounted to Rp4,022,880 and Rp4,539,994 as of December 31, 2023 and 2022, respectively.

Bank's participation in syndicated loans, in which bank acts as the syndication member, is as follows:

2023	2022
% Partisipasi 0.14%-13.6%	1.00%-25.00%

Aset tetap

Beban penyusutan aset tetap yang dibebankan pada tahun yang berakhir pada tanggal-tanggal 31 Desember 2023 dan 2022 masing-masing sebesar Rp270.221 dan Rp227.196 (Catatan 32).

Fixed assets

The depreciation expense for the years ended December 31, 2023 and 2022 amounted to Rp270,221 and Rp227,196, respectively (Note 32).

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Pada tanggal 31 Desember 2023, hak atas tanah yang dimiliki oleh Bank merupakan Hak Guna Bangunan (HGB) dan Hak Milik atas Satuan Rumah Susun (HMASRS) dengan sisa umur hak atas tanah tersebut berkisar antara 1 sampai dengan 30 tahun dan dapat diperpanjang. Pada tanggal 31 Desember 2023, tanah dengan luas sebesar 8.171 m2 masih dalam pengurusan penggabungan dan pembetulan sertifikat serta balik nama menjadi atas nama Bank di Badan Pertanahan Nasional Republik Indonesia (BPN-RI).

Manajemen berpendapat bahwa kepemilikan hak atas tanah tersebut dapat diperbarui/diperpanjang pada saat jatuh tempo.

Ruangan kantor yang disewakan kepada pihak berelasi (Catatan 14a) disajikan sebagai bagian dari aset tetap karena nilai buku dari ruangan yang disewakan tersebut tidak signifikan.

Aset tetap, kecuali aset dalam penyelesaian dan tanah, diasuransikan terhadap risiko kebakaran dan risiko lainnya berdasarkan suatu paket polis tertentu dengan nilai pertanggungan masing-masing sebesar Rp2.451.945 dan Rp2.446.432 pada tanggal 31 Desember 2023 dan 2022. Manajemen Bank berpendapat bahwa nilai pertanggungan tersebut cukup untuk menutupi kemungkinan kerugian atas aset yang dipertanggungkan.

Pada tanggal 31 Desember 2023 dan 2022, jumlah tercatat bruto dari setiap aset tetap yang telah disusutkan penuh dan masih digunakan masing-masing adalah sebesar Rp1.298.197 dan Rp1.188.210.

Manajemen Bank berpendapat bahwa tidak terdapat indikasi penurunan nilai atas aset tetap di atas pada tanggal 31 Desember 2023 dan 2022.

Pada tanggal 31 Desember 2015, Bank melakukan perubahan kebijakan akuntansi atas tanah dan bangunan dari sebelumnya menggunakan model biaya menjadi model revaluasi.

Berdasarkan keputusan Ketua Badan Pengawas Pasar Modal Dan Lembaga Keuangan No. KEP-347/BL/2012 tanggal Juni 2012 tentang Penyajian Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik butir 27.e, mempertimbangkan nilai buku aset tetap (tanah dan bangunan) yang telah dilakukan revaluasi tahun 2018, maka per tanggal

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

As of December 31, 2023, land titles are in the form of "Hak Guna Bangunan" (HGB) and "Hak Milik Atas Satuan Rumah Susun" (HMASRS - Strata title) with remaining terms for the related landrights ownership ranging from 1 to 30 years and renewable upon their expiry. As of December 31, 2023, land of 8,171 sqm are in the process of merging, certificates correction and transfer of title into the Bank's name by the National Landrights Agency - the Republic of Indonesia (BPN-RI).

Management believes the ownership of land rights can be renewed/extended on maturity.

Office spaces that are rented out to related parties (Note 14a) were presented as part of fixed assets since the book value of rented spaces were not significant.

Fixed assets, except for construction in progress and land, were covered by insurance against fire and other risks under certain blanket policies with insured amount of Rp2,451,945 and Rp2,466,432 as of December 31, 2023 and 2022, respectively. The Bank's management believed that the insurance coverage was adequate to cover possible losses on the assets insured.

As of December 31, 2023 and 2022, the gross amount of fixed assets which have been fully depreciated and are still being used amounted to Rp1,298,197 and Rp1,188,210, respectively.

The Bank's management believes that there was no impairment indication on the above fixed assets as of December 31, 2023 and 2022.

On December 31, 2015, the Bank changed its accounting policy for land and buildings from cost model to revalution model.

Based on Decision of Chairman of Bapepam and LK No. KEP-347/BL/2012 dated June 25, 2012, about the presentation and disclosure in financial report of issuer or a public company in point 27.e, by considering the book value of fixed assets (land and buildings) that have been conducted revaluation in 2018, therefore on December 31, 2022, the Bank assigned registered independent appraisers to appraise

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

31 Desember 2022 Bank telah menugaskan perusahaan jasa penilai terdaftar untuk melaksanakan penilaian (revaluasi) aset tetap (tanah dan bangunan). Bank melakukan penilaian kembali atas tanah dan bangunan tersebut bukan untuk tujuan perpajakan tetapi hanya untuk pemenuhan ketentuan Bapepam dan LK tersebut.

Penilaian terakhir atas tanah dan bangunan dilakukan oleh penilai independen eksternal KJPP Ruky, Safrudin & Rekan, dalam laporannya tertanggal 29 Desember 2022. Manajemen Bank berpendapat bahwa tidak terdapat perubahan nilai wajar yang signifikan dari aset tetap yang direvaluasi pada tanggal 31 Desember 2023.

Penilaian dilakukan berdasarkan Standar Penilaian Indonesia, ditentukan berdasarkan transaksi pasar terkini dan dilakukan dengan ketentuan-ketentuan yang lazim. Metode penilaian yang dipakai adalah metode data pasar, metode biaya dan metode pendapatan.

Informasi mengenai penilaian kembali aset tetap pada tanggal 31 Desember 2022 untuk kelompok aset tanah dan bangunan yang dilakukan oleh Bank adalah sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

(revaluate) its fixed assets (land and buildings). The Bank has revalued the value of its land and buildings not for tax purpose rather for the compliance of the above mentioned Bapepam and LK regulation.

The latest valuations of land and building are performed by KJPP Ruky, Safrudin & Rekan as external independent valuer, on its report dated December 29, 2022. The Bank's management believes that there was no significant change in fair value of revalued of fixed assets as of December 31, 2023.

Valuations are performed based on Indonesian Valuation Standards, determined based on reference to recent market transactions done on arm's length terms and appropriate requirements. The valuation methods used are market value approach, cost approach and income approach.

Information on the revaluation of land and buildings as of December 31, 2022 performed by the Bank are as follows:

31 Desem	iber 2022/December 31, 2022		
Nilai buku	Nilai buku

Untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022, Bank mencatat laba atas pelepasan aset tetap adalah sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

For the years ended December 31, 2023 and 2022, respectively, the Bank recorded gains from disposal of fixed assets are as follows

	2023	2022	
Hasil penjualan bersih	834	394	Net sales proceed
Nilai buku	(240)	(77)	Book value
Laba atas pelepasan aset tetap	594	317	Gains from disposal of fixed assets

Laba yang timbul dari hasil penjualan aset tetap dicatat sebagai bagian dari akun pendapatan non-operasional-neto pada laba rugi.

D - --- - -- 4 - - -

Gains from disposal of fixed assets were recognized as part of non-operating income - net" in profit or loss.

Aset tetap dalam penyelesaian terdiri dari:

Constructions in-progress consist of the following:

31 Desember 2023	Persentase Penyelesaian (tidak diaudit)/ Completion Percentage (unaudited)	<i>Nilai Tercatat/</i> Carrying Value	Perkiraan Waktu Penyelesaian/ Estimated Time of Completion	December 31, 2023
Peralatan kantor Perbaikan gedung Total	15%-80% 99% _	16,177 1,821 17,998	2024-2025 2024-2025	Office equipment Building improvements Total
31 Desember 2022	Persentase Penyelesaian (tidak diaudit)/ Completion Percentage (unaudited)	<i>Nilai Tercatat/</i> Carrying Value	Perkiraan Waktu Penyelesaian/ Estimated Time of Completion	December 31, 2022
Peralatan kantor Perbaikan gedung Total	15%-99% 30%-99% -	3,533 1,972 5,505	2023-2024 2023-2024	Office equipment Building improvements Total

Persentase tingkat penyelesaian aset dalam penyelesaian pada tanggal 31 Desember 2023 berkisar antara 15% - 80% (2022: 15% - 99%) dari nilai kontrak. Aset dalam penyelesaian terdiri dari bangunan dan peralatan kantor dan diperkirakan akan selesai dalam waktu kurang dari 1 sampai 2 tahun setelah tanggal laporan posisi keuangan.

Manajemen tidak mengantisipasi akan ada kesulitan dalam penyelesaian pembangunan pada waktu yang ditargetkan.

Aset hak-guna

Bank memiliki kontrak sewa untuk bangunan yang digunakan dalam operasi Bank yang dicatat sebagai aset hak-guna. Sewa bangunan umumnya memiliki jangka waktu sewa antara 2 sampai 5 tahun.

The percentage of completion of the constructions in progress as of December 31, 2023 ranges from 15% - 80% (2022: 15% - 99%) of the contract values. Constructions in progress consist of buildings and furniture and fixtures and are estimated to be completed in less than 1 year up to 2 years after the statement of financial position date.

The management does not anticipate any difficulties in the completion of the above facilities at targeted time.

Right-of-use assets

The Bank has lease contracts for buildings used in the Bank's operations. Building leases generally have a lease term of 2 to 5 years.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Beban penyusutan aset hak-guna yang dibebankan untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2023 dan 2022 masing-masing sebesar Rp45.431 dan Rp47.547 (Catatan 32).

Pada tanggal 31 Desember 2023 dan 2022, jumlah tercatat liabilitas sewa adalah sebesar Rp19.991 dan Rp23.720 (Catatan 24).

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The depreciation expense for the years ended December 31, 2023 and 2022 amounted to Rp45,431 and Rp47,517, respectively (Note 32).

As of December 31, 2023 and 2022, the carrying amount of lease liabilities was Rp19,991 and Rp23,720 (Note 24), respectively.

For the years ended December 31, 2023 and 2022, the rent income recognized amounted to Rp33,100 and Rp37,025 respectively, were recorded as part of non-operating income in profit or loss (Note 34 and 39).

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain) PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

> For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- b. Pada tanggal 31 Desember 2023 dan 2022, agunan yang diambil alih berdasarkan kolektibilitas adalah sebagai berikut:
- b. As of December 31, 2023 and 2022, foreclosed assets based on collectibility are as follows:

	2023	2022	
Lancar	633,910	946,302	Current
Kurang lancar	137,450	73,082	Sub standard
Diragukan	554,306	370,112	Doubtful
Macet	10,937	10,937	Loss
Saldo akhir tahun	1,336,603	1,400,433	Ending balance
Cadangan kerugian penurunan nilai	(9,525)	(9,139)	Allowance for impairment losses
Neto	1,327,078	1,391,294	Net

Ikhtisar perubahan cadangan kerugian penurunan nilai atas agunan yang diambil alih adalah sebagai berikut:

The movements of the allowance for impairment losses of foreclosed assets are as follows:

2023	2022	
9,139	8,749	Beginning balance
		Additional of provision during
386	390	the year (Note 31)
9,525	9,139	Ending balance
	9,139	9,139 8,749 386 390

Manajemen Bank berpendapat bahwa jumlah cadangan kerugian penurunan nilai atas agunan yang diambil alih telah memadai dan nilai tercatat agunan yang diambil alih tersebut merupakan nilai bersih yang dapat direalisasi.

The Bank's management believes that the allowance for impairment losses of foreclosed assets was adequate and recorded at its net realizable value.

- c. Sehubungan dengan kasus PT Elnusa Tbk, Bank telah memblokir Surat Utang Negara ("SUN") sebesar Rp111.000 seperti yang diwajibkan dalam Surat Bank Indonesia No. 13/26/DPBI1/PPBI1-2/Rahasia tanggal 24 Mei 2011. Selain itu, berdasarkan Surat dari Otoritas Jasa Keuangan No.S-75/PB/311/2023 tertanggal 8 November 2023, Bank juga diwajibkan memblokir SUN sebesar Rp95.630, sehingga total SUN yang diblokir pada 31 Desember 2023 sebesar Rp206.630. Karena pemblokiran tersebut, SUN tersebut disajikan sebagai aset lain-lain dan bukan sebagai bagian dari efek-efek (Catatan 40).
- c. In relation with the case of PT Elnusa Tbk, the Bank has put certain Government Debenture Debt ("SUN") as restricted asset amounting to Rp111,000 as required by Bank Indonesia ("BI") under Letter No. 13/26/DPBI1/PPBI1-2/Rahasia dated May 24, 2011. In addition, based on Letter from the Financial Services Authority No.S-75/PB/311/2023 dated November 8 2023, the Bank are also required to restricted SUN amounting to Rp95,630, so the total restricted SUN as of December 31 2023 is Rp206,630. Because of this restriction, such SUN were presented as part of other assets and not as securities (Note 40).

15. Liabilitas Segera

15. Obligations Due Immediately

Liabilitas segera terutama terdiri dari transaksi kliring atau transfer nasabah yang belum diselesaikan dan titipan pembayaran pajak yang belum dilimpahkan ke rekening Kantor Perbendaharaan dan Kas Negara ("KPKN") sehubungan dengan kegiatan operasional Bank sebagai Bank Persepsi.

Obligations due immediately mainly consist of clearing transactions or unsettled customers' money transfer and deposit of tax payments which has not yet been transferred to the account of Kantor Perbendaharaan dan Kas Negara ("KPKN") in relation with the Bank's function as Collecting Bank.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Pada tanggal 29 Oktober 2021, Pemerintah menerbitkan Undang-Undang No. 7 Tahun 2021 tentang Harmonisasi Peraturan Perpajakan dimana salah satu klausa dalam peraturan ini adalah penyesuaian tarif pajak badan untuk tahun 2022 dan seterusnya menjadi 22%. Bagi wajib pajak yang memenuhi ketentuan Peraturan Menteri Keuangan No. 238/PMK.03/2008 tanggal 30 Desember 2008 dapat memperoleh fasilitas penurunan tarif pajak sebesar 3%.

Berdasarkan PMK 238/2008, perseroan terbuka dalam negeri dapat memperoleh penurunan tarif Pajak Penghasilan sebesar 5% lebih rendah dari tarif tertinggi Pajak Penghasilan sebagaimana diatur dalam Pasal 17 ayat 1b ("Undang-undang Pajak Penghasilan"), jika memenuhi kriteria yang ditentukan, sebagai berikut:

- Apabila jumlah kepemilikan saham publiknya 40% (empat puluh persen) atau lebih dari keseluruhan saham yang disetor dan saham tersebut dimiliki paling sedikit oleh 300 (tiga ratus) pihak.
- Masing-masing pihak hanya boleh memiliki saham kurang dari 5% (lima persen) dari keseluruhan saham yang disetor dalam waktu paling singkat 6 (enam) bulan atau 183 (seratus delapan puluh tiga) hari kalender dalam jangka waktu 1 (satu) tahun pajak.
- 3. Wajib Pajak harus melampirkan Surat Keterangan dari Biro Administrasi Efek pada Surat Pemberitahuan Tahunan PPh WP Badan dengan melampirkan formulir X.H.1-6 sebagaimana diatur dalam Peraturan BAPEPAM LK Nomor X.H.1 untuk setiap tahun pajak terkait.

Manajemen berkeyakinan bahwa Bank telah memenuhi kriteria-kriteria tersebut di atas dan oleh karena itu Bank telah menerapkan penurunan tarif pajak dalam perhitungan pajak penghasilan tahun 2023 dan 2022. Dengan demikian, Bank telah menghitung pajak penghasilan badan untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022 menggunakan tarif pajak 19%.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

On October 29, 2021, the Government issued Law No. 7 of 2021 concerning the Harmonization of Tax Regulations, one of the clauses in the regulation governs the adjustment of tax rate to 22% for the year 2022, onwards. For any taxpayer who meets the Regulation of Minister of Finance No. 238/PMK.03/2008 dated December 30, 2008 are eligible of the tax deduction facility of 3%.

Under the PMK 238/2008, domestic public companies can apply for tax reduction of 5% lower than the highest income tax rate as stated in point 1b of article 17 of the Income Tax Law if the following criteria are met:

- Total publicly-owned shares covers 40% or more of the total paid-up shares and such shares are owned by at least 300 (three hundred) parties.
- Each party can only own less than 5% shares of the total paid-up shares within a minimum of 6 (six) months or 183 (one hundred eighty three) calendar days in 1 (one) tax/fiscal year.
- 3. The Tax Payer should attach the Declaration Letter ("Surat Keterangan") from the Securities Administration Bureau ("Biro Administrasi Efek") to the Annual Income Tax Return of the Tax Payer with the form X.H.1-6 as provided in BAPEPAM LK Regulation No. X.H.1 for each respective tax/fiscal year.

Management believe that the Bank has complied with the above mentioned criteria; accordingly, the Bank has applied the tax reduction in its 2023 and 2022 income tax calculation. Hence, the Bank has calculated the corporate income tax for the year ended December 31, 2023 using a tax rate of 19%.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- f. Pajak tangguhan dihitung berdasarkan pengaruh dari perbedaan temporer antara jumlah tercatat aset dan liabilitas menurut laporan posisi keuangan komersial dengan dasar pengenaan pajak aset dan liabilitas. Rincian dari aset (liabilitas) pajak tangguhan adalah sebagai berikut:
- PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

f. Deferred tax is calculated based on temporary differences between the carrying value of total assets and liabilities recorded according to the commercial statements of financial positions and tax bases of assets and liabilities. Details of deferred tax assets (liabilities) are as follows:

Untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022, jumlah beban bunga dari pihak berelasi masing-masing sebesar Rp46.167 dan Rp69.702 (Catatan 39).

Sehubungan dengan liabilitas bank umum yang dijamin oleh Program Penjaminan Pemerintah. Pemerintah Republik Indonesia telah sebuah lembaga mendirikan. independen berdasarkan **Undang-Undang** Republik Indonesia No. 24 tahun 2004 tanggal 22 September 2004. Berdasarkan peraturan ini, Lembaga Penjamin Simpanan (LPS) menjamin dana masyarakat termasuk dana dari bank lain dalam bentuk giro, deposito, sertifikat deposito, tabungan dan/atau bentuk lainnya yang dipersamakan dengan itu.

Pada tanggal 13 Oktober 2008, Presiden Republik Indonesia menetapkan Peraturan Pemerintah No. 66 Tahun 2008 tentang besaran nilai simpanan yang dijamin LPS. Berdasarkan peraturan tersebut, nilai simpanan yang dijamin untuk setiap nasabah pada satu Bank yang semula berdasarkan Undangundang No. 24 Tahun 2004 ditetapkan maksimum Rp100.000.000 (nilai penuh) diubah

For the years ended December 31, 2023 and 2022, total interest expense from related parties amounted to Rp46,167 and Rp69,702, respectively (Note 39).

In connection with the commercial bank obligations guaranteed Government by Guarantee Program. the Indonesian Government has established an independent institution in accordance with the Republic of Indonesia Law No. 24 year 2004 dated September 22, 2004. Under this Law, The Deposit Guarantee Institution (Lembaga Penjamin Simpanan/LPS), guarantees third parties deposits including deposits from other banks in the form of demand deposits, time deposits, certificates of deposit, saving deposits and/or other equivalent forms.

On October 13, 2008, the President of the Republic of Indonesia approved Government Regulation No. 66 Year 2008 regarding the amount of deposits guaranteed by LPS. Based on such regulation, the customers' guaranteed deposit in a Bank which was previously regulated under Law No. 24 Year 2004 amounted to a maximum of Rp100,000,000 (full amount) was amended to a maximum of

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

menjadi maksimum Rp2.000.000.000 (nilai penuh). Pada tanggal 31 Desember 2023 dan 2022, Bank adalah peserta dari program penjaminan tersebut.

Bank telah melakukan pembayaran premi Program Penjaminan Pemerintah Terhadap Kewajiban Pembayaran Bank Umum masingmasing sebesar Rp196.601 dan Rp195.572 untuk tahun 2023 dan 2022 yang dicatat sebagai beban pembiayaan lainnya.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Rp2,000,000,000 (full amount). As of December 31, 2023 and 2022, Bank was a participant of above guarantee program.

The Bank has paid the premium on the Government Guarantee Program for Obligation of Commercial Banks amounting to Rp196,601 and Rp195,572 for the year ended in 2023 and 2022, respectively, which was recorded as other financing charges.

- Wilayah Jakarta terdiri dari seluruh kantor cabang dan kantor cabang pembantu di Jabodetabek dan provinsi Banten.
- Wilayah Bandung terdiri dari seluruh kantor cabang dan kantor cabang pembantu di provinsi Jawa Barat.
- Wilayah Medan terdiri dari seluruh kantor cabang dan kantor cabang pembantu di Sumatera dan Batam.
- Wilayah Semarang terdiri dari seluruh kantor cabang dan kantor cabang pembantu di provinsi Jawa Tengah.
- Wilayah Surabaya terdiri dari seluruh kantor cabang dan kantor cabang pembantu di provinsi Jawa Timur, Bali dan Nusa Tenggara.
- Wilayah Makassar terdiri dari seluruh kantor cabang dan kantor cabang pembantu di Sulawesi, Maluku dan Papua.
- Wilayah Banjarmasin terdiri dari seluruh kantor cabang dan kantor cabang pembantu di Kalimantan.

38. Operating Segment

The Bank performs geographical segment analysis whereby management reviews monthly management internal report for each area. The following summary describes each of the Bank's geographical area:

- Head Office consists of Treasury, Card Center and other functional divisions, whereas it includes assets, liabilities, income and expenses that cannot be allocated.
- Jakarta region consists of all branches and sub-branches in Jabodetabek and Banten province.
- Bandung region consists of all branches and sub-branches in West Java.
- Medan region consists of all branches and sub-branches in Sumatera and Batam.
- Semarang region consists of all branches and sub-branches in Central Java.
- Surabaya region consists of all branches and sub-branches in East Java, Bali and Nusa Tenggara.
- Makassar region consists of all branches and sub-branches in Sulawesi, Maluku and Papua.
- Banjarmasin region consists of all branches and sub-branches in Kalimantan.

PT BANK MEGA TBK
NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended

December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Kinerja diukur berdasarkan laba segmen sebelum pajak penghasilan, seperti yang disajikan di dalam laporan internal manajemen yang ditelaah oleh manajemen Bank. Informasi mengenai hasil dari tiap area geografis disajikan di bawah ini:

Wilayah

Wilayah

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Eliminasi transaksi antar segmen usaha timbul karena pelaporan segmen internal Bank mengambil informasi segmen berdasarkan setiap wilayah independen yang mungkin mencakup transaksi antar segmen usaha seperti pinjaman ke segmen usaha yang lain.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The elimination of intersegment transactions arose because the Bank's internal segment reporting captures segment information were based on each independent regions which may include intersegment transaction such as borrowings to another segment.

39. Transaksi dengan Pihak Berelasi

Rincian transaksi signifikan dengan pihak berelasi, kecuali yang menyangkut rahasia Bank, adalah sebagai berikut:

39. Transactions with Related Parties

Details of significant transactions with related parties, except for transactions that are subject to the Bank's confidentiality policy, are as follows:

Antara April 2009 sampai dengan Juli 2010, telah terjadi pembobolan dana PT Elnusa Tbk sebesar Rp111.000 dengan melibatkan oknum Bank maupun oknum PT Elnusa Tbk dan pihak-pihak lainnya.

Terhadap kejadian tersebut telah menimbulkan kasus-kasus sebagai berikut:

a. Kasus Tindak Pidana Korupsi Dalam perkara tindak pidana korupsi pihak Kejaksaan, berdasarkan penyidikannya, mengindikasikan adanya korupsi dana PT Elnusa Tbk di Bank yang melibatkan oknum dari PT Elnusa Tbk sendiri. Berdasarkan hasil pemeriksaan di tingkat Pengadilan Negeri, Pengadilan Tinggi dan di tingkat Kasasi terbukti bahwa kasus ini adalah merupakan tindak pidana korupsi. Kasus ini telah diproses hingga tingkat Mahkamah Agung R.I. yang artinya terhadap perkara tersebut mempunyai kekuatan tetap dan mengikat (final and binding) dan karenanya pihak Kejaksaan wajib untuk segera (eksekusi) melaksanakan terhadap keputusan tersebut.

Keputusan tersebut diputuskan pada tanggal 29 Agustus 2012 melalui Rapat Permusyawaratan Mahkamah Agung R.I., dimana Mahkamah Agung telah Between April 2009 and July 2010, there was a fraud case of PT Elnusa Tbk fund amounting to Rp111,000 involving officers of the Bank and also personnel of PT Elnusa Tbk and other parties.

The incident has led to the following cases:

Audit Committee

Total

a. The Corruption Case

In the criminal corruption case, the Indonesian attorney, based on investigation indicated that there is a fund corruption occured in Bank, involving the personnel from PT Elnusa Tbk itself. Based on the investigation in the Indonesian District Court, High Court and Court of Cassation, it was proven that this current case is indeed a corruption. This case has been processed up to Indonesia Supreme Court of Justice, which means this case has a fixed and binding power and because of that, the attorney must execute the final verdict regarding the case.

The verdict was decided on August 29, 2012 through the Consultative Meeting of Indonesia Supreme Court of Justice whereby the court decided and verdict all

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

memutuskan dan menyatakan Para Terdakwa bersalah melakukan perbuatan melawan hukum berupa tindak pidana korupsi dan wajib untuk mengembalikan dana (yang di korupsinya) kepada Negara cq PT Elnusa Tbk.

Atas putusan tersebut Kejaksaan Negeri eksekutor/pelaksana pihak eksekusi, wajib menjalankan proses eksekusi terhadap seluruh barang atau harta kekayaan yang telah disita oleh pengadilan untuk kemudian dilakukan pelelangan dan hasilnya masing-masing akan diserahkan kepada Negara cq PT Elnusa Tbk. Apabila harta kekayaan yang disita ternyata tidak mencukupi untuk mengembalikan dana PT Elnusa Tbk yang dikorupsi, maka pihak Kejaksaan akan melakukan perampasan dan penyitaan terhadap seluruh harta kekayaan para terdakwa/terpidana guna mengembalikan dana yang dikorupsinya tersebut kepada Negara cq PT Elnusa Tbk.

Bahwa kemudian salah satu terdakwa dalam kasus tipikor yakni Santun Nainggolan, telah mengajukan upaya Peninjauan Kembali kepada Mahkamah Agung R.I. terhadap putusan kasasi dalam perkara tipikor tersebut, Mahkamah Agung Republik Indonesia pada tanggal 6 Januari 2016 telah Permohonan Menolak memutuskan Peninjauan Kembali dari Santun Nainggolan.

Sampai dengan tanggal penyelesaian laporan keuangan ini, tidak terdapat informasi baru terkait kasus tindak pidana korupsi ini.

b. Kasus Perdata

Bank telah menjadi pihak tergugat dalam kasus perdata yang diajukan PT Elnusa Tbk (pihak penggugat), dimana penggugat mengajukan gugatan perbuatan melawan hukum terhadap Bank karena adanya pemalsuan sertifikat deposito dengan berjangka gugatan material sebesar Rp111.000. Pada tanggal 22 Maret 2012, Majelis Hakim Pengadilan Negeri Jakarta Selatan mengabulkan sebagian gugatan penggugat menghukum Bank untuk mengembalikan dana milik penggugat beserta sejumlah bunga tertentu.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

the defendants as guilty of violating the law on corruption and were required to return all the money to the State and PT Elnusa Thk

Based on the verdict of district attorneys as the executor of the verdict, they must exercise the execution process to all the material or money that had been confiscated by court which will be auctioned whereby the proceeds therein would be returned to the State and PT Elnusa Tbk. If the confiscated material is not enough to cover the corruption amount that need to be returned to PT Elnusa Tbk, the court will seize and confiscate all the property that are owned by the defendant in order to return the fund that has been corrupted to the State and PT Elnusa Tbk.

Eventually, one of the defendant in corruption case, namely Santun Nainggolan, has submitted a legal effort of Judicial Review to Indonesia Supreme Court of Justice in response to the Cassation's decision in the corruption case, Indonesia Supreme Court of Justice on January 6, 2016 decided to decline the appeal of Judicial Review from Santun Nainggolan.

Until the completion date of these financial statements, there is no information update regarding this corruption case.

b. Civil Case

The Bank has been the defendant of the civil case against PT Elnusa Tbk (the plaintiff), in which the plaintiff filed a case against law towards the Bank due to an indication of certification of deposit forgery amounting to Rp111,000. On March 22, 2012, the South Jakarta Disctrict Court of Justice granted the plaintiff charges and obligated the Bank to return the plaintiff's fund plus a certain amount of interest.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Terkait dengan keputusan Pengadilan Negeri Jakarta Selatan tersebut, Bank telah mengajukan upaya hukum hingga peninjauan kembali ke Mahkamah Agung R.I. yang berakhir dengan penolakan dan guna mempertahankan haknya, Bank pada September 2016 tanggal 19 telah mengajukan gugatan perlawanan melalui Pengadilan Negeri Jakarta Selatan atas permohonan eksekusi yang diajukan oleh PT Elnusa Tbk yang dilanjutkan dengan pengajuan banding ke Pengadilan Tinggi Jakarta, dan saat ini sedang dalam proses di Mahkamah Agung R.I. sebagaimana yang tertuang dalam Risalah Pernyataan Permohonan Kasasi Nomor 162/Pdt.G/Plw/2016/PN.Jkt.Sel bertanggal 19 Juni 2023 Jo. Risalah Penerimaan Memori Kasasi Nomor 162/Pdt.G/Plw/2016/PN.Jkt.Sel bertanggal 27 Juni 2023 .

> Pada tanggal 10 Mei 2017, melalui surat No. W10-U3/1882/Hk.02/5/2017 Perihal Penundaan Lelang, Ketua Pengadilan Negeri Jakarta Selatan telah menunda pelaksanaan (eksekusi) lelang (hingga pemberitahuan lebih lanjut dari Pengadilan Negeri Jakarta Selatan) dikarenakan masih adanya perkara perlawanan yang masih berjalan dan adanya upaya perdamaian yang sedang berlangsung.

Bahwa Mahkamah Agung dalam putusannya terhadap perkara tipikor menyatakan bahwa para terpidana dinyatakan bersalah telah melakukan perbuatan melanggar hukum berupa tindak pidana korupsi dan karenanya masingmasing pelaku dihukum penjara sesuai dengan tingkat perbuatannya dan pada saat yang bersamaan para terpidana wajib untuk mengembalikan dan membayar ganti rugi/denda kepada Negara cq. PT Elnusa Tbk. Di lain pihak dalam perkara gugatan perdata yang diajukan PT Elnusa Tbk, dinyatakan telah melakukan perbuatan melanggar hukum dan wajib untuk membayar kepada PT Elnusa Tbk sebesar Rp111.000.

Pada 2017, Pengadilan Negeri Jakarta Selatan telah mengumumkan akan melakukan lelang terhadap obyek sita jaminan, akan tetapi kemudian sebelum lelang dilaksanakan, Ketua Pengadilan Negeri Jakarta Selatan mengeluarkan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

In relation to the decision of the South Jakarta District Court, the Bank filed a legal appeal up to judicial review to the Indonesia Supreme Court which resulted in rejection of the judicial review submitted by the Bank and to protect its right, the Bank, on September 19, 2016 had filed a tierce opposition through South Jakarta District Court against execution appeal filed by PT Elnusa Tbk which has been followed by an appeal to the Jakarta High Court, and is currently in the process of cassation at the Indonesia Supreme Court as stated in the Minutes of Statement of Cassation Application Nο 162/Pdt.G/Plw/2016/PN.Jkt.Sel dated June 19, 2023 Jo. Minutes of Acceptance of Memorandum of Cassation No. 162/Pdt.G Plw/2016/PN.Jkt.Sel dated June 27. 2023.

On May 10, 2017, through letter No. W10-U3/ 1882/Hk.02/5/2017 Regarding the Postponed Auction, the Head of South Jakarta District Court has postponed the execution of the auction (until further notice from the South Jakarta District Court) due to the ongoing tierce opposition and peaceful settlement effort.

The Supreme Court, in its decision towards the corruption case decided that the defendants were found guilty of commiting unlawful action of corruption and because of that, each of the defendants will be sentenced imprisonment which terms was parralel to level of action taken. At the same time, all the defendants must return and pay compensations to the State and PT Elnusa Tbk. While in the civil case submitted by PT Elnusa Tbk, the Bank is found guilty of committing unlawful action and is required to pay the fine of Rp111,000 to PT Elnusa Tbk.

In 2017, the South Jakarta District Court has announced that it will conduct an auction against the object of confiscation, but then before the auction is held, the Head of South Jakarta District Court issued a Stipulation to postpone the

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Penetapan menunda eksekusi lelang, antara lain dengan alasan masih berjalannya proses Gugatan Perlawanan sebagaimana diuraikan diatas hingga selesai atau kedua belah pihak melakukan perdamaian atas kasus tersebut.

Sehubungan dengan kasus di atas, Bank memenuhi permintaan dari regulator antara lain untuk membentuk dana cadangan dalam *escrow account* sebesar Rp206.630 sampai sengketa tersebut selesai (Catatan 14).

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

execution of the auction, until the settlement of the ongoing process of Resistance Lawsuit, as described above, or peaceful settlement from both parties.

In relation to the case above, the Bank has received a request from regulator to, among others, create an escrow account amounting to Rp206,630 until the disputes are settled (Note 14).

Berdasarkan peraturan BI mengenai PDN sebagaimana telah direvisi melalui Peraturan BI No. 6/20/PBI/2004 pada tanggal 15 Juli yang terakhir diperbarui dengan Peraturan BI No. 12/10/PBI/2010 tanggal 1 Juli 2010, PDN bank setinggi-tingginya adalah 20% dari modal. PDN merupakan jumlah absolut dari selisih antara aset dan liabilitas dalam mata uang asing, baik yang terdapat di laporan posisi keuangan maupun rekening PDN Bank pada administratif. tanggal 31 Desember 2023 dan 2022 telah memenuhi ketentuan Bl.

In accordance with BI regulation concerning NOP as amended by BI Regulation No. 6/20/PBI/2004 on July 15, 2004 and as further amended by BI Regulation No. 12/10/PBI/2010 dated July 1, 2010, the maximum NOP of banks should be at the most 20% of capital. NOP represents an absolute amount arising from the differences between the assets and liabilities in foreign currencies in the statements of financial position administrative accounts. The NOP of the Bank as of December 31, 2023 and 2022 is in compliance with BI regulations.

NOP Ratio

42. Kegiatan Wali Amanat

Rasio PDN

Bank memperoleh izin untuk menyelenggarakan kegiatan usaha sebagai wali amanat dari BAPEPAM-LK berdasarkan surat keputusan No. 20/STTD-WA/PM/2000 pada tanggal 2 Agustus 2000. Jasa-jasa yang dilakukan oleh Bank sebagai wali amanat adalah sebagai berikut:

42. Trusteeship Activities

The Bank was granted with the license to conduct trusteeship activity from BAPEPAM-LK based on the decision letter No. 20/STTD-WA/PM/2000 dated August 2, 2000. The services provided by the Bank as a trustee are as follows:

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- Mewakili kepentingan pemegang obligasi baik di dalam dan di luar pengadilan dalam melakukan tindakan hukum yang berkaitan dengan kepentingan pemegang obligasi;
- Menyampaikan informasi lengkap secara terbuka mengenai kualifikasinya sebagai Wali Amanat dalam prospektus;
- Memberikan laporan kepada Otoritas Jasa Keuangan, Bursa Efek dan pemegang obligasi baik secara langsung atau melalui Bursa Efek dalam hal emiten telah cidera janji atau terjadi keadaan yang dapat membahayakan kepentingan pemegang obligasi;
- Melakukan pengawasan atau pemantauan secara berkala mengenai perkembangan pengelolaan usaha emiten berdasarkan laporan keuangan atau laporan lainnya; dan
- e. Memberikan nasihat yang diperlukan emiten sehubungan dengan perjanjian perwaliamanatan.

Untuk tahun yang berakhir 31 Desember 2023, Bank bertindak sebagai Wali Amanat atas 96 emisi obligasi, 32 emisi *medium-term notes,* 30 emisi sukuk, dan 3 emisi sukuk *medium-term notes.* Jumlah nilai obligasi yang diterbitkan adalah sebesar Rp89.941.805 dan USD19,166,167 (dalam nilai penuh).

Untuk tahun yang berakhir 31 Desember 2022, Bank bertindak sebagai Wali Amanat atas 103 emisi obligasi, 37 emisi *medium-term notes* dan 30 emisi sukuk dengan jumlah nilai obligasi yang diterbitkan sebesar Rp108.020.374 dan USD23,333,333 (dalam nilai penuh).

43. Kegiatan Jasa Kustodian

Bank dapat bertindak sebagai Bank Kustodian berdasarkan surat izin dari Badan Pengawas Pasar Modal dan Lembaga Keuangan No. KEP-01/PM/ Kstd/2001 tanggal 18 Januari 2001.

Kustodian Umum meliputi:

- Safekeeping (penyimpanan dan pengadministrasian efek-efek)
- Settlement and transaction handling (penanganan dan penyelesaian transaksi penjualan/pembelian efek-efek)
- Corporate action (pengurusan hak-hak nasabah sehubungan dengan kepemilikan efek-efek nasabah)

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

Total	109,583,412	109,583,412	120,454,002	120,454,002	Total

^{**)} Termasuk di dalam liabilitas lain-lain merupakan bunga yang masih harus dibayar, setoran jaminan, dan kewajiban pembelian surat berharga/ Included in other liabilities are accrued interest payables, lease liabilities, guarantee deposits, and liabilities to purchase of marketable securities

Berikut metode dan asumsi yang digunakan untuk perkiraan nilai wajar:

Nilai wajar aset dan liabilitas keuangan tertentu selain derivatif dan kredit yang diberikan mendekati nilai tercatat karena instrumen keuangan tersebut memiliki jangka waktu jatuh tempo yang singkat dan/atau suku bunganya sering ditinjau ulang.

Nilai wajar tagihan dan liabilitas derivatif dihitung berdasarkan metodologi yang dijelaskan dalam Catatan 2i dan 10.

Nilai wajar dari kredit yang diberikan dinilai menggunakan diskonto arus kas berdasarkan tingkat suku bunga pasar terkini.

Bank menggunakan hierarki berikut untuk menentukan dan mengungkapkan nilai wajar dari aset dan liabilitas:

- Level 1 : harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.
- Level 2: input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset dan liabilitas baik secara langsung (misalnya harga) atau secara tidak langsung;
- Level 3: input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

The following methods and assumptions are used to estimate the fair value:

Fair values of certain financial assets and liabilities other than derivatives and loans are approximately the same with their carrying amounts due to the short-term maturities of these financial instruments and/or repriced frequently.

The fair value of derivative receivable and payable are calculated based on methodology as disclosed in Notes 2i and 10.

The fair value of loans are determined by discounting cash flows using current market interest rate.

The Bank adopts the following hierarchy for determining and disclosing the fair value of assets and liabilities:

- Level 1: quoted (unadjusted) market prices in active market for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (example, price) or indirectly;
- Level 3: inputs for the asset and liability that are not based on observable market data (unobservable inputs).

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

45. Manajemen Risiko Keuangan

a. Pendahuluan dan Gambaran Umum

Bank menyadari bahwa dalam melaksanakan kegiatan usahanya, Bank selalu berhadapan dengan risiko yang melekat (inheren) pada instrumen keuangan, yaitu Risiko Kredit, Risiko Likuiditas, Risiko Pasar atas nilai tukar valuta asing dan tingkat suku bunga, Risiko Operasional, serta risiko lainnya.

Dalam rangka mengendalikan risiko tersebut, Bank telah mengimplementasikan suatu Kerangka Dasar Manajemen Risiko (*Risk Management Framework*) yang tertuang dalam kebijakan manajemen risiko sesuai dengan Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/ 2016 dan Surat Edaran OJK Nomor 34/SEOJK/03/2016 tentang Penerapan Manajemen Risiko Bagi Bank Umum serta mengacu juga pada peraturan internal mengenai kebijakan manajemen risiko.

Bertolak dari ketentuan tersebut serta kebutuhan internal Bank. Bank telah melaksanakan manajemen risiko sesuai dengan cakupan aktivitasnya. Guna menyempurnakan pelaksanaan manajemen risiko, Bank selalu mengembangkan tools dan/atau metodologi digunakan, yang memperbaiki mengevaluasi dan setiap kelemahan pada proses, maupun terhadap pengembangan sumber daya manusia sebagai kunci implementasi manaiemen risiko. Hal ini penting dilakukan mengingat faktor risiko yang memiliki sifat dinamis mengikuti perkembangan praktek bisnis perbankan itu sendiri.

Upaya perbaikan implementasi manajemen risiko tersebut difokuskan pada 5 (lima) hal utama, yaitu Identifikasi, Pengukuran, Pengawasan, Pengendalian, dan Pelaporan.

Bank memiliki eksposur terhadap risiko-risiko instrumen keuangan sebagai berikut:

- Risiko Kredit
- Risiko Pasar
- Risiko Likuiditas
- Risiko Operasional

b. Kerangka Manajemen Risiko

Manajemen risiko dikelola oleh Direktorat Risiko dan didukung oleh Satuan Kerja Manajemen Risiko yang bertanggung jawab langsung kepada Wakil Direktur Utama. Satuan Kerja Manajemen Risiko Bank, yaitu:

45. Financial Risk Management

a. Introduction and Overviews

The Bank realizes that in carrying out its business activities, the Bank is always faced with inherent risks in financial instruments, namely credit risk, liquidity risk, market risk on foreign exchange rates and interest rates, operational risk, and other risks

In order to control these risks, the Bank has implemented a Basic Risk Management Framework which is outlined in the risk management policy in accordance with Financial Services Authority Regulation Number 18/POJK.03/ 2016 and OJK Circular Letter Number 34/SEOJK/03 /2016 concerning the Implementation of Risk Management for Commercial Banks and also refers to internal regulations regarding risk management policies.

Starting from this regulated policy as well as requirement, Bank the implemented risk management in accordance with the scope of their activities. In order to the implementation of enhance management, the Bank always develops tools and/or methodology that are used, evaluate and correct any weakness in the process and the development of human resources as the key to the implementation of risk management. It is important considering that risk factors inline with the the dynamic nature of the development on the banking business practice itself.

The effort of improving the implementation of risk management is focused on 5 (five) main points, namely Identification, Measurement, Monitoring, Control, and Reporting.

The Bank has exposure to the following risks from financial instruments:

- Credit Risk
- Market Risk
- Liquidity Risk
- Operational Risk

b. Risk Management Framework

The Bank Risk Management is managed and supported by the Risk Management Work Unit which is directly responsible to the Vice President Director. The Bank's Risk Management Work Unit consists of:

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- Operational Risk Management
- Credit Risk Management
- Market, Liquidity, and Integrated Risk Management
- IT and Cyber Risk Management

Dalam rangka penerapan manajemen risiko yang efektif, Bank telah memiliki Komite Manajemen Risiko yang berfungsi untuk membahas permasalahan risiko yang dihadapi Bank secara keseluruhan dan merekomendasikan kebijakan manajemen risiko kepada Direksi.

Manajemen telah membentuk komite-komite yang membantu Dewan Komisaris dan Direksi dalam penerapan manajemen risiko, yaitu:

- Komite Pemantau Risiko
- Komite Audit
- Komite Remunerasi dan Nominasi
- Komite Manajemen Risiko
- Komite Manajemen Risiko Terintegrasi
- Komite Produk
- Komite Kebijakan Perkreditan
- Komite Teknologi Informasi
- Komite Aset dan Liabilitas ("ALCO")
- Komite Sumber Daya Manusia
- Komite Manajemen Krisis

Komite-komite ini bertanggung jawab untuk mengembangkan dan memantau kebijakan manajemen risiko Bank pada masing-masing area. Komite-komite tersebut melaporkan aktivitas mereka secara berkala kepada Dewan Komisaris dan Direksi.

Kebijakan manajemen risiko Bank dibentuk untuk mengidentifikasi dan menganalisis risikorisiko yang dihadapi Bank, untuk menentukan batasan dan pengendalian risiko yang sesuai dan untuk mengawasi risiko yang sesuai dan kepatuhan terhadap batasan yang telah ditetapkan. Kebijakan dan sistem manajemen risiko dikaji secara berkala untuk mencerminkan perubahan pada kondisi pasar, produk dan jasa yang ditawarkan. Bank melalui serta standar pelatihan dan prosedur pengelolaan, berusaha untuk mengembangkan lingkungan pengendalian yang teratur dan konstruktif, dimana seluruh karyawan memahami peran dan tanggung jawab mereka.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- Operational Risk Management
- Credit Risk Management
- Market, Liquidity, and Integrated Risk Management
- IT and Cyber Risk Management

In order to implement effective risk management, the Bank has a Risk Management Committee whose function is to discuss the overall risk problems faced by the Bank and recommend risk management policies to the Board of Directors.

The management has established committees which are responsible to assist the Boards of Commissioners and Directors for managing the Bank's risk management, these are:

- Risk Oversight Committee
- Audit Committee
- Remuneration and Nomination Committee
- Risk Management Committee
- Integrated Risk Management Committee
- Product Committee
- Credit Policy Committee
- Information Technology Committee
- Asset and Liability Committee ("ALCO")
- Human Resources Committee
- Crisis Management Committee

These committees are responsible for developing and monitoring the Bank's risk management policy in their respective areas. All committees report regularly to the Boards of Commissioners and Directors.

The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Bank, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Bank menerapkan pengelolaan risiko yang efektif, dimana praktek-praktek yang sehat melekat pada sistem utama dan proses bisnis yang ada di Bank yang memungkinkan pengelolaan manajemen risiko oleh masingmasing satuan bisnis karena pengelolaan risiko adalah tanggung jawab dari semua pegawai pada semua level di organisasi. Bank juga menerapkan budaya kesadaran yang kuat dan proaktif atas risiko, yang merupakan dasar untuk mencapai manajemen risiko yang konsisten dan efektif.

Unit Kerja Independen telah dibentuk untuk melakukan evaluasi, pemantauan dan pelaporan berbagai risiko secara independen. Unit kerja tersebut dirancang untuk berfungsi secara independen dari unit bisnis (second line of defense).

Unit Kerja Operational Risk Management, Unit Kerja Credit Risk Management, Unit Kerja Market Liquidity and Integrated Management, Unit Kerja IT and Cyber Risk Management, Unit Kerja National Credit Review and Restructure, Unit Kerja National Credit Appraisal, Unit Kerja Compliance and Good Corporate Governance, Unit Kerja Crime and Fraud Investigation, Unit Kerja Anti Money Laundering, Unit Kerja Corporate Legal, Unit Kerja Customer Experience and Customer Care, Unit Kerja Process Management and Internal Control (sub unit Branch Operations Control dan Head Office Operations Control) bertugas untuk melakukan identifikasi. mengkaji dan mengawasi semua risiko utama Bank sesuai dengan kebijakan dan prosedur manajemen risiko yang telah ditetapkan. Selain itu, terdapat pengendalian risiko secara internal dan independen untuk memastikan tata kelola, manajemen risiko dan pengendalian internal dengan baik (three line of defense) yaitu Unit Kerja Internal Audit.

Beberapa kebijakan internal yang terkait manajemen risiko yang ditinjau atau diterbitkan Bank sampai dengan 31 Desember 2023 antara lain sebagai berikut:

- Kebijakan Manajemen Risiko
- Kebijakan Manajemen Risiko Stratejik
- Kebijakan Manajemen Risiko Hukum
- Kebijakan Manajemen Risiko Reputasi
- Kebijakan Manajemen Risiko Kepatuhan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Effective risk management is adopted, hence, the sound practices are embedded in the Bank's core systems and business processes, thus allowing self-management of risk by respective business units, in which risk management is a responsibility of all employees at all levels in the organizational hierarchy. The Bank also adopts a strong and proactive risk awareness mindset, which is fundamental in attaining consistent and effective risk management.

Independent Working Units have been formed to facilitate independent evaluation, various risks monitoring and reporting. These divisions are designed to function independently of the business units (second line of defense).

Operational Risk Management Unit, Credit Risk Management Unit, Market Liquidity and Integrated Risk Management Unit, IT Unit and Cyber Risk Management, National Credit Review and Restructure Unit, National Credit Compliance Appraisal Unit. and Corporate Governance Unit, Crime and Fraud Investigation, Anti Money Laundering Unit, Corporate Legal Unit, Customer Experience Customer Care and Unit, **Process** Management and Internal Control Unit (Branch Operations Control and Head Office Control Unit) are in Operations Sub charge of identifying, assessing and monitoring all of the Bank's main risks in accordance with well-defined risk management policies and procedures. In addition, there is internal and independent risk control to ensure good governance, risk management and internal control properly (three line of defense) handled by Internal Audit Unit.

Several internal risk management policies which have been released or reviewed until December 31, 2023 are as follows:

- Risk Management Policy

The majority of the aforementioned policies are the result of a review of existing policies. The review was conducted with the intention of improving the policies due to changes in regulation from the Bank Indonesia and Financial Services Authority (OJK) regulations and change in market conditions or in products and services offered by the Bank.

c. Credit Risk

In general, the implementation of credit risk management in 2023 was focused on:

- Increasing awareness and competencies of human resources in lending and credit risk aspect.
- Developing the roles of Risk Management
 unit
- Implementation and developing Reporting Dashboard and Paramter Setting Dashboard for Credit Card and Personal Loan.
- Monitoring and validation of Credit Score for Credit Card and Personal Loan.
- Developing stress testing of credit portfolio regarding climate risk.
- Review Bank Mega credit policy so they are in line with economic condition during Covid-19 pandemic.
- Review policy of establishment new product
- Increased intensity of control and monitoring of indicators related to efforts to improve the Risk Profile of Banks within RBBR.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Pembuatan stress test kredit untuk menguji ketahanan modal Bank dalam kondisi stress.

> Prinsip yang diterapkan oleh Bank untuk menjalankan aktivitas manajemen risiko kredit didasarkan pada kebijakan risiko kredit yang mencakup persyaratan peraturan Bank Indonesia, Otoritas Jasa Keuangan dan kebijakan-kebijakan internal. Kebijakan internal direviu secara berkala agar sejalan dengan perkembangan terkini peraturan, lingkungan bisnis dan perubahan-perubahan yang terjadi karena pertumbuhan bisnis Bank dan kondisi ekonomi global terutama rekomendasi Komite Basel.

Untuk kredit yang diberikan, Bank menggunakan agunan untuk meminimalkan risiko kredit. Berdasarkan klasifikasi, kredit Bank dapat dibedakan menjadi dua kelompok besar, yaitu:

- 1. Secured loans
- 2. Unsecured loans

Untuk *secured loans*, Bank menetapkan jenis dan nilai agunan yang dijaminkan sesuai skema kredit. Jenis dari agunan terdiri dari:

- a. *Physical collateral*, antara lain tanah, bangunan dan BPKB kendaraan motor.
- b. *Cash collateral*, antara lain simpanan (tabungan, giro dan deposito berjangka, emas), *financial collateral* (surat berharga).
- c. Lainnya, antara lain jaminan pemerintah, garansi dan lembaga penjamin.

Apabila terjadi *default* (gagal bayar), Bank akan menggunakan agunan tersebut sebagai pilihan terakhir untuk pemenuhan kewajiban *counterparty*.

Unsecured loans terdiri dari fully unsecured loans dan partially secured loans seperti kredit untuk karyawan golongan berpenghasilan tetap (khususnya kredit karyawan). Dalam pembayaran kewajibannya, partially secured loans umumnya dilakukan melalui pemotongan penghasilan secara otomatis.

Dengan demikian, meskipun kredit tersebut termasuk dalam kategori unsecured loans namun tingkat risiko dari partially secured loans tidak sebesar nilai tercatat kredit. Sedangkan untuk fully unsecured loans, tingkat risiko adalah sebesar nilai tercatat kredit. Untuk unsecured loan bank juga telah menggunakan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

 Conduct credit stress to test the resilience of the Bank's capital under stress conditions.

The principle by which the Bank conducts their credit risk management activities is governed by credit risk policy that incorporates Bank Indonesia's regulatory requirements, Financial Services Authority as well as internal policies. Internal policies are reviewed periodically in accordance with changes in the regulatory requirements. business environment and changes resulting from the Bank's business arowth and global economic condition especially the Basel Committee recommendations.

For the loans, Bank uses the collateral to minimize the credit risk. Loans in Bank are classified into two major category:

- 1. Secured loans
- 2. Unsecured loans

For secured loans, Bank determined the type and value of collateral according to the loan scheme. Types of collateral are as follows:

- a. Physical collateral, such as land, buildings and proof of vehicle ownership.
- b. Cash collateral, such as deposits (savings, current accounts, time deposit, gold) financial collateral (securities).
- c. Others, such as guarantees, government guarantees and guarantee institution.

If a times of default, the Bank will use the collateral as a last resort to fulfill counterparty obligations.

Unsecured loans consist of fully unsecured loans and partially secured loans such as loans for fixed income employees (especially for employee's loan). In their obligations payment, partially secured loans are generally made through automatic payroll deduction.

Although it is included in the unsecured loans category, the risk level of partially secured loans is lower than the carrying value. As for fully unsecured loan, the risk level is equal to the carrying value. For Unsecured loans, banks have also used various Know Your Customer (KYC) identification and validation

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

berbagai proses identifikasi dan validasi *Know Your Customer* (KYC) serta penggunaan *scoring* model untuk memitigasi risiko kredit debitur-debitur *unsecured loan*.

Sampai dengan triwulan 3 2023, pertumbuhan ekonomi Indonesia masih cukup tinggi dimana pada triwulan 1 dan 2 2023 pertumbuhan PDB mencapai 5,04% dan 5,17%, meskipun pada kuartal 3 2023 mengalami sedikit penurunan menjadi 4,94%. Berdasarkan data BPS terlihat 5 sektor yang memiliki portofolio kredit terbesar di Bank memiliki pertumbuhan PDB yang lebih tinggi dibanding pertumbuhan PDB nasional kecuali sektor Pertanian. Keempat sektor ekonomi tersebut yaitu sektor Informasi dan Komunikasi (8,52%), sektor Transportasi dan (14,74%),Pergudangan sektor Industri Pengolahan (5,20%),serta sektor Pertambangan dan Penggalian (6.95%). Sementara pertumbuhan PDB di sektor pertanian sebesar 1,46%, masih lebih rendah dibanding pertumbuhan PDB nasional yaitu sebesar 4,94%.

Di tengah momentum perbaikan ekonomi, Bank berupaya untuk terus meningkatkan pertumbuhan kredit dengan memfokuskan pertumbuhan kredit kepada debitur-debitur besar terutama di segmen Korporasi dan segmen Indirect Channel (Executing dan Joint Financing).

Selain itu, Bank juga tetap berupaya untuk menjaga kualitas portofolio kredit agar tetap berada di level *risk appetite* dan *risk tolerance* Bank antara lain melalui:

- Melakukan proses akuisisi kredit yang prudent untuk memastikan kualitas kredit debitur dengan fokus pada debitur-debitur yang memiliki backbone yang kuat dan memiliki prospek usaha yang baik. Bank juga menerapkan berbagai macam tools dan parameter akuisisi kredit untuk memperoleh debitur-debitur yang berkualitas baik.
- 2. Penerapan *early warning signal* melalui watchlist debitur restruktur Covid-19 serta secara berkala melakukan *stress test* atas portofolio restruktur Covid-19.

Meskipun saat ini pandemi Covid-19 telah mengalami perbaikan yang signifikan, masih terdapat daerah maupun sektor tertentu yang terkena dampak pandemi sehingga setelah

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

processes as well as the use of scoring models to mitigate the credit risk of unsecured loan debtors.

Until the 3rd quarter of 2023, Indonesia's economic growth was still quite high, where in the 1st and 2nd quarters of 2023 GDP growth reached 5.04% and 5.17%, although in the 3rd quarter of 2023 it experienced a slight decline to 4.94%. Based on BPS data, it can be seen that the 5 sectors that have the largest credit portfolio at Bank have GDP growth that higher than national GDP growth, except for the Agriculture sector. The four economic sectors are the Information and Communication sector (8.52%). Transportation and Warehousing sector (14.74%), Processing Industry sector (5.20%), and Mining sector (6.95%). Meanwhile, GDP growth in the agricultural sector was 1.46%, still lower than national GDP growth, namely 4.94%.

Amid the momentum of economic improvement, the Bank seeks to continue to increase credit growth by focusing on credit growth for large debtors, especially in the Corporate and Indirect Channel (Executing and Joint Financing) segments.

In addition, the Bank also continues to strive to maintain the quality of the credit portfolio so that it remains at the level of the Bank's risk appetite and risk tolerance, among others through:

- 1. Conduct prudent credit acquisition to ensure credit quality with a focus on strong backbone and good business prospect debtors. Bank also implements several credit acquisition tools and parameters to obtain good quality debtors.
- Implementation of early warning signals through watchlist of restructured Covid-19 debtors and conduct stress tests on the restructuring portfolio of Covid-19 periodically.

Even though the Covid-19 pandemic has experienced significant improvements, there are particular region and sectors affected by the pandemic so that after the validity period of

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> masa berlaku POJK Stimulus Perekonomian Nasional sebagai Kebijakan Countercyclical Dampak Penyebaran Coronavirus Disease 2019 berakhir, OJK sebagai regulator telah mengeluarkan kebijakan lanjutan melalui POJK No.19 tahun 2022 tentang Perlakuan Khusus Untuk Lembaga Jasa Keuangan Pada Daerah dan Sektor Tertentu di Indonesia yang Terkena Dampak Bencana. Menindaklanjuti kebijakan tersebut, OJK juga telah menetapkan sektor, daerah, dan segmen yang memerlukan perlakuan khusus terhadap kredit yaitu sektor Penyediaan Akomodasi dan Penyediaan Makan Minum, sektor tekstil dan produk tekstil, serta alas kaki, provinsi Bali, dan segmen UMKM yang mulai berlaku sejak tanggal 1 April 2023 sampai dengan 31 Maret 2024.

> Bank telah menindaklanjuti terbitnya POJK tersebut dengan membuat maupun menyesuaikan kebijakan-kebijakan perkreditan yang mendukung upaya perbaikan kualitas portofolio kredit di masa pandemi sejak tahun 2020 dan tetap direviu dan dikinikan secara berkala. Kebijakan-kebijakan tersebut diantaranya:

- Stimulus Perekonomian Nasional Sebagai Kebijakan Countercyclical Dampak Penyebaran Coronavirus Disease 2019
- Komite Restrukturisasi Kredit Terkait Coronavirus Disease 2019
- Pemberian BWMK Khusus Restrukturisasi Kredit Terdampak Covid-19 kepada pejabat Bank yang berwenang.
- Perlakuan Khusus untuk Debitur di Daerah dan Sektor Tertentu di Indonesia yang Terkena Dampak Bencana

Manajemen risiko kredit difokuskan pada persiapan infrastruktur untuk mendukung strategi bisnis Bank, yang mencakup aspekaspek berikut:

- Pengawasan aktif Dewan Komisaris dan Direksi.
- Kecukupan kebijakan, prosedur, dan penetapan limit.
- Kecukupan dan kualitas sumber daya manusia.
- Kecukupan modal risiko kredit dengan standardized approach.
- Kecukupan pencadangan atas portofolio aset produktif yang dimiliki.
- Pengukuran risiko kredit terhadap risiko inheren dan sistem pengendalian risiko berupa profil risiko kredit komposit.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

the POJK National Economic Stimulus as a Countercyclical Policy on the Impact of the Spread of Coronavirus Disease 2019 ends, OJK as the regulator has issued a follow-up policy through POJK No. 19 of 2022 concerning Special Treatment for Financial Services Institutions in Certain Regions and Sectors in Indonesia Affected by Disasters. Following up on this policy. OJK has also determined sectors, region, and segment that require special treatment of credit, namely the Accommodation and Food and Drink Provision sector, the textile, textile product, and footwear sector, the province of Bali, and SME segment which took effect from April 1, 2023 to March 31, 2024

The Bank has followed up on the issuance of the POJK by making and adjusting credit policies which aim to improve the quality of the loan portfolio during the pandemic since 2020 and are still being reviewed and updated regularly. These policies include:

- National Economic Stimulus as a Countercyclical Policy on the Impact of the Spread of Coronavirus Disease 2019
- Credit Restructuring Committee for due to Coronavirus Disease 2019
- Giving Loan Restructure Limit Authority to authorized officer.
- Special Treatment for Debtors in Certain Regions and Sectors in Indonesia that Affected by Disaster.

Credit risk management focused on the preparation of infrastructures to support the Bank's strategic business, which covers the following aspects:

- Active supervision of the Board of Commissioners and Board of Directors.
- The adequacy of policies, procedures and limits
- The adequacy and quality of human resources.
- The adequacy of credit risk capital with a standardized approach.
- The adequacy of productive assets impairment.
- Measurement of credit risk to inherent risk and the risk control system in the form of a composite credit risk profile.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- Pengukuran tingkat risiko debitur dengan menggunakan rating dan scoring.
- Pemantauan komposisi dan kondisi setiap debitur atau counterparty pada seluruh portofolio bank.
- Pemantauan eksposur risiko kredit secara berkala dan terus menerus serta membuat laporan terkait perkembangan dan penyebab risiko kredit secara berkala ke Komite Manajemen Risiko dan Direksi.
- Batas wewenang pemutusan kredit.
- Sistem pengendalian internal yang menyeluruh.

Bank sudah menerapkan pengukuran risiko kredit Basel II dengan menggunakan pendekatan standar.

Di samping itu, Bank telah menerapkan PSAK 71 dalam perhitungan Cadangan Kerugian Penurunan Nilai (CKPN). Cadangan Kerugian Penurunan Nilai (CKPN) dihitung untuk instrumen keuangan yang tergolong dalam biaya perolehan yang diamortisasi (AC) serta nilai wajar melalui penghasilan komprehensif lain (FVOCI), diantaranya adalah penempatan pada bank, efek-efek, kredit yang diberikan, bank garansi, serta produk-produk *trade finance* seperti *letters of credit* (L/C) dan SKBDN.

Metodologi perhitungan CKPN dikelompokkan ke dalam 2 (dua) kategori: Kolektif dan Individual. Metode penurunan nilai ini digunakan untuk menghitung CKPN fasilitas kredit yang terkait dengan significant loan dan non-significant loan. Minimum kriteria yang termasuk dalam kategori significant loan dan non-significant loan mengacu kepada Pedoman Penurunan Nilai Aset Keuangan Bank.

CKPN kolektif dihitung dengan menggunakan beberapa parameter, yaitu *Probability of Default* (PD), *Loss Given Default* (LGD), dan *Exposure at Default* (EAD).

PD dihitung dengan pendekatan statistik yaitu Migration Analysis untuk semua segmen dengan menentukan probabilitas migrasi antargrade. Khusus PD untuk produk treasury nilainya didapat dari lembaga pemeringkat yang diakui oleh Regulator. Dalam PSAK 71, PD harus memperhitungkan forward-looking adjustment. Perhitungan PD after forward-looking diperoleh dengan memperhitungkan faktor makroekonomi yang berpengaruh

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- Measurement of the risk level of debtors by using rating and scoring.
- Monitoring the composition and condition of each debtor or counterparty in all bank portfolios.
- Monitoring credit risk exposures regularly and making reports related to the development and causes of credit risk regularly to the Risk Management Committee and Directors.
- Credit determination limits.
- Comprehensive internal control system.

The Bank has implemented Basel II risk measurement using standardized approach.

Moreover, Bank has implemented PSAK 71 in calculating Allowance for Impairment Losses (CKPN). Allowance for Impairment Losses (CKPN) calculated for financial instrument that were classified in amortized cost (AC) and fair value through other comprehensive income (FVOCI) such as Interbank Placement, securities, loans, Bank Guarantee, and trade finance product such as letters of credit (L/C) and SKBDN.

CKPN Calculation methodology grouped into 2 categories, collective and individual. This method is used to calculate CKPN for significant and non-significant loans. Minimum criteria that describe significant and non significant loan referred to Bank's Financial Asset Impairment Policy.

Collective CKPN is calculated by using some parameters which are Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD).

PD is calculated by using statistical approach which is migration analysis to all segment to determine migration probability per grade. For treasury product PD, the values came from rating agency. In PSAK 71, PD must consider forward-looking adjustment. The Calculation of PD after forward-looking is obtained by taking into account macroeconomic factor that have significant effect to PD after weighted through 3 scenarios, base, best and worst scenario.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

signifikan terhadap PD serta telah diboboti dengan 3 skenario yaitu base, best, dan worst scenario. Nilai PD after forward-looking terdiri dari 2 jenis yaitu PD 12 bulan dan PD lifetime, sehingga nilai PD after forward-looking setidaknya tersedia hingga aset Bank jatuh tempo. Data history untuk perhitungan PD non-kartu Kredit adalah minimal 5 tahun sedangkan untuk segmen kartu kredit minimal 3 tahun.

Bank harus mengakui LGD untuk setiap jenis jaminan/ agunan dan dampak yang dihasilkan dari perubahan ekonomi makro. Begitu juga dengan recovery period dihitung sejak kredit default. Recovery Period untuk segmen Kredit non Kartu Kredit adalah selama 5 tahun. Sedangkan untuk segmen Kartu Kredit adalah 3 tahun.

EAD merupakan berapa *exposure* portofolio saat kredit mengalami default, ditambahkan dengan kelonggaran tarik dan dikalikan dengan *Credit Convertion Factor* (CCF). CCF untuk kredit yang masih memilki kelonggaran tarik dihitung berdasarkan besarnya utilisasi unused dari kredit pada saat default dengan melihat historical data.

Perhitungan CKPN Individual dilakukan dengan mengacu kepada prinsip akuntansi dan pedoman Bank, yaitu metode asset settlement dan discounted cash flow.

Bank juga melakukan pengukuran dan pelaporan secara periodik ke Otoritas Jasa Keuangan (OJK) dalam pengelolaan risiko kredit berdasarkan parameter risiko kredit pada Penilaian Tingkat Kesehatan Bank (PTKB) dengan menggunakan pendekatan risiko (*Riskbased Bank Rating*/RBBR) yang terdiri dari 2 (dua) bagian, yaitu:

- 1. Risiko Inheren
 - Komposisi portofolio aset dan tingkat konsentrasi kredit.
 - Kualitas penyediaan dana dan kecukupan pencadangan.
 - Strategi penyediaan dana dan sumber timbulnya penyediaan dana.
 - Faktor eksternal.
- 2. Kualitas Penerapan Manajemen Risiko Kredit
 - · Tata kelola risiko kredit.
 - · Kerangka manajemen risiko kredit.
 - Proses manajemen risiko kredit, sistem informasi, dan sumber daya manusia.
 - Sistem pengendalian risiko kredit.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The amount of forward-looking PD consists of 2 categories which are 12 months PD and lifetime PD, so that after forward-looking, PD amount can be available until maturity date. Minimum historical data to calculate PD for non credit card is 5 years while minimum historical data for credit card is 3 years.

The Bank must consider LGD for each type of collateral and effect that came from macroeconomics change. So with recovery period is calculated since the loan is default. Recovery period for non credit card segment is 5 years, while for credit card segment is 3 years.

EAD is the amount of portfolio exposure when the credit default, added with unused facility multiple by Credit Covertion Factor (CCF). CCF for loans that still have unused facility calculated based on how much utilization from loan at the time of default by using historical data.

Individual CKPN is calculated in reference to accounting principal and Bank's policy, which are asset settlement and discounted cash flow methods.

The Bank also measures and reports periodically to Financial Services Authority (OJK) in terms of credit risk management based on the credit risk parameters of Assessment of Bank Soundness Level (PTKB) using Risk-based Bank Rating (RBBR) which consist of 2 (two) categories:

- 1. Inherent Risks
 - Asset portfolio compositions and level of credit concentration.
 - Funding procurement quality and provision adequacy.
 - Funding procurement strategy and resources.
 - External factors.
- 2. Credit Risk Management Implementation Quality
 - Credit risk governance.
 - Credit risk management frameworks.
 - Credit risk management process, information system, and human resources.
 - Credit risk control system.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Eksposur Maksimum terhadap Risiko Kredit
> Untuk aset keuangan yang diakui pada laporan posisi keuangan, eksposur maksimum atas risiko kredit setara dengan nilai tercatatnya.

Dalam penerbitan bank garansi dan letters of credit yang tidak dapat dibatalkan, eksposur maksimum atas risiko kredit adalah nilai maksimum yang harus dibayarkan oleh Bank dalam hal timbul kewajiban atas penerbitan bank garansi dan letters of credit yang tidak dapat dibatalkan. Untuk komitmen kredit, eksposur maksimum atas risiko kredit adalah sebesar jumlah fasilitas yang belum ditarik dari fasilitas kredit yang telah disepakati (committed) yang diberikan kepada nasabah.

Tabel berikut menyajikan eksposur maksimum risiko kredit Bank atas instrumen keuangan pada laporan posisi keuangan dan rekening administratif tanpa memperhitungkan agunan kredit atau jaminan kredit lainnya.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

i. Maximum Exposure to Credit Risk

For financial assets recognized in the statement of financial position, the maximum exposure to credit risk is equivalent to its carrying value.

For guarantees and irrevocable letters of credit issued, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the guarantees and irrevocable letters of credit issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the undrawn committed credit facilities granted to customers.

The following table presents the Bank's maximum exposure to credit risk of its financial instruments on the statements of financial position and administrative accounts without taking into account of any collateral held or other credit enhancement.

	2023	2022	
Uraian			Description
Posisi keuangan :			Financial position :
Giro pada Bank Indonesia			Current accounts with Bank
(Catatan 5)	6,822,433	8,691,986	Indonesia (Note 5)

Total	123,869,981	133,428,414	Total

^{*)} Termasuk di dalam aset lain-lain merupakan bunga yang masih akan diterima, setoran jaminan, piutang sewa, tagihan penjualan surat berharga, dan aset yang diblokir/
Included in other assets are accrued interest receivables, guarantee deposits, lease receivables,

receivables from sales of marketable securities, and restricted assets

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> ii. Analisis Risiko Konsentrasi Kredit Tabel di bawah ini menunjukkan eksposur maksimum bersih (setelah memperhitungkan agunan) atas risiko kredit untuk efek-efek yang dibeli dengan janji dijual kembali pada tanggal 31 Desember 2023 dan 2022:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

ii. Concentration of Credit Risk Analysis The table below shows the net maximum exposure (after considering collateral) to credit risk of securities purchased under agreement to resell as of December 31, 2023 and 2022:

	Eksposur Maksimum/ Maximum Exposure	Agunan/ Collateral	Eksposur - Neto/ Net Exposure	
2023 Efek-efek yang dibeli dengan janji dijual kembali	7,215,441	7,220,899		2023 Securities purchased under agreement to resell
2022 Efek-efek yang dibeli dengan janji dijual kembali	3,254,705	3,256,824	_	2022 Securities purchased under agreement to resell

Risiko konsentrasi kredit dapat terjadi bila sejumlah nasabah bergerak di bidang usaha yang sejenis, atau memiliki kegiatan usaha berada di dalam wilayah geografis yang sama, atau memiliki karakteristik yang serupa yang dapat menyebabkan kemampuan nasabah untuk memenuhi kewajiban atas perjanjian kredit samasama terpengaruh oleh perubahan ekonomi ataupun kondisi lainnya.

Bank mendorong adanya diversifikasi portofolio kreditnya pada berbagai wilayah geografis, industri dan produk kredit sebagai upaya untuk meminimalisasi risiko konsentrasi kredit. Bank sudah memiliki limit pembiayaan dan alat pengukuran limit pembiayaan berdasarkan sektor ekonomi untuk seluruh segmen kredit. Selain itu, Bank juga menjaga konsentrasi kredit terhadap debitur inti agar sejalan dengan risk appetite dan risk tolerance yang telah ditetapkan dalam kebijakan risk limit.

Concentrations of credit risk arise when a number of customers are engaged in similar business activities or activities within the same geographic region, or when they have similar characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions.

The Bank encourages the diversification of its credit portfolio among a variety of geographical area, industries, and credit product in order to minimize concentrated credit risk. The Bank already has a lending limit based on economic sectors for all credit segments. In addition, the Bank also maintains credit concentration on core debtors so that it is in line with the risk appetite and risk tolerance that have been stated in the risk limit policy.

Konsentrasi kredit yang diberikan berdasarkan jenis kredit dan sektor ekonomi diungkapkan pada Catatan 11, sedangkan konsentrasi kredit yang diberikan berdasarkan wilayah geografis diungkapkan pada Catatan 38.

248,115

konsentrasi risiko tabel kredit berdasarkan jenis debitur, konsentrasi risiko kredit naik terutama pada segmen korporasi dan pembiayaan lainnya, sementara itu konsentrasi kredit pada segmen ritel lainnya seperti kartu kredit, konsumer dan usaha kecil justru mengalami penurunan.

d. Risiko Pasar

Kartu Kredit

Total

Risiko pasar adalah risiko perubahan harga pasar, seperti tingkat suku bunga, nilai tukar mata uang asing, dan *credit spreads* (tidak berhubungan dengan peringkat kredit pemberi kredit) akan mempengaruhi pendapatan Bank atau nilai instrumen keuangan yang dimiliki. Tujuan pengelolaan risiko pasar adalah untuk mengelola dan mengendalikan eksposur risiko pasar dalam batasan parameter yang dapat diterima dengan mengoptimalkan tingkat pengembalian.

The concentration of loans by type of loans and economic sector is disclosed in Note 11, while the concentration of loans by geographic region is disclosed in Note 38.

248,115

Credit Card

Total

As shown in table credit risk concentration by counterparty, concentration of credit risk is increased specifically in corporate and joint financing, meanwhile risk concentration in other retail segment such as credit card, consumer and small enterprises are decreased.

d. Market Risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and credit spreads (not relating to changes in the obligor's/issuer's credit standing) will affect the Bank's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return of risk.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Dalam pengelolaan risiko, Bank menggunakan kertas kerja internal dan sistem dalam melakukan proses pengawasan pergerakan perangkat dan sistem pasar. Berbagai membuat Bank dapat mengidentifikasi, mengukur dan mengawasi sensitivitas risiko pasar untuk nilai tukar dan suku bunga, baik untuk portofolio trading book dan banking book, sehingga risiko yang mungkin muncul dapat dimitigasi dan tidak mempengaruhi permodalan Bank secara signifikan.

Pengukuran Risiko Pasar tersebut, meliputi:

- 1. Pengukuran Risiko Pasar nilai tukar pada trading book dan banking book melalui perhitungan Posisi Devisa Neto (PDN) dan Pengukuran Risiko Pasar nilai tukar dan suku bunga pada trading book dihitung dengan perhitungan Kewajiban Penyediaan Modal Minimum (KPMM) menggunakan Metode Standar secara bulanan;
- Pengukuran Risiko Pasar suku bunga pada banking book dengan menggunakan Perhitungan IRRBB (Interest Rate Risk In Banking Book) yang sesuai dengan SEOJK No.12/SEOJK.03/2018 tentang Penerapan Manajemen Risiko dan Pengukuran Risiko Pendekatan Standar untuk Risiko Suku Bunga dalam Banking Book bagi Bank Umum. Risiko Suku Bunga dilihat berdasarkan perspektif yaitu Economic Value dan Earnings (NII);
- Pengukuran dan pelaporan secara periodik ke Regulator dalam pengelolaan risiko pasar yang mengacu kepada SEOJK No.14/SEOJK.03/2017 tentang Penilaian Tingkat Kesehatan Bank (PTKB);
- Pengukuran Potensi Keuntungan atau Kerugian (Valuasi) Portofolio Surat Berharga berdasarkan harga pasar sesuai dengan PSAK 68.
- Risiko nilai tukar
 Bank memiliki eksposur nilai tukar akibat adanya transaksi dalam mata uang asing dan volatilitas yang melekat pada opsi nilai

tukar.

Posisi Devisa Neto (PDN) Bank dihitung berdasarkan Peraturan Bank Indonesia yang berlaku. Sesuai dengan peraturan, Bank harus memenuhi ketentuan PDN keseluruhan (termasuk *Domestic Non Deliverable Forward/*DNDF) dan untuk laporan posisi keuangan setinggi-tingginya 20% dari jumlah modal.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

In the control of risk, the Bank is using internal working papers, tools and systems to monitor market indicator movements. The tools and systems enable the Bank to identify, measure, and monitor sensitivity of market risks on exchange rates and interest rates, both for trading book and banking book portfolios. Hence, risks that might arise can be mitigated and does not significantly affect the Bank's capital.

The Measurement of Market Risk includes:

- Measurement of Market Risk on the exchange rate in the trading book and banking book through the calculation of the Net Open Position (NOP) and Measurement of Market Risk Exchange rates and interest rates in the trading book are calculated by calculating the Minimum Capital Requirement (KPMM) using the Standard Method on a monthly basis:
- Measurement of market interest rate risk in the banking book by using the IRRBB (Interest Rate Risk in Banking Book) calculation in accordance with SEOJK No.12/SEOJK.03/2018 concerning the Implementation of Risk Management and Risk Measurement in a Standard Approach to Interest Rate Risk in the Banking Book for Commercial Banks. Interest Rate Risk is seen based on the perspective of Economic Value, and Earnings (NII);
- 3. Measurement and Reporting periodically to Regulator in market risk management which refer to SEOJK No.14/SEOJK.03/ 2017 about Risk Based Bank Rating;
- 4. Measurement Potential Profit or Loss (Valuation) portfolio of securities based on market price accordance with PSAK 68.
- i. Foreign exchange risk

The Bank is exposed to foreign exchange currency risk through transactions in foreign currencies and implied volatilities on foreign exchange options.

The Bank's Net Open Position (NOP) was calculated based on Bank Indonesia's prevailing regulations. In accordance with the regulations, the Banks are required to maintain its aggregate and statements of financial position NOP (include Domestic Non Deliverable Forward/DNDF) at the maximum 20% of its capital.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Posisi Devisa Neto (PDN) Bank dapat dilihat pada Catatan 41.

Bank telah memiliki Aplikasi Manajemen Risiko Pasar untuk mendukung proses Manajemen Risiko Pasar dalam rangka pengelolaan Risiko Pasar.

Proses pengendalian Risiko Pasar melalui penetapan dan kaji ulang limit Risiko Pasar dilakukan secara periodik. Limit-limit tersebut meliputi:

- a. Limit Risiko Pasar pada trading book
 - i. Limit Nominal Transaksi
 - ii. Limit Nominal Open Position
 - iii. Limit Counterparty
- b. Limit Risiko Pasar Nilai Tukar

Limit Posisi Devisa Neto (PDN) termasuk DNDF terhadap modal sebesar 5% untuk *risk appetite* dan 10% untuk *risk tolerance*.

Sensitivitas risiko pasar digunakan untuk menunjukkan seberapa besar modal yang dibutuhkan untuk meng-cover potential loss risiko pasar yang mungkin terjadi. Analisis sensitivitas Risiko Pasar yang dilakukan untuk mengukur dan mengawasi nilai tukar dan suku bunga pada portofolio *trading book*. Sensitivitas risiko pasar mencakup:

Excess modal Bank

Perhitungan excess modal Bank dilakukan dengan menghitung modal bank secara total dan menguranginya dengan 12,50% dari total ATMR (Kredit + Pasar + Operasional). Excess modal ini yang kemudian dibagi terhadap masing-masing risiko pasar nilai tukar dan suku bunga untuk melihat berapa besar kemampuan coverage modal Bank (diluar regulatory requirement) apabila terjadi kerugian sebesar risiko yang telah dihitung.

Tabel dibawah ini menunjukkan *excess* modal Bank (tidak diaudit):

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Bank's Net Open Position (NOP) can be seen in Note 41

The Bank has Market Risk Management Application to support the implementation of Market Risk Management process in order to manage market risk.

Market Risk limit as a part of risk controlling process is set and reviewed periodically. The Market Risk limits are as follows:

- a. Market Risk limits on trading book
 - i. Transaction Nominal Limit
 - ii. Open Position Nominal Limit
 - iii. Counterparty Limit
- b. The Market Risk limits for exchange rate:

Net Open Position (PDN) include DNDF Limit on capital of 5% for risk appetite and 10% for risk tolerance.

Sensitivity of market risk is used to indicate how much capital needed to cover the potential loss of market risk that may occur. It is done to measure and monitor exhange rate and interest rate on trading book portfolio. It consists of:

The Bank's excess capital

The calculation of the Bank's excess capital is conducted by calculating the Bank's total capital and reduce with 12.50% of the total risk weighted assets (RWA) (Credit + Market + Operational). This excess capital is then divided by the respective market exchange risk and interest rate risk to measure the Bank's capital-coverage-ability(exclude regulatory requirement) in the event of loss of the amount to the risk that has been calculated.

The table below shows the Bank's excess capital (unaudited):

		12,50%*Total		
	Total Modal/	ATMR/	Excess Modal/	
	Total Capital	12.50%*Total RWA	Excess Capital	
2023 - Desember	21,629,212	10,332,641	11,296,571	2023 - December

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Sensitivitas Risiko Pasar Nilai Tukar Sensitivitas risiko nilai tukar dihitung dengan menggunakan rasio excess modal Bank terhadap risiko nilai tukar melalui PDN Bank.

> Tabel dibawah ini menunjukkan sensitivitas risiko pasar nilai tukar Bank (tidak diaudit):

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Sensitivity of Market Risk in Interest Rate
Sensitivity of exchange rate risk is
calculated using the Bank's excess capital
ratio against exchange rate risk through
NOP Bank.

The table below shows the Bank's sensitivity of market risk in exhange rate (unaudited):

			Sensitivitas Risiko
	Excess		Nilai Tukar/
	Modal/		Sensitivity of
	Excess	PDN/	Market Risk in
	Capital	NOP	Exchange Rate
2023 - Desember	11,296,571	161,471	12,918

Simulasi penguatan dan pelemahan nilai tukar USD/IDR sebesar 100bps pada posisi 31 Desember 2023 adalah sebagai berikut (tidak diaudit):

The simulation of strengthening and weakening USD/IDR exchange rate by 100bps at December 31, 2023 is as follows (unaudited):

2023 - December

Periode Akhir Bulan Desember 2023/

		Of December 2020 I cit	ou	
		Kurs USD/IDR		
Total PDN	15,397	15397 + 100bps	15397 - 100bps	Total NOP
Rupiah Indonesia IDR	161,471	162,519	160,422	IDR Indonesia Rupiah

ii. Risiko Tingkat Suku Bunga

Risiko suku bunga adalah risiko yang timbul pada posisi keuangan (neraca dan rekening administratif) akibat dari perubahan suku bunga. Risiko suku bunga ini meliputi repricing risk (repricing mismatch antara komponen aset dan liabilitas), basis risk (penggunaan suku bunga acuan yang berbeda), yield curve risk (perubahan bentuk dan slope yield curve) dan option risk (pelunasan kredit atau pencairan deposito sebelum jatuh waktu).

Sensitivitas risiko suku bunga pada *trading* book yang dihitung dengan menggunakan rasio excess modal Bank terhadap risiko suku bunga (umum dan spesifik).

ii. Interest Rate Risk

Interest rate risk is the risk that arises in financial position (balance sheet and administrative account) as a result of changes in interest rates. This interest rate risk includes repricing risk (repricing mismatch between asset and liability components), basis risk (use of different reference interest rates), yield curve risk (changes in shape and slope yield curve) and option risk (repayment of credit or disbursement of deposits before due date).

Sensitivity of interest rate risk in trading book is calculated using the Bank's excess capital ratio against interest rate risk (general and specific).

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Tabel di bawah ini menunjukkan sensitivitas risiko pasar suku bunga Bank: (tidak diaudit)

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

2023 - December

The table below shows the Bank's sensitivity of market risk in interest rate: (unaudited)

Periode Akhir Bulan Desember 2023/

	End of	Period	
	•		Sensitivitas Risiko
			Suku Bunga/
	Excess Modal/	Risiko Suku Bunga/	Sensitivity of Market
	Excess Capital	Interest Rate Risk	Risk in Interest Rate
2023 - Desember	11,296,571	94,437	120

Sensitivitas risiko suku bunga pada banking book menggunakan pendekatan IRRBB (Interest Rate Risk in Banking Book) yang mengacu kepada SEOJK No.12/SEOJK.03/2018 tentang Penerapan Manajemen Risiko dan Pengukuran Risiko Pendekatan Standar untuk Risiko Suku Bunga dalam Banking Book bagi Bank Umum.

Berdasarkan regulasi OJK tersebut, Bank menerapkan 6 (enam) jenis skenario *shock* suku bunga untuk perhitungan kerugian maksimum dari Nilai Ekonomi dari Ekuitas (Economic Value of Equity atau EVE) terhadap modal Tier-1 pada IRRBB, yaitu Parallel Up, Parallel Down, Steepener, Flattener, Short Rates Up, dan Short Rates Down. Sedangkan untuk perhitungan kerugian maksimum Pendapatan Bunga Neto (Net Interest Income atau NII) terhadap target laba pada menggunakan 2 (dua) skenario shock, yaitu Parallel Up dan Parallel Down. Pada masing-masing perhitungan, baik ΔEVE terhadap modal Tier-1 maupun ∆NII terhadap target laba, skenario yang digunakan sebagai nilai kerugian maksimum adalah skenario yang memberikan nilai kerugian tertinggi. Eksposur **IRRBB** berdasarkan terhadap Target Laba 16,56% untuk posisi 31 Desember 2023. Tingkat rasio ΔNII tersebut berada didalam threshold Bank 15%-20% dari Target Laba atau berada pada peringkat risiko Low to Moderate. Sedangkan eksposur IRRBB berdasarkan ΔEVE terhadap Modal 21,69% untuk posisi 31 Desember 2023. Tingkat rasio ΔEVE tersebut berada pada threshold Bank >20% dari modal *Tier*-1 atau berada pada peringkat risiko High, yang menunjukkan bahwa struktur aset dan liabilitas Bank sensitif terhadap perubahan suku bunga

pasar.

Sensitivity of interest rate risk in banking book using IRRBB approach (Interest Rate Risk in Banking Book) which refers to SEOJK No.12/SEOJK.03/2018 concerning the Implementation of Risk Management and Risk Measurement Standard Approach to Interest Rate Risk in the Banking Book for Commercial Banks.

Based on the OJK regulations, the Bank applies 6 (six) types of interest rate shock scenarios to calculate maximum loss from Economic Values of Equity (EVE) to capital Tier-1 on IRRBB, namely Parallel Up, Parallel Down, Steepener, Flattener, Short Rates Up, and Short Rates Down. As for the calculation maximum loss of Net Interest Income (NII) to projection income on IRRBB uses 2 (two) shock scenarios. namely Parallel Up and Parallel Down. In each calculation, both changes in ∆EVE to capital Tier-1 as well as ∆NII to projection income, the scenario used as the maximum loss value is the scenario that provides the highest loss. The IRRBB exposure based on \(\Delta NII \) to projection income is at 16,56% on December 31, 2023. The level of the $\triangle NII$ ratio within the Bank's threshold of 15%-20% of the Projection Income or is at a Low to Moderate risk rating. Meanwhile, IRRBB exposure based on $\triangle EVE$ to Capital is 21,69% for the position of December 31, 2023. The level of the $\triangle EVE$ ratio is at the Bank's threshold >20% of Tier-1 capital or is at a High risk rating, which indicates that the structure of assets and liabilities Banks are sensitive to changes in market interest rates.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Tabel berikut ini menyajikan portofolio banking book pada nilai tercatatnya (sebelum cadangan kerugian penurunan nilai), yang dikategorikan berdasarkan mana yang lebih awal antara tanggal repricing atau tanggal jatuh tempo kontraktual:

Bank melakukan pengukuran dan pelaporan risiko pasar secara periodik ke Regulator dalam mengelola risiko pasar yang mengacu kepada SEOJK No.14/SEOJK.03/2017 tentang Penilaian Tingkat Kesehatan Bank (PTKB) dengan menggunakan pendekatan risiko (*Riskbased Bank Ratingl* RBBR) yang terdiri dari 2 bagian, yaitu:

- 1. Risiko Inheren
 - a. Volume dan Komposisi Portofolio
 - b. Kerugian Potensial Risiko Suku Bunga dalam *Banking Book* (IRRBB)
 - c. Strategi dan Kebijakan Bisnis
 - Strategi Trading
 - Strategi Bisnis terkait Suku Bunga pada *banking book*

The Bank conduct measurement and reporting periodically to Regulator in managing market risk based on SEOJK No.14/SEOJK.03/2017 about the market risk parameters in Bank Soundness Assessment (BSA) using risk approach (Risk-based Bank Rating/RBBR), consisting of 2 parts:

- 1. Inherent Risk
 - a. Volume and Composition Portfolio
 - b. Potential loss Interest Rate Risk in Banking Book IRRBB)
 - c. Strategies and Business Policies
 - Trading Strategies
 - Business strategies on Interest Rate in Banking Book

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- 2. Kualitas Penerapan Manajemen Risiko
 - a. Tata kelola risiko
 - b. Kerangka manajemen risiko
 - Proses manajemen risiko, sistem informasi dan sumber daya manusia
 - d. Sistem pengendalian risiko

e. Risiko Likuiditas

Risiko likuiditas adalah risiko yang disebabkan oleh ketidakmampuan Bank dalam memenuhi kewajiban yang telah jatuh tempo dan menutup posisi di pasar. Risiko likuiditas merupakan risiko yang terpenting pada bank umum dan perlu dikelola secara berkesinambungan.

Selain itu, pengelolaan aset dan liabilitas Bank dilakukan melalui rapat ALCO yang dilaksanakan setiap 1 (satu) bulan sekali. Pembahasan difokuskan pada penyelarasan strategi jangka pendek dan jangka panjang Bank dengan kondisi perekonomian nasional, terutama penyesuaian kondisi likuiditas Bank.

Bank juga menyusun kebijakan pengelolaan risiko likuiditas yang memaparkan tanggung jawab, pengelolaan dan pendekatan strategis yang diambil untuk menjamin ketersediaan likuiditas yang cukup untuk memenuhi kewajiban bank secara kontraktual maupun yang disyaratkan oleh regulator.

itu, dengan telah dikeluarkannya Peraturan Otoritas Jasa Keuangan No. 42/ POJK.03/2015 tanggal 23 Desember 2015 tentang Kewajiban Pemenuhan Rasio Kecukupan Likuiditas (Liquidity Coverage Ratio) Bagi Bank Umum dan Peraturan Otoritas Jasa Keuangan No.32/POJK.03/2016 tentang Perubahan atas Peraturan Otoritas Jasa No.6/POJK.03/2015 Keuangan tentang Transparansi dan Publikasi Laporan Bank. Bank telah menyampaikan laporan LCR individual secara bulanan ke Otoritas Jasa Keuangan dan mempublikasikan laporan LCR triwulanan individual pada situs web Bank. LCR Bank (individual) selalu terjaga di atas batas minimum LCR sebesar 100%. rasio Berdasarkan perhitungan, LCR rata-rata harian pada posisi 31 Desember 2023 sebesar 145,78% triwulanan dan LCR posisi 31 Desember 2023 sebesar 153,58%.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- 2. Risk Management Quality
 - a. Risk governance
 - b. Risk management framework
 - c. Risk management process, information systems and human resources
 - d. Risk control system

e. Liquidity Risk

Liquidity risk is the risk caused by the Bank's inability to meet its obligation associated with financial liabilities at due date and cover position created from market. Liquidity risk is the most important risk for commercial bank and as such needs to be managed on an ongoing basis.

Moreover, monitoring over the Bank's assets and liabilities is addressed through ALCO meeting held once in every month. The meeting focuses on aligning short-term and long-term strategy of the Bank with national economic conditions, especially the adjustments to the Bank's liquidity conditions.

The Bank's also developed liquidity management policy defines the responsibilities, management and strategic approach to be taken to ensure that sufficient liquidity is maintained to meet the Bank's contractual or regulatory obligations.

Furthermore, with the issuance of Regulation of the Financial Services Authority No.42/ POJK.03/2015 dated December 23, 2015 concerning the Obligation of Liquidity Coverage Ratio for Commercial Banks and the Regulation of the Financial Services Authority No.32/POJK.03/2016 concerning Amendment to the Rules of the Financial Services Authority No.6/POJK.03/ 2015 on Transparency and Publication of Bank Reports. The Bank has submitted LCR (individual) reports on a monthly basis to the Financial Services Authority and publishes quarterly LCR reports (individual) on the Bank's website. Based on the calculation, the Bank's LCR (individually) shall always be maintained above the minimum LCR ratio that is 100%. Based on the calculation, the average daily LCR December 31, 2023 amounted to 145,78%, respectively and quarterly LCR at December 31, 2023 amounted to 153.58%.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Terkait dengan POJK Nomor 50/POJK.03/2017 tentang Kewajiban Pemenuhan Rasio Pendanaan Stabil Bersih (*Net Stable Funding Ratio*) Bagi Bank Umum, Bank menyampaikan laporan NSFR secara triwulanan (individual) ke Otoritas Jasa Keuangan dan mempublikasikan laporan NSFR triwulanan (individual) pada situs *web* Bank. Berdasarkan perhitungan, NSFR Bank pada tanggal 31 Desember 2023 sebesar 116,30%, berada diatas minimum NSFR yaitu 100%.

Eksposur terhadap risiko likuiditas

Bank bergantung pada simpanan dari nasabah dan simpanan dari bank lain sebagai sumber pendanaan utama yang memiliki masa jatuh tempo yang pendek dan sebagian besar dapat ditarik sewaktu-waktu. Pendanaan dengan jangka waktu yang pendek tersebut meningkatkan risiko likuiditas Bank, oleh karena itu, Bank secara aktif mengelola risiko tersebut dengan memberikan tingkat suku bunga yang bersaing dan secara terusmenerus memantau pergerakan pasar.

Adapun pemantauan risiko likuiditas tersebut antara lain: Pemantauan Giro Wajib Minimum (GWM), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), Aset Likuid terhadap Non Core Deposit (AL/NCD), Aset Likuid terhadap Dana Pihak Ketiga (AL/DPK), Rasio Intermediasi Makroprudensial (RIM), Proyeksi Arus Kas (cashflow), dan Contingency Funding Plan (CFP). Pemantauan rasio tersebut dilaporkan secara rutin kepada pihak manajemen dan regulator.

Bank juga melakukan pengukuran dan pelaporan secara periodik ke Bank Indonesia mengenai pengelolaan risiko likuiditas mengacu kepada parameter risiko likuiditas dalam Penilaian Tingkat Kesehatan Bank (PTKB) dengan menggunakan pendekatan risiko (*Risk-based Bank Rating*/RBBR) yang terdiri dari 2 bagian, yaitu:

1. Risiko Inheren

- a. Komposisi dari aset, liabilitas, dan transaksi rekening administratif.
- b. Konsentrasi dari aset dan liabilitas.
- c. Kerentanan pada kebutuhan pendanaan.
- d. Akses pada sumber-sumber pendanaan.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Related with the regulation of the Financial Services Authority No.50/POJK.03/2017 concerning the Obligation of Net Stable Funding Ratio for Commercial Banks, the Bank has submitted NSFR report on quarterly (individual) to Financial Services Authority and published NSFR report to Bank's website. Based on the calculation, the Bank's NSFR (individually) as of December 31, 2023 amounted to 116.30%, respectively which is above the minimum NSFR that is 100%.

Exposure to liquidity risk

The Bank relies on deposits from customers and deposits from other banks as its primary sources of funding which generally have shorter maturities and a large proportion of them are repayable on demand. The short-term nature of these deposits increases the Bank's liquidity risk, therefore, the Bank actively manages this risk through maintaining competitive pricing and constant monitoring of market trends.

The monitoring of liquidity risk includes: Monitoring of Statutory Reserves (GWM), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), Liquid Assets to Non Core Deposits (AL/NCD), Liquid Assets to Third Party Funds (AL/DPK), Macroprudential Intermediation Ratio (RIM), Cash Flow Projection, and Contingency Funding Plan (CFP). Monitoring of this ratio is reported regularly to management and regulators.

The Bank also conducts measurement and reporting to the Bank Indonesia periodically on liquidity risk management based on liquidity risk parameters Bank Soundness Assessment (BSA) using risk approach (Risk-based Bank Ratings/RBBR) which consists of 2 parts:

1. Inherent Risk

- a. Composition of assets, liabilities, and administrative account transactions.
- b. Concentration of assets and liabilities.
- c. Vulnerability of funding needs.
- d. Access to funding resources.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

- 2. Kualitas Penerapan Manajemen Risiko
 - a. Tata kelola risiko likuiditas.
 - b. Kerangka manajemen risiko likuiditas.
 - Proses manajemen risiko likuiditas, sistem informasi dan sumber daya manusia.
 - d. Sistem pengendalian risiko likuiditas.

Selain itu, Bank juga melakukan pengukuran dan mengelola Risiko Likuiditas seperti rasio aset likuid terhadap total simpanan dari nasabah. Pada akhir tahun 2023 dan 2022, rasio dari aset likuid dibandingkan dengan total simpanan dari nasabah yang dilaporkan masing-masing adalah sebesar 50,58% dan 55.51%.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

- 2. Risk Management Quality
 - a. Liquidity Risk governance.
 - b. Liquidity Risk management framework.
 - Liquidity Risk management process, information systems and human resources.
 - d. Liquidity Risk control system.

Furthermore, the Bank's also measure and managing liquidity risk such as the ratio of liquid assets to total funding from customers. As of the end of 2023 and 2022, the reported ratio of liquid assets to total funding from customers were 50.58% and 55.51%.

f. Risiko Operasional

senantiasa menyempurnakan implementasi manajemen risiko operasional dengan meningkatkan kesadaran para pegawai risiko serta menyempurnakan kebijakan dan prosedur untuk operasional bank. Berbagai upaya ini ditujukan untuk risiko inheren memitigasi dan terus meningkatkan sistem pengendalian khususnya terhadap risiko operasional. Bank terusmenerus meningkatkan kesadaran risiko seluruh pegawainya melalui berbagai media termasuk e-campaign, buletin dan sosialisasi secara langsung.

f. Operational Risk

The Bank constantly improves its operational risk management implementation by increasing employee's risk awareness and improving the policies and procedures for banking operations. These efforts are aimed to mitigate inherent risk as well as to improve control system particularly for the Bank's operational risks. Bank continuously increases risk awareness of its employees through various media including e- campaign, bulletins, and direct socialization.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Bank telah memiliki aplikasi Operational risk Web Links (OWL) pada menu Operational Risk Online Test (OPRIST) untuk menyelenggarakan tes online kepada pegawai kantor cabang serta sebagian pegawai kantor pusat. Tujuannya adalah untuk mengukur penguasaan dan pemahaman terhadap Kebijakan dan Prosedur serta Pengetahuan Produk. Pelaksanaan OPRIST dilakukan secara rutin.

OPRIST dapat dilakukan secara tematik, yakni materi tes difokuskan ke proses-proses operasional di kantor cabang, kantor regional, dan kantor pusat yang dianggap berisiko tinggi. Selain itu, Bank juga telah menyelenggarakan e-learning dengan modul Operational Risk Management sejak tahun 2018. E-learning Operational Risk Management tersebut diikuti ditujukan kepada oleh seluruh pegawai Bank.

Selain Menu OPRIST, pada aplikasi OWL juga terdapat menu dashboard untuk melakukan monitoring GL Kerugian Operasional Bank, dimana Bank Melakukan Monitoring dan analisis seluruh GL Kerugian Operasional setiap bulannya untuk memastikan pembukuan Kerugian Operasional yang dilakukan oleh Satuan telah sesuai Kerja dengan peruntukannya, membangun data Kerugian Operasional sebagai pendukung perhitungan ATMR Risiko Operasional dengan metode Standar Pendekatan diterapkan yang berdasarkan Surat Edaran OJK memberikan gambaran kepada Satuan Kerja terhadap Kerugian Operasional yang terjadi, untuk menjadi lesson learned.

Bank telah memiliki Kebijakan Business Continuity Management (BCM) yang secara komprehensif menangani berbagai gangguan/bencana akibat perbuatan manusia, sosial dan/atau alam, misalkan kebakaran, gempa bumi, banjir, demonstrasi, dan lain-lain. Kebijakan ini disusun untuk menjamin kegiatan operasional bisnis dan sumber daya kritikal Bank tetap dapat berfungsi walaupun terjadi gangguan/bencana atau membangun resiliensi (ketahanan) dan kemampuan untuk memberi respon secara efektif terhadap suatu kondisi bencana guna melindungi kepentingan para stakeholders, reputasi dan nama baik Bank.

Di dalam komponen BCM, Bank menyusun Continuity Plan guna memastikan kelangsungan operasional perusahaan dalam menghadapi krisis. Pada dasarnya Continuity Plan ini dirancang sebagai posisi pencegahan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Bank has an application called Operational risk Web Links (OWL) for menu called Risk Online Test (OPRIST), to provide online test for branch's employees and also some of Head Office employees. Its purpose is to measure the employees' mastership and understanding towards the policy and procedure, and product knowledge. Bank regularly holds OPRIST.

OPRIST could be carried out thematically, i.e the exam materials are focused on high-risk operational processes in the branches. In addition, the Bank has conducted Operational Risk Management e-learning since 2018. All employees have to participate in the e-Learning.

In addition to the OPRIST Menu, the OWL application has a Dashboard menu to monitor the Bank's Operational Loss General Ledger. Bank Monitors and analysis The Operational Losses General Ledger every month to ensure that the bookkeeping of Operational Losses carried out by the Work Unit is in accordance, building Loss data implementation Operations as an Operational Risk RWA calculations using the Standardized Approach method based on the OJK regulatory and provides an overview to the Work Unit of the Operational Losses that occur, to become a lesson learned.

The Bank has a Business Continuity Management (BCM) policy which comprehensively address various disorders/ disasters by man, social and/or nature, e.g. fire, earthquake, flood, demonstrations, and others. This policy was developed to ensure that business operations and the Bank's critical resource can still function despite the disruption/disaster or build resilience and the ability to respond effectively to a disaster situation in order to protect the interests of the stakeholders, reputation and the Bank's name.

In Business Continuity Management (BCM) component, the Bank arrange Continuity Plan to ensure the continuity of the company operational amidst crisis. Basically continuity plan designed as a preventive position, where

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

(preventif), dimana bencana dapat timbul sewaktu-waktu sehingga proses bisnis terhambat. Strategi *Continuity Plan* telah diuji dan berjalan dengan baik ketika menghadapi pandemi Covid-19, bencana sosial, dan bencana alam.

Untuk melengkapi hal di atas, Bank juga telah memiliki prosedur tanggap darurat terkait keselamatan jiwa pada kondisi krisis serta Disaster Recovery Center (DRC) sebagai Pusat Recovery Teknologi Informasi Bank apabila terjadi gangguan infrastruktur pada data center di Kantor Pusat. Guna memastikan kesiapan DRC, Bank menyelenggarakan uji coba secara periodik.

Bank mengembangkan Operational Risk Management System (ORMS) dalam rangka penyempurnaan tools yang telah ada. ORMS memiliki tiga modul yakni Risk Control Self Assessment (RCSA), Risk Event Database Risk (RED) dan Kev Indicator (KRI). Pengembangan ini akan dilakukan pada aplikasi Operational Risk Web Links (OWL).

RCSA digunakan untuk membantu *risk owner* dalam melakukan proses manajemen risiko operasional yang mencakup identifikasi dan pengukuran efektivitas kontrol risiko operasional secara prediktif. Sedangkan RED merupakan *tools* yang berfungsi sebagai *database* peristiwa risiko, yang digunakan untuk data pembelajaran Bank. Selanjutnya, KRI adalah alat bantu yang memberikan informasi secara dini mengenai gejala maupun risiko yang trennya menunjukkan peningkatan.

Selanjutnya, Komite Produk yang dibentuk telah dioptimalkan fungsinya, yakni selain mengidentifikasi dan memitigasi risiko yang melekat pada produk dan aktivitas baru, juga melakukan evaluasi terhadap kinerja produkproduk yang telah diluncurkan.

Guna memudahkan langkah-langkah mitigasi risiko produk oleh unit-unit kerja yang terkait, Bank telah menyusun pedoman pengelolaan risiko untuk produk-produk tertentu, antara lain bancassurance dan reksa dana.

Bank juga melakukan pengukuran dan pelaporan secara periodik ke Otoritas Jasa Keuangan mengenai pengelolaan risiko operasional mengacu kepada parameter risiko operasional dalam Penilaian Tingkat Kesehatan Bank (PTKB) dengan menggunakan pendekatan risiko (Risk-based Rating/RBBR) yang terdiri dari 2 bagian, yaitu:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

disaster may arise any time that makes business process stranded. Continuity Plan strategy have been tested and works well in this Covid-19 pandemic situation, on both social and natural disasters.

On the other hand, Bank also has emergency procedure related to life safety in the condition of crisis and Disaster Recovery Center (DRC) as the Bank IT Recovery Center to assure the continuity of the Bank's operations if the infrastructure of the data center at Head Office is disrupted. To ensure DRC readiness, the Bank has been doing the periodically test.

Bank developed Operational Risk Management System (ORMS) in order to perfect the existing tools. ORMS has three modules, namely Risk Control Self Assessment (RCSA), Risk Event Database (RED) and Key Risk Indicator (KRI).

RCSA is used to help risk owner to manage operational risks which include independently identifying and measuring the effectiveness of operational risk control predictively. Meanwhile RED is a tool that functions as a risk events database, which is used for Bank's learning data. Furthermore KRI, a helping tool which gives earlier information regarding symptoms and risks which have inclining trend.

In addition, the Bank had optimized Product Committee's function to identify and mitigate risks which might be found in new products and services launched, and to evaluate performance of existing products.

In order to ease steps to mitigate product risks by related units, the Bank has developed risk management guidance for certain products, among others, bancassurance and mutual funds.

The Bank also conducts measurement and reporting to the Financial Services Authority periodically on operational risk management based on operational risk parameters Bank Soundness Assessment (BSA) using risk approach (Risk-based Bank Ratings/RBBR) which consists of 2 parts:

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

1. Risiko Inheren

- Karakteristik dan Kompleksitas Bisnis
- Sumber Daya Manusia
- Teknologi dan Infrastruktur Pendukung
- Fraud
- Kejadian Eksternal

2. Kualitas Penerapan Manajemen Risiko

- Tata Kelola Risiko
- Kerangka Manajemen Risiko
- Proses Manajemen Risiko, Sistem Informasi, dan SDM
- Sistem Pengendalian Risiko

Disisi lain, untuk pengukuran risiko yang terkait dengan perhitungan Aset Tertimbang Menurut Risiko (ATMR) atas Risiko Operasional, Mulai triwulan pertama 2023 Bank menggunakan Pendekatan Standar sesuai SEOJK No. 6/SEOJK.03/2020 yang sudah dilakukan uji coba laporan sebanyak 2 kali di tahun 2021 dan 2022 untuk perhitungan ATMR Risiko Operasional dengan menggunakan metode baru.

Sementara itu, Bank juga memperkuat pengendalian internal melalui forum pengendalian internal dengan melakukan rapat membahas isu-isu rutin untuk Risiko Operasional yang material agar risiko-risiko tersebut dapat dikendalikan secara dini.

Sebagai bentuk pengawasan aktif Direksi atas implementasi Kualitas Penerapan Manajemen Risiko Operasional, Bank telah menyelenggarakan *Operational Risk Governance Meeting* di tingkat Bank yang tujuan utamanya adalah untuk mengidentifikasi dan mengelola risiko utama Bank. Hasil *Governance Meeting* ini dimonitor secara berkala.

g. Risiko TI dan Siber

Bank telah memiliki Kebijakan Manajemen Risiko Teknologi Informasi dan Siber dan juga Kebijakan Ketahanan dan Keamanan Siber sesuai dengan regulasi terbaru yang dapat digunakan sebagai acuan dalam melakukan penerapan manajemen risiko terhadap penggunaan Layanan Teknologi Informasi di dalam lingkungan Bank.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

1. Inherent Risk

- Characteristic and Complexity of Business
- Human Resources
- Technology and Supporting Infrastructure
- Fraud
- External Event

2. Risk Management Quality

- Risk Governance
- Risk Management Framework
- Risk Management Process, Information System, and Human Resources
- Risk Control System

On the other hand, for the measurement of risk related to the calculation of Risk-Weighted Assets (RWA) for Operational Risk, Starting in the first quarter of 2023 Bank uses the Standardized Approach in accordance with SEOJK Regulation No. 6/SEOJK.03/2020. The Bank has conducted 2 trial reports for the calculation of RWA for Operational Risk using the new method in 2021 and 2022.

Meanwhile, Bank also strenghten the internal control through the forum with routine meetings to discuss operational risk material issues so it can be controlled early.

As a form of active supervision by the Board of Directors on the implementation Quality of Operational Risk Management, the Bank has held Operational Risk Governance Meetings at the Bank level with the main objective of identifying and managing the Bank's key risks. The results of the Governance Meeting are monitored regularly.

g. IT and Cyber Risk

Bank has an Information Technology Risk Management Policy and also in Cyber Security and Resilience Policy in accordance with the latest regulations which can be used as a reference in implementing risk management for the use of Information Technology Services within the Bank.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Selain itu, Bank telah melakukan pengkajian risiko dan memastikan kontrol yang efektif dalam sistem pengendalian internal yang memadai untuk meminimalisir risiko inheren dan residual serta dampaknya dalam pengelolaan dan penggunaan Layanan Teknologi Informasi.

Bank, melalui divisi *IT and Cyber Risk Management*, sebagai fungsi pertahanan lini kedua, menjalankan fungsi konsultasi dan komunikasi dengan unit bisnis dan atau *unit support* yang ada di dalam *first line of defense* terkait dengan pengelolaan risiko penggunaan Layanan Teknologi Informasi.

Sebagai upaya Bank di dalam mengelola risiko keamanan dan informasi secara tepat dan efektif, Bank telah menerapkan dan mendapatkan sertifikasi standar internasional ISO 27001:2013 tentang Sistem Manajemen Keamanan Informasi (SMKI). Dalam ISO 27001, Bank dipersyaratkan untuk selalu membangun, menerapkan, memelihara serta terus meningkatkan sistem manajemen keamanan informasi sesuai cakupannya.

Bank juga membangun kesadaran sehubungan Manajemen Risiko Teknologi Informasi dan Siber bagi seluruh karyawan yang mencakup, Risiko Teknologi dan Keamanan Informasi termasuk Risiko Siber melalui berbagai media komunikasi, antara lain: e-learning, mail blast, wallpaper PC/laptop. buletin Informasi Teknologi Risk dan Ketahanan (INTERAKSI), dan pelatihan online terkait ISO 27001.

Bank juga telah melakukan pengujian siber berdasarkan keamanan analisis kerentanan untuk melihat titik lemah dari sistem Bank, yaitu dengan pelaksanaan vulnerability assesment yang dilanjutkan dengan penetration testing.

Bank juga melakukan pengujian keamanan siber berdasarkan skenario untuk memvalidasi proses penanggulangan dari potensi ancaman siber dan pemulihan terhadap adanya potensi insiden siber, yaitu dengan melakukan Table-Top Exercise untuk menilai kesiapan Bank dalam merespons insiden siber dan Social Engineering Exercise yang berupa simulasi Email phishing kepada seluruh karyawan Bank dan juga Dumpster Diving Exercise kepada unit kerja yang memproses data transaksional nasabah.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

In addition, the Bank has conducted a risk assessment and ensured effective controls in an adequate internal control system to minimize inherent and residual risks and their impact in the management and use of Information Technology Services.

Bank through the IT and Cyber Risk Management division, as a second line of defence, conduct advisory and communication functions with business units and or support units in first line of defense related to risk management in the use of Information Technology Services.

As part of the Bank's efforts to manage security and information risks appropriately and effectively, the Bank has adopted and acquired ISO 27001:2013 international standard certification for Information Security Management Systems (ISMS). According to ISO 27001, Banks are required to develop, implement, maintain and continuously improve information security management systems based on their scope.

Bank also raise Information Technology and Cyber Risk Management awareness for all employees which includes Information Technology and Security Risk including Cyber Risk via various communication media, such as e-learning, e-mail blast, desktop wallpaper for PCs/laptops, Informasi Teknologi Risk dan Ketahanan Siber (INTERAKSI) bulletin, and online training for ISO 27001.

Bank also conducted cybersecurity testing based on vulnerability analysis to identify the the Bank's system's weaknesses, namely by conduct a vulnerability assessment followed by penetration testing.

Bank also carried out cyber security testing based on scenarios to validate the countermeasures process for potential cyber threats and recovery against potential cyber incidents, specifically by performing conducting a Table-Top Exercise to assess the Bank's preparedness in responding to cyber incidents and a Social Engineering Exercise in the form of a phishing Email simulation to all Bank employees and also the Dumpster Diving Exercise to working units that proceed customer's transactional data.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Untuk meningkatkan keamanan dan kerahasiaan data Nasabah, Bank saat ini telah melakukan penilaian terhadap kebijakan *clear desk* dan *clear screen*. Setiap karyawan diwajibkan untuk bertanggung jawab dalam menjaga kebersihan area kerja, menyimpan dokumen rahasia di tempat yang aman, dan mematikan layar komputer ketika tidak digunakan. Tujuan dari langkah ini adalah untuk mengurangi potensi risiko seperti kehilangan dokumen rahasia dan akses yang tidak sah.

Dalam Penilaian Tingkat Kesehatan Bank (PTKB), Bank telah menambahkan aspek risiko siber sebagai bagian dari profil risiko operasional terkait penggunaan Teknologi Informasi (TI). Aspek tersebut mencakup penggunaan antivirus yang ter-update, frekuensi serangan siber, dan dampak insiden siber. Langkah ini akan membantu Bank dalam melakukan pemantauan terhadap kerentanan sistem TI terhadap ancaman dan serangan siber.

46. Manajemen Modal dan Rasio Kewajiban Penyediaan Modal Minimum

Dalam pengelolaan modal, Bank diwajibkan untuk menjaga dan menguatkan posisi modal yang mendukung pertumbuhan bisnis serta menjaga kepercayaan investor, deposan, pelanggan, dan pasar sebagaimana tercermin dari implementasi POJK No.11/POJK/03/2016 tentang Kewajiban Penyediaan Modal Minimum untuk Bank Umum sebagaimana diubah terakhir kali melalui POJK No. 27 tahun 2022. Bank telah memperhitungkan peraturan ini dalam mengevaluasi dan mengelola kecukupan Implementasi Bank modalnva. terhadap peraturan ini menjadi bukti komitmen Bank untuk menjaga struktur modal yang kuat dan tangguh, sesuai dengan persyaratan regulasi dan praktik terbaik industri.

Berdasarkan POJK No.11/POJK/03/2016 tentang Kewajiban Penyediaan Modal Minimum untuk Bank Umum sebagaimana diubah terakhir kali melalui POJK No. 27 tahun 2022, Bank membagi modal menjadi 2 (dua) bagian yang terdiri atas:

- 1. Modal *Tier* 1 yang meliputi modal inti utama (*Common Equity Tier* 1) dan modal inti tambahan (*Additional Tier* 1).
- 2. Modal Tier 2.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

To enhance the security and confidentiality of customer data, Bank Mega has conducted an assessment of the clear desk and clear screen policy, requiring all employees to be responsible for maintaining a clean work area, securely storing confidential documents, and turning off computer screens when not in use. This initiative aims to reduce potential risks such as the loss of confidential documents and unauthorized access.

In Risk-Based Bank Rating, the Bank has included cybersecurity risks as part of the operational risk profile associated with the use of Information Technology (IT). These aspects encompass the utilization of up-to-date antivirus software, the frequency of cyberattacks, and the impact of cyber incidents. This measurement will assist the Bank in monitoring the vulnerability of the IT systems to threats and cyber-attacks.

46. Capital Management And Minimum Required Capital Adequacy Ratio (CAR)

In capital management, the Bank is required to maintain and strengthen the capital position that supports business growth and maintains the confidence of investors, depositors, customers and the market as reflected in the implementation of POJK No.11/POJK/03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks as latest amended with POJK No. 27 year 2022. The Bank has taken into account on this regulation evaluating and managing its capital adequacy. The Bank's implementation of this regulation is proof of the Bank's commitment to maintain a strong and resilient capital structure, in accordance with regulatory requirements and industry best practices.

Based on POJK No.11/POJK/03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks as latest amended with POJK No. 27 year 2022, the Bank divides its capital into two parts:

- 1. Tier 1 capital which includes primary core capital (Common Equity Tier 1) and additional core capital (Additional Tier 1).
- 2. Tier 2 capital.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Dalam konteks perhitungan kecukupan modal, Bank diwajibkan untuk menghitung Aset Tertimbang Menurut Risiko (ATMR) untuk risiko Operasional, Pasar, dan Kredit sebagai komponen dalam perhitungan Kewajiban Penyediaan Modal Minimum (KPMM). Dalam rangka menghitung beban modal dan ATMR risiko operasional, Bank saat ini telah menerapkan metode *Standardized Approach* (SA) sesuai SEOJK No. 6/SEOJK.03/2020.

Selain itu, Bank juga telah melakukan Uji Coba sebanyak 2 kali untuk melakukan perhitungan beban modal risiko operasional dengan menggunakan *Standardized Approach* (SA) sesuai dengan ketentuan SEOJK Nomor 06/SEOJK/03/ 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko (ATMR) untuk Risiko Operasional dengan menggunakan Pendekatan Standar yang telah efektif diterapkan pada bulan Januari 2023.

Untuk perhitungan ATMR Risiko Pasar, Bank menggunakan Metode Standar (Standard Method) yang mengacu pada SEOJK tentang Pedoman No.38/SEOJK. 03/2016 Penggunaan Metode Standar Dalam Perhitungan Kewajiban Penyediaan Modal Umum Minimum Bank Dengan Memperhitungkan Risiko Pasar.

Kemudian dengan diterbitkannya SEOJK No.23/SEOJK.03/2022 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Pasar Bagi Bank Umum, maka bank harus menyusun Laporan Perhitungan ATMR Risiko dengan menggunakan pendekatan Pasar approach) standar (standardized pendekatan standar yang disederhanakan (simplified standardised approach). Bank juga akan menyampaikan uji coba Laporan Perhitungan ATMR Risiko Pasar untuk posisi akhir bulan Juni 2023, bulan September 2023, dan bulan Desember 2023. Selanjutnya, Laporan Perhitungan ATMR Risiko Pasar ini wajib disampaikan untuk pertama kali pada posisi akhir bulan Januari 2024 bagi bank secara individu dan posisi akhir bulan Maret 2024 bagi bank secara konsolidasi.

Dalam perhitungan ATMR Risiko Kredit, penyusunan dan perhitungan ATMR mengacu pada SEOJK No. 24/SEOJK.03/2021 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar yang telah mengadopsi Basel 3 *reform*.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

In the context of calculating capital adequacy, Bank is required to calculate Risk-Weighted Assets (RWA) for Operational, Market, and Credit risks as a component in the calculation of Capital Adequacy Ration (CAR). In order to calculate the capital charge and RWA for operational risk, Bank currently applies the Standar Approach (SA) in accordance with SEOJK No. 6/SEOJK.03/2020.

Furthermore, Bank has also conducted 2 trial runs for the calculation of operational risk capital charge using the Standardized Approach (SA) in accordance with the provisions of SEOJK No. 06/ SEOJK/03/2020 on the Calculation of Risk- Weighted Assets (RWA) for Operational Risk using the Standardized Approach, which has been effective in January 2023.

For the calculation of RWA for market risk, Bank uses the Standard Method, which refers to SEOJK No.38/SEOJK.03/2016 on the Guidelines for the Use of the Standard Method in the Calculation of Minimum Capital Requirements for Commercial Banks with Consideration of Market Risk.

With the issuance of SEOJK No.23/SEOJK. 03/2022 on the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks. the Bank then must prepare a Report on the Calculation of RWA for Market Risk using the simplified standardized approach or a standardized approach. The Bank will also submit a trial run of the Report on the Calculation of RWA for Market Risk for the end of June 2023, September 2023, and December 2023 positions. Furthermore, this Report on the Calculation of RWA for Market Risk must be submitted for the first time at the end of January 2024 for individual banks and at the end of March 2024 for consolidated banks.

In the calculation of RWA for credit risk, the preparation and calculation of RWA refers to SEOJK No.24/SEOJK.03/2021 on the Calculation of Risk-Weighted Assets for Credit Risk using the Standardized Approach which has adopted Basel 3 reforms.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Kewajiban Bank dalam penyediaan modal minimum sesuai profil risiko sebagaimana diatur dalam POJK No.11/POJK/03/2016 tentang Kewajiban Penyediaan Modal Minimum untuk Bank Umum sebagaimana diubah terakhir kali melalui POJK No. 27 tahun 2022 adalah sebagai berikut:

- a. 8% dari ATMR untuk Bank dengan profil risiko peringkat 1;
- b. 9% s.d kurang dari 10% dari ATMR untuk Bank dengan profil risiko peringkat 2;
- c. 10% s.d kurang dari 11% dari ATMR untuk Bank dengan profil risiko peringkat 3;
- d. 11% s.d 14% dari ATMR untuk Bank dengan profil risiko peringkat 4 atau peringkat 5.

Pada tanggal 31 Desember 2023 dan 2022 rasio Kewajiban Penyediaan Modal Minimum (KPMM) Bank dihitung berdasarkan POJK No.11/POJK/03/2016 tentang Kewajiban Penyediaan Modal Minimum untuk Bank Umum sebagaimana diubah terakhir kali melalui POJK No. 27 tahun 2022 dengan perhitungan sebagai berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

The Bank's obligation in providing minimum capital according to risk profile as regulated in POJK No.11/POJK/03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks as latest amended with POJK No. 27 year 2022 is as follows:

- a. 8% of the RWA for Bank with a risk profile rating of 1;
- b. 9% until less than 10% of the RWA for bank with a risk profile rating of 2;
- c. 10% until less than 11% of the RWA for bank with a risk profile rating of 3;
- d. 11% until 14% of RWA for bank with risk profile ratings of 4 or 5.

As of December 31, 2023 and 2022, the ratio of Capital Adequacy Ratio (CAR) for the bank is calculated based on POJK No.11/POJK/03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks as latest amended with POJK No. 27 year 2022 with the following calculation:

	2023	2022	
Bank			Bank
Dengan memperhitungkan risiko			
kredit, rsiko pasar dan risiko operasional			With credit risk, market risk and operational risk
- Aset Tertimbang Menurut Risiko	82,661,131	80,952,690	Risk Weighted Average -
- Jumlah modal - Rasio Kewajiban Penyediaan	21,629,212	20,571,769	Total capital -
Modal Minimum	26.17%	25.41%	Capital Adequacy Ratio -

Berdasarkan POJK No.11/POJK/03/2016 tentang Kewajiban Penyediaan Modal Minimum untuk Bank Umum sebagaimana diubah terakhir kali melalui POJK No. 27 tahun 2022, Bank wajib membentuk tambahan modal sebagai penyangga (buffer), sebagai berikut:

- a. Capital Conservation Buffer adalah tambahan modal yang berfungsi sebagai penyangga (buffer) apabila terjadi kerugian pada periode krisis;
- b. Countercyclical Buffer adalah tambahan modal yang berfungsi untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan;
- c. Capital Surcharge untuk Domestic Systemically Important Bank (D-SIB) adalah tambahan modal yang berfungsi untuk mengurangi dampak negatif terhadap stabilitas sistem keuangan dan

Based on POJK No.11/POJK/03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks as latest amended with POJK No. 27 year 2022, the Bank is required to establish additional capital as a buffer, as follows:

- a. Capital Conservation Buffer is an additional capital which serves as a buffer in the event of a loss in the period of crisis;
- Countercyclical Buffer is an additional capital which serves to anticipated losses in the event of excessive credit growth and thus potentially disrupt the stability of the financial system;
- c. Capital Surcharge for Domestic Systemically Important Banks (D-SIB) is an additional capital which serves to reduce the negative impact on the stability of the financial system and economy in the

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> perekonomian apabila terjadi kegagalan bank yang berdampak sistemik melalui peningkatan kemampuan bank dalam menyerap kerugian.

Tambahan modal sebagai penyangga (*buffer*) yang wajib dibentuk oleh Bank adalah:

- a. Capital Conservation Buffer sebesar 2,5% dari ATMR.
- b. *Countercyclical Buffer* sebesar 0% (nol persen) sampai dengan 2,5% (dua koma lima persen) dari ATMR.
- c. Capital Surcharge untuk D-SIB sebesar 1% (satu persen) sampai dengan 2,5% (dua koma lima persen) dari ATMR Bank yang berdampak sistemik.

Pemenuhan modal sebagai penyangga (buffer) harus dipenuhi dengan menggunakan komponen modal inti utama (Common Equity Tier 1).

Bank telah memenuhi ketentuan Bank Indonesia yang berlaku tentang Kewajiban Penyediaan Modal Minimum dan Perhitungan Aset Tertimbang Menurut Risiko.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

event of bank failure which has systemic effect through an increase in the bank's ability to absorb losses.

Additional capital as a buffer which shall be established by the Bank are:

- Capital Conservation Buffer amounting to 2.5% of RWA.
- b. Countercyclical Buffer in the amount of 0% (zero percent) up to 2.5% (two point five percent) from RWA.
- c. Capital Surcharge for D-SIB in the amount of 1% (one percent) to 2.5% (two point five percent) from RWA of Banks with systemic impact.

Fulfillment of capital as a buffer should be met by using components of common equity Tier 1.

The Bank has fulfilled Bank Indonesia's regulation regarding Capital Adequacy Ratio and Calculation of Risk-Weighted Assets.

48. Analisis Kualitas Kredit

Pengukuran Kerugian Kredit Ekspektasian

Peningkatan Risiko Kredit secara Signifikan

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan terdukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisis kuantitatif dan kualitatif, berdasarkan pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan (forward-looking).

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

- *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
- Probability of default (PD) atas umur tersisa yang di estimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran dimuka).

Bank menggunakan kriteria berikut dalam menentukan apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi:

- Pengujian kuantitatif berdasarkan perubahan probability of default (PD)
- Indikator kualitatif
- · Tertunggak lebih dari 30 hari

Credit Risk Grades

Bank mengalokasikan setiap eksposur ke *credit risk grades* berdasarkan variasi data yang ditentukan untuk memprediksi risiko gagal bayar dan menerapkan pengalaman atas kredit. *Credit risk grades* ditetapkan menggunakan faktor kualitatif dan kuantitatif yang dapat mengindikasikan risiko gagal bayar. Faktor-faktor ini bervariasi tergantung pada sifat eksposur dan jenis peminjam.

Credit risk grades ditetapkan dan dikalibrasi sedemikian rupa sehingga risiko terjadinya gagal bayar meningkat secara eksponensial seiring dengan penurunan rating risiko kredit, sebagai contoh, selisih antara credit risk rating grades 1 dan 2 lebih kecil dari pada selisih antara credit risk rating grades 2 dan 3.

Measurement of Expected Credit Losses

Significant Increase in Credit Risk

Credit Quality Analysis

When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supported relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert assessments and including forward-looking estimates.

The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:

- Probability of default (PD) for the remaining age at the reporting date; with
- Probability of default (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for change in expectations of prepayment).

Bank use these criteria for determining whether there has been a significant increase in credit:

- Quantitative test based on movement in probability of default (PD)
- Qualitative indicators
- A backstop of 30 days past due

Credit Risk Grades

The Bank allocated each exposure to credit risk grades based on a variety of data that is determined to predict the risk of default and apply credit experience judgement. Credit risk grades are determined using qualitative and quantitative factors that can indicate the risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

Credit risk grades are determined and calibrated in such a way that the risk of default is increasing exponentially as credit risk rating decreases, for example, the difference between credit risk rating grades 1 and 2 is smaller than the difference between credit risk rating grades 2 and 3.

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Setiap eksposur dialokasikan ke *credit risk grades* pada pengakuan awal berdasarkan informasi yang tersedia tentang peminjam. Eksposur ini dipantau secara berkelanjutan, dan dapat mengakibatkan eksposur dipindahkan ke *credit risk grades* yang berbeda. Pemantauan menggunakan informasi tentang ketepatan pembayaran yang biasanya didukung data-data seperti laporan keuangan, penggunaan fasilitas kredit dan estimasi kondisi ekonomi.

Penentuan Struktur Probability of Default

Credit risk grades adalah input utama dalam penentuan struktur PD term structure atas eksposur. Bank mengumpulkan informasi kinerja dan gagal bayar tentang eksposur risiko kredit yang dianalisis berdasarkan jenis produk dan peminjam serta penilaian risiko kredit. Untuk beberapa portofolio terutama produk treasury, informasi yang dibeli dari penilai kredit eksternal juga digunakan.

Bank menggunakan model statistik untuk menganalisis data yang dikumpulkan dan menghasilkan perkiraan probability of default (PD) atas umur tersisa dan bagaimana hal ini diperkirakan akan berubah sebagai akibat dari berlalunya waktu.

Analisis ini mencakup identifikasi dan kalibrasi hubungan antara perubahan tingkat gagal bayar dan perubahan dalam faktor-faktor makro ekonomi utama pada risiko gagal bayar. Untuk sebagian besar eksposur, indikator makro ekonomi utama meliputi: pertumbuhan PDB, suku bunga acuan, dan tingkat pengangguran.

Penentuan Terjadinya Peningkatan Risiko Kredit secara Signifikan

Bank menggunakan sejumlah kriteria untuk menentukan telah terjadi peningkatan risiko kredit secara signifikan.

Kriteria tersebut ditetapkan menggunakan faktor kuantitatif dan kualitatif termasuk penentuan berdasarkan status hari tunggakan yang dapat mengindikasikan telah terjadi peningkatan risiko kredit yang signifikan terhadap saat awal diberikan.

Bank dimungkinkan menggunakan penilaian dari analis kredit dan pengalaman historis yang relevan, dalam menentukan bahwa eksposur mungkin saja telah mengalami peningkatan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Each exposure is allocated to credit risk grades at initial recognition based on available information about the borrower. This exposure is monitored on an ongoing basis, and may result in the exposure being moved to a different credit risk grade. Monitoring uses information about debtor payments which is usually supported by data such as financial reports, use of credit facilities and estimates of economic conditions.

Determination of the Probability of Default Structure

Credit risk grades are the main input in determining the PD term structure of the exposure. The Bank collects performance and default information about credit risk exposures, which are analyzed by product and borrower type as well as credit risk assessment. For some portfolios especially treasury products, information purchased from external credit assessors is also used.

The Bank uses a statistical model to analyze the collected data and produce an estimate of the probability of default (PD) for the remaining life and how this is expected to change as a result of the passage of time.

This analysis includes the identification and calibration of the relationship between changes in default rates and changes in key macroeconomic factors on the risk of default. For most exposures, the main macroeconomic indicators include: GDP growth, benchmark interest rates and the unemployment rate.

Determination of Significant Increase in Credit Risk

The Bank uses several criteria for determining that credit risk has increased significantly.

The criteria are determined using qualitative and quantitative factors including determination based on arrear day status that can indicate significant increase in credit risk since initial recognition.

The Bank can also use the judgment of credit analysts and, if possible, relevant historical experience, in determining that the exposure may have experienced a significant increase in

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

risiko kredit yang signifikan berdasarkan indikator kualitatif tertentu yang dianggap dapat mengindikasikan hal tersebut dimana pengaruhnya mungkin belum sepenuhnya tercermin pada saat dilakukan analisis kuantitatif.

Bank menentukan bahwa peningkatan risiko kredit secara signifikan belum terjadi apabila masih kurang dari 30 hari tunggakan. Hari tunggakan ditentukan dengan menghitung jumlah hari sejak tanggal jatuh tempo awal dimana pembayaran penuh belum diterima.

Bank memantau efektivitas kriteria yang digunakan dalam mengidentifikasi peningkatan risiko kredit yang signifikan dengan cara reviu berkala.

Modifikasi Aset Keuangan

Ketentuan kontraktual pinjaman dapat dimodifikasi untuk beberapa alasan, termasuk perubahan kondisi pasar, retensi pelanggan dan faktor-faktor lain yang tidak terkait dengan penurunan kredit saat ini. Pinjaman yang ketentuan kontraktualnya dimodifikasi dapat menyebabkan pinjaman awal dihentikan pengakuannya dan pinjaman hasil modifikasi diakui sebagai pinjaman baru pada nilai wajar.

Ketika ketentuan kontraktual pinjaman dimodifikasi dan tidak mengakibatkan penghentian pengakuan, penentuan terjadinya peningkatan risiko kredit secara signifikan dilakukan dengan cara membandingkan:

- Sisa PD sepanjang umur pada tanggal pelaporan berdasarkan ketentuan yang dimodifikasi; dengan
- Sisa PD sepanjang umur yang diestimasi berdasarkan data pada saat pengakuan awal dan ketentuan kontraktual awal.

Definisi Gagal Bayar (Default)

Bank menganggap aset keuangan dalam keadaan *default*/gagal bayar ketika:

 Debitur telah melewati jatuh tempo lebih dari 90 hari atas kewajiban kredit material apapun kepada Bank.

Dalam menilai apakah debitur dalam keadaan default/gagal bayar, Bank mempertimbangkan indikator berikut:

- Kualitatif seperti pelanggaran persyaratan penjanjian (*covenants*);
- Kuantitatif seperti status tunggakan; dan

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

credit risk based on certain qualitative indicators that are considered to indicate the effects may not be fully reflected in quantitative analysis.

The Bank determines that a significant increase in credit risk has not occurred if it is still less than 30 days in arrears. Arrear days are determined by counting the number of days from the initial due date where full payment has not been received.

The Bank monitors the effectiveness of the criteria used in identifying significant increases in credit risk by periodic review.

Modification of Financial Assets

Loan contractual terms can be modified for a number of reasons, including changes in market conditions, customer retention and other factors not related to the current credit decline. Loans with modified contractual terms can cause the initial loan to be derecognized and recognized the modified loan as a new loan at fair value.

When the contractual terms of the loan are modified and do not result in termination of recognition, determining the occurrence of a significant increase in credit risk is done by comparing:

- PD remainder life at reporting date based on modified provision; with
- Residual PD throughout the estimated age based on data at initial recognition and initial contractual provisions.

Definition of Failed Payment (Default)

The Bank considers financial assets as default when:

 The debtors have past due more than 90 days for any material credit obligations to the Bank.

In assessing whether a debtor is in default, the Bank considers the following indicators:

- Qualitative such as violations of the terms of the agreement (covenants);
- Quantitative such as arrears status; and

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

> Berdasarkan data yang dikembangkan secara internal dan diperoleh dari sumber eksternal.

> Input, Asumsi, dan Teknik yang digunakan dalam mengestimasi penurunan nilai.

Penggunaan informasi perkiraan masa depan (forward-looking)

Bank menggunakan informasi forward-looking dalam menilai apakah telah terjadinya peningkatan risiko kredit secara signifikan dan pengukuran kerugian kredit ekspektasian. Berdasarkan saran dari Komite Manajemen Risiko dan pertimbangan berbagai informasi aktual dan perkiraan eksternal. merumuskan pandangan dasar (base case) tentang pergerakan variabel ekonomi yang relevan dimasa depan serta perkiraan skenario lain yang mungkin terjadi. Proses ini meliputi pengembangan dua atau lebih skenario ekonomi tambahan dan mempertimbangkan probabilitas relatif dari keluaran (output) yang mungkin. Informasi eksternal mencakup data ekonomi dan perkiraan yang diterbitkan oleh, seperti badan pemerintah dan analis sektor swasta.

Pandangan dasar (base case) mencerminkan keluaran dengan probabilitas yang paling tinggi. Skenario yang lain, mencerminkan keluaran yang lebih optimis dan keluaran yang lebih pesimis.

Skenario ekonomi yang dirumuskan menggunakan kisaran indikator utama berikut:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Based on data developed internally and obtained from external sources.

Inputs, Assumptions, and Techniques used in estimating impairment.

Use of forward-looking information

The Bank uses forward-looking information in assessing whether there has been a significant increase in credit risk and measurement of expected credit losses. Based on advice from Risk Management Committee and the consideration of various actual information and external forecast, the Bank formulated a base case for the movement of relevant economic variables in future as well as forecasts of other possible scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of the possible outputs. External information includes economic data and estimateds published by, such as government agencies and selected private sector analysts.

The base case reflects the output with the highest probability. Another scenario, reflects more optimistic outputs and more pessimistic outputs.

The economic scenario is formulated using the following range of key indicators:

2023 2024

Tingkat pengangguran/Unemployment

Suku bunga/Interest rates

Inflasi/Inflaton rate

Brent Oil Price

Range between USD 75 to USD 95

Pengukuran Kerugian Kredit Ekspektasian

Input utama dalam pengukuran kerugian kredit ekspektasian adalah variabel berikut:

- Probability of default (PD)
- Loss of given default (LGD)
- Exposure at default (EAD)

Measurement of Expected Credit Loss

The main inputs in measuring expected credit loss are the following variables:

- Probability of default (PD)
- Loss of given default (LGD)
- Exposure at default (EAD)

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Parameter ini umumnya berasal dari model statistik yang dikembangkan secara internal dan data historis lainnya. Parameter ini disesuaikan untuk mencerminkan informasi forward-looking.

Estimasi PD adalah estimasi pada tanggal tertentu, yang dihitung berdasarkan model peringkat statistik, dan dinilai menggunakan rating yang disesuaikan dengan berbagai kategori dari debitur dan eksposur. Model statistik ini didasarkan pada data yang disusun secara internal yang terdiri dari faktor kuantitatif dan kualitatif.

LGD adalah besarnya kerugian jika terjadi gagal bayar. Parameter LGD diestimasi secara historis berdasarkan tingkat pemulihan atas klaim terhadap debitur yang gagal bayar. Model LGD mempertimbangkan jaminan dan biaya pemulihan setiap jaminan yang merupakan bagian integral dari aset keuangan.

EAD merepresentasikan estimasi eksposur jika terjadi gagal bayar. EAD suatu aset keuangan adalah jumlah tercatat bruto. Untuk komitmen pinjaman dan jaminan keuangan, EAD mencakup jumlah yang telah ditarik, serta jumlah potensial di masa depan yang akan ditarik, yang diestimasi berdasarkan pengamatan historis dan perkiraan berwawasan ke depan (forward-looking).

Ketika pemodelan parameter dilakukan secara kolektif, instrumen keuangan dikelompokkan berdasarkan kesamaan karakteristik risiko yang meliputi:

- · Jenis instrumen;
- Peringkat risiko kredit;
- Jenis agunan;
- Tanggal pengakuan awal;
- · Sisa waktu jatuh tempo.

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

These parameters generally come from statistical models that are developed internally and other historical data. This parameter is adjusted to reflect forward-looking information.

PD estimation is an estimate on a certain date, which is calculated based on a statistical ranking model, and is assessed using a rating that is adjusted to various categories of debtors and exposures. This statistical model is based on data compiled internally consisting of quantitative and qualitative factors.

LGD is the amount of loss if there is a default. LGD parameters are historically estimated based on the level of recovery of claims against debtors who default. The LGD model considers collateral and the cost of recovering any collateral that is an integral part of a financial asset.

EAD represents the estimated exposure in case of default. EAD of a financial asset is the gross carrying amount. For loan commitments and financial guarantees, EAD includes the amount that has been withdrawn, as well as potential future amounts to be withdrawn, which are estimated based on historical observations and forward-looking estimates.

When parameter modeling is done collectively, financial instruments are Banked according to the similarity of risk characteristics which include:

- Type of instrument;
- Credit risk rating;
- Type of collateral:
- Date of initial recognition;

Untuk Tahun-tahun yang Berakhir Pada Tanggal 31 Desember 2023 dan 2022 (Disajikan dalam Jutaan Rupiah, Kecuali Dinyatakan Lain)

Cadangan kerugian kredit untuk aset keuangan yang diklasifikasikan pada nilai wajar melalui penghasilan komprehensif lain tidak diakui pada laporan posisi keuangan karena nilai tercatat aset keuangan tersebut adalah nilai wajar.

b. Analisis risiko kredit berdasarkan *probability of default*:

PT BANK MEGA TBK NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Years Ended December 31, 2023 and 2022 (Expressed in Million Rupiah, Unless Otherwise Stated)

Allowance for credit losses for financial assets classified as fair value through other comprehensive income is not recognized in the statement of financial position because the carrying value of the financial assets is fair value.

b. Credit risk analysis based on probability of default:
